Section D, Item 5 – Narrative Description of Future Contributions and Withdrawal Liability Payments

Wage-based contributions to the Plan dropped starting in 2020 during the COVID-19 pandemic and have grown since then. As of calendar year ("CY") 2022, wage-based contribution income was 94% of CY 2019 wage-based contribution income. As explained below, future Plan-wide wage-based contributions are expected to approach CY 2019 levels – the Plan's high watermark -- by CY 2024 and pass it by 2025 and grow thereafter based on historical rate of wage-based contribution increases.

The Trustees amended the plan to change the plan year end from March 31 to December 31, which amendment was approved by the IRS. As a result of this plan amendment, there is a short plan year from April 1, 2022 to December 31, 2022. In the narrative below, the historical analysis of the change in wage-based contributions has been completed on the plan year ending March 31, 2019 and earlier, consistent with the logic in the PBGC assumptions guidance to exclude the COVID period. For purposes of projecting future contributions and withdrawal liability payments, the Plan uses calendar year 2022 contributions as the starting point for the projections. The use of 2022 calendar year wage-based contributions with adjustments described below reflects the current level of wage-based contributions and aligns with the change in plan year.

A. Overview

1. Trustees' Knowledge and Experience in the Music Industry

The Trustees have discussed the Plan's contribution assumption extensively at numerous Trustees meetings with respect to this application and otherwise and have engaged in detailed discussions each year regarding the industry activity assumption for actuarial zone certification purposes. They have evaluated the Plan's historical contribution experience, compiled by the Plan's financial department and its actuaries, and applied their knowledge about the music and entertainment industry, including past and expected industry revenue, musician compensation, and collective bargaining.

The Union Co-Chair of the Board of Trustees is the president of the American Federation of Musicians of the United States and Canada, AFL-CIO ("AFM") and is the chief negotiator for dozens of national musician collective bargaining agreements ("CBAs") that cover musicians performing in the sound recording, television, and movie industries. Union Trustees include the president and former president and the Secretary/Treasurer of the three largest AFM Locals ("Local") (New York, Los Angeles, and Chicago). These officials have extensive experience as the negotiators for Local CBAs, including those with orchestras, clubs, and other employers in their local areas.

Three other Union Trustees are rank-and-file orchestral musicians, who are active in the operations of the AFM at the national level and at their respective Locals. They participate in negotiations of Local CBAs, and in various national CBA negotiations. They also serve or have as elected and appointed representatives of various AFM-affiliated organizations that represent musicians, including, for example, as Secretary, President and Member-at-Large of the International Conference of Symphony and Opera Musicians ("ICSOM"), which represents the top 52 AFM orchestras in the nation.

The Employer Co-Chair of the Board is an executive at the national trade association for the Broadway industry and sits on the boards of trustees for 10 other local and national Taft-Hartley pension funds, as well as other benefit funds, in the entertainment industry. The Employer Trustees also include a senior recording industry executive and two film and television industry executives; two recent former executives at major symphony orchestras; an executive at the oldest professional theater company in the country, which currently owns and runs 17 Broadway Theaters and six Off- Broadway Theaters; and one retired executive from the film industry.

The Trustees' expertise and experience in these fields are particularly essential in accounting for the effect of the COVID-19 pandemic on contribution income in the near-term. The Trustees' projections and their rationale are described below in the Section titled "B. Contribution Projections."

2. Overview of Musician Compensation and Plan Contribution Income

Following is a description of musician compensation and Plan contribution income from the principal employer groups.

Plan revenue is divided into three categories: (1) wage-based contributions, (2) non-benefit-bearing, non-wage-based contributions from electronic media sources, such as music-streaming (referred to herein as "Digital Revenue"), and (3) other income, such as withdrawal liability payments and, in the years after the Plan's 2010 rehabilitation plan, employer surcharges (none have been received since the fiscal year ending ("FYE") March 31, 2014.

In general, wage-based contributions constitute income that is paid by employers based on a percentage of scale wages (or residuals) paid to musicians. The one significant exception is, as described in detail below, Broadway Theaters, which pay contributions based on a percentage of ticket revenue pursuant to a 1963 labor arbitration award involving most of the Broadway unions; these contributions are benefit-bearing like the wage-based contributions, and, in fact, are converted into wage-based contributions for purposes of benefit calculations.

Digital Revenue consists of contributions paid by employers as a percentage of employer revenue from streaming and other digital uses. Musicians do not earn pension benefits based on the contributions. Currently, the largest sources of these contributions, as described in detail below, are semi-annual payments from record companies from their world-wide music-streaming revenue and quarterly payments that are paid out of overall film and television musician residuals. (Not all revenue derived from digital income is non-benefit-bearing Digital Revenue. For instance, symphony orchestras that stream a live orchestra performance over the Internet pay contributions on wages paid for the use and reuse of a live performance recording, but since the wages are paid to particular musicians, the contributions to the Plan based on the reuse wages are benefit-bearing and are therefore considered wage-based contributions.)

Wage-based revenue declined dramatically starting in March 2020 due to the COVID-19 pandemic, although it has rebounded to a large extent. Certain industry segments declined more than others. Using their knowledge of each of the industry segments discussed below, as well as information they have obtained from the American Federation of Musicians ("AFM") and Locals (collectively, "Union") and other sources, the Trustees have projected wage-based contribution income through FYE 2025 in light of the COVID-19 pandemic and other expected developments. Their projections are quantified in Section B(2), below, titled "Wage-Based Revenue Growth Projections."

Wage-based revenue derives from contributions that are principally paid by the following groups of employers. The following table shows approximate percentages of total wage-based revenue for calendar years 2019 and 2022:

Employer group	2019	2022
(a) Symphony Orchestras	41%	46%
(b) Broadway Theaters	19	17
(c) Freelance and Single-Engagements	21	18
(d) Television and Motion Picture entities	9	10
(e) Sound Recording employers	4	3
(f) Commercials/Jingles	2	2
(g) AFM, Locals	4	4
Total	100%	100%

(a) Symphony Orchestras

Symphony orchestras, which contribute about 46% of total Plan wage-based revenue, include large metropolitan and regional symphony orchestras, such as the largest, world-renowned American symphony orchestras, as well as smaller regional orchestras and smaller ensembles, like chamber orchestras. Orchestras generally contribute pursuant to individual employer CBAs for their live work and pursuant to national agreements for electronic media work, as follows.

First, most symphony orchestras contribute a percentage of the wage as set forth in their CBA. The scale wage is either a weekly wage (for larger orchestras) or a per-service wage (for smaller regional orchestras) and in some cases includes overscale, doubling, and overtime pay.

Second, if an orchestra intends to record a performance for sale or license, it is also required to execute a separate recording CBA, typically the AFM's national Integrated Media Agreement ("IMA"). (Some orchestras contribute to the Plan only pursuant to the IMA and not their own CBA.) Pursuant to the IMA, musicians are paid in two ways. First, they are paid a flat amount based on the scale wage for the release of the recording (called the "upfront payment"). Second, they are paid a percentage of the orchestra's revenue from the sale or license of the recording (called the "musician's revenue share"). The orchestra pays a contribution to the Plan on the upfront payment and a contribution to the Plan based on the musician's revenue share. When an orchestra records in a non-live or "session" setting, musicians are compensated pursuant to the CBA that applies to the end-use, such as the AFM's Sound Recording Labor Agreement ("SRLA") if the recording is going to be released, or the AFM's Television CBA if the recording is going to be used on a television show. The payment could be made by either the orchestra or the end-user (e.g., record company or television producer).

(b) Broadway Theaters

Broadway Theaters, which contribute about 17% of total Plan wage-based revenue pursuant to the Broadway League and Disney Theatrical Productions CBA ("Broadway Theater CBA"), consist of more than 30 theaters in New York City, most of which in any given year employ musicians in their shows. Broadway Musicians are paid weekly scale wages for playing in the shows, plus they receive additional compensation for performing certain other duties, as set forth in the Broadway Theater CBA. Unlike other wage-based contributions, however, Broadway contributions are almost entirely based on ticket revenue, not a percentage of the musicians' wages. As explained below, however, the Plan considers the Broadway Theater contributions to be wage-based because musicians earn pension benefits based on a conversion of the contributions to a wage-based equivalent for benefit purposes.

Specifically, pursuant to a 1963 labor arbitration award issued by arbitrator Burton Turkus ("Turkus Award"), Broadway Theaters are required to remit a portion of their ticket revenue to an entity called the Tax Relief Fund. The Tax Relief Fund then allocates the ticket revenue to various New York City entertainment union benefit funds, including the Plan, based on a predetermined allocation stipulated in the Turkus Award, depending on the number of musicians in the show.

To calculate benefits for Broadway musicians, each quarter, the Plan calculates a contribution rate by dividing the contributions received from the Tax Relief Fund by the combined total scale wages paid to musicians (approximately 22% in the years before the pandemic). That percentage is used as a proxy for the Theaters' contribution rate. To calculate the contributions attributable to each individual musician for purposes of the Plan's benefit accrual formula, the Plan multiplies the musician's actual scale wages by a calculated contribution rate.

Broadway Theaters are required to contribute to the Plan based on a minimum contribution rate set forth in the agreement and the actual percentage of musicians' wages for the rehearsals and other work performed by the musicians prior to the show's opening and before a show generates ticket revenue subject to the Turkus Award.

Once the show opens, if the Plan's portion of the ticket revenue under the Turkus Award exceeds the amount the Theater contributed before the show opened, that pre-show amount is refunded to the Theater.

(c) Freelance and Single-Engagement

Freelance and Single-Engagement employers contribute about 18% of total Plan wage-based revenue. They include a wide variety of employers, signed to thousands of CBAs, and include the following: freelance engagements, theaters, Disneyland, traveling theater shows, and single engagements. Employers classified as freelance engagements include hotels and casinos. Theater employers include non-Broadway theaters in New York and around the country. Single-Engagement employers include private individuals and venues that engage musician(s) on a one-off basis for a single event, such as a wedding. These employers pay a scale wage to the musicians, generally per performance, although in some cases they pay a steady wage, and they contribute a percentage of that wage to the Plan.

(d) Television and Movies

Television and movie studio employers, which together contribute about 10% of total Plan wage-based revenue, consist of the country's major television networks, movie studios, and producers. They are generally bound, respectively, to the Basic Theatrical Motion Picture CBA ("Theatrical CBA"), the Basic Television Film CBA ("Basic TV CBA"), and the Television/Videotape ("Live TV CBA") (collectively, "TV/Theatrical CBAs"). As described below, the Basic TV and Live TV CBAs cover different types of television shows. Employers bound to the TV/Theatrical CBAs are generally represented in bargaining by the Alliance of Motion Picture and Television Producers ("AMPTP"), an employer trade group. The Live TV CBA is bargained by the television networks with the AFM. The networks are also members of the AMPTP and subject to the TV/Theatrical CBAs for certain television shows.

In general under these three CBAs, employers pay musicians based on a scale wage per recording session, along with other ancillary compensation spelled out in the CBA, and they contribute a percentage of those wages and other ancillary compensation to the Plan. In addition, these employers pay musicians residuals for certain revenue earned from the distribution of television and movies in secondary markets and otherwise, as set forth in the CBAs, as more fully explained below.

Under the Theatrical CBA, which covers theatrical motion pictures, musicians are paid a session rate for performing on a recording used in a movie or for appearing in the movie, as well as other performance-based compensation. The musicians receive no additional compensation regardless of the movie's engagement in theaters, which is considered the primary market. When the movie is distributed on DVD, which is considered a secondary market, the movie producer pays a percentage of its revenue from that distribution to an entity called the Film Musicians Secondary Markets Fund ("Film Musicians Fund"). The Film Musicians Fund distributes its revenue to musicians (as well as other performers) for the residuals the musicians earned under the TV/Theatrical CBAs. Musicians are paid from the Film Musicians Fund based on a percentage share; for instance, a film musician is paid a share of a movie's residuals based on the proportion of his or her wages for performing in the movie compared to all wages paid to musicians who performed in the movie.

Similarly, under the Basic TV CBA, which covers scripted and episodic television shows, musicians are paid a session rate for performing on a recording used in a television show, as well as other performance-based compensation. As under the Theatrical CBA, if the employer uses the show in a secondary market (such as by releasing the show on DVD or on Netflix), the employer pays residuals to the Film Musicians Fund.

Under the Live TV CBA, which covers live television shows, such as Saturday Night Live and other late-night talk shows, and variety shows, musicians are also paid a session fee and an additional payment for reruns. If the show is released in a secondary market, such as on DVD or subscription-based service, such as cable or Netflix, the employer pays residuals to the Live Television/Videotape Supplemental Markets Fund ("Live TV Musicians Fund").

(Employers do not pay residuals to musicians on the revenue from airing shows on advertiser-supported mediums, like YouTube.)

Although employers pay a designated contribution to the Plan based on the foregoing types of compensation paid directly to musicians, they do not pay any Plan contributions on residual payments that they pay to the Film Musicians Fund or the Live TV Musicians Fund. In April 2017, however, the parties to the TV/Theatrical CBAs bargained an additional quarterly contribution to the Plan, based on 1.5% of the contributions that the AMPTP- represented employers pay to the Film Musicians Fund as musician residuals. This contribution is unallocated to any particular musicians and is therefore non-benefit bearing.

(e) Sound Recordings (CDs or records) and Digital Music Streaming

Contributions on sound recordings make up about 3% of total Plan's wage-based contribution revenue. The large companies include Sony Music, Universal Music Group, Warner Music Group, Hollywood Records, and certain affiliated labels (collectively, "Major Labels"), while the smaller record labels include Concord Records, Big Machine Records, Average Joe Records and Curb Records ("Major Independent Labels") and others, as well as individual artists releasing recordings. They all contribute to the Plan pursuant to the SRLA. (Other employers, such as film and television studios and some orchestras, contribute pursuant to the terms of the SRLA if they release a musical recording.)

Like other contributing employers, record companies have traditionally paid contributions to the Plan based on musicians' scale wages for musical work performed in the recordings. They are also required to pay musicians and contribute to the Plan for any "new use" of the recording, pursuant to the CBA applicable to the new use. For instance, if a record company licenses a recording for use in a movie, the record company is required to pay musicians and contribute to the Plan pursuant to the Theatrical CBA for the new use.

The record companies have also traditionally contributed a percentage of revenue from record sales to two separate musician trust funds. One fund, the Sound Recording Special Payments Fund ("Sound Recording Fund"), distributes annual payments to musicians. Pursuant to the SRLA, the record companies pay a percentage of various types of revenue to the Sound Recording Fund. By way of example, under the SRLA, the record companies pay 0.52% of the manufacturer's suggested retail price for each record sold, if the price exceeds $3.79 up to $8.98. Each year, the Sound Recording Fund distributes its revenue to musicians according to a formula based on each musician's total reported scale wages over the five years before the year of the distribution. Each musician's payment is a fraction of the net revenue proportional to the musician's reported scale wages over the total scale wages reported for all musicians who participate in the Sound Recording Fund. (In other words, a musician's share is not tied to the revenue generated by the specific album on which the musician performed.) No Plan contributions are paid on these record company contributions to the Sound Recording Fund.

The other fund that receives contributions from the record companies from sales revenue is the Music Performance Trust Fund ("MPTF"), which funds live performances through grants to musicians and employers. No Plan contributions are paid on contributions to the MPTF; however, some employers receiving a grant from the MPTF for a musical performance may opt, pursuant to the terms of a CBA, Local scale sheet, or participation agreement, to pay pension contributions on the musicians' wages paid with the grant money.

In addition to paying royalties to royalty artist musicians on the sales for physical products (e.g., records and CDs), starting in the 1990s, the Major Labels have also paid royalties to musicians based on revenue they earn as a result of the Digital Performance Right in the Sound Recordings Act of 1995 ("Copyright Act"). This revenue was principally earned by the record companies and other companies from non-interactive streaming services, e.g., Sirius XM Radio. The Copyright Act sets forth the royalty amounts due to musicians and other performers. The non-interactive streaming service, which could be either a Major Label or another entity, like Sirius, pay the royalties to musicians

through an entity called SoundExchange, which distributes the royalties to various types of performers. SoundExchange in turn pays the income due to non-featured musicians (and some other performers) to a fund called the AFM & SAG-AFTRA Intellectual Property Rights Distribution Fund ("IPRDF"). The Major Labels do not pay Plan contributions on these amounts.

In anticipation of the 1994 Copyright Act, the Major Labels and the AFM entered into an agreement in 1994 ("1994 MOA") requiring the Major Labels to pay 0.5% of digital music sales revenue to the AFM or its designee. Starting in 2011, the AFM directed this bargained money to the Plan as non-benefit bearing contributions, although at that time it was a relatively small amount.

Starting with the 2006-15 SRLA (which was extended through 2017), the Major Labels agreed to increase payment on certain digital music sales revenue. Specifically, they began to pay 0.55% of the wholesale price of permanent music downloads and 0.55% of the wholesale price of non-permanent music downloads (downloads that are tied to a subscription) to the Plan.

Under the 2017-2020 SRLA, the bargaining parties negotiated digital revenue payments to replace the 1994 MOA, and the record companies agreed to pay 0.36% of global streaming revenue to the Sound Recording Fund, the MPTF, and the Plan ("Musician Recording Funds"), but in no event less than 0.5% or no more than 0.55% of the United States streaming revenue. The parties established a set amount of money each year that would be paid from this allocation to the Plan. Thus, while the total amount distributed to the Musician Recording Funds in the aggregate is based on a percentage of revenue, the Plan's portion is a fixed dollar amount and not a percentage of revenue. The total allocated to the Plan was $5 million, $5.5 million, and $6 million for calendar years 2017, 2018, and 2019, respectively. This streaming payment is not allocated to particular musicians and is therefore non-benefit bearing. Anything the Major Labels are required to pay (out of the 0.36% of global revenue) in excess of the dedicated amount for the Plan is paid to the Sound Recording Fund and MPTF. Thus, under the terms of the SRLA, if there were an increase in streaming revenue, the other two Musician Recording Funds (i.e., the Sound Recording Fund and the Music Performance Trust Fund) would benefit from that, but the Plan's contribution would remain unchanged.

Pursuant to the 2017-20 SRLA, during the period that the parties negotiated the successor to the 2017-2020 SRLA, the $6 million allocated to the Plan for calendar year 2019 remained in effect for the 2020, 2021, and 2022 years. The parties concluded the successor SRLA in early 2023, which is currently subject to member ratification. It includes increases to the Plan's flat dollar allocation in calendar years 2023, 2024, and 2025. Because these contribution rate increases in the SRLA were negotiated after July 9, 2021, they are excluded from the projections to determine the amount of Special Financial Assistance.

(f) Commercials/Jingles

Employers that contribute for commercials, which make up about 2% of total Plan wage-based revenue, consist of advertisers and advertising agencies. They are bound to the Commercial Announcements Agreement, which is bargained by the AFM and the Joint Policy Committee. The employers contribute to the Plan based on scale wages paid to musicians. Musicians are compensated under this CBA for various activities, including a per-session amount and also for use of the commercial beyond a certain time or geographic limit; re-use of the commercial in a new medium; dubbing (where previously recorded music is re-used to create another commercial for broadcast in the same medium as the original commercial); conversions (where previously recorded music is re-used to create another commercial for broadcast in a different medium than the original commercial); new use of music recorded for a commercial (e.g., if it is used in a movie); for appearing on camera in the commercial; and for certain other tasks (e.g., cartage, doubling).

(g) Unions, Plan, and other Musician Funds

The AFM, most AFM Locals, and the other funds, including the Sound Recording Fund, MPTF, the IPRDF, and Film Musicians Fund (as well as the Plan itself) contribute about 4% of total Plan wage-based revenue pursuant to individual employer participation agreements based on their employees' wages.

3. Application Assumptions Based on Total Revenue, not CBUs

As more fully explained below, the Plan's contribution assumption for this application is based on projected future contributions, not just CBUs, which have traditionally been measured as reported covered wages. This is because, as described above, a substantial and growing portion of Plan revenue is not wage-based. Limiting the projected contributions to only those based on reported wages would undercount the Plan's projected future total revenue. The Plan's applications under the Multiemployer Plan Reform Act of 2014 based contribution income projections on total contributions rather than CBUs in the same way.

Contributions to the Plan are bargained by the AFM or its Locals and are generally based on a percentage of the scale wages employers are required to pay the musicians covered under the CBAs and Participation Agreements. Pension benefits are calculated based on the contributions that employers report as due to the Plan for each participant. As such, reported wages have traditionally been the basis for the Plan's CBUs for purposes of calculating withdrawal liability.

The Trustees have concluded, however, that the correct historical measure of revenue growth is total contributions as opposed to reported wages because a substantial and increasing portion of the Plan's revenue derives from non-wage-based sources.

For example, as explained above, contributions due from Broadway Theaters, currently accounting for about 17% of total Plan wage-based revenue, are based on a percentage of ticket sales, not wages, and therefore would not be reflected in an assumption based on reported wages alone. In addition, as also explained above, over 10% of the Plan's revenue is currently from contributions based on employers' revenue from digital sales, principally music streaming. Another substantial portion is based on the contributions on the residuals paid to the Film Musicians Fund, not reported wages. (The revenue from music streaming and Film Musicians Fund residuals is non-benefit bearing, while the Broadway Theater revenue is converted to pension benefits for the individual musicians.)

For these reasons, the Trustees have concluded that basing assumptions about the Plan's future revenue on reported wages would be unreasonable because it would not provide a realistic picture of expected future revenue and would significantly understate future revenue. Accordingly, the rationale below is based on actual historical and projected contributions as opposed to reported wages alone.

B. Contribution Projections

1. Wage-Based Revenue Growth Projections

The Trustees have undertaken an extensive evaluation of the wage-based contributions in the short and long terms, including the impact of the COVID-19 pandemic, and in light of past contribution trends, to develop the contribution projections described below.

PLAN INFORMATION
Abbreviated Plan Name: AFM-EPF
EIN: 51-6120204
PN: 001

(a) Long-term, wage-based contribution assumption

The Trustees are projecting wage-based contributions will grow starting with CY 2022 at the annual rate of 1.9% through 2032, which is the average rate of growth over the past ten fiscal years, after excluding the "COVID Period" pursuant to PBGC assumptions guidance, as reflected in the chart below, and 1.0% per year thereafter. The Trustees are projecting additional growth to pre-pandemic levels through CY 2025, as set forth in Section (b) below.

FYE	Wage-Based Contributions ($M)	Yearly % Increase/Decrease
2010	$51.41	n/a
2011	$51.77	-1.8%*
2012	$55.64	2.5%*
2013	$53.92	-3.1%
2014	$57.10	5.9%
2015	$59.07	3.5%
2016	$60.10	1.7%
2017	$60.34	0.4%
2018	$61.37	1.7%
2019	$65.69	6.4%*
Geometric average		1.9%

**Note regarding income from the 2010 rehabilitation plan and the 2018 update:*
The 2010 rehabilitation plan and 2018 update required increases to the rates of contribution, which increased the total wage-based contributions in both FYE 2011 and 2012 and 2019 and 2020, respectively. The yearly percentage increases shown in the table above have been adjusted to remove the impact of these rate increases because it is assumed that they are not recurring events. Specifically, there were additional contributions of $1.28 million and $3.89 million in fiscal years 2011 and 2012, respectively, due to the 2010 rehabilitation plan. The -1.8% yearly percentage change for fiscal year 2011 equals [($51.77 - $1.28)/$51.41]-1, and the 2.5% yearly percentage increase for FYE 2012 equals [($55.64 - $3.89)/($51.77 - $1.28)]-1. There were additional contributions of $0.37 million and $2.07 million in fiscal years 2019 and 2020, respectively, due to the 2018 update. The yearly percentage increases shown in the table above have been adjusted to remove this impact made for the 2018 updated rehabilitation plan. The 6.4% yearly percentage change for fiscal year 2019 equals [($65.69 - $0.37)/$61.37]-1.

(b) Additional growth to pre-pandemic levels through CY 2025

Following the development of the long-term assumptions set forth in (a) above, the Trustees adjusted for the short-term impact of COVID-19, recognizing that the Plan has not yet reached its high watermark contribution level from CY 2019. The Trustees have concluded that the Plan as a whole is projected to return to near CY 2019 levels by CY 2024 and exceed that amount by CY 2025. The following chart shows the Trustees' expectations in wage-based contributions for CY 2023 to 2025, including 2019 – 2021 actual amounts for reference. CY 2022 contributions are actual amounts collected adjusted upward by $2.5 million to account for the normal delay in contribution collection two months after the close of a period.

Calendar Year	Actual and Projected Wage-Based Revenue ($M)	% Change in Projected $
2019	$65.0 (actual)	N/A
2020	$33.5 (actual)	N/A
2021	$37.7(actual)	N/A
2022	$60.8(actual/adjusted)	N/A
2023	$63.3	4.1%
2024	$64.9	2.5%
2025	$66.5	2.5%

These projections are based on an individualized analysis of each of the various industry segments described above and take account of all information available to the Trustees, which is summarized as follows. In each case, the Trustees began with the decline that the industry segment experienced during the pandemic, reviewed the segment's recovery through 2022, and, for segments that had not fully recovered, established an expected timeline over which further recovery would occur, typically on a graduated basis. All segments are projected to grow at 1.9% a year starting in 2022. Certain segments, as noted below, are projected to grow more quickly in CYs 2023 to 2025.

Symphony Orchestras mostly shut down their live performances at the start of the pandemic, although certain creative electronic media work continued. Some of the 52 major symphony orchestras (whose musicians comprise the Union-affiliated International Conference of Symphony and Opera Musicians ("ICSOM")) were shut down although others found innovative ways to continue serving their communities through non-traditional performances, often online. Most ICSOM orchestras continued to pay wages and make contributions to the Plan under agreements negotiated with the Union even after the shutdown albeit at reduced levels. Some of the smaller regional orchestras (whose musicians comprise the Regional Orchestra Players' Association, or "ROPA") continued wages and contributions as well, although generally to a lesser extent. Through CY 2022, this segment has returned to pre-pandemic levels.

With respect to Broadway, theaters shut down at the start of the pandemic and started to reopen in 2021. While Broadway has recovered significantly since, there is still uncertainty about ticket prices and attendance remains below CY 2019 levels as audiences continue their gradual return to that 2019 peak of live musicals. The Trustees expect, and have factored into the contribution projection, continued above-average growth through CY 2025.

The Freelance segment of the Fund is composed of single/short term engagements (generally work done in bars, restaurants, and at weddings), theme park work including Disney and Six Flags, regional theaters, and travelling theater shows. Like Broadway, theme parks, regional theaters, and travelling theater shows closed down at the start of the pandemic, though they are now reopened and working again but have not quite attained 2019 contribution levels. Freelance work did not cease entirely when the pandemic began, although contributions did decline

dramatically. Two of the subsets of this segment, single/short term engagements and theme parks, shut down entirely during the pandemic, and the third, theater, dropped dramatically. The segment has recovered partially but is still behind pre-pandemic levels. Theaters have generally resumed work and theme park work is close to pre-pandemic levels. Single/short-term engagements, however, which comprise about forty percent of the Freelance segment, are around fifty percent of pre-pandemic levels. This portion of the segment sees uncertainty and variability in normal times as it includes employers and musicians that generally maintain a more transient connection to the industry, and the Plan in particular, and was already experiencing a decline over time prior to the pandemic. Employers in this segment are generally considered eligible for the entertainment industry exception to withdrawal liability, thereby removing one barrier to leaving the Plan. The venues where musicians in this segment perform (e.g., bars, restaurants) have also been more affected by the pandemic than other venues. The transient nature of this segment of the industry and the lack of a barrier to ceasing participation is likely contributing to the fact that its recovery from COVID-19 has been very gradual thus far. In light of continued suppressed contributions from single/short-term engagements, the Trustees expect this segment to grow modestly through CY 2025 and have factored that into the contribution projection.

Wage-based contributions that rely on non-live or "session" performances (e.g., Sound Recording, Television and Film, and Jingles) declined less during the pandemic. Certain of these segments, including Television, have already exceeded pre-pandemic levels. Others are still behind, including Sound Recording, Film, and Jingles, and the Trustees expect them to approach 2019 levels by 2025 and have factored that into the contribution projection.

Finally, with respect to contributions from the Union and other musician funds that contribute to the Plan, some Locals furloughed or laid off some employees during the pandemic but have since returned to normal. Neither the AFM's national offices, the Plan Office, nor the three other non-collectively bargained musician funds that contribute to the Plan, furloughed or reduced their staff as a result of the pandemic.

Based on the aggregation of the expectations for each industry segment, overall wage-based work levels are expected to approach CY 2019 by CY 2024 and exceed it by 2025 and grow at 1.9% per year through 2032 and 1% per year thereafter.

2. Digital Revenue Growth

As discussed in more detail above, Digital Revenue is Plan revenue that is not based on wages paid to musicians and does not generate any benefit accruals, meaning that musicians do not earn pension benefits from this revenue component. It includes SRLA streaming revenue (approximately $6 million a year, which is a set amount under the SRLA that was in effect on July 9, 2021); the 1.5% contribution from the Film Musicians Fund, described above ($1.68 million in CY 2022), and other much smaller amounts of miscellaneous revenue.

(a) SRLA Streaming Revenue

As detailed above, under the SRLA, between 0.5% and 0.55% of the record companies' domestic streaming revenue ("Musician Recording Funds' Streaming Payment") is distributed to the Musician Recording Funds (which are the Plan, the Sound Recording Fund, and the MPTF). The Plan's contribution, however, is subject to collective bargaining. As explained above, that amount has been a specified dollar amount since 2017. The specified dollar amount was $6 million in 2019, the final year of the previous SRLA. The parties agreed to a new SRLA in 2023, which is subject to member ratification, with increasing contribution amounts starting in 2023. In the interim, however, for the calendar years 2020, 2021, and 2022, the contribution requirement to the Plan remained at the same $6 million a year. The amount of the streaming contribution is subject to future collective bargaining. Pursuant to the PBGC final rule, because any increase over the $6 million to which the Plan was entitled under the SRLA in effect

as of July 9, 2021 is based on agreements reached after that date, the Plan is not including any projected increase in SRLA streaming revenue over the $6 million yearly amount being received as of that date.

While there may be additional streaming revenue from Major Independent Labels and possibly from other sources in the future, any such additional contribution would be based on an increase in the contribution rate bargained after July 9, 2021 and is therefore excluded from any projection. (The projections in the Plan's MPRA applications also did not incorporate increased streaming revenue from the Major Independent Labels or other sources.)

(b) Film Musicians Fund Contribution

As described above, another portion of Digital Revenue derives from contributions based on residuals the AMPTP-represented employers pay to the Film Musicians Fund under the Theatrical/TV CBAs. The residuals paid to the Film Musicians Fund are not all revenue derived from digital sources (e.g., movie streaming), but are defined as "Digital Revenue" in this application for ease of reference. As noted above, "Digital Revenue" is defined as non-wage-based, non-benefit bearing contributions the Plan receives from employers based on the employers' revenue, as opposed to employer contributions based on the compensation paid to musicians. In April 2017, the AMPTP employers bound to the Theatrical/TV CBAs agreed to a quarterly contribution to the Plan out of their Film Musicians Fund payment, based on 1.5% of the residuals they pay to the Film Musicians Fund. Following is a chart showing the total residuals paid to the Film Musicians Fund over the last ten years and the yearly percentage changes.

FYE*	Revenue ($M)	Yearly % Change
2011	$80.00	n/a
2012	$83.66	4.6%
2013	$89.28	6.7%
2014	$86.56	-3.0%
2015	$92.64	7.0%
2016	$93.47	0.9%
2017	$98.47	5.4%
2018	$107.00	8.7%
2019	$113.65	6.2%
2020	$109.58	-3.6%
2021	$122.96	12.2%
2022	$128.91	4.8%

* *This FYE refers to the Film Musicians Fund fiscal year, not the Plan's.*

The ten-year geometric average increase in this residual income is 4.4% for FYE 2022.

Unlike streaming revenue described above, the Film Musicians Fund payment changes yearly not based on collective bargaining but based, generally, on the Film Musician Fund's revenue. The Trustees have concluded that residual income and, the Plan's 1.5% allocation of that residual income, will grow at 5% for CY 2023 and gradually decline to 3% for CY 2027 and later. Following is a chart reflecting the projected growth in the musician residuals.

Calendar Year	Yearly % Change in Film Musicians Fund Contributions
2023	5%
2024	5%
2025	4%
2026	4%
2027 and later	3%

(c) Other Digital Revenue

The total Digital Revenue from sources other than SRLA streaming and the Film Musicians Fund contribution was about $300,000 for CY 2022. This revenue came from so-called non-tethered downloads (on-line digital music purchases), non-traditional licensing (e.g., musical greeting cards), video game licensing, and other miscellaneous sources. Because this category of Digital Revenue is inconsequential, the Trustees have concluded it is reasonable to project other Digital Revenue will grow at the same rate as the projected growth in the Film Musicians Fund contributions outlined above.

4. Other Income

The Trustees have concluded that other sources of revenue will remain stable but not grow and have assumed zero additional contributions. These other sources principally include both lump-sum and periodic withdrawal liability payments. These amounts make up a relatively small percentage of Plan revenue and vary sharply year to year, especially with a pension plan that is subject to the entertainment industry exception to withdrawal liability, which makes such projections difficult.

The projection of other income assumes that currently withdrawn employers who are making payments continue to make scheduled quarterly withdrawal liability payments. For the period after the SFA application date, no withdrawal liability payments are assumed from future employer withdrawals. Projected other income is set forth in the table below.

Calendar Year	Withdrawal Liability Payments ($M)
2023-2031	$0.14
2032	$0.13
2033	$0.11
2034-2035	$0.09
2036	$0.06
2037-2039	$0.05
2040	$0.04
2041	$0.03
2042	$0.01
2043 and later	$0.00

5. **Contribution Rates**

Finally, pursuant to the PBGC final rule, the Trustees are assuming no changes in the employer contribution rates, including any increases required under the June 2018 update to the rehabilitation plan, that were not adopted by July 9, 2021.

Special Financial Assistance Application
Section D, Item 6 – Assumption Information

6a – N/A. The Plan was certified by the Plan actuary to continue to be in critical and declining status in the plan year beginning April 1, 2020, as indicated in the attached 2020 zone status certification (2020Zone20200629 AFM-EPF.pdf). The most recent actuarial certification of plan status completed before January 1, 2021 is the one used to verify the Plan's eligibility for SFA.

6b – identification and rationale for assumption changes used to determine the SFA amount that are different from those used in the pre-2021 zone certification:

- Interest rates
    - Pre-2021 zone certification:
        - Funding Standard Account: 7.50%
        - Projected investment returns after March 31, 2020 are based on the Fund's target asset allocation and 2019 Horizon 10-year capital market survey assumptions for first 10 years and 2019 Horizon 20-year capital market survey assumptions thereafter. The assumed rates of return on market assets (net of investment-related administrative expenses) for every year after the plan year ended March 31, 2020 are shown in the table below.

FYE	Assumed Investment Return
2021	6.92%
2022	6.98%
2023	6.98%
2024	6.98%
2025	6.98%
2026	6.98%
2027	6.98%
2028	6.98%
2029	6.98%
2030 and later	7.69%

    - SFA Amount: 5.85% non-SFA interest rate and 3.77% SFA interest rate.
    - Rationale: The non-SFA interest rate was calculated in accordance with §4262.4(e)(1) of PBGC's SFA regulations. The SFA interest rate was calculated in accordance with §4262.4(e)(2) of PBGC's SFA regulation.

- Active participant counts
    - Pre-2021 zone certification: active participant count remains level
    - SFA Amount: Active participants increases 4% from 2022 to 2023, 2.5% from 2023 to 2024, 2.5% from 2024 to 2025, and then remain level thereafter.

- Rationale: The prior assumption is no longer reasonable given the current number of active participants and the projected increase in wage-based contributions. The assumption used to determine the SFA amount is consistent with the wage-based contribution assumption.

- Contribution Income
  - Pre-2021 zone certification:
    Wage-based contributions for fiscal year ending March 31, 2019 assumed to increase 2.7% per annum. In addition, the 10% increase implemented in June 2018 is expected to phase in through different working arrangements according to the following schedule:
    - through 66% freelance and single engagement contracts in FYE 2020 and 34% in FYE 2021
    - through 26.3% of Broadway Theaters contribution income
    - through 25% of all other contracts over 4 years

    Non-benefit bearing, non-wage based contributions of $6,000,000 streaming revenue plus contributions from the Film Musicians Fund and other Digital Revenue increase according to the table below and then 3.00% per annum thereafter.

FYE	Non-benefit bearing, non-wage based contributions ($ or % increase)	
	Streaming	Film Musicians Fund and Other Digital Revenue
2020	$6,000,000	6%
2021	27%	5
2022	20	5
2023	16	5
2024	12	5
2025	10	4
2026	8	4
2027	6	3
2028	5	3
2029	4	3
2030	3	3

Future other income, principally withdrawal liability, according to the table below assumes that currently withdrawn employers continue to make scheduled quarterly withdrawal liability payments.

FYE	Contributions ($M)
2020	$0.29
2021	$0.29
2022-2037	$0.10
2038 and later	$0.00

  - SFA Amount:

    Wage-based contributions for the 2022 calendar year assumed to increase 1.9% per annum for the first ten years and then 1.0% per annum thereafter. In addition, the Trustees adjusted for the short-term impact of COVID-19, recognizing that the Plan has not yet reached its high watermark contribution level from CY 2019. The Trustees have concluded that the Plan as a whole is projected to return to near CY 2019 levels by CY 2024 and exceed that amount by CY 2025. The following chart shows the Trustees' expectations in wage-

based contributions for CY 2023 to 2025. CY 2022 contributions are actual amounts collected adjusted upward by $2.5 million to account for the normal delay in contribution collection two months after the close of a period.

Calendar Year	Actual and Projected Wage-Based Revenue ($M)	% Change in Projected $
2022	$60.8(actual/adjusted)	N/A
2023	$63.1	4.1%
2024	$64.7	2.5%
2025	$66.3	2.4%

Non-benefit bearing, non-wage based contributions of $6,000,000 streaming revenue plus contributions from the Film Musicians Fund and other Digital Revenue that increase according to the table below and then 3.00% per annum thereafter.

Calendar Year	Non-benefit bearing, non-wage based contributions ($ or % increase)	
	Streaming	Film Musicians Fund and Other Digital Revenue
2022	$6,000,000	$1,975,141
2023	6,000,000	5%
2024	6,000,000	5
2025	6,000,000	4
2026	6,000,000	4
2027	6,000,000	3

The projection of other income assumes that currently withdrawn employers who are making payments continue to make scheduled quarterly withdrawal liability payments. For the period after the SFA application date, no withdrawal liability payments are assumed from future employer withdrawals. Projected other income is set forth in the table below.

Calendar Year	Withdrawal Liability Payments ($M)
2023-2031	$0.14
2032	$0.13
2033	$0.11
2034-2035	$0.09
2036	$0.06
2037-2039	$0.05
2040	$0.04
2041	$0.03
2042	$0.01
2043 and later	$0.00

- Rationale: The prior assumption is no longer reasonable because it does not reflect the current status of contributions to the plan. See Section D, Item 5 for additional information about the rationale for the contribution assumptions.

- Hard to Value Assets

  - Pre-2021 zone certification: value reported on the custodial statements, generally more than 30 days before the valuation date.

  - SFA Amount: The Plan's outsourced chief investment officer ("OCIO") estimated the December 31, 2022 values of private investments using the following process:
    - Use December 31, 2022 reported market values of the fund for private managers reported as of March 3, 2023.
    - Ask a portion of the remaining funds (which, together with those that provided values, represent approximately 75% of the portfolio (by NAV)) if they were willing to provide estimates for Dec 31 in lieu of final statements.
    - The remaining funds were contacted in order of decreasing size – given that the larger funds would have a more significant impact on the accuracy of the overall portfolio estimates and the proximity of PBGC guidance on this issue to the filing date did not provide sufficient time to have discussions with all funds. Ultimately, 53% of the portfolio (by NAV) provided actual or estimated values and 21% provided neither.
    - Failing that, those funds were asked if they were willing to acknowledge if the Q4 return was positive or negative, with a goal of determining whether there were a significant number of funds that were negative such that they should be held at their September 30, 2022 values. Only two funds answered, and both indicated that their returns were positive, so the extrapolated return was applied to those funds in the same manner as others that did not report or estimate values. (The extrapolated return was positive and, therefore, not inconsistent with the information from those two funds that they had positive returns in Q4.)
    - For the investments for which the OCIO did not receive valuations by that date, use the Q4 IRR (effectively the weighted average return) of the private investments that have provided their December 31 valuations or estimates as a proxy for the return of the Plan's entire private investment portfolio. Note that Private Equity and Private Credit estimates were generated separately given the substantial difference between the two investment strategies.

  - Rationale: Using public market equity index returns for the period from the last valuation provided by the private funds to December 31, 2022 would not be reasonable because, based on the historical relationship between private and public returns, it would be expected to significantly overstate what will ultimately be the reported value of the Plan's private assets: private returns tend to be dampened compared to their public equivalents; Q4 is a period where audited private returns are produced and we expect managers to take the opportunity to reflect returns for 2022 that are more in line with 2022 public returns. While the OCIO advised of this concern prior to reviewing fund-reported December 31, 2022 valuations and estimates, its conclusion is consistent with the returns reported by the 46 managers, which in the aggregate have reported values that are significantly less than those that would have been derived by applying the public market fourth quarter return to September 30, 2022 values.

    The OCIO believes the approach was reasonable under the circumstances given the amount of actual and estimated data that was ultimately available, having targeted obtaining data from 40-50 managers as a precondition for extrapolating. Ultimately, data from 46 managers was obtained.

- Administrative Expenses

  - Pre-2021 zone certification projection: The prior year's administrative expenses increased by 2.25% plus an additional $1,000,000 for FYE 2020 and increased for inflation by 2.25% for each plan year after FYE 2020. Further, additional expenses for the MPRA suspension applications were included, in the amounts of $2 million in FYE 2021 and $1 million in FYE 2022.

- SFA projection: 2023 PBGC premium rate of $35.00 per participant with increases of 2.25% per year, further adjusted to reflect the PBGC premium increase under section 4006(a)(3)(A) of ERISA that goes into effect in 2031, plus all other administrative expenses projected using increases of 2.25% per year, with a cap on a per participant basis equaling $306.63 per participant increased by 2.25% per year, plus a one-time additional administrative expense of $760,000 in 2023 for the SFA application. Future years' PBGC premiums are calculated based on the projected participant count.

- Basis for SFA projection: The projected administrative expenses for the SFA application reflect the PBGC premium rate for 2023 and the increase under section 4006(a)(3)(A) of ERISA that goes into effect in 2031. The projection for all other administrative expenses is determined from the plan administrative expenses of $16,460,432 reported in the audited financial statements for the plan year ending March 31, 2022 reduced by (a) plan expenses of $72,940 related to the MPRA application that was withdrawn and (b) the PBGC premiums of $1,525,014, with the result (the "2022 all other administrative expenses") then increased by 2.25% for inflation. The per participant cap for all other administrative expenses is determined by dividing the 2022 all other expenses by the average participant count used in the actuarial valuations of 49,562 [=(49,624 + 49,499)/2] and increasing it by 2.25% per year for inflation. If the projected 2022 all other administrative expenses increased with 2.25% inflation exceeds the per participant cap multiplied by the projected participant count for that year, the projected all other administrative expenses will be limited by the latter amount. The one-time additional expense of $760,000 in 2023 is based on expected professional fees for the SFA application.

- Rationale for changes: The assumption in the pre-2021 zone certification is no longer reasonable because it was for a projection to the plan year ending March 31, 2035 and did not address years after the projected insolvency and did not include PBGC premium increases that were adopted after the pre-2021 zone certification was filed. The Plan's SFA application projects administrative expenses using the 2.25% inflationary assumption, but then applying a cap based on a cost of $306.63 (adjusted for inflation) per participant, which is the current per participant cost, because of the relationship between administrative expenses and projected participant levels. Given that the number of participants is not projected to decline, the projected administrative expenses did not reach the cap calculated based on a per participant cost.

  The Plan did not apply the 6% cap as a percentage of benefit payments from the assumptions guidance because the application of that cap or any other cap tied to benefit payments was considered unreasonable. A 6% cap based on benefit payments imposed as of the 2035 Plan Year (the first post-certification projection year) would result in an immediate decline in the administrative expenses from 2034 to 2035 of 15.0% and annual reductions of administrative expenses thereafter, due to projected declines in the Plan's benefit payments beginning in 2037. By 2046, and for the years thereafter, the 6% cap would result in the administrative expenses being even lower than the projected administrative expenses for the current year, without any projected decline in participants. However, there is no reason to believe that such reductions would actually occur. While benefit payments do begin to decline in 2037, there are five reasons, set forth below, that we believe that it is unreasonable to assume that administrative expenses decline with them by applying a cap on projected administrative expenses as a percentage of benefit payments.

  First, although the benefit payments are projected to decline beginning in 2037, that reduction largely results from the benefit reductions that took effect in the early 2000s, including reducing the benefit multiplier from $4.65 to $1.00, working their way into the benefits being paid (and higher accrual rates phasing out of benefits paid), rather than due to a reduction in the number of participants whose benefits

need to be serviced and calculated. It would therefore be unreasonable to assume that administrative expenses will decline in proportion to the decline in benefit payments.

Second, the Plan has over 2,000 collective bargaining and participation agreements under which contributions are made to the Plan, and the Plan is not projecting a decline in these agreements. Regardless of the level of benefit payments, the significant administrative burden associated with tracking, interpreting and monitoring compliance with the contribution requirements under these agreements will not change. Nor will the costs of interfacing with the Plan's over 5,000 employers that are bound by these collective bargaining agreements.

Third, the particularly complex aspects of the Plan's benefit formula that contribute to its administrative expense are not going to change despite the reduction in the benefit payments. For example, the Plan will still have to administer its complicated formulae for re-retirement and re-determination benefits. Those who began their pension benefit before age 65 and then earn additional contributions before reaching age 65 earn "re-retirement benefits." Upon reaching 65, a "re-retirement benefit" is added to the Regular Pension Benefit. The re-retirement benefit is calculated by multiplying each $100 of contributions earned both before and after the initial Pension Effective Date by the age-65 benefit multipliers for all benefit periods, reduced by the value of benefits received expressed as a monthly benefit, and then reduced by the initial benefit. Those who began their pension benefit and also earn contributions after the later of age 65 or the Pension Effective Date earn "re-determination benefits." The re-determination benefit is based on contributions received in the prior calendar year, reduced by the value of the re-determination benefit received in the previous year. The Plan does not suspend benefits for participants who return to work in "disqualifying employment" before age 65 and permits in-service distributions for those working after age 65, which results in substantial numbers of participants earning these types of complicated benefits. There is no reason to believe that the Plan will not have the same administrative expenses associated with the complex benefit structure through the projection period, notwithstanding any overall reduction in the amount of benefits being paid out.

Fourth, in general, there is no reason to believe that the Plan will not continue to have, throughout the projection period, the same legal, actuarial, auditing, data security, benefit, collections and other administrative obligations that it had before due to its complex structure (including increased reporting obligations to PBGC as a result of receiving special financial assistance). Thus, it is reasonable to assume that the administrative expenses associated with these obligations will continue at the current level, with an adjustment for inflation.

Fifth, many multiemployer pension plans have one or more related plans (such as a health, training or multiemployer defined contribution plan) with which they can share common expenses (allocation of services), such as collection, accounting, audit, human resources and real estate expenses, including overhead. In contrast, the Plan has no such related plan and therefore cannot share common expenses and job functions in the same way. Whereas a 6% cap may be appropriate for a large plan that can allocate shared expenses, it is unreasonable for this Plan, which does not share expenses and, for the reasons noted above, is far more complicated to administer than a typical pension plan.

- New Entrant Assumption
  - Pre-2021 zone certification: Active participant count remains level. New entrant wages projected to increase at 2.25% wage increase assumption from 2019. New entrant profile per 1,000 new entrants outlined in table below. This assumption was not disclosed in the pre-2021 zone certification.

- SFA Amount: Distributions of age, service, and gender are based on the characteristics of the new entrants and rehires into the Plan developed from the demographics in the five preceding plan years ending March 31, 2018 through March 31, 2022, inclusive, reflecting all new entrants and rehires in those five plan years.

  - The Baseline projection uses a new entrant profile that was developed from the demographics of all new entrants and rehires during the five preceding plan years.
  - The average wages are determined separately for participants with wages less than $10,000 and those with wages more than $10,000.

Age	$3,000 wages in 2022; 11.9% contribution rate			$24,900 wages in 2022; 11.1% contribution rate

- Rationale: The proposed assumption uses acceptable change to new entrant profile assumption to reflect projected new entrants as provided in Section III, D of PBGC's guidance on Special Financial Assistance Assumptions. The tables below illustrate the age and service distribution of all new and rehired participants developed from the demographics in the five preceding plan years ending March 31, 2018 through March 31, 2022, inclusive, reflecting all new entrants and rehires in those five plan years rather than only those remaining in service.

- Missing terminated vested participants

  - Pre-2021 zone certification: Assume 100% of missing terminated vested participants will receive benefits. Missing terminated vested participants over age 70½ receive actuarial increase from Normal Retirement Date to April 1 following the calendar year in which they turn age 70½. In addition, a one-time payment of missed payments from the April 1 following the calendar year in which they turn age 70½ to the valuation date with interest at 7.5%.

  - SFA Amount: Assume 100% of missing terminated vested participants who have not attained age 85 at the SFA measurement date will receive benefits and 100% of missing terminated vested participants who have attained age 85 at the SFA measurement date will never commence benefits. Lost participants over Required Beginning Date receive actuarial increase from Normal Retirement Date to the earlier of their Required Beginning Date and the SFA measurement date. In addition, lost participants over Required Beginning Date receive a one-time payment of missed payments from their Required Beginning Date to the SFA measurement date without interest.

    The April 1, 2022 census data is further adjusted based on the results of a recent death audit as described below. The death audit was performed on the April 1, 2022 census data by the Berwyn Group on February 9, 2023.

A. For participants who are not in-pay and for whom there is a reported death before the SFA measurement date, remove the participant's record from the census data and add a record for survivor benefits:
   1. Deceased participants for whom the fund office has confirmed eligibility for survivor benefits.
      a. Retirement Account Balance (RAB) only group – The RAB benefit is described in the plan document and is an account balance that is credited with interest at 5% per year and is

payable as a lump sum. After the death of the participant, payment of the RAB account is due to participant's named beneficiary or estate. RAB account balance adjusted with the applicable 5% interest rate to the SFA measurement date and assume the balance is paid immediately.

b. All others - survivor benefits according to the beneficiary's date of birth, benefit start date and amount of monthly benefit provided by the fund office.

2. Remove records for deceased participants for whom the fund office has confirmed **no** eligibility for survivor benefits.
3. Deceased participants for whom the fund office review of eligibility for survivor benefits in progress.
   a. For participants whose date of death is after the Required Beginning Date, actuarially increased benefit from Normal Retirement Date to Required Beginning Date and one-time retroactive payment from Required Beginning Date to reported date of death. The one-time retroactive payment is assumed to be paid immediately.
   b. For participant's whose date of death is before Required Beginning Date, estimate survivor benefit using assumed 80% married and 3-year age difference with benefits paid at the later of the SFA measurement date and the earliest date the beneficiary may start payments.

B. For participants who are in-pay and for whom there is a reported death before the April 1, 2022 census date, change the participant to deceased, and implement any elected survivor benefits.

	Active	Terminated Vested	Retired	Beneficiary	Disabled	Total
As of 4/1/2022	15,003	15,760	15,603	2,977	156	49,499
Died with beneficiary	(8)	(52)	(6)	66	0	0
Died without beneficiary	(6)	(14)	(7)	(34)	0	(61)
New during plan year	0	0	0	16	0	16
Count for SFA application	14,989	15,694	15,590	3,025	156	49,454

- Rationale: The pre-2021 PPA certification included all lost participants and included interest based on our understanding that this was a Treasury requirement for a MPRA application. For the SFA application, the assumption follows the Plan's administrative practice when missing terminated vested participants are put into pay and follows Section III, F of PBGC's guidance on Special Financial Assistance Assumptions by excluding lost participants who have attained age 85 at the SFA measurement date and adjusting the April 1, 2022 census data described above. A description of the plan's lost participant & beneficiary procedure is submitted with the application under Checklist Item #11.

- Mortality
    - Pre-2021 zone certification:

  Employee: RP-2014 Employee Mortality Table adjusted to reflect Mortality Improvement Scale MP-2019 from 2006 base year, and projected forward using MP-2019 on a generational basis for males and females.

  Annuitant: RP-2014 Annuitant Mortality Table adjusted to reflect Mortality Improvement Scale MP-2019 from 2006 base year, and projected forward using MP-2019 on a generational basis for males and females.

  Disabled: RP-2014 Disabled Annuitant Mortality Table adjusted to reflect Mortality Improvement Scale MP-2019 from 2006 base year, and projected forward using MP-2019 on a generational basis for males and females.

    - SFA Amount:

  Employee: RP-2014 Employee Mortality Table adjusted to reflect Mortality Improvement Scale MP-2021 from 2006 base year, and projected forward using MP-2021 on a generational basis for males and females.

  Annuitant: Plan-specific mortality rates developed using IRS Revenue Procedure 2017-55 with 2017 base year, and projected forward using Mortality Improvement Scale MP-2021 on a generational basis for males and females.

  Disabled: RP-2014 Disabled Annuitant Mortality Table adjusted to reflect Mortality Improvement Scale MP-2021 from 2006 base year, and projected forward using MP-2021 on a generational basis for males and females.

    - Rationale: The assumption used in the pre-2021 zone certification is no longer reasonable because the Plan was experiencing a consistent pattern of mortality losses. The development of plan-specific mortality assumption was a change made in the Plan's MPRA suspension application submitted in 2020.

- Plan-specific mortality rates were developed for non-disabled, in-pay participants, beneficiaries and alternate payees using the methodology described in IRS Revenue Procedure 2017-55 and Regulation Section 1.430(h)(3)-2. The development of plan-specific mortality rates is described below. See the Mortality Experience Study report dated December 23, 2020 included with Checklist Item #27c for additional details.
- The experience study period is the five-year period from the plan year beginning April 1, 2015 to the plan year ending March 31, 2020. Mortality experience for the plan years ending March 31, 2021 and March 31, 2022 were excluded from the experience due to the impact COVID-19 has had on mortality rates since the pandemic started in March 2020. The exclusion of mortality experience after the pandemic is the same as the conclusions reached by the Society of Actuaries Retirement Plans Experience Committee in the RPEC 2022 Mortality Improvement Update report issued in October 2022.
- The Plan has credible mortality information for each gender because the Plan's experience satisfies the requirement for partial credibility as described in IRS Regulation Section 1.430(h)(3)-2(e).
- The Plan's information has partial credibility using the simplified rule under IRS Regulation Section 1.430(h)(3)-2(c)(2)(ii)(B). Accordingly, the determination of whether there is credible mortality information for a gender is determined by only taking into account individuals who are at least age 50 and less than age 100.

The following steps describe the development of the plan-specific mortality rates.

Step 1: Determine amount-weighted and headcount-weighted mortality experience

- Age is determined as age nearest birth
- The experience study is based on benefit amount as described in IRS Regulation Section 1.430(h)(3)-2(d)(2)(iii)
- An individual's benefit amount is the annual payment for the individual determined at the beginning of each plan year
- For each non-disabled participant, beneficiary and alternate payee receiving benefits as of the beginning of each plan year, calculate the probability of the individual's death each plan year using RP-2006 mortality rates projected with Scale MP-2020 to the calendar year including the mid-point of the plan year, e.g., mortality improvement is projected to 2019 for the plan year April 1, 2019 through March 31, 2020
- For each individual, calculate the expected deaths:
    - Headcount-weighted: based on the probability of death
    - Amount-weighted: based on the probability of death multiplied by the amount of the in-pay benefit at the beginning of each plan year
- Expected deaths calculated above are compared to actual deaths during plan year using actual to expected ratio:
    - Headcount-weighted: based on (a) the number of actual deaths divided by (b) the number of expected deaths for the headcount-weighted tables
    - Amount-weighted: based on (a) the number of actual deaths multiplied by the amount of the in-pay benefit at the beginning of each plan year divided by (b) the number of expected deaths multiplied by the amount of the in-pay benefit at the beginning of each plan year
- For the five-year period ending March 31, 2020 and each plan year, the experience analysis is summarized in the tables from the Mortality Experience Study report - Exhibit 1 for the amount-weighted basis and in Exhibit 2 for the headcount-weighted basis.
- The table below shows the five-year amount-weighted mortality ratios for males and females constructed pursuant to § 1.430(h)(3)-2(d)(4)(ii). The development of these ratios is shown in Exhibit 6 of the Mortality Experience Study report.

Gender	Mortality Ratio
Males	71.2829%
Females	74.2389%

Step 2: Determine partial credibility weighting factors by gender

Partial credibility weighting factors were developed separately for males and females following the guidance in IRS Revenue Procedure 2017-55 and Regulation Section 1.430(h)(3)-2 as described below. The mortality experience for males and females has partial credibility because the actual number of deaths for each gender is at least equal to 100 and is less than the full credibility threshold. The full credibility threshold is 1,082 times the population's benefit dispersion factor, which is a ratio of which the numerator is the product of the number of expected deaths and the sum of the mortality-weighted squares of the benefits, and the denominator is the square of the sum of mortality-weighted benefits. The partial-credibility weighting factor is calculated as the square-root of a fraction of which the

numerator is the actual number of deaths by individuals included in the study, and the denominator is the full credibility threshold. Exhibit 3 of the Mortality Experience Study report includes the demonstrations of credible mortality information under Section 7 of IRS Revenue Procedure 2017-55 for the five-year period ending March 31, 2020 and each plan year in the study period separately for males and females. The development of the partial-credibility weighting factors is shown in the table below.

Calculation Component	Males	Females
Standard for full credibility	1,082	1,082
Number of expected deaths	2,030.81	797.25
Sum of mortality-weighted squares of benefits	7,623,818,383	1,272,189,642
Sum of mortality-weighted benefits	1,744,087	455,452
Square of sum of mortality-weighted benefits	3,041,840,381,066	207,437,042,362
Benefit dispersion factor	5.089865	4.889423
Full credibility threshold	5,507	5,290
Number of actual deaths	1,809	715
Partial credibility weighting factor	57.31%	36.76%

Step 3: Determine plan-specific mortality rates by gender

A. The base year for the plan-specific mortality rates is 2017 which is the calendar year of the mid-point of the experience study period.

B. For each gender, the mortality rates from the base table, RP-2006, are projected to the 2017 base year using Scale MP-2020.

C. Mortality rates for plans with fully credible mortality experience are determined by multiplying the projected mortality rates from the base table by the mortality ratio calculated separately for each gender. Because the Plan applies the simplified rule, the mortality ratios determined using the experience of individuals between the ages of 50 and 100 are used for all ages as described in §1.430(h)(3)-2(d)(4)(i). However, for ages 96 and older, the mortality ratios are adjusted using linearly interpolation as described in §1.430(h)(3)-2(d)(4)(iv).

D. The final adjustment to determine plan-specific mortality rates is to apply the partial-credibility weighting factor as described in §1.430(h)(3)-2(e)(1). The development of the partial-credibility weighting factors are shown in Step 2 above. The plan-specific mortality rate for each gender is equal to the mortality rates under (2) multiplied by one minus the partial-credibility weighting factor plus the mortality rates under (3) multiplied by the partial-credibility weighting factor respectively.

The development of plan-specific mortality rates by gender is shown in Exhibit 5 of the Mortality Experience Study report.

Selection of Base Mortality Table

The development of plan-specific mortality rate requires the selection of a base mortality table assumption for the experience study analysis. This section describes the rationale for using RP-2006 as the base mortality assumption for this study.

Actuarial valuation assumptions

The mortality assumptions used in the actuarial valuations since April 1, 2016 use RP-2006 as the base mortality assumption and generational mortality improvement. The mortality improvement scale has been updated from time to time based on tables published by the Society of Actuaries. For example, the April 1, 2019 actuarial valuation uses the MP-2019 mortality improvement scale published by the Society of Actuaries in October 2019.

The table below shows the actuarial (gains) or losses due to retiree mortality. This table presents the mortality experience starting with the plan year ending March 31, 2017 because the base mortality assumption was revised to use RP-2006 as the base mortality rates for the April 1, 2016 actuarial valuation.

($ in Millions)

Plan year ending March 31	(Gain)/Loss due to Retiree Mortality	Total Liability in April 1 Valuation	Retiree Mortality Loss as Percentage of Total Liability
2017	$10	$3,107	0.32%
2018	$13	3,131	0.42
2019	$12	3,255	0.37
2020	$13	3,309	0.39

Consideration of Pri-2012

The Pri-2012 Private Retirement Plans Mortality Tables Report was released in October 2019 by the Society of Actuaries. The Society of Actuaries recommend actuaries consider its use for private pension plans. The table below compares immediate annuity factors produced by using Pri-2012 to RP-2006 at various ages. Ratios greater than zero indicate that Pri-2012 would produce a higher liability, and ratios less than zero indicate that Pri-2012 would produce a lower liability. Based on this review, we concluded the use of Pri-2012 would produce lower Plan liabilities and thus higher mortality losses than would be produced by the use of RP-2006. Because the Plan has experienced actuarial losses on retiree mortality using RP-2006, we concluded it is more appropriate to use RP-2006 as the base mortality table for this analysis notwithstanding the fact the Pri-2012 is a more recent table.

PLAN INFORMATION
Abbreviated Plan Name: AFM-EPF
EIN: 51-6120204
PN: 001

Ratios of immediate single life annuity factors using base mortality from Pri-2012 to RP-2006 using a 7.5% discount rate are shown in the table below.

Age	Males	Females
55	-0.1%	0.0%
60	0.2%	0.1%
65	0.3%	0.2%
70	-0.1%	-0.1%
75	-0.6%	-0.9%
80	-1.4%	-1.4%
85	-2.1%	-1.2%
90	-2.4%	-0.6%

Based on the analysis above, use of the RP-2006 mortality rates as the base mortality table for this experience study is reasonable.

April 1, 2015 to March 31, 2020 Mortality Experience Study of the American Federation of Musicians & Employers' Pension Fund

The mortality experience study of the American Federation of Musicians & Employers' Pension Fund (the "Plan") for the five-year period for the plan years beginning April 1, 2015 and ending March 31, 2020, inclusive, has been completed in accordance with our understanding of the methodology described in IRS Revenue Procedure 2017-55 and Regulation Section 1.430(h)(3)-2 to develop Plan specific mortality rates. The impact of the change in the mortality assumption on the present value of accrued benefits as of April 1, 2020 is based on the actuarial assumptions and methods (Appendix A) summarized in the appendix. The experience study results contained in this report are based on the principal plan provisions (Appendix B) summarized in the appendix and on census data provided by the fund office for actuarial valuations on April 1, 2015 through April 1, 2020, inclusive.

Limited Distribution

Milliman's work is prepared solely for the internal business use of the Board of Trustee of American Federation of Musicians & Employer's Pension Fund and the Plan's Trustees. Milliman does not intend to benefit or create a legal duty to any third party recipient of its work product.

Any third party recipient of this work product who desires professional guidance should not rely upon Milliman's work product, but should engage qualified professionals for advice appropriate to its own specific needs.

Reliance

In preparing this report, we relied, without audit, on information (both written and oral) supplied by the Fund Administration office. This information includes, but is not limited to, plan documents and summaries, participant data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes, although we have not audited the data at the source. Because the investigation results are dependent on the integrity of the data supplied, the results can be expected to differ if the underlying data is incomplete or missing. It should be noted that if any data or other information is found to be materially inaccurate or incomplete, our calculations may need to be revised.

Limited Use

Future actuarial measurements may differ significantly from the current measurements presented in this report due to factors such as, but not limited to, the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on plan funded status); and changes in plan provisions or applicable law. Due to the limited scope of the actuarial assignment, we did not perform an analysis of the potential range of such future measurements. The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

Certification

In our opinion, each assumption used is individually reasonable (taking into account the experience of the Plan and reasonable expectations) and, in combination, such other assumptions offer our best estimate of anticipated experience under the Plan. The results in this report were developed using models intended for actuarial valuations and experience studies that use standard actuarial techniques.

On the basis of the foregoing, we hereby certify that to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial

principles and practices which are consistent with the principles prescribed by the Actuarial Standards Board and the Code of Professional Conduct and Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States promulgated by the American Academy of Actuaries. We are members of the American Academy of Actuaries and meet its Qualification Standards to render the actuarial opinion contained herein.

Report Summary

A. Purpose of the Mortality Experience Study

This report has been prepared for the American Federation of Musicians & Employers' Pension Fund. This report pertains to the mortality experience for non-disabled, in-pay participants, beneficiaries and alternate payees and is designed to:

- Review the mortality experience for the five plan years beginning April 1, 2015 and ending March 31, 2020
- Determine the applicable partial credibility factors for both male and female mortality
- Construct a base mortality table using plan experience

B. Methodology

Plan-specific mortality rates were developed for non-disabled, in-pay participants, beneficiaries and alternate payees using the methodology described in IRS Revenue Procedure 2017-55 and Regulation Section 1.430(h)(3)-2. The experience study period is the five-year period from the plan year beginning April 1, 2015 to the plan year ending March 31, 2020.

- The Plan has credible mortality information for each gender because the Plan's experience satisfies the requirement for partial credibility as described in IRS Regulation Section 1.430(h)(3)-2(e).
- The Plan's information has partial credibility using the simplified rule under IRS Regulation Section 1.430(h)(3)-2(c)(2)(ii)(B). Accordingly, the determination of whether there is credible mortality information for a gender is determined by only taking into account individuals who are at least age 50 and less than age 100.

The following steps describe the development of the plan-specific mortality rates.

Step 1: Determine amount-weighted and headcount-weighted mortality experience

- Age is determined as age nearest birth
- The experience study is based on benefit amount as described in IRS Regulation Section 1.430(h)(3)-2(d)(2)(iii)
- An individual's benefit amount is the annual payment for the individual determined at the beginning of each plan year
- For each non-disabled participant, beneficiary and alternate payee receiving benefits as of the beginning of each plan year, calculate the probability of the individual's death each plan year using RP-2006 mortality rates projected with Scale MP-2020 to the calendar year including the mid-point of the plan year, e.g., mortality improvement is projected to 2019 for the plan year April 1, 2019 through March 31, 2020
- For each individual, calculate the expected deaths:
    - Headcount-weighted: based on the probability of death
    - Amount-weighted: based on the probability of death multiplied by the amount of the in-pay benefit at the beginning of each plan year
- Expected deaths calculated above are compared to actual deaths during plan year using actual to expected ratio:
    - Headcount-weighted: based on (a) the number of actual deaths divided by (b) the number of expected deaths for the headcount-weighted tables

  - Amount-weighted: based on (a) the number of actual deaths multiplied by the amount of the in-pay benefit at the beginning of each plan year divided by (b) the number of expected deaths multiplied by the amount of the in-pay benefit at the beginning of each plan year

- For the five-year period ending March 31, 2020 and each plan year, the experience analysis is summarized in the tables in Exhibit 1 for the amount-weighted basis and in Exhibit 2 for the headcount-weighted basis.
- The table below shows the five-year amount-weighted mortality ratios for males and females constructed pursuant to § 1.430(h)(3)-2(d)(4)(ii). The development of these ratios is shown in Exhibit 6.

Gender	Mortality Ratio
Males	71.2829%
Females	74.2389%

Step 2: Determine partial credibility weighting factors by gender

Partial credibility weighting factors were developed separately for males and females following the guidance in IRS Revenue Procedure 2017-55 and Regulation Section 1.430(h)(3)-2 as described below. The mortality experience for males and females has partial credibility because the actual number of deaths for each gender is at least equal to 100 and is less than the full credibility threshold. The full credibility threshold is 1,082 times the population's benefit dispersion factor, which is a ratio of which the numerator is the product of the number of expected deaths and the sum of the mortality-weighted squares of the benefits, and the denominator is the square of the sum of mortality-weighted benefits. The partial-credibility weighting factor is calculated as the square-root of a fraction of which the numerator is the actual number of deaths by individuals included in the study, and the denominator is the full credibility threshold. Exhibit 3 includes the demonstrations of credible mortality information under Section 7 of IRS Revenue Procedure 2017-55 for the five-year period ending March 31, 2020 and each plan year in the study period separately for males and females. The development of the partial-credibility weighting factors is shown in the table below.

Calculation Component	Males	Females
Standard for full credibility	1,082	1,082
Number of expected deaths	2,030.81	797.25
Sum of mortality-weighted squares of benefits	7,623,818,383	1,272,189,642
Sum of mortality-weighted benefits	1,744,087	455,452
Square of sum of mortality-weighted benefits	3,041,840,381,066	207,437,042,362
Benefit dispersion factor	5.089865	4.889423
Full credibility threshold	5,507	5,290
Number of actual deaths	1,809	715
Partial credibility weighting factor	57.31%	36.76%

Step 3: Determine plan-specific mortality rates by gender

A. The base year for the plan-specific mortality rates is 2017 which is the calendar year of the mid-point of the experience study period.

B. For each gender, the mortality rates from the base table, RP-2006, are projected to the 2017 base year using Scale MP-2020.

C. Mortality rates for plans with fully credible mortality experience are determined by multiplying the projected mortality rates from the base table by the mortality ratio calculated separately for each gender. Because the Plan applies the simplified rule, the mortality ratios determined using the experience of individuals between the ages of 50 and 100 are used for all ages as described in §1.430(h)(3)-2(d)(4)(i). However, for ages 96 and older, the mortality ratios are adjusted using linearly interpolation as described in §1.430(h)(3)-2(d)(4)(iv).

D. The final adjustment to determine plan-specific mortality rates is to apply the partial-credibility weighting factor as described in §1.430(h)(3)-2(e)(1). The development of the partial-credibility weighting factors are shown in Step 2 above. The plan-specific mortality rate for each gender is equal to the mortality rates under (2) multiplied by one minus the partial-credibility weighting factor plus the mortality rates under (3) multiplied by the partial-credibility weighting factor respectively.

The development of plan-specific mortality rates by gender is shown in Exhibit 5.

C. Selection of Base Mortality Table

The development of plan-specific mortality rate requires the selection of a base mortality table assumption for the experience study analysis. This section describes the rationale for using RP-2006 as the base mortality assumption for this study.

Actuarial valuation assumptions

The mortality assumptions used in the actuarial valuations since April 1, 2016 use RP-2006 as the base mortality assumption and generational mortality improvement. The mortality improvement scale has been updated from time to time based on tables published by the Society of Actuaries. For example, the April 1, 2019 actuarial valuation uses the MP-2019 mortality improvement scale published by the Society of Actuaries in October 2019.

The table below shows the actuarial (gains) or losses due to retiree mortality. This table presents the mortality experience starting with the plan year ending March 31, 2017 because the base mortality assumption was revised to use RP-2006 as the base mortality rates for the April 1, 2016 actuarial valuation.

($ in Millions)

Plan year ending March 31	(Gain)/Loss due to Retiree Mortality	Total Liability in April 1 Valuation	Retiree Mortality Loss as Percentage of Total Liability
2017	$10	$3,107	0.32%
2018	$13	3,131	0.42
2019	$12	3,255	0.37
2020	$13	3,309	0.39

Regulatory guidance

Some of the regulatory guidance reviewed in this section specifically mentions the mortality table RP-2014. As stated in the RP-2006 Mortality Tables report published by the Society of Actuaries, the mortality table RP-2014 is constructed from the RP-2006 mortality using 2006 as the base year and projecting mortality rates from 2006 to 2014 using the mortality improvement scale, MP-2014. See report linked: RP-2006 Mortality Tables Document (soa.org). The Society of Actuaries published the RP-2006 Mortality Tables report to provide the 2006 base mortality rates actuaries may use in combination with a specific mortality improvement scale, e.g. MP-2020, to avoid the additional complication of backing out the embedded effects of mortality improvement scale MP-2014. In our review of regulatory guidance, we consider any references to RP-2014 to be the same as a reference to RP-2006.

There is no explicit IRS guidance for multiemployer plans to set plan-specific mortality assumptions. Applying the concepts from current IRS guidance for single employer plans to set plan-specific mortality assumption for a multiemployer plan suggest the use of RP-2006 as the base mortality assumption. IRS Revenue Procedure 2017-55 describes the procedures for plan sponsors of single employer pension plans to request approval for the use of plan-specific mortality rates. This revenue procedure requires the use of generally applicable mortality tables for purposes of Internal Revenue Code Section 430 which set forth the minimum funding requirements for single employer pension plans.

IRS Notice 2019-67 was published in October 2019 and specifies the mortality rates to be used for minimum funding requirements for valuation dates occurring in the 2021 calendar year. The base mortality assumption for these rates is RP-2006. IRS Notice 2019-67 also states that the Society of Actuaries published the Pri-2012 Private Retirement Plans Mortality Tables Report in October 2019 and invited public comments.

IRS Revenue Procedure 2017-43 describes the procedures for plan sponsors of multiemployer pension plans to request approval for a suspension of benefits under MPRA. Appendix B of this revenue procedure describes the information on actuarial assumptions and methods to be included in a MPRA application. For mortality assumptions, this revenue procedure allows applicants to refer to the mortality experience under RP-2006 to be treated as representative of the expected mortality experience for the plan.

As of the date of this application, there is no published guidance from the IRS which indicates the use of Pri-2012 for any purposes under private employer plans whether sponsored by single or multiemployers.

Consideration of Pri-2012

The Pri-2012 Private Retirement Plans Mortality Tables Report was released in October 2019 by the Society of Actuaries. The Society of Actuaries recommend actuaries consider its use for private pension plans. The table below compares immediate annuity factors produced by using Pri-2012 to RP-2006 at various ages. Ratios greater than zero indicate that Pri-2012 would produce a higher liability, and ratios less than zero indicate that Pri-2012 would produce a lower liability. Based on this review, we concluded the use of Pri-2012 would produce lower Plan liabilities and thus higher mortality losses than would be produced by the use of RP-2006. Because the Plan has experienced actuarial losses on retiree mortality using RP-2006, we concluded it is more appropriate to use RP-2006as the base mortality table for this analysis notwithstanding the fact the Pri-2012 is a more recent table.

Ratios of immediate single life annuity factors using base mortality from Pri-2012 to RP-2006 using a 7.5% discount rate are shown in the table below.

Age	Males	Females
55	-0.1%	0.0%
60	0.2%	0.1%
65	0.3%	0.2%
70	-0.1%	-0.1%

Age	Males	Females
75	-0.6%	-0.9%
80	-1.4%	-1.4%
85	-2.1%	-1.2%
90	-2.4%	-0.6%

Based on the analysis above, use of the RP-2006 mortality rates as the base mortality table for this experience study is reasonable.

Mortality

Employee: RP-2006 Employee Mortality Table and Mortality Improvement Scale MP-2020 on a generational basis for males and females

Healthy Annuitant: Plan-specific mortality rates developed using IRS Revenue Procedure 2017-55 with 2017 base year and Mortality Improvement Scale MP-2020 on a generational basis for males and females

Disabled: RP-2006 Disabled Annuitant Mortality Table and Mortality Improvement Scale MP-2020 on a generational basis for males and females.

Termination Rates: Termination rates have been separated into two groups.

Sample rates are shown below for participants who earned less than $10,000 in the plan year prior to the valuation date:

* *Participants with less than one year of service are not included for valuation purposes. Therefore, this select period with respect to the present value of benefits only impacts participants who have accrued between 1 and 2 years of vesting service as of the valuation date. Nonetheless, this select period has an impact on the Normal Cost (which spreads liability from entry age to retirement age) for all participants.*

Assumed Age of Commencement of Deferred Benefits: Participants who have terminated with deferred benefits or who are assumed to terminate with deferred benefits in the future as shown below:

Pre-Retirement Death Benefits: 80% of the participants are assumed to have beneficiaries eligible for pre-retirement survivor benefits. Male participants are assumed to be three years older than female beneficiaries and female participants are assumed to be three years younger than male beneficiaries. Because the form of payment assumptions for future retirees already reflects marital status, this assumption does not apply to post-retirement death benefits.

Future Benefit Accruals: Current actives and current in-pay retirees under 65: Future years' contributions are assumed to increase by 2.25% per year from those contributions reported for the prior pension credit year.

Post Retirement Benefit Accruals for future retirees and current in-pay retirees under 65 contribution amounts used are shown in the table below.

Attained Age	Annual Contribution Amount
55-75	$750
76-85	250

Assumptions regarding missing or incomplete data:

Lost Participants: Assume 100% of lost participants will receive benefits. Lost participants over age 70½ receive actuarial increase from Normal Retirement Date to Required Beginning Date. In addition, a one-time payment of missed payments from Required Beginning Date to the valuation date with interest at 7.5%.

Summary of Lost Participants as of 4/1/2020	
Count	302
Average Age	68
Average Annual Benefit	$2,314
One-Time Payment	$6.0M

Unreported Data: Active participants with unreported data (gender, date of birth) are assumed to have characteristics of the average group. If not easily determined, participants with unknown sex are assumed to be male.

Rationale for Significant Assumptions

Investment Return for ERISA minimum funding: Selected based on the Plan's target asset allocation as of the valuation date, capital market assumptions from several sources, including published studies summarizing the expectations of various investment experts. This information was used to develop forward-looking long-term expected returns, producing a range of reasonable expectations according to industry experts. Based on the resulting range of potential assumptions, in our professional judgement the selected investment return assumption is reasonable for this purpose and is not expected to have any significant bias.

Retirement Rates: Based on analysis of retirements experienced by the Plan from April 2011 through April 2016.

Appendix B – Summary of Principal Plan Provisions

Effective Date

November 16, 1959. The plan was amended and restated effective January 1, 2014.

Participation

An eligible employee becomes a participant on January 1 of the year in which the participant earns $750 in Covered Earnings by an Employer who is required to make contributions to the Fund.

Normal Retirement Age

Age 65 or if later, the date on which a Participant completes five years of participation in the Plan.

Vesting Service

Vesting Service is based on the Covered Earnings earned in each calendar year, as follow:

Covered Earnings	Years of Vesting Service
< $750	0.00
$750 - $1,499	0.25
$1,500 - $2,249	0.50
$2,250 - $2,999	0.75
>= $3,000	1.00

A Participant becomes vested upon completion of 5 years of Vesting Service or upon attainment of Normal Retirement Age.

Regular Pension Benefit

A Participant is eligible to receive a Regular Pension Benefit at Normal Retirement Age or at age 55 with 5 years Vesting Service.

Regular Pension Benefit is calculated by multiplying each $100 of vested contributions earned by a Benefit Multiplier (a specific dollar amount). The monthly benefit amount under the Life Annuity form of payment is calculated in accordance with the following tables:

Effective June 1, 2010 Monthly Amount per $100 of Vested Contributions					
Age	For Contributions for Covered Employment before 1/1/04	For Contributions for Covered Employment Between 1/1/04 and 3/31/07	For Contributions for Covered Employment Between 4/1/07 and 4/30/09	For Contributions for Covered Employment Between 5/1/09 and 12/31/09	For Contributions For Covered Employment on and after 1/1/10
55	$1.70	$1.28	$1.19	$0.73	$0.37
56	1.86	1.40	1.30	0.80	0.40
57	2.05	1.54	1.43	0.88	0.44
58	2.26	1.70	1.58	0.97	0.49
59	2.48	1.87	1.74	1.07	0.53
60	2.75	2.07	1.92	1.18	0.59
61	3.04	2.29	2.13	1.31	0.65
62	3.36	2.53	2.35	1.45	0.72
63	3.75	2.82	2.62	1.61	0.80
64	4.16	3.13	2.91	1.79	0.90
65	4.65	3.50	3.25	2.00	1.00

For participants who retire after Normal Retirement Age, the monthly benefit is the regular pension amount at Normal Retirement Age actuarially increased to account for delayed retirement.

Disability Pension Benefits

An active participant who has completed at least 10 years of Vesting Service, who has stopped working in Covered Employment because of a condition of Total Disability, and who has not started to receive a Regular Pension Benefit, is eligible for a Disability Pension Benefit.

The monthly Disability Pension Benefit is calculated by multiplying each $100 of contributions by the applicable age-65 Benefit Multipliers, actuarially reduced to participant's actual age as of the effective date of Disability Pension Benefit.

Pre-Retirement Death Benefits

If a vested participant who has not yet retired dies after age 55, the participant's beneficiary will receive a benefit equal to the benefit the beneficiary would have received had the participant retired on his date of death and elected to receive a 50% Joint and Survivor Annuity.

If a vested participant dies before age 55, the beneficiary's benefit is actuarially equivalent to the 50% Joint and Survivor Annuity at age 55.

Post-Retirement Death Benefits

If a vested participant dies after his or her benefit begins and the pension benefit was being paid as a Joint and Survivor Annuity, the Joint Annuitant will receive 50% of the participant's monthly benefit for his or her lifetime; if the pension benefit was being paid as Life Annuity, the remaining balance of the guaranteed benefit will be paid.

Re-Retirement Benefits

If a participant retires before his or her Normal Retirement Age, later returns to Covered Employment, and earns $50 or more of contributions in at least one calendar year between his or her initial pension Benefit Annuity Start Date and Normal Retirement Age, an additional benefit calculated based on the contributions made on the participant's behalf during that period will be paid as of the first of the month after the participant reaches Normal Retirement Age.

Redetermination Benefits

If a pensioner returns to Covered Employment and earns $50 or more of contributions in a calendar year after Normal Retirement Age, he or she will earn an additional pension benefit. This redetermination benefit is calculated each July 1st based on contributions for Covered Employment earned during the previous calendar year. The redetermination benefit is based on the age-65 Benefit Multiplier in effect at the end of the previous calendar year and is offset by the actuarial equivalent of any redetermination benefit received in the previous year that is based on contributions earned after 2003.

Normal Form of Payment

If a participant has an eligible spouse as of his or her Annuity Starting Date, the normal form of payment is Joint and Survivor Annuity. If a participant does not have an eligible spouse as of the Annuity Starting Date, the normal form of payment will be Single Life Annuity with respect to any benefit earned on and after January 1, 2004. If a portion of the participant's benefit was based on contributions earned prior to January 1, 2004, there is a guaranteed amount of 100 times that portion of the participant's benefit. The guaranteed feature is eliminated for benefit with an annuity starting date on or after June 1, 2010.

Special Financial Assistance Application
Section E, Item 5 – SFA Amount Certification

The application filed on behalf of the American Federation of Musicians and Employers' Pension Fund ("AFM-EPF") sets forth the Special Financial Assistance (SFA) amount to which the Plan is eligible under the American Rescue Plan (ARP) Act of 2021, as outlined in section 4262(j)(1) of the Employee Retirement Income Security Act of 1974 (ERISA) and PBGC's SFA regulation (29 CFR part 4262.4). Based on the actuarial assumptions and data described herein and an SFA measurement date of December 31, 2022, we certify that the amount of $1,507,087,344 has been calculated pursuant to ERISA Section 4262(j)(1) and PBGC's Final Rule (29 CFR part 4262.4) effective August 8, 2022. We further certify that the census data was adjusted to reflect the results of a recently completed death audit.

This application uses the same actuarial assumptions and methods used in the pre-2021 actuarial certification with the assumption changes described in Section D, Item 6 of the SFA application. In our opinion, each assumption used is reasonable (taking into account the experience of the Plan and reasonable expectations) for the purpose of the SFA application.

The results in this report were developed using models intended for actuarial valuations and experience studies that use standard actuarial techniques. Please see Appendix C of our April 1, 2022 actuarial valuation report for a disclosure and assessment of risks associated with these calculations.

Reliance

In preparing the report, we relied on our April 1, 2022 actuarial valuation, and, without audit, information (some oral and some in writing) supplied by the Plan's administrator, auditor, investment consultant, investment managers and legal counsel. This information includes, but is not limited to, plan documents and provisions, participant data, and financial information. The participant data used for purposes of this application is based on the data used for the April 1, 2022 actuarial valuation as adjusted to reflect the results of a recently completed death audit. We found this information to be reasonably consistent and comparable with information used for other purposes. The results depend on the integrity of this information. If any of this information is incomplete or inaccurate, our results may be different and our calculations may need to be revised.

Limited Use

Actuarial computations presented here were prepared to determine the amount of the Plan's SFA as outlined in section 4262(j)(1) of the Employee Retirement Income Security Act of 1974 (ERISA) and PBGC's SFA Final Rule (29 CFR part 4262.4). Determinations for other purposes may yield significantly different results from those shown in this report. Other calculations may be needed for other purposes, such as judging benefit security at termination.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to factors such as, but not limited to the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used

for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on plan funded status); and changes in plan provisions or applicable law.

Application Checklist

v20221129p

Instructions for Section E, Item 1 of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance (SFA):

The Application to PBGC for Approval of Special Financial Assistance Checklist ("Application Checklist" or "Checklist") identifies all information required to be filed with an initial or revised application. For a supplemented application, instead use "Application Checklist - Supplemented." The Application Checklist is not required for a lock-in application.

For a plan required to submit additional information described in Addendum A of the SFA Filing Instructions, also complete Checklist Items #39.a. to #48.b., and if there is a merger as described in Addendum A, also complete Checklist Items #49 through #62.

Applications (including this Application Checklist), with the exception of lock-in applications, must be submitted to PBGC electronically through PBGC's e-Filing Portal, (https://efilingportal.pbgc.gov/site/). After logging into the e-Filing Portal, go to the Multiemployer Events section and click "Create New ME Filing." Under "Select a filing type," select "Application for Financial Assistance – Special." Note: revised and supplemented applications must be submitted by selecting "Create New ME Filing."

Note: If you go to the e-Filing Portal and do not see "Application for Financial Assistance – Special" under the "Select a Filing Type," then the e-Filing Portal is temporarily closed and PBGC is not accepting applications (other than lock-in applications) at the time, unless the plan is eligible to make an emergency filing under § 4262.10(f). PBGC's website, *www.pbgc.gov* , will be updated when the e-Filing Portal reopens for applications. PBGC maintains information on its website at *www.pbgc.gov* to inform prospective applicants about the current status of the e-Filing portal, as well as to provide advance notice of when PBGC expects to open or temporarily close the e-Filing Portal.

General instructions for completing the Application Checklist:

Complete all items that are shaded:

If required information was already filed: (1) through PBGC's e-Filing Portal; or (2) through any means for an insolvent plan, a plan that has received a partition, or a plan that submitted an emergency filing, the filer may either upload the information with the application or include a statement in the Plan Comments section of the Application Checklist indicating the date on which and the submission with which the information was previously filed. For any such items previously provided, enter N/A as the **Plan Response**.

For a revised application, the filer may, but is not required to, submit an entire application. For all Application Checklist Items that were previously filed that are not being changed, the filer may include a statement in the Plan Comments section of the Application Checklist to indicate that the other information was previously provided as part of the initial application. For each, enter N/A as the **Plan Response**.

Instructions for specific columns:

Plan Response: Provide a response to each item on the Application Checklist, using only the **Response Options** shown for each Checklist Item.

Name(s) of Files Uploaded: Identify the full name of the file or files uploaded that are responsive to the Checklist Item. The column **Upload as Document Type** provides guidance on the "document type" to select when submitting documents on PBGC's e-Filing Portal.

Page Number Reference(s): For Checklist Items #21 to #28c, submit all information in a single document and identify here the relevant page numbers for each such Checklist Item.

Plan Comments: Use this column to provide explanations for any **Plan Response** that is N/A, to respond as may be specifically identified for Checklist Items, and to provide any optional explanatory comments.

Additional guidance is provided in the following columns:

Upload as Document Type: When uploading documents in PBGC's e-Filing Portal, select the appropriate Document Type for each document that is uploaded. This column provides guidance on the Document Type to select for each Checklist Item. You may upload more than one document using the same Document Type, and there may be Document Types on the e-Filing Portal for which you have no documents to upload.

Required Filenaming (if applicable): For certain Checklist Items, a specified format for naming the file is required.

SFA Instructions Reference: Identifies the applicable section and item number in PBGC's Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance.

You must select N/A if a Checklist Item # is not applicable to your application. Your application will be considered incomplete if No is entered as a Plan Response for any of Checklist Items #1 through #38 on the Application Checklist. If there has been an event as described in § 4262.4(f), complete Checklist Items #39.a. through #48.b., and if there has been a merger described in Addendum A, also complete Checklist Items #49 through #62. Your application will be considered incomplete if No is entered as a Plan Response for any of Checklist Items #39.a. through #48.b. if you are required to complete Checklist Items # 39a through #48b. Your application will also be considered incomplete if No is entered as a Plan Response for any of Checklist Items #49 through #62 if you are required to complete Checklist Items #49 through #62.

If a Checklist Item # asks multiple questions or requests multiple items, the Plan Response should only be Yes if the plan is providing all information requested for that Checklist Item.

Note, a Yes or No response is also required for Checklist Items #a through #f.

Note, in the case of a plan applying for priority consideration, the plan's application must also be submitted to the Treasury Department. If that requirement applies to an application, PBGC will transmit the application to the Treasury Department on behalf of the plan. See IRS Notice [NOTICE] for further information.

All information and documentation, unless covered by the Privacy Act, that is included in an SFA application may be posted on PBGC's website at *www.pbgc.gov* or otherwise publicly disclosed, without additional notification. Except to the extent required by the Privacy Act, PBGC provides no assurance of confidentiality in any information included in an SFA application.

Issued November 8, 2018

April 1, 2018 Actuarial Valuation of the American Federation of Musicians & Employers' Pension Fund

The actuarial valuation of the American Federation of Musicians & Employers' Pension Fund (the "Plan") for the plan year beginning April 1, 2018 has been completed in accordance with our understanding of the minimum funding requirements under ERISA and the Pension Protection Act of 2006 as well as the applicable sections of the Internal Revenue Code (IRC), including all regulations and guidance issued to date. It also has been completed in accordance with our understanding of FASB ASC Topic 960 for determining plan accounting requirements. The valuation results contained in this report are based on the actuarial assumptions and the actuarial methods (Appendix A), and principal plan provisions (Appendix B) summarized in the appendices.

Purpose of the Valuation

In general, the actuarial valuation determines the current level of employer contributions that, taking into account prior funding, will accumulate assets sufficient to meet benefit payments and administrative expenses when due under the terms of the Plan. This report has been prepared for the American Federation of Musicians & Employers' Pension Fund as of April 1, 2018 to:

- Calculate the Minimum Required Contribution for the plan year beginning April 1, 2018.
- Calculate the Maximum Deductible Contribution for the 2018 fiscal year.
- Determine the actuarial Present Value of Accumulated Plan Benefits as of March 31, 2018 for purposes of disclosing the Plan's liabilities under FASB ASC Topic 960.
- Determine the Plan's unfunded vested benefit liability as of March 31, 2018 for withdrawal liability purposes calculated in accordance with the requirements of the Multiemployer Pension Plan Amendments Act of 1980.
- Review the Plan's funded status.
- Review the experience for the plan year ending March 31, 2018, including the performance of the Plan's assets during the year and changes in the Plan's participant demographics that impact liabilities.
- Provide operational information required for governmental agencies and other interested parties.

Limited Distribution

Milliman's work is prepared solely for the internal business use of the Board of Trustee of American Federation of Musicians & Employer's Pension Fund and the Plan's Trustees and may not be provided to third parties without our prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of its work product. Milliman's consent to release its work product to any third party may be conditioned on the third party signing a release, subject to the following exceptions:

- The Plan Sponsor may provide a copy of Milliman's work, in its entirety, to the Plan's professional service advisors who are subject to a duty of confidentiality and who agree to not use Milliman's work for any purpose other than to benefit the Plan.
- The Plan Sponsor may distribute certain work product that Milliman and the Plan Sponsor mutually agree is appropriate as may be required by the Pension Protection Act of 2006.

Any third party recipient of this work product who desires professional guidance should not rely upon Milliman's work product, but should engage qualified professionals for advice appropriate to its own specific needs.

Reliance

In preparing this report, we relied, without audit, on information (both written and oral) supplied by the Fund Administration office. This information includes, but is not limited to, plan documents and summaries, participant

data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is incomplete or inaccurate, our results may be different and our calculations may need to be revised.

Limited Use

Actuarial computations for purposes other than determining the contribution requirements for an ongoing plan (such as for assessing benefit security upon potential plan termination) may yield significantly different results from those shown in this report.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to factors such as, but not limited to, the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on plan funded status); and changes in plan provisions or applicable law. Due to the limited scope of the actuarial assignment, we did not perform an analysis of the potential range of such future measurements.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

Certification

In our opinion, each assumption used, other than those assumptions mandated directly by the Internal Revenue Code and regulations thereon, is individually reasonable (taking into account the experience of the Plan and reasonable expectations) and, in combination, such other assumptions offer our best estimate of anticipated experience under the Plan.

On the basis of the foregoing, we hereby certify that to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the principles prescribed by the Actuarial Standards Board and the Code of Professional Conduct and Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States promulgated by the American Academy of Actuaries. We are members of the American Academy of Actuaries and meet its Qualification Standards to render the actuarial opinion contained herein.

Respectfully submitted,

B. Purpose of the Valuation

This report has been prepared for the American Federation of Musicians & Employers' Pension Fund as of April 1, 2018 to:

- Calculate the Minimum Required Contribution for the plan year beginning April 1, 2018.
- Calculate the Maximum Deductible Contribution for the 2018 fiscal year.
- Determine the actuarial Present Value of Accumulated Plan Benefits as of March 31, 2018 for purposes of disclosing the Plan's liabilities under PPA 2006 and FASB ASC Topic 960.
- Determine the Plan's unfunded vested benefit liability as of March 31, 2018 for withdrawal liability purposes calculated in accordance with the requirements of the Multiemployer Pension Plan Amendments Act of 1980.
- Review the Plan's funded status.
- Review the experience for the plan year ending March 31, 2018, including the performance of the Plan's assets during the year and changes in the Plan's participant demographics that impact liabilities.
- Provide operational information required for governmental agencies and other interested parties.

  - 2.98% for current liability purposes.
  - March 2018 PBGC interest rates for mass withdrawal purposes of 2.39% for first 20 years and ultimate rate of 2.60% for unfunded vested benefit liability for withdrawal liability calculations.

- **Mortality:**

  Employee: RP-2014 Employee Mortality Table adjusted to reflect Mortality Improvement Scale MP-2017 from 2006 base year, and projected forward using MP-2017 on a generational basis for males and females

  Annuitant: RP-2014 Annuitant Mortality Table adjusted to reflect Mortality Improvement Scale MP-2017 from 2006 base year, and projected forward using MP-2017 on a generational basis for males and females

  Disabled: RP-2014 Disabled Annuitant Mortality Table adjusted to reflect Mortality Improvement Scale MP-2017 from 2006 base year, and projected forward using MP-2017 on a generational basis for males and females.

  Mortality Rates Used in Conjunction with Full Funding Limitation Computations

  Test I (ERISA): Based on the Plan's mortality, as defined above.

  Test II (RPA '94): RP-2014 mortality table (male and female rates) with projection for mortality improvement, updated annually, as mandated by the IRS.

- **Termination Rates:**

  Termination rates have been separated into two groups.

  Sample rates are shown below for participants who earned less than $10,000 in the plan year prior to the valuation date:

Years of Service				
Attained Age	0-2* (Select)	2-3 (Select)	3-4 (Select)	4 or More (Ultimate)
20	35.0%	30.0%	20.0%	20.0%
25	35.0	30.0	20.0	20.0
30	40.0	35.0	25.0	20.0

64	45.0	35.0	30.0	20.0
65	0.0	0.0	0.0	0.0

* Participants with less than one year of service are not included for valuation purposes. Therefore, this select period with respect to the present value of benefits only impacts participants who have accrued between 1 and 2 years of vesting service as of the valuation date. Nonetheless, this select period has an impact on the Normal Cost (which spreads liability from entry age to retirement age) for all participants.

Sample rates are shown below for participants who earned $10,000 or more in the plan year prior to the valuation date:

Attained Age	Termination Rate
20	6.0%
25	6.0%
30	6.0%
35	4.0%
40	4.0%
45	4.0%
50	3.0%
55	3.0%
60	3.0%
64	3.0%
65	0.0%

- **Retirement Rates:**

  Retirement rates used are shown below:

Attained Age	Retirement Rate
55-61	1.0%
62-63	2.0
64	15.0
65	50.0
66-69	20.0
70 and Over	100.0

The weighted average retirement age is 65.6.

- **Disability Rates:**

  None.

- **Pre-Retirement Death Benefits:**

  80% of the participants are assumed to have beneficiaries. Male participants are assumed to be three years older than female beneficiaries and female participants are assumed to be three years younger than male beneficiaries.

- **Administrative Expenses:**

  The average of the prior two years' administrative expenses, increased by 2.25%. For FASB ASC Topic 960 plan accounting, the present value of the administrative expenses was calculated by projecting the payment of expected administrative expenses for the duration of the Plan's liabilities. The duration of the Plan's liabilities was calculated to be 12 years at April 1, 2018 and 13 years at April 1, 2017. Projected administrative expenses were increased 2.25% per annum after the valuation year, then discounted using the Plan's investment return assumption of 7.5% as of April 1, 2018 and April 1, 2017.

- **Future Benefits Accruals:**

  Future years' contributions for each active employee are assumed to increase by 2.25% per year from those contributions reported for the prior pension credit year.

- **Post Retirement Benefit Accruals:**

  Sample contribution amounts used are shown below:

Attained Age	Annual Contribution Amount
65-75	$600
76-80	480
81-85	360
86-90	240
91-95	120

- **Benefit Limitations:**

  The Section 415 limit of $195,000* is applied on an aggregate basis but the participant's total benefit at December 31, 2007 is applied on an employer-by-employer basis using a Section 415 limit of $180,000.

  The Section 401(a)(17) limit of $245,000* is applied on an employer-by-employer basis. For valuation purposes, the Section 401(a)(17) limit is assumed to not apply for future accruals.

  * The limits do not change based on automatic cost-of-living adjustments. Rather, the limits will remain at the noted levels above until the Trustees amend the plan.

- **Assumed Age of Commencement of Deferred Benefits:**

  Age 65.

- **Unreported Data:**

  Active participants with unreported data (gender, date of birth) are assumed to have characteristics of the average group. If not easily determined, participants with unknown sex are assumed to be male.

- **Rationale for Significant Assumptions**

  Investment Return for ERISA minimum funding and FASB ASC Topic 960 plan accounting: Selected based on the Plan's target asset allocation as of the valuation date, capital market assumptions from several sources, including published studies summarizing the expectations of various investment experts. This information was used to develop forward-looking long-term expected returns, producing a range of reasonable expectations according to industry experts. Based on the resulting range of potential assumptions, in our professional judgement the selected investment return assumption is reasonable for this purpose and is not expected to have any significant bias.

  Investment Return for withdrawal liability: Rates of return used by the PBGC to value annuities under a mass withdrawal. Withdrawal liability is used to allocate a portion of Unfunded Vested Benefits to employers who withdraw from the fund. A withdrawal is viewed as a settlement similar to an annuity purchase where the transfer of investment risk for a portion of a plan's liabilities is assumed by an insurance company. Use of the PBGC rates reflects the fact that a withdrawn employer transfers investment risk to the remaining employers. As such it is reasonable to use PBGC interest rates that are used to measure plan termination liabilities and which are considered comparable to rates used by insurance companies for annuities to measure the financial obligation of the withdrawing employer. In our professional judgement, the selected investment return assumption for withdrawal liability is reasonable for this purpose and is not expected to have any significant bias.

  Mortality: Based on recent pension mortality research conducted by the Society of Actuaries as of the April 1, 2018 valuation date.

  Retirement Rates: Based on analysis of retirements experienced by the Plan from April 2011 through April 2016.

Actuarial Cost Methods

- **Liability Valuation Method:**

  The Entry Age Normal actuarial cost method where Normal Cost is determined based on projected benefits for current active participants using each individual participant's actual entry age. Entry age is the age at date of employment or if date is unknown, attained age minus pension credits. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service. Projected benefits are based on benefits as if the current benefit accrual rate had always been in effect.

- **Asset Valuation Method:**

  The market value of assets is adjusted by smoothing the differences between the expected market value of assets and the actual market value of assets from the past five years. In accordance with the special asset valuation rule under funding relief, the amount of the difference in expected market value of assets and the actual market value of assets for the plan year ending March 31, 2009 is amortized over a 10-year period. The expected value of assets for each year is the market value of assets at the valuation date for the prior year brought forward with interest at the valuation rate to the current year plus contributions minus benefit payments and administrative expenses, all adjusted with interest at the valuation rate from the prior year to the valuation date for the current year. The actuarial value of assets is the resulting amount except if the resulting amount is greater than 120% of the market value, actuarial value of assets is set equal to 120% of market value of assets and if the resulting amount is less than 80% of the market value, actuarial value of assets is set equal to 80% of market value of assets.

  For purposes of determining the unfunded vested benefit liability for withdrawal liability calculations, the asset valuation method is market value.

- **Special amortization rule:**

  The Plan's investment loss for the Plan year ended March 31, 2009 is treated separately from other investment gains/losses, to be amortized in equal installments over the period beginning from April 1, 2009 through March 31, 2039.

  The portion of the net experience loss is based on the prospective method as described in Notice 2010-83. The schedule of amortization bases is as follows:

Year	Amount (Gain)/Loss	Years in Amortization Base*	Years in Offset Base*
4/1/09	$ 545,478,705	29	15
4/1/10	(124,097,819)	28	15
4/1/11	153,283,704	27	15
4/1/12	21,184,391	26	15
4/1/13	63,061,837	25	15
4/1/14	45,271,288	24	15
	$ 704,182,106*		

* The total loss of $704,182,106 equals the investment loss for the year ended March 31, 2009.

Appendix B – Summary of Principal Plan Provisions

Effective Date

November 16, 1959. The plan was amended and restated effective January 1, 2014.

Participation

An eligible employee becomes a participant on January 1 of the year in which the participant earns $750 in Covered Earnings by an Employer who is required to make contributions to the Fund.

Normal Retirement Age

Age 65 or if later, the date on which a Participant completes five years of participation in the Plan.

Vesting Service

Vesting Service is based on the Covered Earnings earned in each calendar year, as follow:

Covered Earnings	Years of Vesting Service
< $750	0.00
$750 - $1,499	0.25
$1,500 - $2,249	0.50
$2,250 - $2,999	0.75
>= $3,000	1.00

A Participant becomes vested upon completion of 5 years of Vesting Service or upon attainment of Normal Retirement Age.

Regular Pension Benefit

A Participant is eligible to receive a Regular Pension Benefit at Normal Retirement Age or at age 55 with 5 years Vesting Service.

Regular Pension Benefit is calculated by multiplying each $100 of vested contributions earned by a Benefit Multiplier (a specific dollar amount). The monthly benefit amount under the Life Annuity form of payment is calculated in accordance with the following tables:

Effective June 1, 2010 Monthly Amount per $100 of Vested Contributions					
Age	For Contributions for Covered Employment before 1/1/04	For Contributions for Covered Employment Between 1/1/04 and 3/31/07	For Contributions for Covered Employment Between 4/1/07 and 4/30/09	For Contributions for Covered Employment Between 5/1/09 and 12/31/09	For Contributions For Covered Employment on and after 1/1/10
55	$1.70	$1.28	$1.19	$0.73	$0.37
56	1.86	1.40	1.30	0.80	0.40
57	2.05	1.54	1.43	0.88	0.44
58	2.26	1.70	1.58	0.97	0.49
59	2.48	1.87	1.74	1.07	0.53
60	2.75	2.07	1.92	1.18	0.59
61	3.04	2.29	2.13	1.31	0.65
62	3.36	2.53	2.35	1.45	0.72
63	3.75	2.82	2.62	1.61	0.80
64	4.16	3.13	2.91	1.79	0.90
65	4.65	3.50	3.25	2.00	1.00

For participants who retire after Normal Retirement Age, the monthly benefit is the regular pension amount at Normal Retirement Age actuarially increased to account for delayed retirement.

Disability Pension Benefits

An active participant who has completed at least 10 years of Vesting Service, who has stopped working in Covered Employment because of a condition of Total Disability, and who has not started to receive a Regular Pension Benefit, is eligible for a Disability Pension Benefit.

The monthly Disability Pension Benefit is calculated by multiplying each $100 of contributions by the applicable age-65 Benefit Multipliers, actuarially reduced to participant's actual age as of the effective date of Disability Pension Benefit.

Pre-Retirement Death Benefits

If a vested participant who has not yet retired dies after age 55, the participant's beneficiary will receive a benefit equal to the benefit the beneficiary would have received had the participant retired on his date of death and elected to receive a 50% Joint and Survivor Annuity.

If a vested participant dies before age 55, the beneficiary's benefit is actuarially equivalent to the 50% Joint and Survivor Annuity at age 55.

Post-Retirement Death Benefits

If a vested participant dies after his or her benefit begins and the pension benefit was being paid as a Joint and Survivor Annuity, the Joint Annuitant will receive 50% of the participant's monthly benefit for his or her lifetime; if the pension benefit was being paid as Life Annuity, the remaining balance of the guaranteed benefit will be paid.

Re-Retirement Benefits

If a participant retires before his or her Normal Retirement Age, later returns to Covered Employment, and earns $50 or more of contributions in at least one calendar year between his or her initial pension Benefit Annuity Start Date and Normal Retirement Age, an additional benefit calculated based on the contributions made on the participant's behalf during that period will be paid as of the first of the month after the participant reaches Normal Retirement Age.

Redetermination Benefits

If a pensioner returns to Covered Employment and earns $50 or more of contributions in a calendar year after Normal Retirement Age, he or she will earn an additional pension benefit. This redetermination benefit is calculated each July 1st based on contributions for Covered Employment earned during the previous calendar year. The redetermination benefit is based on the age-65 Benefit Multiplier in effect at the end of the previous calendar year and is offset by the actuarial equivalent of any redetermination benefit received in the previous year that is based on contributions earned after 2003.

Normal Form of Payment

If a participant has an eligible spouse as of his or her Annuity Starting Date, the normal form of payment is Joint and Survivor Annuity. If a participant does not have an eligible spouse as of the Annuity Starting Date, the normal form of payment will be Single Life Annuity with respect to any benefit earned on and after January 1, 2004. If a portion of the participant's benefit was based on contributions earned prior to January 1, 2004, there is a guaranteed amount of 100 times that portion of the participant's benefit. The guaranteed feature is eliminated for benefit with an annuity starting date on or after June 1, 2010.

April 1, 2019 Actuarial Valuation of the American Federation of Musicians & Employers' Pension Fund

The actuarial valuation of the American Federation of Musicians & Employers' Pension Fund (the "Plan") for the plan year beginning April 1, 2019 has been completed in accordance with our understanding of the minimum funding requirements under ERISA and the Pension Protection Act of 2006 as well as the applicable sections of the Internal Revenue Code (IRC), including all regulations and guidance issued to date. It also has been completed in accordance with our understanding of FASB ASC Topic 960 for determining plan accounting requirements. The valuation results contained in this report are based on the actuarial assumptions and the actuarial methods (Appendix A), and principal plan provisions (Appendix B) summarized in the appendices. In addition, Appendix C contains information about the Plan's risks.

Purpose of the Valuation

In general, the actuarial valuation determines the current level of employer contributions that, taking into account prior funding, will accumulate assets sufficient to meet benefit payments and administrative expenses when due under the terms of the Plan. This report has been prepared for the American Federation of Musicians & Employers' Pension Fund as of April 1, 2019 to:

- Calculate the Minimum Required Contribution for the plan year beginning April 1, 2019.
- Calculate the Maximum Deductible Contribution for the 2019 fiscal year.
- Determine the actuarial Present Value of Accumulated Plan Benefits as of March 31, 2019 for purposes of disclosing the Plan's liabilities under FASB ASC Topic 960.
- Determine the Plan's unfunded vested benefit liability as of March 31, 2019 for withdrawal liability purposes calculated in accordance with the requirements of the Multiemployer Pension Plan Amendments Act of 1980.
- Review the Plan's funded status.
- Review the experience for the plan year ending March 31, 2019, including the performance of the Plan's assets during the year and changes in the Plan's participant demographics that impact liabilities.
- Provide operational information required for governmental agencies and other interested parties.

Any third party recipient of this work product who desires professional guidance should not rely upon Milliman's work product, but should engage qualified professionals for advice appropriate to its own specific needs.

Reliance

In preparing this report, we relied, without audit, on information (both written and oral) supplied by the Fund Administration office. This information includes, but is not limited to, plan documents and summaries, participant

data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is incomplete or inaccurate, our results may be different and our calculations may need to be revised.

Limited Use

Actuarial computations for purposes other than determining the contribution requirements for an ongoing plan (such as for assessing benefit security upon potential plan termination) may yield significantly different results from those shown in this report.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to factors such as, but not limited to, the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on plan funded status); and changes in plan provisions or applicable law. Except for the information provided in Appendix C, due to the limited scope of the actuarial assignment, we did not perform an analysis of the potential range of such future measurements.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

Certification

In our opinion, each assumption used, other than those assumptions mandated directly by the Internal Revenue Code and regulations thereon, is individually reasonable (taking into account the experience of the Plan and reasonable expectations) and, in combination, such other assumptions offer our best estimate of anticipated experience under the Plan.

On the basis of the foregoing, we hereby certify that to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the principles prescribed by the Actuarial Standards Board and the Code of Professional Conduct and Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States promulgated by the American Academy of Actuaries. We are members of the American Academy of Actuaries and meet its Qualification Standards to render the actuarial opinion contained herein.

B. Purpose of the Valuation

In general, the actuarial valuation determines the current level of employer contributions that, taking into account prior funding, will accumulate assets sufficient to meet benefit payments and administrative expenses when due under the terms of the Plan. This report has been prepared for the American Federation of Musicians & Employers' Pension Fund as of April 1, 2019 to:

- Calculate the Minimum Required Contribution for the plan year beginning April 1, 2019.
- Calculate the Maximum Deductible Contribution for the 2019 fiscal year.
- Determine the actuarial Present Value of Accumulated Plan Benefits as of March 31, 2019 for purposes of disclosing the Plan's liabilities under PPA 2006 and FASB ASC Topic 960.
- Determine the Plan's unfunded vested benefit liability as of March 31, 2019 for withdrawal liability purposes calculated in accordance with the requirements of the Multiemployer Pension Plan Amendments Act of 1980.
- Review the Plan's funded status.
- Review the experience for the plan year ending March 31, 2019, including the performance of the Plan's assets during the year and changes in the Plan's participant demographics that impact liabilities.
- Provide operational information required for governmental agencies and other interested parties.

C. Risk Disclosure

The Plan's risk is the potential that future actuarial measurements will differ from the current measurements presented in this report because future experience is different than expected. Risks include investment risk, asset / liability mismatch risk, interest rate risk, longevity and other demographic risks, and contribution risk. As required by Actuarial Standard of Practice No. 51 *Assessment and Disclosure of Risk Associated with Measuring Pension Obligations and Determining Pension Plan Contributions*, Appendix C provides information on the Plan's risks.

D. Actuarial Methods and Assumptions

The methods and assumptions used in this valuation are the same as those used in the prior valuation except as follows:

- The mortality projection scale was changed to MP-2019 from MP-2017.
- Assumed retirement rates after termination were changed to a graded scale from 100% at 65.
- Assumed form of payment election was changed to 45% electing Single Life Annuity, 30% electing 50% Joint & Survivor Annuity, and 25% electing 75% Joint & Survivor Annuity from 100% electing Single Life Annuity.
- Post-retirement accruals were modified.
- Lost participants are assumed to be owed benefits.
- For Current Liability purposes, the interest rate was changed to 3.08% from 2.98% in accordance with IRS guidance. (The statutory mortality tables also have been updated as required by the law)
- For withdrawal liability purposes, the interest rate was changed to 3.09% for the first 20 years and ultimate rate of 2.84% from 2.39% for the first 20 years and ultimate rate of 2.60%.

These changes resulted in an increase in plan liabilities. Please see Appendix A for a complete summary of all methods and assumptions used in this valuation.

E. Plan Provisions

This valuation reflects the plan provisions in effect on April 1, 2019, which are the same provisions that were valued in the April 1, 2018 actuarial valuation report.

  - 7.50% (net of investment-related administrative expenses) for ERISA minimum funding and FASB ASC Topic 960 plan accounting.
  - 3.08% for current liability purposes.
  - March 2019 PBGC interest rates for mass withdrawal purposes of 3.09% for first 20 years and ultimate rate of 2.84% for unfunded vested benefit liability for withdrawal liability calculations.

- **Mortality:**

  Employee: RP-2014 Employee Mortality Table adjusted to reflect Mortality Improvement Scale MP-2019 from 2006 base year, and projected forward using MP-2019 on a generational basis for males and females

  Annuitant: RP-2014 Annuitant Mortality Table adjusted to reflect Mortality Improvement Scale MP-2019 from 2006 base year, and projected forward using MP-2019 on a generational basis for males and females

  Disabled: RP-2014 Disabled Annuitant Mortality Table adjusted to reflect Mortality Improvement Scale MP-2019 from 2006 base year, and projected forward using MP-2019 on a generational basis for males and females.

  Mortality Rates Used in Conjunction with Full Funding Limitation Computations

  Test I (ERISA): Based on the Plan's mortality, as defined above.

  Test II (RPA '94): RP-2014 mortality table (male and female rates) with projection for mortality improvement, updated annually, as mandated by the IRS.

- **Termination Rates:**

  Termination rates have been separated into two groups.

Sample rates are shown below for participants who earned less than $10,000 in the plan year prior to the valuation date:

* Participants with less than one year of service are not included for valuation purposes. Therefore, this select period with respect to the present value of benefits only impacts participants who have accrued between 1 and 2 years of vesting service as of the valuation date. Nonetheless, this select period has an impact on the Normal Cost (which spreads liability from entry age to retirement age) for all participants.

  The average of the prior two years' administrative expenses, increased by 2.25%. For FASB ASC Topic 960 plan accounting, the present value of the administrative expenses was calculated by projecting the payment of expected administrative expenses for the duration of the Plan's liabilities. The duration of the Plan's liabilities was calculated to be 12 years at April 1, 2019 and 12 years at April 1, 2018. Projected administrative expenses were increased 2.25% per annum after the valuation year, then discounted using the Plan's investment return assumption of 7.5% as of April 1, 2019 and April 1, 2018.

- **Benefit Limitations:**

  The Section 415 limit of $195,000* is applied on an aggregate basis but the participant's total benefit at December 31, 2007 is applied on an employer-by-employer basis using a Section 415 limit of $180,000.

  The Section 401(a)(17) limit of $245,000* is applied on an employer-by-employer basis. For valuation purposes, the Section 401(a)(17) limit is assumed to not apply for future accruals.

  * The limits do not change based on automatic cost-of-living adjustments. Rather, the limits will remain at the noted levels above until the Trustees amend the plan.

- **Assumptions regarding missing or incomplete data:**

  Lost Participants: Assume 100% of lost participants will receive benefits. Lost participants over age 70½ receive actuarial increase from Normal Retirement Date to Required Beginning Date. In addition, a one-time payment of missed payments from Required Beginning Date to the valuation date with interest at 7.5%.

Summary of Lost Participants as of 4/1/2019	
Count	541
Average Age	65
Average Annual Benefit	$2,623
One-Time Payment	$6.5M

  Unreported Data: Active participants with unreported data (gender, date of birth) are assumed to have characteristics of the average group. If not easily determined, participants with unknown sex are assumed to be male.

- **Rationale for Significant Assumptions**

  Investment Return for ERISA minimum funding and FASB ASC Topic 960 plan accounting: Selected based on the Plan's target asset allocation as of the valuation date, capital market assumptions from several sources, including published studies summarizing the expectations of various investment experts. This information was used to develop forward-looking long-term expected returns, producing a range of reasonable expectations according to industry experts. Based on the resulting range of potential assumptions, in our professional judgement the selected investment return assumption is reasonable for this purpose and is not expected to have any significant bias.

  Investment Return for withdrawal liability: Rates of return used by the PBGC to value annuities under a mass withdrawal. Withdrawal liability is used to allocate a portion of Unfunded Vested Benefits to employers who withdraw from the fund. A withdrawal is viewed as a settlement similar to an annuity purchase where the transfer of investment risk for a portion of a plan's liabilities is assumed by an insurance company. Use of the PBGC rates reflects the fact that a withdrawn employer transfers investment risk to the remaining employers. As such it is reasonable to use PBGC interest rates that are used to measure plan termination liabilities and which are considered comparable to rates used by insurance companies for annuities to measure the financial obligation of the withdrawing employer. In our professional judgement, the selected investment return assumption for withdrawal liability is reasonable for this purpose and is not expected to have any significant bias.

  Mortality: Based on recent pension mortality research conducted by the Society of Actuaries as of the April 1, 2019 valuation publication date.

  Retirement Rates: Based on analysis of retirements experienced by the Plan from April 2011 through April 2016.

- **Changes in Assumptions from Prior Valuation**

  The methods and assumptions used in this valuation are the same as those used in the prior valuation except as follows:

  - The mortality projection scale was changed to MP-2019 from MP-2017.
  - Assumed retirement rates after termination were changed to a graded scale from 100% at 65.
  - Assumed form of payment election was changed to 45% electing Single Life Annuity, 30% electing 50% Joint & Survivor Annuity, and 25% electing 75% Joint & Survivor Annuity from 100% electing Single Life Annuity.
  - Post-retirement accruals were modified.
  - Lost participants are assumed to be owed benefits.

  These changes resulted in an increase in plan liabilities.

Actuarial Cost Methods

- **Liability Valuation Method:**

  The Entry Age Normal actuarial cost method where Normal Cost is determined based on projected benefits for current active participants using each individual participant's actual entry age. Entry age is the age at date of employment or if date is unknown, attained age minus pension credits. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service. Projected benefits are based on benefits as if the current benefit accrual rate had always been in effect.

- **Asset Valuation Method:**

  The market value of assets is adjusted by smoothing the differences between the expected market value of assets and the actual market value of assets from the past five years. In accordance with the special asset valuation rule under funding relief, the amount of the difference in expected market value of assets and the actual market value of assets for the plan year ending March 31, 2009 is amortized over a 10-year period. The expected value of assets for each year is the market value of assets at the valuation date for the prior year brought forward with interest at the valuation rate to the current year plus contributions minus benefit payments and administrative expenses, all adjusted with interest at the valuation rate from the prior year to the valuation date for the current year. The actuarial value of assets is the resulting amount except if the resulting amount is greater than 120% of the market value, actuarial value of assets is set equal to 120% of market value of assets and if the resulting amount is less than 80% of the market value, actuarial value of assets is set equal to 80% of market value of assets.

  For purposes of determining the unfunded vested benefit liability for withdrawal liability calculations, the asset valuation method is market value.

- **Special amortization rule:**

  The Plan's investment loss for the Plan year ended March 31, 2009 is treated separately from other investment gains/losses, to be amortized in equal installments over the period beginning from April 1, 2009 through March 31, 2039.

  The portion of the net experience loss is based on the prospective method as described in Notice 2010-83. The schedule of amortization bases is as follows:

Year	Amount (Gain)/Loss	Years in Amortization Base*	Years in Offset Base*
4/1/09	$ 545,478,705	29	15
4/1/10	(124,097,819)	28	15
4/1/11	153,283,704	27	15
4/1/12	21,184,391	26	15
4/1/13	63,061,837	25	15
4/1/14	45,271,288	24	15
	$ 704,182,106*		

* The total loss of $704,182,106 equals the investment loss for the year ended March 31, 2009.

Appendix B – Summary of Principal Plan Provisions

Effective Date

November 16, 1959. The plan was amended and restated effective January 1, 2014.

Participation

An eligible employee becomes a participant on January 1 of the year in which the participant earns $750 in Covered Earnings by an Employer who is required to make contributions to the Fund.

Normal Retirement Age

Age 65 or if later, the date on which a Participant completes five years of participation in the Plan.

Vesting Service

Vesting Service is based on the Covered Earnings earned in each calendar year, as follow:

Covered Earnings	Years of Vesting Service
< $750	0.00
$750 - $1,499	0.25
$1,500 - $2,249	0.50
$2,250 - $2,999	0.75
>= $3,000	1.00

A Participant becomes vested upon completion of 5 years of Vesting Service or upon attainment of Normal Retirement Age.

Regular Pension Benefit

A Participant is eligible to receive a Regular Pension Benefit at Normal Retirement Age or at age 55 with 5 years Vesting Service.

Regular Pension Benefit is calculated by multiplying each $100 of vested contributions earned by a Benefit Multiplier (a specific dollar amount). The monthly benefit amount under the Life Annuity form of payment is calculated in accordance with the following tables:

Effective June 1, 2010 Monthly Amount per $100 of Vested Contributions					
Age	For Contributions for Covered Employment before 1/1/04	For Contributions for Covered Employment Between 1/1/04 and 3/31/07	For Contributions for Covered Employment Between 4/1/07 and 4/30/09	For Contributions for Covered Employment Between 5/1/09 and 12/31/09	For Contributions For Covered Employment on and after 1/1/10
55	$1.70	$1.28	$1.19	$0.73	$0.37
56	1.86	1.40	1.30	0.80	0.40
57	2.05	1.54	1.43	0.88	0.44
58	2.26	1.70	1.58	0.97	0.49
59	2.48	1.87	1.74	1.07	0.53
60	2.75	2.07	1.92	1.18	0.59
61	3.04	2.29	2.13	1.31	0.65
62	3.36	2.53	2.35	1.45	0.72
63	3.75	2.82	2.62	1.61	0.80
64	4.16	3.13	2.91	1.79	0.90
65	4.65	3.50	3.25	2.00	1.00

For participants who retire after Normal Retirement Age, the monthly benefit is the regular pension amount at Normal Retirement Age actuarially increased to account for delayed retirement.

Disability Pension Benefits

An active participant who has completed at least 10 years of Vesting Service, who has stopped working in Covered Employment because of a condition of Total Disability, and who has not started to receive a Regular Pension Benefit, is eligible for a Disability Pension Benefit.

The monthly Disability Pension Benefit is calculated by multiplying each $100 of contributions by the applicable age-65 Benefit Multipliers, actuarially reduced to participant's actual age as of the effective date of Disability Pension Benefit.

Pre-Retirement Death Benefits

If a vested participant who has not yet retired dies after age 55, the participant's beneficiary will receive a benefit equal to the benefit the beneficiary would have received had the participant retired on his date of death and elected to receive a 50% Joint and Survivor Annuity.

If a vested participant dies before age 55, the beneficiary's benefit is actuarially equivalent to the 50% Joint and Survivor Annuity at age 55.

Post-Retirement Death Benefits

If a vested participant dies after his or her benefit begins and the pension benefit was being paid as a Joint and Survivor Annuity, the Joint Annuitant will receive 50% of the participant's monthly benefit for his or her lifetime; if the pension benefit was being paid as Life Annuity, the remaining balance of the guaranteed benefit will be paid.

Re-Retirement Benefits

If a participant retires before his or her Normal Retirement Age, later returns to Covered Employment, and earns $50 or more of contributions in at least one calendar year between his or her initial pension Benefit Annuity Start Date and Normal Retirement Age, an additional benefit calculated based on the contributions made on the participant's behalf during that period will be paid as of the first of the month after the participant reaches Normal Retirement Age.

Redetermination Benefits

If a pensioner returns to Covered Employment and earns $50 or more of contributions in a calendar year after Normal Retirement Age, he or she will earn an additional pension benefit. This redetermination benefit is calculated each July 1st based on contributions for Covered Employment earned during the previous calendar year. The redetermination benefit is based on the age-65 Benefit Multiplier in effect at the end of the previous calendar year and is offset by the actuarial equivalent of any redetermination benefit received in the previous year that is based on contributions earned after 2003.

Normal Form of Payment

If a participant has an eligible spouse as of his or her Annuity Starting Date, the normal form of payment is Joint and Survivor Annuity. If a participant does not have an eligible spouse as of the Annuity Starting Date, the normal form of payment will be Single Life Annuity with respect to any benefit earned on and after January 1, 2004. If a portion of the participant's benefit was based on contributions earned prior to January 1, 2004, there is a guaranteed amount of 100 times that portion of the participant's benefit. The guaranteed feature is eliminated for benefit with an annuity starting date on or after June 1, 2010.

Appendix C – Risk Disclosure

The purpose of this appendix is to identify, assess, and provide illustrations of risks that are significant to the Plan, and in some cases to the Plan's participants.

The results of the actuarial valuation are based on one set of reasonable assumptions. However, it is almost certain that future experience will not exactly match the assumptions. As an example, investments may perform better or worse than assumed in any single year and over any longer time horizon. It is therefore important to consider the potential impacts of these likely differences when making decisions that may affect the future financial health of the Plan, or of the Plan's participants.

In addition, as plans mature they accumulate larger pools of assets and liabilities. This increases the potential risk to plan funding and the finances of those who are responsible for plan funding. As an example, it is more difficult for a plan sponsor to deal with the effects of a 10% investment loss on a plan with $1 billion in assets and liabilities than if the same plan sponsor is responsible for a 10% investment loss on a plan with $1 million in assets and liabilities. Since pension plans make long-term promises and rely on long-term funding, it is important to consider how mature the Plan is today, and how mature it may become in the future.

Actuarial Standard of Practice No. 51 (ASOP 51) addresses these issues by providing actuaries with guidance for assessing and disclosing the risk associated with measuring pension liabilities and the determination of pension plan contributions. Specifically, it directs the actuary to:

- Identify risks that may be significant to the Plan.
- Assess the risks identified as significant to the Plan. The assessment does not need to include numerical calculations.
- Disclose plan maturity measures and historical information that are significant to understanding the Plan's risks.

ASOP 51 states that if in the actuary's professional judgment, a more detailed assessment would be significantly beneficial in helping the individuals responsible for the Plan to understand the risks identified by the actuary, then the actuary should recommend that such an assessment be performed.

This appendix uses the framework of ASOP 51 to communicate important information about: significant risks to the Plan, the Plan's maturity, and relevant historical plan data.

Investment Risk

Definition: The potential that investment returns will be different than expected.

Identification: To the extent that actual investment returns differ from the assumed investment return, the Plan's future assets, funding contributions, and funded status may differ significantly from those presented in this valuation.

Interest Rate Risk

Definition: The potential that interest rates will be different than expected.

Identification: The pension liabilities reported herein have been calculated by computing the present value of expected future benefit payments using the interest rate(s) described in Appendix B. If interest rates in future valuations differ from this valuation, future pension liabilities, funding contributions, and funded status may differ significantly from those presented in this valuation. As a general rule, using a higher interest rate to compute the present value of future benefit payments will result in a lower pension liability, and vice versa. One aspect that can be used to estimate the impact of different interest rates is a plan's duration.

Assessment: If the interest rate changes by 1%, the estimated percentage change in pension liability is a plan's duration in years. The approximate duration of this Plan is 12 years. As such, if the interest rate changes by 1%, the estimated change in pension liability is 12%.

Demographic Risks

Definition: The potential that mortality or other demographic experience will be different than expected.

Identification: The pension liabilities reported herein have been calculated by assuming that participants will follow patterns of demographic experience (e.g., mortality, withdrawal, disability, retirement, form of payment election, etc.) as described in Appendix B. If actual demographic experience or future demographic assumptions are different from what is assumed to occur in this valuation, future pension liabilities, funding contributions, and funded status may differ significantly from those presented in this valuation.

Contribution Risk

Definition: This is the possibility that actual future contributions deviate from expected future contributions.

Identification: The Plan is subject to the contribution risk that if contributions are lower than anticipated, investment income is lost in the intervening period and future collective bargaining agreements will need to have higher contribution rates.

Covered Employment Risk

Definition: The potential that future covered employment is lower than expected due to a declining workforce in a company or industry, or a temporary workforce reduction due to market forces.

Identification: A reduction in the Plan's contribution base can potentially threaten its ability to recover from another market downturn.

Employer Withdrawal Risk

Definition: The potential that contribution rate increases or benefit reductions will drive the bargaining parties to withdraw from the Plan.

Identification: Employer withdrawals will reduce the Plan's contribution base and add pressure on the remaining participating employers and the Plan's investment returns to restore or strengthen the Plan's funded status.

Assessment: Since the Plan has negative cash flow (i.e., annual contributions minus benefit payments and expenses), a reduction in contributions will add even more pressure on assets to achieve or exceed the assumed investment return.

Business Risk

Definition: The potential that a company suffers a financial setback which impairs its ability to make contributions to the Plan.

Identification: If contributions cannot be recovered, it will shift the weight of maintaining the Plan's funded status upon the remaining employers of the Plan.

Zone Status Risk

Definition: The potential that the Plan will deteriorate to a zone status such that the Trustees would need to take action to improve the Plan's funded status through the development of an improvement plan that increases contributions, reduces benefits, or both.

Identification: The type of benefit reductions and/or contribution rate increases would depend on the zone status. Specifically, yellow zone plans are generally limited to reducing benefits, rights, and features on future accruals

only. Red zone plans can reduce features on all accrued benefits (such as early retirement subsidies), but cannot reduce benefits to those in pay status. Deep red zone plans have the same tools as red zone plans, but can also apply to the IRS and PBGC to reduce benefits to participants and beneficiaries in pay status.

Maturity Risk

Definition: This is the potential for total plan liabilities to become more heavily weighted toward inactive liabilities over time.

Identification: The Plan is subject to maturity risk because as plan assets and liabilities continue to grow, the impact of any gains or losses on the assets or liabilities also becomes larger.

Assessment: Currently assets are equal to 24 times last year's contributions indicating a one-year asset loss of 10% would be equal to 2.4 times last year's contributions

Liquidity Risk

Definition: This is the potential that assets must be liquidated at a loss earlier than planned in order to pay for the Plan's benefits and operating costs. This risk is heightened for plans with negative cash flow, in which contributions do not exceed annual benefit payments plus expenses.

Identification: The Plan has moderate cash flow requirements because the sum of benefit payments plus expenses exceeds contributions. The Plan also has some allocation to illiquid assets such as real estate and private equity. As a result, there is a risk that assets may need to be liquidated at a loss before planned in order to pay benefits and expenses.

Re: Pension Protection Act (PPA) Actuarial Certification for Plan Year Beginning April 1, 2019 – American Federation of Musicians & Employers' Pension Fund

In accordance with IRC Section 432(b)(3)(A), we have prepared and attached an actuarial certification for the plan year beginning April 1, 2019 for American Federation of Musicians & Employers' Pension Fund.

In our opinion, the assumptions used for the actuarial certification are individually reasonable based on the experience of the plan and on reasonable expectations of anticipated experience under the plan. The projections in this report are dependent on the assumptions used. Differences between our projections and actual amounts depend on the extent to which future experience conforms to the assumptions made for this analysis. It is certain that actual experience will not conform exactly to the assumptions used in these projections. Actual results will differ from projected amounts to the extent that actual experience is better or worse than expected.

On the basis of the foregoing and as a member of the American Academy of Actuaries (AAA) who meets the Qualification Standards of the AAA to render the actuarial opinion contained herein, I hereby certify that, to the best of my knowledge and belief, this letter is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices.

American Federation of Musicians & Employers' Pension Fund

PPA Actuarial Certification for Plan Year Beginning April 1, 2019

Funding Status Projection Results

An accumulated funding deficiency is projected to occur for the current Plan year ending March 31, 2020.

The funded percentage as of April 1, 2019 is projected to be 60.0%.

The Plan fails tests under both IRC Section 432(b)(2)(B) and IRC Section 432(b)(2)(C), used to determine whether the Plan is in critical status.

The ratio of inactive to active participants as of April 1, 2018 is 1.43.

The Plan is projected to become insolvent during the Plan year ending March 31, 2037.

PPA Certification

I hereby certify that the American Federation of Musicians & Employers' Pension Fund is considered "critical and declining" under IRC Section 432(b)(6) for the Plan year beginning April 1, 2019, as defined in the Pension Protection Act of 2006 as amended by the Multiemployer Pension Reform Act of 2014 ("MPRA").

Further, I hereby certify that to the best of my knowledge and belief, the actuarial assumptions employed in preparing this certification are individually reasonable and represent my best estimate of future experience. Additionally, the "projected industry activity" assumption, as required under IRC Section 432(b)(3)(B)(iii), has been based on input provided by the Board of Trustees.

Scheduled Progress

The Pension Protection Act (PPA) requires the actuary to certify whether the plan is making scheduled progress in meeting the requirements of its Rehabilitation Plan. The Rehabilitation Plan for the American Federation of Musicians & Employers' Pension Fund was adopted in April 2010 which reduced certain benefits and increased the Plan's contribution rates. The Trustees determined using reasonable actuarial assumptions and methods that they were unable to adopt a Rehabilitation Plan that would enable the Plan to emerge from critical status by the end of the ten-year Rehabilitation Period on March 31, 2023 which began on April 1, 2013. As a result, the Trustees adopted a Rehabilitation Plan that, in their judgment, consisted of all reasonable measures to either emerge from critical status by a later date than the ten-year period mentioned above or forestall insolvency. The Trustees revised the Rehabilitation Plan effective June 27, 2016 such that in their judgment, it consisted of all reasonable measures to forestall insolvency. The Rehabilitation Plan contribution schedule has been updated effective June, 2018 to require a 10% increase in the rate of contributions with such increases not considered when calculating a pension benefit. As required under the PPA, the Trustees have been and will continue to review the Rehabilitation Plan annually. Based on implementation of the Rehabilitation Plan and reflecting

the Plan's experience through March 31, 2019, I hereby certify that the Plan is making scheduled progress as of April 1, 2019 as required under IRC Section 432(b)(3)(A)(ii).

- An update to the Rehabilitation Plan contribution schedule adopted June 2018 to require a 10% increase in the rate of contributions with such increases not considered when calculating a pension benefit with 25% of collective bargaining agreements generally expected to expire over each of the next four years and be renewed with the noted contribution increase.

- Contributions which do not generate benefits from streaming income received pursuant to the Sound Recording Labor Agreement as follows:

  - April 1, 2019 through March 30, 2020: $6,000,000
  - On and after April 1, 2020: increasing at 3.00% per year

- Input from the Fund's Board of Trustees that contributions which do not generate benefits will be received pursuant to an agreement with Film Musicians Secondary Markets Fund that were in the amount of $1,712,564 for the period from April 1, 2018 through March 30, 2019 will increase at 3.00% per year thereafter.

  - Administrative expenses are assumed to increase by 2.25% for each plan year after March 31, 2020

April 1, 2020 Actuarial Valuation of the American Federation of Musicians & Employers' Pension Fund

The actuarial valuation of the American Federation of Musicians & Employers' Pension Fund (the "Plan") for the plan year beginning April 1, 2020 has been completed in accordance with our understanding of the minimum funding requirements under ERISA and the Pension Protection Act of 2006 as well as the applicable sections of the Internal Revenue Code (IRC), including all regulations and guidance issued to date. It also has been completed in accordance with our understanding of FASB ASC Topic 960 for determining plan accounting requirements. The valuation results contained in this report are based on the actuarial methods (Appendix A), and principal plan provisions (Appendix B), summarized in the appendices. In addition, Appendix C contains information about the Plan's risks.

Purpose of the Valuation

In general, the actuarial valuation determines the current level of employer contributions that, taking into account prior funding, will accumulate assets sufficient to meet benefit payments and administrative expenses when due under the terms of the Plan. This report has been prepared for the American Federation of Musicians & Employers' Pension Fund as of April 1, 2020 to:

- Calculate the Minimum Required Contribution for the plan year beginning April 1, 2020.
- Calculate the Maximum Deductible Contribution for the 2020 fiscal year.
- Determine the actuarial Present Value of Accumulated Plan Benefits as of March 31, 2020 for purposes of disclosing the Plan's liabilities under FASB ASC Topic 960.
- Determine the Plan's unfunded vested benefit liability as of March 31, 2020 for withdrawal liability purposes calculated in accordance with the requirements of the Multiemployer Pension Plan Amendments Act of 1980.
- Review the Plan's funded status.
- Review the experience for the plan year ending March 31, 2020, including the performance of the Plan's assets during the year and changes in the Plan's participant demographics that impact liabilities.
- Provide operational information required for governmental agencies and other interested parties.

Limited Distribution

Milliman's work is prepared solely for the internal business use of the Plan's Trustees and may not be provided to third parties without our prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of its work product. Milliman's consent to release its work product to any third party may be conditioned on the third party signing a release, subject to the following exceptions:

- The Plan may provide a copy of Milliman's work, in its entirety, to the Plan's professional service advisors who are subject to a duty of confidentiality and who agree to not use Milliman's work for any purpose other than to benefit the Plan.
- The Plan may distribute certain work product that Milliman and the Plan mutually agree is appropriate as may be required by the Pension Protection Act of 2006.

Any third party recipient of this work product who desires professional guidance should not rely upon Milliman's work product, but should engage qualified professionals for advice appropriate to its own specific needs.

Reliance

In preparing this report, we relied, without audit, on information (both written and oral) supplied by the Plan's Administrator and Auditor. This information includes, but is not limited to, plan documents and summaries, participant data, and financial information. We found this information to be reasonably consistent and comparable

with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is incomplete or inaccurate, our results may be different and our calculations may need to be revised.

Limited Use

Actuarial computations for purposes other than determining the contribution requirements for an ongoing plan (such as for assessing benefit security upon potential plan termination) may yield significantly different results from those shown in this report.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to factors such as, but not limited to, the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on plan funded status); and changes in plan provisions or applicable law. Except for the information provided in Appendix C, due to the limited scope of the actuarial assignment, we did not perform an analysis of the potential range of such future measurements.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

Certification

In our opinion, each assumption used, other than those assumptions mandated directly by the Internal Revenue Code and regulations thereon, is individually reasonable (taking into account the experience of the Plan and reasonable expectations) and, in combination, such other assumptions offer our best estimate of anticipated experience under the Plan. The valuation results were developed using models intended for valuations that use standard actuarial techniques.

On the basis of the foregoing, we hereby certify that to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the principles prescribed by the Actuarial Standards Board and the Code of Professional Conduct and Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States promulgated by the American Academy of Actuaries. We are members of the American Academy of Actuaries and meet its Qualification Standards to render the actuarial opinion contained herein.

B. Purpose of the Valuation

In general, the actuarial valuation determines the current level of employer contributions that, taking into account prior funding, will accumulate assets sufficient to meet benefit payments and administrative expenses when due under the terms of the Plan. This report has been prepared for the American Federation of Musicians & Employers' Pension Fund as of April 1, 2020 to:

- Calculate the Minimum Required Contribution for the plan year beginning April 1, 2020.
- Calculate the Maximum Deductible Contribution for the 2020 fiscal year.
- Determine the actuarial Present Value of Accumulated Plan Benefits as of March 31, 2020 for purposes of disclosing the Plan's liabilities under PPA 2006 and FASB ASC Topic 960.
- Determine the Plan's unfunded vested benefit liability as of March 31, 2020 for withdrawal liability purposes calculated in accordance with the requirements of the Multiemployer Pension Plan Amendments Act of 1980.
- Review the Plan's funded status.
- Review the experience for the plan year ending March 31, 2020, including the performance of the Plan's assets during the year and changes in the Plan's participant demographics that impact liabilities.
- Provide operational information required for governmental agencies and other interested parties.

C. Risk Disclosure

The Plan's risk is the potential that future actuarial measurements will differ from the current measurements presented in this report because future experience is different than expected. Risks include investment risk, interest rate risk, longevity and other demographic risks, and contribution risk. As required by Actuarial Standard of Practice No. 51 *Assessment and Disclosure of Risk Associated with Measuring Pension Obligations and Determining Pension Plan Contributions*, Appendix C provides information on the Plan's risks.

D. Actuarial Methods and Assumptions

The methods and assumptions used in this valuation are the same as those used in the prior valuation except as follows:

- The healthy annuitant mortality was changed to Plan-specific mortality rates developed using IRS Revenue Procedure 2017-55 with 2017 base year from the RP-2014 Annuitant Mortality Table adjusted to reflect Mortality Improvement Scale MP-2020 from 2006 base year.
- The mortality projection scale was changed to MP-2020 from MP-2019.
- Assumed form of payment election was changed to 50% electing Single Life Annuity and 20% electing 75% Joint & Survivor Annuity from 45% electing Single Life Annuity and 25% electing 75% Joint & Survivor Annuity.
- Future benefit accruals were reduced to reflect impact of COVID-19 on work levels.
- For Current Liability purposes, the interest rate changed from 2.98% to 3.08%.
- For withdrawal liability purposes, the interest rate was changed to 2.12% for the first 25 years and ultimate rate of 2.26% from 3.09% for the first 20 years and ultimate rate of 2.84%.

These changes resulted in an increase in plan liabilities. Please see Appendix A for a complete summary of all methods and assumptions used in this valuation.

E. Plan Provisions

This valuation reflects the plan provisions in effect on April 1, 2020, which are the same provisions that were valued in the April 1, 2019 actuarial valuation report.

Please see Appendix B for a detailed summary of plan provisions.

Asset (Gain) / Loss for Prior Plan Year on Market Value of Assets

The Asset (Gain) / Loss is the difference between the expected and actual values of the Market Value of Assets. An asset gain is negative because it represents a decrease from the expected unfunded Actuarial Accrued Liability. The Asset (Gain) / Loss for the plan year ending March 31, 2020 is determined below.

1.	Expected Market Value of Assets	
	a. Market Value of Assets as of March 31, 2019	$1,802,580,746

Exhibit 4

Actuarial Value of Assets

The Actuarial Value of Assets is the Market Value of Assets less a weighted average of asset gains / (losses) over a four-year period (five-year smoothing), but it must be within 80% to 120% of the Market Value of Assets. The investment loss for the plan year ending is being recognized over 10 years as elected under the Pension Relief Act of 2010. The Actuarial Value of Assets as of March 31, 2020 is determined below.

1.	Market Value of Assets as of March 31, 2020			$1,556,843,081
2.	Unrecognized asset gains / (losses) for the plan years ending			
	Plan Year Ending	Gain / (Loss) for Year	Percent Unrecognized	Amount Unrecognized

The Asset (Gain) / Loss for the plan year ending March 31, 2020 is determined below.

1.	Expected Actuarial Value of Assets	
	a. Actuarial Value of Assets as of	$1,829,653,768

The Normal Cost is the amount allocated to the current plan year under the Plan's actuarial cost method. The Actuarial Accrued Liability is the accumulation of all prior Normal Costs. The unfunded Actuarial Accrued Liability is the excess (deficiency) of the Actuarial Accrued Liability over the Actuarial Value of Assets. The employer Normal Cost and the unfunded Actuarial Accrued Liability as of April 1, 2019 and April 1, 2020 are determined below.

Unfunded Vested Benefit Liability for Withdrawal Liability Calculations

Withdrawal liability payments are based on unfunded vested benefit liability. Vested benefit liability is the present value of benefits earned to date, excluding benefits for non-vested participants and certain benefits such as death and disability benefits which are not considered vested. These liabilities have been determined as of March 31, 2019 and March 31, 2020. However, if there is a termination by mass withdrawal during the year, a separate calculation has to be performed.

Appendix A – Summary of Actuarial Assumptions and Methods

Actuarial Assumptions

- **Investment Return**:
  - 7.50% (net of investment-related administrative expenses) for ERISA minimum funding and FASB ASC Topic 960 plan accounting.
  - 2.98% for current liability purposes.
  - March 2020 PBGC interest rates for mass withdrawal purposes of 2.12% for first 25 years and ultimate rate of 2.26% for unfunded vested benefit liability for withdrawal liability calculations.

- **Mortality:**

  Employee: RP-2006 Employee Mortality Table and Mortality Improvement Scale MP-2020 on a generational basis for males and females

  Annuitant: Plan-specific mortality rates developed using IRS Revenue Procedure 2017-55 with 2017 base year and Mortality Improvement Scale MP-2020 on a generational basis for males and females

  Disabled: RP-2006 Disabled Annuitant Mortality Table and Mortality Improvement Scale MP-2020 on a generational basis for males and females.

  Mortality Rates Used in Conjunction with Full Funding Limitation Computations

  Test I (ERISA): Based on the Plan's mortality, as defined above.

  Test II (RPA '94): RP-2014 mortality table (male and female rates) with projection for mortality improvement, updated annually, as mandated by the IRS.

- **Termination Rates:**

  Termination rates have been separated into two groups.

Sample rates are shown below for participants who earned less than $10,000 in the plan year prior to the valuation date:

Years of Service				
Attained Age	0-2* (Select)	2-3 (Select)	3-4 (Select)	4 or More (Ultimate)

64	45.0	35.0	30.0	20.0
65	0.0	0.0	0.0	0.0

* Participants with less than one year of service are not included for valuation purposes. Therefore, this select period with respect to the present value of benefits only impacts participants who have accrued between 1 and 2 years of vesting service as of the valuation date. Nonetheless, this select period has an impact on the Normal Cost (which spreads liability from entry age to retirement age) for all participants.

Sample rates are shown below for participants who earned $10,000 or more in the plan year prior to the valuation date:

Attained Age	Termination Rate
20	6.0%
25	6.0%
30	6.0%
35	4.0%
40	4.0%
45	4.0%
50	3.0%
55	3.0%
60	3.0%
64	3.0%

  The weighted average retirement age is 66.1.

- **Disability Rates:**

- **Form of Payment:**

  Future retirees will elect each optional form of benefit as shown below:

Form of Payment	% Electing
Single Life	50%
Joint & 50% Survivor	30%
Joint & 75% Survivor	20%

- **Assumed Age of Commencement of Deferred Benefits:**

55-59	1.0%
60-64	3.0
65-68	20.0
69-70	10.0
71 and Over	100.0

  The weighted average retirement age is 67.2.

- **Pre-Retirement Death Benefits:**

  80% of the participants are assumed to have beneficiaries. Male participants are assumed to be three years older than female beneficiaries and female participants are assumed to be three years younger than male beneficiaries.

- **Future Benefit Accruals:**

  Long-term assumptions before reflecting impact of COVID-19 on work levels:

  Current actives until retirement and current in-pay retirees under 65 until age 65: Future years' contributions are assumed to increase by 2.25% per year from those contributions reported for the prior pension credit year.

  Current in-pay retirees at or over 65: Future years' contributions are assumed to be equal to contributions reported for the prior pension credit year.

  Contribution amounts for future retirees and current in-pay retirees under 65 starting at age 65 are shown below:

Attained Age	Annual Contribution Amount
55-75	$750
76-85	250

  Adjustments to long-term assumptions to reflect impact of COVID-19 on work levels:

  Future benefit accruals adjusted by the same reduction to work levels reflected in the projected contribution income described below.

Fiscal Year Ending 3/31	% of Work Level Due to COVID-19
2021	32%
2022	57
2023	91
2024 and later	98

- **Administrative Expenses:**

  The average of the prior two years' administrative expenses, increased by 2.25% plus an additional $3 million due to the MPRA suspension. For FASB ASC Topic 960 plan accounting, the present value of the administrative expenses was calculated by projecting the payment of expected administrative expenses for the duration of the Plan's liabilities. The duration of the Plan's liabilities was calculated to be 12 years at April 1, 2020 and 12 years at April 1, 2019. Projected administrative expenses were increased 2.25% per annum after the valuation year, then discounted using the Plan's investment return assumption of 7.5% as of April 1, 2020 and April 1, 2019.

- **Benefit Limitations:**

  The Section 415 limit of $195,000* is applied on an aggregate basis but the participant's total benefit at December 31, 2007 is applied on an employer-by-employer basis using a Section 415 limit of $180,000.

  The Section 401(a)(17) limit of $245,000* is applied on an employer-by-employer basis. For valuation purposes, the Section 401(a)(17) limit is assumed to not apply for future accruals.

  * The limits do not change based on automatic cost-of-living adjustments. Rather, the limits will remain at the noted levels above until the Trustees amend the plan.

- **Assumptions regarding missing or incomplete data:**

  Lost Participants: Assume 100% of lost participants will receive benefits. Lost participants over age 70½ receive actuarial increase from Normal Retirement Date to Required Beginning Date. In addition, a one-time payment of missed payments from Required Beginning Date to the valuation date with interest at 7.5%.

Summary of Lost Participants as of 4/1/2020	
Count	302
Average Age	68
Average Annual Benefit	$2,314
One-Time Payment	$6.0M

  Unreported Data: Active participants with unreported data (gender, date of birth) are assumed to have characteristics of the average group. If not easily determined, participants with unknown sex are assumed to be male.

- **Rationale for Significant Assumptions**

  Investment Return for ERISA minimum funding and FASB ASC Topic 960 plan accounting: Selected based on the Plan's target asset allocation as of the valuation date, capital market assumptions from several sources, including published studies summarizing the expectations of various investment experts. This information was used to develop forward-looking long-term expected returns, producing a range of reasonable expectations according to industry experts. Based on the resulting range of potential assumptions, in our professional judgement the selected investment return assumption is reasonable for this purpose and is not expected to have any significant bias.

  Investment Return for withdrawal liability: Rates of return used by the PBGC to value annuities under a mass withdrawal. Withdrawal liability is used to allocate a portion of Unfunded Vested Benefits to employers who withdraw from the fund. A withdrawal is viewed as a settlement similar to an annuity purchase where the transfer of investment risk for a portion of a plan's liabilities is assumed by an insurance company. Use of the PBGC rates reflects the fact that a withdrawn employer transfers investment risk to the remaining employers. As such it is reasonable to use PBGC interest rates that are used to measure plan termination liabilities and which are considered comparable to rates used by insurance companies for annuities to measure the financial obligation of the withdrawing employer. In our professional judgement, the selected investment return assumption for withdrawal liability is reasonable for this purpose and is not expected to have any significant bias.

  Mortality: Based on the assumptions and methods contained in our Mortality Experience Study, dated December 23, 2020.

  Retirement Rates: Based on analysis of retirements experienced by the Plan from April 2011 through April 2016.

- **Changes in Assumptions from Prior Valuation**

  The methods and assumptions used in this valuation are the same as those used in the prior valuation except as follows:

  - The healthy annuitant mortality changed to Plan-specific mortality rates developed using IRS Revenue Procedure 2017-55 with 2017 base year from the RP-2014 Annuitant Mortality Table adjusted to reflect Mortality Improvement Scale MP-2020 from 2006 base year.
  - The mortality projection scale was changed to MP-2020 from MP-2019.
  - Assumed form of payment election was changed to 50% electing Single Life Annuity and 20% electing 75% Joint & Survivor Annuity from 45% electing Single Life Annuity and 25% electing 75% Joint & Survivor Annuity.
  - Future benefit accruals were reduced to reflect impact of COVID-19 on work levels.

  These changes resulted in a net increase in plan liabilities.

Actuarial Cost Methods

- **Liability Valuation Method:**

  The Entry Age Normal actuarial cost method where Normal Cost is determined based on projected benefits for current active participants using each individual participant's actual entry age. Entry age is the age at date of employment or if date is unknown, attained age minus pension credits. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by service. Projected benefits are based on benefits as if the current benefit accrual rate had always been in effect.

- **Asset Valuation Method:**

  The market value of assets is adjusted by smoothing the differences between the expected market value of assets and the actual market value of assets from the past five years. In accordance with the special asset valuation rule under funding relief, the amount of the difference in expected market value of assets and the actual market value of assets for the plan year ending March 31, 2009 is amortized over a 10-year period. The expected value of assets for each year is the market value of assets at the valuation date for the prior year brought forward with interest at the valuation rate to the current year plus contributions minus benefit payments and administrative expenses, all adjusted with interest at the valuation rate from the prior year to the valuation date for the current year. The actuarial value of assets is the resulting amount except if the resulting amount is greater than 120% of the market value, actuarial value of assets is set equal to 120% of market value of assets and if the resulting amount is less than 80% of the market value, actuarial value of assets is set equal to 80% of market value of assets.

  For purposes of determining the unfunded vested benefit liability for withdrawal liability calculations, the asset valuation method is market value.

- **Special amortization rule:**

  The Plan's investment loss for the Plan year ended March 31, 2009 is treated separately from other investment gains/losses, to be amortized in equal installments over the period beginning from April 1, 2009 through March 31, 2039.

  The portion of the net experience loss is based on the prospective method as described in Notice 2010-83. The schedule of amortization bases is as follows:

Year	Amount (Gain)/Loss	Years in Amortization Base*	Years in Offset Base*
4/1/09	$ 545,478,705	29	15
4/1/10	(124,097,819)	28	15
4/1/11	153,283,704	27	15
4/1/12	21,184,391	26	15
4/1/13	63,061,837	25	15
4/1/14	45,271,288	24	15
	$ 704,182,106*		

* The total loss of $704,182,106 equals the investment loss for the year ended March 31, 2009.

Appendix B – Summary of Principal Plan Previsions

Effective Date

November 16, 1959. The plan was amended and restated effective January 1, 2014.

Participation

An eligible employee becomes a participant on January 1 of the year in which the participant earns $750 in Covered Earnings by an Employer who is required to make contributions to the Fund.

Normal Retirement Age

Age 65 or if later, the date on which a Participant completes five years of participation in the Plan.

Vesting Service

Vesting Service is based on the Covered Earnings earned in each calendar year, as follow:

Covered Earnings	Years of Vesting Service
< $750	0.00
$750 - $1,499	0.25
$1,500 - $2,249	0.50
$2,250 - $2,999	0.75
>= $3,000	1.00

A Participant becomes vested upon completion of 5 years of Vesting Service or upon attainment of Normal Retirement Age.

Regular Pension Benefit

A Participant is eligible to receive a Regular Pension Benefit at Normal Retirement Age or at age 55 with 5 years Vesting Service.

Regular Pension Benefit is calculated by multiplying each $100 of vested contributions earned by a Benefit Multiplier (a specific dollar amount). The monthly benefit amount under the Life Annuity form of payment is calculated in accordance with the following tables:

Effective June 1, 2010 Monthly Amount per $100 of Vested Contributions					
Age	For Contributions for Covered Employment before 1/1/04	For Contributions for Covered Employment Between 1/1/04 and 3/31/07	For Contributions for Covered Employment Between 4/1/07 and 4/30/09	For Contributions for Covered Employment Between 5/1/09 and 12/31/09	For Contributions For Covered Employment on and after 1/1/10
55	$1.70	$1.28	$1.19	$0.73	$0.37
56	1.86	1.40	1.30	0.80	0.40
57	2.05	1.54	1.43	0.88	0.44
58	2.26	1.70	1.58	0.97	0.49
59	2.48	1.87	1.74	1.07	0.53
60	2.75	2.07	1.92	1.18	0.59
61	3.04	2.29	2.13	1.31	0.65
62	3.36	2.53	2.35	1.45	0.72
63	3.75	2.82	2.62	1.61	0.80
64	4.16	3.13	2.91	1.79	0.90
65	4.65	3.50	3.25	2.00	1.00

For participants who retire after Normal Retirement Age, the monthly benefit is the regular pension amount at Normal Retirement Age actuarially increased to account for delayed retirement.

Disability Pension Benefits

An active participant who has completed at least 10 years of Vesting Service, who has stopped working in Covered Employment because of a condition of Total Disability, and who has not started to receive a Regular Pension Benefit, is eligible for a Disability Pension Benefit.

The monthly Disability Pension Benefit is calculated by multiplying each $100 of contributions by the applicable age-65 Benefit Multipliers, actuarially reduced to participant's actual age as of the effective date of Disability Pension Benefit.

Pre-Retirement Death Benefits

If a vested participant who has not yet retired dies after age 55, the participant's beneficiary will receive a benefit equal to the benefit the beneficiary would have received had the participant retired on his date of death and elected to receive a 50% Joint and Survivor Annuity.

If a vested participant dies before age 55, the beneficiary's benefit is actuarially equivalent to the 50% Joint and Survivor Annuity at age 55.

Post-Retirement Death Benefits

If a vested participant dies after his or her benefit begins and the pension benefit was being paid as a Joint and Survivor Annuity, the Joint Annuitant will receive 50% of the participant's monthly benefit for his or her lifetime; if the pension benefit was being paid as Life Annuity, the remaining balance of the guaranteed benefit will be paid.

Re-Retirement Benefits

If a participant retires before his or her Normal Retirement Age, later returns to Covered Employment, and earns $50 or more of contributions in at least one calendar year between his or her initial pension Benefit Annuity Start Date and Normal Retirement Age, an additional benefit calculated based on the contributions made on the participant's behalf during that period will be paid as of the first of the month after the participant reaches Normal Retirement Age.

Redetermination Benefits

If a pensioner returns to Covered Employment and earns $50 or more of contributions in a calendar year after Normal Retirement Age, he or she will earn an additional pension benefit. This redetermination benefit is calculated each July 1st based on contributions for Covered Employment earned during the previous calendar year. The redetermination benefit is based on the age-65 Benefit Multiplier in effect at the end of the previous calendar year and is offset by the actuarial equivalent of any redetermination benefit received in the previous year that is based on contributions earned after 2003.

Normal Form of Payment

If a participant has an eligible spouse as of his or her Annuity Starting Date, the normal form of payment is Joint and Survivor Annuity. If a participant does not have an eligible spouse as of the Annuity Starting Date, the normal form of payment will be Single Life Annuity with respect to any benefit earned on and after January 1, 2004. If a portion of the participant's benefit was based on contributions earned prior to January 1, 2004, there is a guaranteed amount of 100 times that portion of the participant's benefit. The guaranteed feature is eliminated for benefit with an annuity starting date on or after June 1, 2010.

Appendix C – Risk Disclosure

The purpose of this appendix is to identify, assess, and provide illustrations of risks that are significant to the Plan, and in some cases to the Plan's participants.

The results of the actuarial valuation are based on one set of reasonable assumptions. However, it is almost certain that future experience will not exactly match the assumptions. As an example, investments may perform better or worse than assumed in any single year and over any longer time horizon. It is therefore important to consider the potential impacts of these likely differences when making decisions that may affect the future financial health of the Plan, or of the Plan's participants.

In addition, as plans mature they accumulate larger pools of assets and liabilities. This increases the potential risk to plan funding and the finances of those who are responsible for plan funding. As an example, it is more difficult for a plan sponsor to deal with the effects of a 10% investment loss on a plan with $1 billion in assets and liabilities than if the same plan sponsor is responsible for a 10% investment loss on a plan with $1 million in assets and liabilities. Since pension plans make long-term promises and rely on long-term funding, it is important to consider how mature the Plan is today, and how mature it may become in the future.

Actuarial Standard of Practice No. 51 (ASOP 51) addresses these issues by providing actuaries with guidance for assessing and disclosing the risk associated with measuring pension liabilities and the determination of pension plan contributions. Specifically, it directs the actuary to:

- Identify risks that may be significant to the Plan.
- Assess the risks identified as significant to the Plan. The assessment does not need to include numerical calculations.
- Disclose plan maturity measures and historical information that are significant to understanding the Plan's risks.

ASOP 51 states that if in the actuary's professional judgment, a more detailed assessment would be significantly beneficial in helping the individuals responsible for the Plan to understand the risks identified by the actuary, then the actuary should recommend that such an assessment be performed.

This appendix uses the framework of ASOP 51 to communicate important information about: significant risks to the Plan, the Plan's maturity, and relevant historical plan data.

Investment Risk

Definition: The potential that investment returns will be different than expected.

Identification: To the extent that actual investment returns differ from the assumed investment return, the Plan's future assets, funding contributions, and funded status may differ significantly from those presented in this valuation.

Interest Rate Risk

Definition: The potential that interest rates will be different than expected.

Identification: The pension liabilities reported herein have been calculated by computing the present value of expected future benefit payments using the interest rate(s) described in Appendix B. If interest rates in future valuations differ from this valuation, future pension liabilities, funding contributions, and funded status may differ significantly from those presented in this valuation. As a general rule, using a higher interest rate to compute the present value of future benefit payments will result in a lower pension liability, and vice versa. One aspect that can be used to estimate the impact of different interest rates is a plan's duration.

Assessment: If the interest rate changes by 1%, the estimated percentage change in pension liability is a plan's duration in years. The approximate duration of this Plan is 12 years. As such, if the interest rate changes by 1%, the estimated change in pension liability is 12%.

Demographic Risks

Definition: The potential that mortality or other demographic experience will be different than expected.

Identification: The pension liabilities reported herein have been calculated by assuming that participants will follow patterns of demographic experience (e.g., mortality, withdrawal, disability, retirement, form of payment election, etc.) as described in Appendix B. If actual demographic experience or future demographic assumptions are different from what is assumed to occur in this valuation, future pension liabilities, funding contributions, and funded status may differ significantly from those presented in this valuation.

Contribution Risk

Definition: This is the possibility that actual future contributions deviate from expected future contributions.

Identification: The Plan is subject to the contribution risk that if contributions are lower than anticipated, investment income is lost in the intervening period and future collective bargaining agreements will need to have higher contribution rates.

Covered Employment Risk

Definition: The potential that future covered employment is lower than expected due to a declining workforce in a company or industry, or a temporary workforce reduction due to market forces.

Identification: A reduction in the Plan's contribution base can potentially threaten its ability to recover from another market downturn.

Employer Withdrawal Risk

Definition: The potential that contribution rate increases or benefit reductions will drive the bargaining parties to withdraw from the Plan.

Identification: Employer withdrawals will reduce the Plan's contribution base and add pressure on the remaining participating employers and the Plan's investment returns to restore or strengthen the Plan's funded status.

Assessment: Since the Plan has negative cash flow (i.e., annual contributions minus benefit payments and expenses), a reduction in contributions will add even more pressure on assets to achieve or exceed the assumed investment return.

Business Risk

Definition: The potential that a company suffers a financial setback which impairs its ability to make contributions to the Plan.

Identification: If contributions cannot be recovered, it will shift the weight of maintaining the Plan's funded status upon the remaining employers of the Plan.

Zone Status Risk

Definition: The potential that the Plan will deteriorate to a zone status such that the Trustees would need to take action to improve the Plan's funded status through the development of an improvement plan that increases contributions, reduces benefits, or both.

Identification: The type of benefit reductions and/or contribution rate increases would depend on the zone status. Specifically, yellow zone plans are generally limited to reducing benefits, rights, and features on future accruals

only. Red zone plans can reduce features on all accrued benefits (such as early retirement subsidies), but cannot reduce benefits to those in pay status. Deep red zone plans have the same tools as red zone plans, but can also apply to the IRS and PBGC to reduce benefits to participants and beneficiaries in pay status.

Maturity Risk

Definition: This is the potential for total plan liabilities to become more heavily weighted toward inactive liabilities over time.

Identification: The Plan is subject to maturity risk because as plan assets and liabilities continue to grow, the impact of any gains or losses on the assets or liabilities also becomes larger.

Assessment: Currently assets are equal to 24 times last year's contributions indicating a one-year asset loss of 10% would be equal to 2.4 times last year's contributions.

Liquidity Risk

Definition: This is the potential that assets must be liquidated at a loss earlier than planned in order to pay for the Plan's benefits and operating costs. This risk is heightened for plans with negative cash flow, in which contributions do not exceed annual benefit payments plus expenses.

Identification: The Plan has moderate cash flow requirements because the sum of benefit payments plus expenses exceeds contributions. The Plan also has some allocation to illiquid assets such as real estate and private equity. As a result, there is a risk that assets may need to be liquidated at a loss before planned in order to pay benefits and expenses.

Re: Pension Protection Act (PPA) Actuarial Certification for Plan Year Beginning April 1, 2020 – American Federation of Musicians & Employers' Pension Fund

In accordance with IRC Section 432(b)(3)(A), we have prepared and attached an actuarial certification for the plan year beginning April 1, 2020 for American Federation of Musicians & Employers' Pension Fund.

In our opinion, the assumptions used for the actuarial certification are individually reasonable based on the experience of the plan and on reasonable expectations of anticipated experience under the plan. The projections in this report are dependent on the assumptions used. Differences between our projections and actual amounts depend on the extent to which future experience conforms to the assumptions made for this analysis. It is certain that actual experience will not conform exactly to the assumptions used in these projections. Actual results will differ from projected amounts to the extent that actual experience is better or worse than expected.

On the basis of the foregoing and as a member of the American Academy of Actuaries (AAA) who meets the Qualification Standards of the AAA to render the actuarial opinion contained herein, I hereby certify that, to the best of my knowledge and belief, this letter is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices.

American Federation of Musicians & Employers' Pension Fund

PPA Actuarial Certification for Plan Year Beginning April 1, 2020

Funding Status Projection Results

An accumulated funding deficiency is projected to occur for the current Plan year ending March 31, 2021.

The funded percentage as of April 1, 2020 is projected to be 54.8%.

The Plan fails tests under both IRC Section 432(b)(2)(B) and IRC Section 432(b)(2)(C), used to determine whether the Plan is in critical status.

The ratio of inactive to active participants as of April 1, 2019 is 1.51.

The Plan is projected to become insolvent during the Plan year ending March 31, 2035.

PPA Certification

I hereby certify that the American Federation of Musicians & Employers' Pension Fund is considered "critical and declining" under IRC Section 432(b)(6) for the Plan year beginning April 1, 2020, as defined in the Pension Protection Act of 2006 as amended by the Multiemployer Pension Reform Act of 2014 ("MPRA").

Further, I hereby certify that to the best of my knowledge and belief, the actuarial assumptions employed in preparing this certification are individually reasonable and represent my best estimate of future experience. Additionally, the "projected industry activity" assumption, as required under IRC Section 432(b)(3)(B)(iii), has been based on input provided by the Board of Trustees.

Scheduled Progress

The Pension Protection Act (PPA) requires the actuary to certify whether the plan is making scheduled progress in meeting the requirements of its Rehabilitation Plan. The Rehabilitation Plan for the American Federation of Musicians & Employers' Pension Fund was adopted in April 2010 which reduced certain benefits and increased the Plan's contribution rates. The Trustees determined using reasonable actuarial assumptions and methods that they were unable to adopt a Rehabilitation Plan that would enable the Plan to emerge from critical status by the end of the ten-year Rehabilitation Period on March 31, 2023 which began on April 1, 2013. As a result, the Trustees adopted a Rehabilitation Plan that, in their judgment, consisted of all reasonable measures to either emerge from critical status by a later date than the ten-year period mentioned above or forestall insolvency. The Trustees revised the Rehabilitation Plan effective June 27, 2016 such that in their judgment, it consisted of all reasonable measures to forestall insolvency. The Rehabilitation Plan contribution schedule has been updated effective June, 2018 to require a 10% increase in the rate of contributions with such increases not considered when calculating a pension benefit. As required under the PPA, the Trustees have been and will continue to review the Rehabilitation Plan annually. Based on implementation of the Rehabilitation Plan and reflecting the Plan's experience through March 31, 2020, I hereby certify that the Plan is making scheduled progress as of April 1, 2020 as required under IRC Section 432(b)(3)(A)(ii).

Re: Pension Protection Act (PPA) Actuarial Certification for Plan Year Beginning April 1, 2021 – American Federation of Musicians & Employers' Pension Fund

In accordance with IRC Section 432(b)(3)(A), we have prepared and attached an actuarial certification for the plan year beginning April 1, 2021 for American Federation of Musicians & Employers' Pension Fund.

In our opinion, the assumptions used for the actuarial certification are individually reasonable based on the experience of the plan and on reasonable expectations of anticipated experience under the plan. The projections in this report are dependent on the assumptions used. Differences between our projections and actual amounts depend on the extent to which future experience conforms to the assumptions made for this analysis. It is certain that actual experience will not conform exactly to the assumptions used in these projections. Actual results will differ from projected amounts to the extent that actual experience is better or worse than expected.

On the basis of the foregoing and as a member of the American Academy of Actuaries (AAA) who meets the Qualification Standards of the AAA to render the actuarial opinion contained herein, I hereby certify that, to the best of my knowledge and belief, this letter is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices.

PPA Actuarial Certification for Plan Year Beginning April 1, 2021

Funding Status Projection Results

An accumulated funding deficiency is projected to occur for the current Plan year ending March 31, 2022.

The funded percentage as of April 1, 2021 is projected to be 51.8%.

The Plan fails tests under both IRC Section 432(b)(2)(B) and IRC Section 432(b)(2)(C), used to determine whether the Plan is in critical status.

The ratio of inactive to active participants as of April 1, 2020 is 1.55.

The Plan is projected to become insolvent during the Plan year ending March 31, 2038.

PPA Certification

I hereby certify that the American Federation of Musicians & Employers' Pension Fund is considered "critical and declining" under IRC Section 432(b)(6) for the Plan year beginning April 1, 2021, as defined in the Pension Protection Act of 2006 as amended by the Multiemployer Pension Reform Act of 2014 ("MPRA").

Further, I hereby certify that to the best of my knowledge and belief, the actuarial assumptions employed in preparing this certification are individually reasonable and represent my best estimate of future experience. Additionally, the "projected industry activity" assumption, as required under IRC Section 432(b)(3)(B)(iii), has been based on input provided by the Board of Trustees.

Scheduled Progress

The Pension Protection Act (PPA) requires the actuary to certify whether the plan is making scheduled progress in meeting the requirements of its Rehabilitation Plan. The Rehabilitation Plan for the American Federation of Musicians & Employers' Pension Fund was adopted in April 2010 which reduced certain benefits and increased the Plan's contribution rates. The Trustees determined using reasonable actuarial assumptions and methods that they were unable to adopt a Rehabilitation Plan that would enable the Plan to emerge from critical status by the end of the ten-year Rehabilitation Period on March 31, 2023 which began on April 1, 2013. As a result, the Trustees adopted a Rehabilitation Plan that, in their judgment, consisted of all reasonable measures to either emerge from critical status by a later date than the ten-year period mentioned above or forestall insolvency. The Trustees revised the Rehabilitation Plan effective June 27, 2016 such that in their judgment, it consisted of all reasonable measures to forestall insolvency. The Rehabilitation Plan contribution schedule has been updated effective June, 2018 to require a 10% increase in the rate of contributions with such increases not considered when calculating a pension benefit. As required under the PPA, the Trustees have been and will continue to review the Rehabilitation Plan annually. Based on implementation of the Rehabilitation Plan and reflecting the Plan's experience through March 31, 2021, I hereby certify that the Plan is making scheduled progress as of April 1, 2021 as required under IRC Section 432(b)(3)(A)(ii).

Summary of Assumptions/Methods

Our projections are based on:

- April 1, 2020 participant data and April 1, 2020 actuarial valuation results, as described in the actuarial report for the Plan year ended March 31, 2021.
- March 31, 2021 unaudited assets and on investment performance and the summary of receipts and disbursements for the year ended March 31, 2021 provided by the Fund office.
- An assumption that the active population will remain stable for each plan year after March 31, 2021.
- Investment Returns
    - Investment returns after March 31, 2021 are based on the Fund's target asset allocation and 2020 Horizon 10-year capital market survey assumptions for first 10 years and 2020 Horizon 20-year capital market survey assumptions thereafter. The assumed rates of return on market assets (net of investment-related administrative expenses) for every year after the plan year ended March 31, 2021 are shown in the table below.

- Contribution Income:
- Future Benefit Accruals:
- Long-term assumptions before reflecting impact of COVID-19 on work levels:
    - Current actives and current in-pay retirees under 65: Future years' contributions are assumed to increase by 2.25% per year from those contributions reported for the prior pension credit year.

Summary of Assumptions/Methods (continued)

- Post-Retirement Benefit Accruals for future retirees and current in-pay retirees under 65 contribution amounts used are shown in the table below.

Attained Age	Annual Contribution Amount
55-75	$750
76-85	250

- Adjustments to long-term assumptions to reflect impact of COVID-19 on work levels:
  - Future benefit accruals adjusted by the same reduction to work levels reflected in the projected contribution income described below.

Fiscal Year Ending 3/31	% of Work Level Due to COVID-19
2021	32%

- Contribution Income:

  (a) Long-term, wage-based contribution assumption

- Wage-based contributions of $62,988,432 for fiscal year ending March 31, 2020 ("FYE") are expected to increase 2.6% per annum thereafter prior to consideration of the impact of COVID-19 described below. In addition, the 10% contribution rate increase implemented in June 2018 updated rehabilitation plan is expected to phase in according to the following schedule:
  - Freelance and Single-Engagement: 66% of contracts renewed in FYE 2020 and remaining 34% in FYE 2021
  - Broadway Theaters reflected prior to FYE 2021
  - All other: 25% of contracts renewed in FYE 2020 and remaining 75% distributed equally over FYE 2021 – 2023, inclusive

  (b) Impact of COVID-19

- The following chart shows the Trustees' expectations in wage-based contributions for FYE 2022 to 2025.

FYE	Projected Wage-Based Revenue ($M)
2022	$39.7
2023	66.8
2024	74.1
2025	76.2

These projections are based on an individualized analysis of each of the various industry segments, and take into account all information available to the Trustees. In each case, the Trustees began with the current decline in the industry segment, determined the date in which the segment is reasonably expected to begin to recover and established an expected timeline over which that the recovery would occur, typically on a graduated basis.

- Non-benefit-bearing, non-wage-based contributions of $7,897,443 FYE 2020, increase according to the table below and then 3.00% per annum thereafter.
  - $5,969,804 Streaming
  - $1,927,639 Film Musicians Fund

April 1, 2022 Actuarial Valuation of the American Federation of Musicians & Employers' Pension Fund

The actuarial valuation of the American Federation of Musicians & Employers' Pension Fund (the "Plan") for the plan year beginning April 1, 2022 has been completed in accordance with our understanding of the minimum funding requirements under ERISA and the Pension Protection Act of 2006 as well as the applicable sections of the Internal Revenue Code (IRC), including all regulations and guidance issued to date. It also has been completed in accordance with our understanding of FASB ASC Topic 960 for determining plan accounting requirements. The valuation results contained in this report are based on the actuarial methods and actuarial assumptions (Appendix A), and principal plan provisions (Appendix B) summarized in the appendices and were developed using models intended for valuations that use standard actuarial techniques. In addition, Appendix C contains information about the Plan's risks.

Purpose of the Valuation

In general, the actuarial valuation determines the current level of employer contributions that, taking into account prior funding, will accumulate assets sufficient to meet benefit payments and administrative expenses when due under the terms of the Plan. This report has been prepared for the American Federation of Musicians & Employers' Pension Fund as of April 1, 2022 to:

- Calculate the Minimum Required Contribution for the plan year beginning April 1, 2022.
- Calculate the Maximum Deductible Contribution for the 2022 fiscal year.
- Determine the actuarial Present Value of Accumulated Plan Benefits as of March 31, 2022 for purposes of disclosing the Plan's liabilities under FASB ASC Topic 960.
- Determine the Plan's unfunded vested benefit liability as of March 31, 2022 for withdrawal liability purposes calculated in accordance with the requirements of the Multiemployer Pension Plan Amendments Act of 1980.
- Review the Plan's funded status.
- Review the experience for the plan year ending March 31, 2022, including the performance of the Plan's assets during the year and changes in the Plan's participant demographics that impact liabilities.
- Provide operational information required for governmental agencies and other interested parties.

Limited Distribution

Milliman's work is prepared solely for the internal business use of the Plan's Trustees and may not be provided to third parties without our prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of its work product. Milliman's consent to release its work product to any third party may be conditioned on the third party signing a release, subject to the following exceptions:

- The Plan may provide a copy of Milliman's work, in its entirety, to the Plan's professional service advisors who are subject to a duty of confidentiality and who agree to not use Milliman's work for any purpose other than to benefit the Plan.
- The Plan may distribute certain work product that Milliman and the Plan mutually agree is appropriate as may be required by the Pension Protection Act of 2006.

Any third party recipient of this work product who desires professional guidance should not rely upon Milliman's work product, but should engage qualified professionals for advice appropriate to its own specific needs.

Reliance

In preparing this report, we relied, without audit, on information (both written and oral) supplied by the Plan's Administrator and Auditor. This information includes, but is not limited to, plan documents and summaries, participant data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is incomplete or inaccurate, our results may be different and our calculations may need to be revised.

The valuation results were developed using models that use standard actuarial techniques. The intent of the models is to estimate future plan costs. We have reviewed the models, including their inputs, calculations, and outputs for consistency, reasonableness, and appropriateness to the intended purpose and in the compliance with generally accepted actuarial practice and relevant actuarial standards of practice.

Limited Use

Actuarial computations for purposes other than determining the contribution requirements for an ongoing plan (such as for assessing benefit security upon potential plan termination) may yield significantly different results from those shown in this report.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to factors such as, but not limited to, the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on plan funded status); and changes in plan provisions or applicable law. Except for the information provided in Appendix C, due to the limited scope of the actuarial assignment, we did not perform an analysis of the potential range of such future measurements.

The consultants who worked on this assignment are actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

Certification

In our opinion, each assumption used, other than those assumptions mandated directly by the Internal Revenue Code and regulations thereon, is individually reasonable (taking into account the experience of the Plan and reasonable expectations) and, in combination, such other assumptions offer our best estimate of anticipated experience under the Plan.

On the basis of the foregoing, we hereby certify that to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the principles prescribed by the Actuarial Standards Board and the Code of Professional Conduct and Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States promulgated by the American Academy of Actuaries. We are members of the American Academy of Actuaries and meet its Qualification Standards to render the actuarial opinion contained herein.

C. Risk Disclosure

The Plan's risk is the potential that future actuarial measurements will differ from the current measurements presented in this report because future experience is different than expected. Risks include investment risk, asset / liability mismatch risk, interest rate risk, longevity and other demographic risks, and contribution risk. As required by Actuarial Standard of Practice No. 51 *Assessment and Disclosure of Risk Associated with Measuring Pension Obligations and Determining Pension Plan Contributions*, Appendix C provides information on the Plan's risks.

D. Actuarial Methods and Assumptions

The methods and assumptions used in this valuation are the same as those used in the prior valuation except as follows:

- The mortality projection scale was changed to MP-2021 from MP-2020.
- The assumption for future contribution increases was changed to 1.9% per year from the Plan year ending March 31, 2020 through the Plan year ending March 31, 2029 and 1.0% per year thereafter from 2.25% per year.
- The ultimate return to work percentage was updated from 98% to 100%.
- Terminated vested participants aged 85 and over as of the valuation date are assumed to never commence benefits and therefore excluded from the valuation. Previously, all terminated vested participants were assumed to commence benefits and included in the valuation.
- The assumption for retroactive payments to participants beyond Required Beginning Date was changed to exclude interest from Required Beginning Date. This change was made to conform to Plan practice.
- The administrative expense assumption was changed to $19.7 million from $19.0 million based on the Fund office's administrative expenses budget for the Plan year ending March 31, 2023.
- For Current Liability purposes, the interest rate was changed from 2.02% to 1.88% in accordance with IRS guidance. (The statutory mortality tables also have been updated as required by law).

- For withdrawal liability purposes, the interest rate was changed to 2.37% for the first 20 years and ultimate rate of 2.03% from 1.69% for the first 20 years and ultimate rate of 1.66%.

Please see Appendix A for a complete summary of all methods and assumptions used in this valuation.

E. Plan Provisions

This valuation reflects the plan provisions in effect on April 1, 2022, which are the same provisions that were valued in the April 1, 2021 actuarial valuation report.

Please see Appendix B for a detailed summary of plan provisions.

  80% of the participants are assumed to have beneficiaries. Male participants are assumed to be three years older than female beneficiaries and female participants are assumed to be three years younger than male beneficiaries.

- **Future Benefit Accruals:**
  Long-term assumptions before reflecting impact of COVID-19 on work levels:
  Current actives until retirement and current in-pay retirees under 65 until age 65: Future years' contributions are assumed to increase by 1.90% per year for 2019 to 2028 plan year and 1.00% per year thereafter from those contributions reported for the prior pension credit year.

  Current in-pay retirees at or over 65: Future years' contributions are assumed to be equal to contributions reported for the prior pension credit year.

  Contribution amounts for future retirees and current in-pay retirees under 65 starting at age 65 are shown below:

Attained Age	Annual Contribution Amount
55-75	$750
76-85	250

  Adjustments to long-term assumptions to reflect impact of COVID-19 on work levels:
  Future benefit accruals adjusted by the same reduction to work levels reflected in the projected contribution income from a participant's contributions during 2019 (if available) described below.

Fiscal Year Ending 3/31	% of Work Level Due to COVID-19
2022	57%
2023	91
2024 and later	100

  Participants who are considered terminated after March 31, 2020: Assumed to continue to accrue benefits as indicated above but adjusted by the probability of remaining active since year of termination. This assumption resulted in the following revised record counts for purposes of accruals:

Status	Record Count
Active	22,619
Terminated Vested	11,548

- **Administrative Expenses:**

  $19.7 million for the 2022-2023 Plan year based on the Fund office's estimated administrative expenses budget for the 2022-2023 Plan year. For FASB ASC Topic 960 plan accounting, the present value of the administrative expenses was calculated by projecting the payment of expected administrative expenses for the duration of the Plan's liabilities. The duration of the Plan's liabilities was calculated to be 12 years at March 31, 2022. Projected administrative expenses were increased 2.25% per annum after the valuation year, then discounted using the Plan's investment return assumption of 7.0%.

- **Benefit Limitations:**
  The Section 415 limit of $195,000* is applied on an aggregate basis but the participant's total benefit at December 31, 2007 is applied on an employer-by-employer basis using a Section 415 limit of $180,000.

  The Section 401(a)(17) limit of $245,000* is applied on an employer-by-employer basis. For valuation purposes, the Section 401(a)(17) limit is assumed to not apply for future accruals.

  * The limits do not change based on automatic cost-of-living adjustments. Rather, the limits will remain at the noted levels above until the Trustees amend the plan.

- **Assumptions regarding missing or incomplete data:**
  Lost Participants: Assume 100% of lost participants under age 85 will receive benefits. Lost participants over age 70½ receive actuarial increase from Normal Retirement Date to Required Beginning Date. In addition, a one-time payment of missed payments from Required Beginning Date to the valuation date.

Summary of Lost Participants as of 4/1/2022	
Count	607
Average Age	62
Average Annual Benefit	$2,987
One-Time Payment	$3.5M

  Unreported Data: Active participants with unreported data (gender, date of birth) are assumed to have characteristics of the average group. If not easily determined, participants with unknown sex are assumed to be male.

- **Rationale for Significant Assumptions:**

  Investment Return for ERISA minimum funding and FASB ASC Topic 960 plan accounting: Selected based on the Plan's target asset allocation as of the valuation date, capital market assumptions from several sources, including published studies summarizing the expectations of various investment experts. This information was used to develop forward-looking long-term expected returns, producing a range of reasonable expectations according to industry experts. Based on the resulting range of potential assumptions, in our professional judgement the selected investment return assumption is reasonable for this purpose and is not expected to have any significant bias.

Investment Return for withdrawal liability: Rates of return used by the PBGC to value annuities under a mass withdrawal. Withdrawal liability is used to allocate a portion of Unfunded Vested Benefits to employers who withdraw from the fund. A withdrawal is viewed as a settlement similar to an annuity purchase where the transfer of investment risk for a portion of a plan's liabilities is assumed by an insurance company. Use of the PBGC rates reflects the fact that a withdrawn employer transfers investment risk to the remaining employers. As such it is reasonable to use PBGC interest rates that are used to measure plan termination liabilities and which are considered comparable to rates used by insurance companies for annuities to measure the financial obligation of the withdrawing employer. In our professional judgement, the selected investment return assumption for withdrawal liability is reasonable for this purpose and is not expected to have any significant bias.

Base Mortality: Based on the assumptions and methods contained in our Mortality Experience Study, dated December 23, 2020.

Retirement Rates: Based on analysis of retirements experienced by the Plan from April 2011 through April 2016.

- **Changes in Assumptions from Prior Valuation**
  The assumptions used in this valuation are the same as those used in the prior valuation except as follows:
  - The mortality projection scale was changed to MP-2021 from MP-2020.
  - The assumption for future contribution increases was changed to 1.9% per year from the Plan year ending March 31, 2020 through the Plan year ending March 31, 2029 and 1.0% per year thereafter from 2.25% per year.
  - The ultimate return to work percentage was updated from 98% to 100%.
  - Terminated vested participants aged 85 and over as of the valuation date are assumed to never commence benefits and therefore excluded from the valuation. Previously, all terminated vested participants were assumed to commence benefits and included in the valuation.
  - The assumption for retroactive payments to participants beyond Required Beginning Date was changed to exclude interest from Required Beginning Date. This change was made to conform to Plan practice.
  - The administrative expense assumption was changed to $19.7 million from $19.0 million based on the Fund office's administrative expenses budget for the Plan year ending March 31, 2023.
  - For Current Liability purposes, the interest rate changed to 1.88% from 2.02%. The statutory mortality tales also have been updated as required by law.
  - For withdrawal liability purposes, the interest rate was changed to 2.37% for the first 20 years and ultimate rate of 2.03% from 1.69% for the first 20 years and ultimate rate of 1.66%.

Actuarial Cost Methods

- **Liability Valuation Method:**
  The actuarial cost method used for determining the plan sponsor's ERISA funding requirements and the FASB ASC Topic 960 values is the traditional unit credit actuarial cost method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's

accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits.

- **Asset Valuation Method:**
  The market value of assets is adjusted by smoothing the differences between the expected market value of assets and the actual market value of assets from the past five years. In accordance with the special asset valuation rule under funding relief, the amount of the difference in expected market value of assets and the actual market value of assets for the plan year ending March 31, 2009 is amortized over a 10-year period. The expected value of assets for each year is the market value of assets at the valuation date for the prior year brought forward with interest at the valuation rate to the current year plus contributions minus benefit payments and administrative expenses, all adjusted with interest at the valuation rate from the prior year to the valuation date for the current year. The actuarial value of assets is the resulting amount except if the resulting amount is greater than 120% of the market value, actuarial value of assets is set equal to 120% of market value of assets and if the resulting amount is less than 80% of the market value, actuarial value of assets is set equal to 80% of market value of assets.

  For purposes of determining the unfunded vested benefit liability for withdrawal liability calculations, the asset valuation method is market value.

- **Special amortization rule:**

  The Plan's investment loss for the Plan year ended March 31, 2009 is treated separately from other investment gains/losses, to be amortized in equal installments over the period beginning from April 1, 2009 through March 31, 2039.

  The portion of the net experience loss is based on the prospective method as described in Notice 2010-83. The schedule of amortization bases is as follows:

Year	Amount (Gain)/Loss	Years in Amortization Base*	Years in Offset Base*
4/1/09	$ 545,478,705	29	15
4/1/10	(124,097,819)	28	15
4/1/11	153,283,704	27	15
4/1/12	21,184,391	26	15
4/1/13	63,061,837	25	15
4/1/14	45,271,288	24	15
	$ 704,182,106*		

* The total loss of $704,182,106 equals the investment loss for the year ended March 31, 2009.

- **Changes in Method from Prior Valuation**

  None.

Appendix B – Summary of Principal Plan Provisions

Effective Date

November 16, 1959. The plan was amended and restated effective January 1, 2014.

Participation

An eligible employee becomes a participant on January 1 of the year in which the participant earns $750 in Covered Earnings by an Employer who is required to make contributions to the Fund.

Normal Retirement Age

Age 65 or if later, the date on which a Participant completes five years of participation in the Plan.

Vesting Service

Vesting Service is based on the Covered Earnings earned in each calendar year, as follow:

Covered Earnings	Years of Vesting Service
< $750	0.00
$750 - $1,499	0.25
$1,500 - $2,249	0.50
$2,250 - $2,999	0.75
>= $3,000	1.00

A Participant becomes vested upon completion of 5 years of Vesting Service or upon attainment of Normal Retirement Age.

Regular Pension Benefit

A Participant is eligible to receive a Regular Pension Benefit at Normal Retirement Age or at age 55 with 5 years Vesting Service.

Regular Pension Benefit is calculated by multiplying each $100 of vested contributions earned by a Benefit Multiplier (a specific dollar amount). The monthly benefit amount under the Life Annuity form of payment is calculated in accordance with the following tables:

Effective June 1, 2010 Monthly Amount per $100 of Vested Contributions					
Age	For Contributions for Covered Employment before 1/1/04	For Contributions for Covered Employment Between 1/1/04 and 3/31/07	For Contributions for Covered Employment Between 4/1/07 and 4/30/09	For Contributions for Covered Employment Between 5/1/09 and 12/31/09	For Contributions For Covered Employment on and after 1/1/10
55	$1.70	$1.28	$1.19	$0.73	$0.37
56	1.86	1.40	1.30	0.80	0.40
57	2.05	1.54	1.43	0.88	0.44
58	2.26	1.70	1.58	0.97	0.49
59	2.48	1.87	1.74	1.07	0.53
60	2.75	2.07	1.92	1.18	0.59
61	3.04	2.29	2.13	1.31	0.65
62	3.36	2.53	2.35	1.45	0.72
63	3.75	2.82	2.62	1.61	0.80
64	4.16	3.13	2.91	1.79	0.90
65	4.65	3.50	3.25	2.00	1.00

For participants who retire after Normal Retirement Age, the monthly benefit is the regular pension amount at Normal Retirement Age actuarially increased to account for delayed retirement.

Disability Pension Benefits

An active participant who has completed at least 10 years of Vesting Service, who has stopped working in Covered Employment because of a condition of Total Disability, and who has not started to receive a Regular Pension Benefit, is eligible for a Disability Pension Benefit.

The monthly Disability Pension Benefit is calculated by multiplying each $100 of contributions by the applicable age-65 Benefit Multipliers, actuarially reduced to participant's actual age as of the effective date of Disability Pension Benefit.

Pre-Retirement Death Benefits

If a vested participant who has not yet retired dies after age 55, the participant's beneficiary will receive a benefit equal to the benefit the beneficiary would have received had the participant retired on his date of death and elected to receive a 50% Joint and Survivor Annuity.

If a vested participant dies before age 55, the beneficiary's benefit is actuarially equivalent to the 50% Joint and Survivor Annuity at age 55.

Post-Retirement Death Benefits

If a vested participant dies after his or her benefit begins and the pension benefit was being paid as a Joint and Survivor Annuity, the Joint Annuitant will receive 50% of the participant's monthly benefit for his or her lifetime; if the pension benefit was being paid as Life Annuity, the remaining balance of the guaranteed benefit will be paid.

Re-Retirement Benefits

If a participant retires before his or her Normal Retirement Age, later returns to Covered Employment, and earns $50 or more of contributions in at least one calendar year between his or her initial pension Benefit Annuity Start Date and Normal Retirement Age, an additional benefit calculated based on the contributions made on the participant's behalf during that period will be paid as of the first of the month after the participant reaches Normal Retirement Age.

Redetermination Benefits

If a pensioner returns to Covered Employment and earns $50 or more of contributions in a calendar year after Normal Retirement Age, he or she will earn an additional pension benefit. This redetermination benefit is calculated each July 1st based on contributions for Covered Employment earned during the previous calendar year. The redetermination benefit is based on the age-65 Benefit Multiplier in effect at the end of the previous calendar year and is offset by the actuarial equivalent of any redetermination benefit received in the previous year that is based on contributions earned after 2003.

Normal Form of Payment

If a participant has an eligible spouse as of his or her Annuity Starting Date, the normal form of payment is Joint and Survivor Annuity. If a participant does not have an eligible spouse as of the Annuity Starting Date, the normal form of payment will be Single Life Annuity with respect to any benefit earned on and after January 1, 2004. If a portion of the participant's benefit was based on contributions earned prior to January 1, 2004, there is a guaranteed amount of 100 times that portion of the participant's benefit. The guaranteed feature is eliminated for benefit with an annuity starting date on or after June 1, 2010.

Appendix C – Risk Disclosure

The purpose of this appendix is to identify, assess, and provide illustrations of risks that are significant to the Plan, and in some cases to the Plan's participants.

The results of the actuarial valuation are based on one set of reasonable assumptions. However, it is almost certain that future experience will not exactly match the assumptions. As an example, investments may perform better or worse than assumed in any single year and over any longer time horizon. It is therefore important to consider the potential impacts of these likely differences when making decisions that may affect the future financial health of the Plan, or of the Plan's participants.

In addition, as plans mature they accumulate larger pools of assets and liabilities. This increases the potential risk to plan funding and the finances of those who are responsible for plan funding. As an example, it is more difficult for a plan sponsor to deal with the effects of a 10% investment loss on a plan with $1 billion in assets and liabilities than if the same plan sponsor is responsible for a 10% investment loss on a plan with $1 million in assets and liabilities. Since pension plans make long-term promises and rely on long-term funding, it is important to consider how mature the Plan is today, and how mature it may become in the future.

Actuarial Standard of Practice No. 51 (ASOP 51) addresses these issues by providing actuaries with guidance for assessing and disclosing the risk associated with measuring pension liabilities and the determination of pension plan contributions. Specifically, it directs the actuary to:

- Identify risks that may be significant to the Plan.
- Assess the risks identified as significant to the Plan. The assessment does not need to include numerical calculations.
- Disclose plan maturity measures and historical information that are significant to understanding the Plan's risks.

ASOP 51 states that if in the actuary's professional judgment, a more detailed assessment would be significantly beneficial in helping the individuals responsible for the Plan to understand the risks identified by the actuary, then the actuary should recommend that such an assessment be performed.

This appendix uses the framework of ASOP 51 to communicate important information about: significant risks to the Plan, the Plan's maturity, and relevant historical plan data.

Investment Risk

Definition: The potential that investment returns will be different than expected.

Identification: To the extent that actual investment returns differ from the assumed investment return, the Plan's future assets, funding contributions, and funded status may differ significantly from those presented in this valuation.

Interest Rate Risk

Definition: The potential that interest rates will be different than expected.

Identification: The pension liabilities reported herein have been calculated by computing the present value of expected future benefit payments using the interest rate(s) described in Appendix A. If interest rates in future valuations differ from this valuation, future pension liabilities, funding contributions, and funded status may differ

significantly from those presented in this valuation. As a general rule, using a higher interest rate to compute the present value of future benefit payments will result in a lower pension liability, and vice versa. One aspect that can be used to estimate the impact of different interest rates is a plan's duration.

Assessment: If the interest rate changes by 1%, the estimated percentage change in pension liability is a plan's duration in years. The approximate duration of this Plan is 12 years. As such, if the interest rate changes by 1%, the estimated change in pension liability is 12%.

Demographic Risks

Definition: The potential that mortality or other demographic experience will be different than expected.

Identification: The pension liabilities reported herein have been calculated by assuming that participants will follow patterns of demographic experience (e.g., mortality, withdrawal, disability, retirement, form of payment election, etc.) as described in Appendix A. If actual demographic experience or future demographic assumptions are different from what is assumed to occur in this valuation, future pension liabilities, funding contributions, and funded status may differ significantly from those presented in this valuation.

Contribution Risk

Definition: This is the possibility that actual future contributions deviate from expected future contributions.

Identification: The Plan is subject to the contribution risk that if contributions are lower than anticipated, investment income is lost in the intervening period and future collective bargaining agreements will need to have higher contribution rates.

Covered Employment Risk

Definition: The potential that future covered employment is lower than expected due to a declining workforce in a company or industry, or a temporary workforce reduction due to market forces.

Identification: A reduction in the Plan's contribution base can potentially threaten its ability to recover from another market downturn.

Employer Withdrawal Risk

Definition: The potential that contribution rate increases or benefit reductions will drive the bargaining parties to withdraw from the Plan.

Identification: Employer withdrawals will reduce the Plan's contribution base and add pressure on the remaining participating employers and the Plan's investment returns to restore or strengthen the Plan's funded status.

Assessment: Since the Plan has negative cash flow (i.e., annual contributions minus benefit payments and expenses), a reduction in contributions will add even more pressure on assets to achieve or exceed the assumed investment return.

Business Risk

Definition: The potential that a company suffers a financial setback which impairs its ability to make contributions to the Plan.

Identification: If contributions cannot be recovered, it will shift the weight of maintaining the Plan's funded status upon the remaining employers of the Plan.

Zone Status Risk

Definition: The potential that the Plan will deteriorate to a zone status such that the Trustees would need to take action to improve the Plan's funded status through the development of an improvement plan that increases contributions, reduces benefits, or both.

Identification: The type of benefit reductions and/or contribution rate increases would depend on the zone status. Specifically, yellow zone plans are generally limited to reducing benefits, rights, and features on future accruals only. Red zone plans can reduce features on all accrued benefits (such as early retirement subsidies), but cannot reduce benefits to those in pay status. Deep red zone plans have the same tools as red zone plans, but can also apply to the IRS and PBGC to reduce benefits to participants and beneficiaries in pay status.

Maturity Risk

Definition: This is the potential for total plan liabilities to become more heavily weighted toward inactive liabilities over time.

Identification: The Plan is subject to maturity risk because as plan assets and liabilities continue to grow, the impact of any gains or losses on the assets or liabilities also becomes larger.

Assessment: Currently assets are equal to 35 times last year's contributions indicating a one-year asset loss of 10% would be equal to 3.5 times last year's contributions.

Liquidity Risk

Definition: This is the potential that assets must be liquidated at a loss earlier than planned in order to pay for the Plan's benefits and operating costs. This risk is heightened for plans with negative cash flow, in which contributions do not exceed annual benefit payments plus expenses.

Identification: The Plan has high cash flow requirements because the sum of benefit payments plus expenses exceeds contributions. The Plan also has some allocation to illiquid assets such as real estate and private equity. As a result, there is a risk that assets may need to be liquidated at a loss before planned in order to pay benefits and expenses.

Re: Pension Protection Act (PPA) Actuarial Certification for Plan Year Beginning April 1, 2022 – American Federation of Musicians & Employers' Pension Fund

In accordance with IRC Section 432(b)(3)(A), we have prepared and attached an actuarial certification for the plan year beginning April 1, 2022 for American Federation of Musicians & Employers' Pension Fund.

In our opinion, the assumptions used for the actuarial certification are individually reasonable based on the experience of the plan and on reasonable expectations of anticipated experience under the plan. The projections in this report are dependent on the assumptions used. Differences between our projections and actual amounts depend on the extent to which future experience conforms to the assumptions made for this analysis. It is certain that actual experience will not conform exactly to the assumptions used in these projections. Actual results will differ from projected amounts to the extent that actual experience is better or worse than expected.

On the basis of the foregoing and as a member of the American Academy of Actuaries (AAA) who meets the Qualification Standards of the AAA to render the actuarial opinion contained herein, I hereby certify that, to the best of my knowledge and belief, this letter is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices.

Funding Status Projection Results

An accumulated funding deficiency is projected to occur for the current Plan year ending March 31, 2023.

The funded percentage as of April 1, 2022 is projected to be 49.2%.

The Plan fails tests under both IRC Section 432(b)(2)(B) and IRC Section 432(b)(2)(C), used to determine whether the Plan is in critical status.

The ratio of inactive to active participants as of April 1, 2021 is 2.27.

The Plan is projected to become insolvent during the Plan year ending March 31, 2039.

PPA Certification

I hereby certify that the American Federation of Musicians & Employers' Pension Fund is considered "critical and declining" under IRC Section 432(b)(6) for the Plan year beginning April 1, 2022, as defined in the Pension Protection Act of 2006 as amended by the Multiemployer Pension Reform Act of 2014 ("MPRA").

Further, I hereby certify that to the best of my knowledge and belief, the actuarial assumptions employed in preparing this certification are individually reasonable and represent my best estimate of future experience. Additionally, the "projected industry activity" assumption, as required under IRC Section 432(b)(3)(B)(iii), has been based on input provided by the Board of Trustees.

The valuation results were developed using models intended for valuations that use standard actuarial techniques. The certification is based on a projection model. Projection models reflect possible outcomes based on projected inputs. Actual results will differ from those projected to the extent actual plan provisions, assumptions, and emerging experience differs from the projection inputs. Appendix C of the April 1, 2021 actuarial valuation report includes a risk assessment, disclosure, and key plan maturity metrics applicable to these calculations.

Scheduled Progress

The Pension Protection Act (PPA) requires the actuary to certify whether the plan is making scheduled progress in meeting the requirements of its Rehabilitation Plan. The Rehabilitation Plan for the American Federation of Musicians & Employers' Pension Fund was adopted in April 2010 which reduced certain benefits and increased the Plan's contribution rates. The Trustees determined using reasonable actuarial assumptions and methods that they were unable to adopt a Rehabilitation Plan that would enable the Plan to emerge from critical status by the end of the ten-year Rehabilitation Period on March 31, 2023 which began on April 1, 2013. As a result, the Trustees adopted a Rehabilitation Plan that, in their judgment, consisted of all reasonable measures to either emerge from critical status by a later date than the ten-year period mentioned above or forestall insolvency. The Trustees revised the Rehabilitation Plan effective June 27, 2016 such that in their judgment, it consisted of all reasonable measures to forestall insolvency. The Rehabilitation Plan contribution schedule has been updated effective June, 2018 to require a 10% increase in the rate of contributions with such increases not considered when calculating a pension benefit. As required under the PPA, the Trustees have been and will continue to review the Rehabilitation Plan annually. Based on implementation of the Rehabilitation Plan and reflecting the Plan's experience through March 31, 2022, I hereby certify that the Plan is making scheduled progress as of April 1, 2022 as required under IRC Section 432(b)(3)(A)(ii).

Date

Summary of Assumptions/Methods

Our projections are based on:

- April 1, 2021 participant data and April 1, 2021 actuarial valuation results, as described in the actuarial report for the Plan year ended March 31, 2022.
- March 31, 2022 unaudited financial statement provided by the Fund office.
- An assumption that the active population will remain stable for each plan year after March 31, 2022.

Investment Returns

- Assumed rate of return on market assets of 7.00% (net of investment-related administrative expenses) for every year after the plan year ended March 31, 2022.
- No future asset gains or losses other than the gains or losses related to the asset smoothing method.

Contribution Income:

(a) Long-term, wage-based contribution assumption

- Wage-based contributions of $22,121,313 for fiscal year ending March 31, 2021 ("FYE") are expected to increase 2.6% per annum thereafter. In addition, the 10% contribution rate increase implemented in June 2018 updated rehabilitation plan is expected to phase in according to the following schedule:
  - Freelance and Single-Engagement: 66% of contracts renewed in FYE 2020 and remaining 34% in FYE 2021
  - Broadway Theaters reflected prior to FYE 2021
  - All other: 25% of contracts renewed in FYE 2020 and remaining 75% distributed equally over FYE 2021 – 2023, inclusive

(b) Impact of COVID-19

- The following chart shows the Trustees' expectations in wage-based contributions for FYE 2023 to 2025.

FYE	Projected Wage-Based Revenue ($M)
2023	$66.8
2024	74.1
2025	76.2

These projections are based on an individualized analysis of each of the various industry segments, and take into account all information available to the Trustees. In each case, the Trustees began with the current decline in the industry segment, determined the date in which the segment is reasonably expected to begin to recover and established an expected timeline over which that the recovery would occur, typically on a graduated basis.

- Non-benefit-bearing, non-wage-based contributions increase according to the table below

FYE	Non-benefit-bearing, non-wage-based contributions ($ or % increase)	
	Streaming	Film Musicians Fund
2023	$9,906,000	$2,231,483
2024	16%	5%
2025	12	4
2026	10	4
2027	8	3
2028	6	3
2029	5	3
2030	4	3
2031 and later	3	3

- Future other income according to the table below assumes that currently withdrawn employers continue to make scheduled quarterly withdrawal liability payments.

Fiscal Year Ending 3/31	Contributions ($M)
2023-2032	$0.11
2033	0.09
2034	0.07
2035-2036	0.05
2037	0.02
2038-2040	0.01
2041 and later	0.00

New entrant profile

- Active participant count remains level. New entrant wages projected to increase at 2.25% wage increase assumption from 2021. New entrant profile per 1,000 new entrants outlined in table below:

Age	$3,230 wages in 2021; 10.7% contribution rate			$25,501 wages in 2021; 11.6% contribution rate

Notwithstanding the foregoing provision, this paragraph shall not apply to any leased employee if leased employees do not constitute more than 20 percent of the recipient's non-highly compensated workforce and such Employee is earning over $1,000 per year from the leasing organization and is covered by a money purchase pension plan maintained by the leasing organization which provides (i) a non-integrated employer contribution rate of at least ten percent (10%) of compensation, (ii) immediate participation, and (iii) full and immediate vesting. When a leased employee becomes an Employee, his or her period of service as a leased employee and the period during which he or she would have been a leased employee, but for the requirement that services be performed on a substantially full-time basis for a least a year, will be counted for purposes of the Plan's vesting and eligibility requirements.

Section 4.02 BREAKS IN SERVICE. Years of Vesting Service earned prior to a period of consecutive One-Year Breaks in Service by a Participant with no vested right to a pension benefit under the Plan shall not be counted for purposes of calculating the Participant's vested percentage if the number of the Participant's consecutive One-Year Breaks in Service equals or exceeds the greater of (i) five, or (ii) the aggregate number of the Participant's Years of Vesting Service (not including any years previously disregarded under this rule or any rule regarding Permanent Breaks-in-Service previously in effect) before such period of consecutive One-Year Breaks in Service. This shall be known as a "Permanent Break-in-Service." Section 5.03 REGULAR PENSION BENEFIT AMOUNT. Except as otherwise provided elsewhere in this Section 5.03, in Section 5.06 (Re-determination of Pension Benefits) or in Section 5.08 (Maximum Benefits), the amount of an eligible Participant's Regular Pension Benefit shall be the Basic Monthly Amount described in subsection (a) below (plus, for Participants born prior to 1921, the amount of the Past-Service Benefit, if any).

All amounts calculated hereunder will be subject to adjustment if the benefit is being distributed in the form of a 50% Joint and Survivor Annuity or a 75% Joint and Survivor Annuity.

(c) **Calculation of Pension Benefit Commencing Upon Retirement After Normal Retirement Age**. If a Participant continues in Covered Employment beyond Normal Retirement Age and his or her Pension Effective Date is after Normal Retirement Age, the Regular Pension Benefit payable to such Participant commencing on his or her Pension Effective Date shall be the greater of:

The Administrative Committee shall have sole and absolute authority and discretion to determine whether a Participant has a condition of Total Disability and a Participant's entitlement to a Disability Pension Benefit under this Plan pursuant to any procedures that may be adopted by the Administrative Committee or Trustees from time to time. The Administrative Committee may, in its discretion, rely on a certification of a disability benefit award from the Social Security Administration, or on the statements of physicians who shall have examined the Participant. The Plan Administrator may arrange, at the expense of the Trust Fund, for such medical examinations or re-examinations as the Administrative Committee deems appropriate to establish a definitive diagnosis, or to establish a Participant's eligibility for a Disability Pension Benefit or continued entitlement to a Disability Pension Benefit under this Plan.

(c) **Effective Date of Disability Pension Benefit**. A Disability Pension Benefit shall be payable effective as of the Pension Effective Date of the Disability Pension Benefit as determined in accordance with the provisions of Section 8.05(a).

(d) **Continued Entitlement to Disability Pension Benefit**. If a Pensioner receiving a Disability Pension Benefit who has not attained Normal Retirement Age shall cease to have a condition of Total Disability, as determined by the Administrative Committee in its sole and absolute discretion in accordance with the provisions of this Section 5.04, payment of his or her Disability Pension Benefit shall cease as soon as is administratively practicable and no benefits shall thereafter be paid until the Participant either (i) again becomes eligible to receive a Disability Pension Benefit due to a new condition of Total Disability, or (ii) becomes eligible to receive a Regular Pension Benefit. A Pensioner receiving a Disability Pension Benefit who has not attained Normal Retirement Age who resumes Covered Employment and earns in excess of $15,000 of Covered Earnings in a calendar year (which Earnings are attributable to Covered Employment performed during that calendar year) shall be deemed to have ceased his or her condition of Total Disability, and payment of his or her Disability Pension Benefit shall cease as soon as is administratively practicable. No benefits shall thereafter be paid until the Participant either (i) again becomes eligible to receive a Disability Pension Benefit due to a new condition of Total Disability, (ii) becomes eligible to receive a Regular Pension Benefit, or (iii) provides evidence satisfactory to the Administrative Committee, in its sole and absolute discretion, that his or her condition of Total Disability has continued.

Section 5.05 DISABILITY PENSION BENEFIT AMOUNT. The monthly amount of an eligible Participant's Disability Pension Benefit shall equal the Actuarial Equivalent (determined based on the Participant's actual age as of the Pension Effective Date of his or her

Disability Pension Benefit (as determined in accordance with Section 5.04(c) above)) of the Regular Pension Benefit monthly amount such Participant would have received if he or she were age 65 as of the Pension Effective Date of the Participant's Disability Pension Benefit (as determined in accordance with Section 5.04(c) above).

Section 5.06 REDETERMINATION OF PENSION BENEFITS. If a Participant commenced receiving payment of pension benefits under the Plan, and subsequently earns additional Contributions, the pension benefits payable will be redetermined subject to the provisions of subsections (a), (b), (c) and (d) of this Section. For purposes of this Section, the term "Pensioner" shall also refer to a Participant who previously received a lump-sum payment of a pension benefit under the Plan and subsequently earns additional Contributions.

(a) **Redeterminations With Respect to Contributions Earned Prior to January 1, 1996.** If a Pensioner earns Contributions after his or her Pension Effective Date, the provisions of this subsection (a) shall apply with respect to Contributions earned prior to 1996. The amount of benefits redetermined pursuant to this subsection (a) are subject to adjustment where the pension is being paid in the form of a 50% Joint and Survivor Annuity or a 75% Joint and Survivor Annuity. The redetermination procedures set forth in this subsection (a) shall apply only to the Contributions earned by a Pensioner after his or her Pension Effective Date and shall not apply to any Contributions taken into consideration at the time of the Pensioner's Pension Effective Date. Contributions shall be rounded to the nearest $100. The amount of any additional pension benefit payable based on Contributions earned after a Pensioner's Pension Effective Date, as determined in accordance with this subsection, shall be added to the Pensioner's monthly pension benefit and commence to be distributed on the July 1 following the calendar year it was accrued. The Pensioner shall be entitled to an additional Basic Monthly Amount based on (i) the Pensioner's attained age as of July 1 of the year following the calendar year in which the Contributions were earned, and (ii) the monthly pension factors indicated in the following table:

65 or over	the Basic Monthly Amount dollar rate set forth in Section 5.03(a) for a Participant age 65 or over for the calendar year in which the Contributions were earned.

For years preceding attainment of Normal Retirement Age by a Pensioner receiving payment of a Regular Pension Benefit, the additional benefit shall not be less than the amount determined using the applicable Basic Monthly Amount dollar rate set forth in Section 5.03(a) based on the Pensioner's attained age as of July 1 of the year following the calendar year in which the Contributions were earned, reduced by the Actuarial Equivalent of the pension benefits paid to the Pensioner during that calendar year.

(b) **Reretirement of Regular Pension Benefits With Respect to Contributions Earned on or After January 1, 1996**. The following provisions shall apply with respect to any additional pension benefits that may become payable to a Pensioner who initially retires and commences receiving payment of a Regular Pension Benefit prior to attaining Normal Retirement Age, and then earns additional Contributions in any calendar year after his or her initial Pension Effective Date and on or after January 1, 1996, but prior to his or her attaining Normal Retirement Age, which would otherwise have entitled such Pensioner to a redetermined benefit under the provisions of subsection (a) of this Section (for purposes of this subsection (b) only, referred to as an "early retirement Pensioner").

Any additional pension benefit that may become payable to an early retirement Pensioner with respect to Contributions earned after his or her initial Pension Effective Date and prior to his or her attainment of Normal Retirement Age shall commence to be distributed to such early retirement Pensioner on the first day of the month following his or her attainment of Normal Retirement Age. Such day shall be deemed the Pension Effective Date with respect to the additional monthly benefit payable to the early retirement Pensioner with respect to such Contributions (for purposes of this Section only, referred to as the "later Pension

Effective Date"), and the commencement of this additional pension benefit may not be deferred beyond the later Pension Effective Date.

Subject to adjustment where the early retirement Pensioner's initial pension benefit is being paid in the form of a 50% Joint and Survivor Annuity or 75% Joint and Survivor Annuity, the amount of the additional monthly pension benefit that will become payable to an early retirement Pensioner commencing on the later Pension Effective Date shall be the greater of the two amounts computed under paragraphs (1) and (2) below.

(1) The following amount: (i) the monthly benefit computed using the Basic Monthly Amount dollar rates set forth in Section 5.03(a) applicable to age 65 and all Contributions credited on behalf of the early retirement Pensioner for all periods of time (including such Contributions which were used in calculating his or her original pension benefit), less (ii) the monthly Actuarial Equivalent value of the pension benefits actually paid to such early retirement Pensioner from his or her initial Pension Effective Date up to the end of the month during which he or she attains Normal Retirement Age which are attributable to Contributions credited on behalf of the early retirement Pensioner for all such periods of time, minus (iii) the amount of the monthly pension benefit that was payable to the early retirement Pensioner immediately prior to his or her later Pension Effective Date attributable to Contributions credited on behalf of the early retirement Pensioner for all such periods of time. This calculation shall be performed separately for each period of time set forth as a separate column in the chart in Section 5.03(a).

(2) The sum of the additional monthly benefits that would have become payable to the early retirement Pensioner annually up to the end of the month during which he or she attains Normal Retirement Age (or through May 31, 2010, if earlier) with respect to Contributions earned from the later of January 1, 1996 and his or her initial Pension Effective Date up to the end of the month during which he or she attains Normal Retirement Age (or through May 31, 2010, if earlier) if those benefits were calculated in accordance with the provisions of subsection (a) of this Section, without regard to the last paragraph of subsection (a).

A Participant or former Participant who retires prior to attaining Normal Retirement Age and receives a lump-sum payment of his or her pension benefit in accordance with the provisions of Section 8.04, and then earns additional Covered Earnings, shall be considered an early retirement Pensioner for purposes of this subsection (b); provided, however, that with respect to such an early retirement Pensioner, the amounts used in the calculation of the additional pension benefit payable as of the later Pension Effective Date under paragraph (1) of this subsection (b), which are based on the monthly value of benefits actually paid to an early

retirement Pensioner, shall be computed as the monthly Actuarial Equivalent value of the lump-sum payment received by the early retirement Pensioner as of his or her initial Pension Effective Date (plus subsequent lump-sum payments received by the early retirement Pensioner with respect to additional benefits based on Contributions earned prior to 1996, calculated in accordance with subsection (a) of this Section, if any).

In the event that an early retirement Pensioner who has earned an additional monthly pension benefit described in this subsection (b) dies prior to his or her later Pension Effective Date, the provisions concerning the amount and distribution of the Pre-retirement Death Benefit shall apply with respect to distribution of the death benefit attributable to Contributions earned after the Pensioner's initial Pension Effective Date.

(c) **Reretirement and Redetermination of Disability Pension Benefits.** The following provisions shall apply with respect to any additional pension benefits that may become payable to a Pensioner who initially retires and commences receiving payment of a Disability Pension Benefit prior to attaining Normal Retirement Age, and then earns additional Contributions (for purposes of this subsection (c) only, referred to as an "early disability Pensioner").

(1) The provisions concerning the timing of the payment of an additional pension benefit contained in subsection (b) above shall apply.

(2) Subject to adjustment where the additional pension benefit is to be paid in the form of a 50% Joint and Survivor Annuity or a 75% Joint and Survivor Annuity, the amount of the additional monthly pension benefit that will become payable to an early disability Pensioner as of his or her later Pension Effective Date shall be the monthly benefit computed using the Basic Monthly Amount dollar rate set forth in Section 5.03(a) applicable to age 65 as of the later Pension Effective Date as applied to Contributions earned from the initial Pension Effective Date through the end of the month during which the Pensioner attains Normal Retirement Age during each calendar year in which at least $50 of Contributions were earned.

(3) Additional benefits payable to an early disability Pensioner with respect to Contributions earned after attaining Normal Retirement Age shall be calculated in accordance with the provisions of subsection (d) of this Section.

(d) **Redetermination of Pension Benefits With Respect to Contributions Earned on or After January 1, 1996.** The following provisions shall apply with respect to any additional pension benefits that may become payable to a Pensioner who earns additional Contributions in any calendar year after attaining Normal Retirement Age which would otherwise have entitled such Pensioner to a redetermined benefit under the provisions of subsection (a) of this Section.

The additional benefits that may become payable to a Pensioner based on Contributions earned after attainment of Normal Retirement Age shall be distributed in accordance with the provisions of subsection (a) of this Section. With respect to Contributions earned before January 1, 2004, the amount of the additional monthly benefit shall be calculated in accordance with subsection (a) of this Section. With respect to Contributions earned on or after January 1, 2004, subject to adjustment where the additional pension benefit is to paid in the form of a 50% Joint and Survivor Annuity or a 75% Joint and Survivor Annuity, the amount of the additional monthly benefit that may become payable to such a Pensioner shall be (i) the amount of the additional monthly benefit that would be payable under the provisions of subsection (a) with respect to Contributions earned during that calendar year (except that "1/1/08" shall be substituted for "4/1/07" in determining the applicable Basic Monthly Amount dollar rate set forth in Section 5.03(a) applicable to such calendar year), minus (ii) the monthly Actuarial Equivalent value of the benefits actually paid to such Pensioner during that same calendar year (i.e., the calendar year in which the additional Contributions were earned) based on Contributions earned on or after January 1, 2004.

If a Pensioner initially commences receiving payment of a Regular Pension Benefit on or after attaining Normal Retirement Age, and thereafter earns additional Contributions, the form of payment of any additional benefits that may become payable to such a Pensioner shall be the same as that of the Pensioner's initial Regular Pension Benefit.

If an early retirement Pensioner or early disability Pensioner earns Contributions after Normal Retirement Age, the form of payment of any additional benefits payable with respect to Contributions earned after attaining Normal Retirement Age shall be the same as that elected by the early retirement Pensioner or early disability Pensioner as of his or her later Pension Effective Date determined under subsection (b) or (c) of this Section, as applicable. If an early retirement Pensioner or early disability Pensioner does not have a later Pension Effective Date because he or she first earned additional Contributions after attaining Normal Retirement Age, the first date that additional benefits become payable under the provisions of this subsection (d) shall be the Pension Effective Date of such additional pension benefit. The form of payment elected at that time shall also apply to all subsequent additional pension benefits that become payable to him or her thereafter, if any.

Section 5.07 NON-DUPLICATION OF PENSION BENEFITS. No person shall be entitled to receive more than one type of pension benefit under the Plan with respect to a single period of Covered Employment.

Section 5.08 MAXIMUM BENEFITS. (a) Notwithstanding anything herein to the contrary, the Plan shall be administered in a manner that will result in its complying with the provisions of Code section 415, which are hereby incorporated into the Plan by reference.

(b) In addition to other limitations set forth in the Plan and notwithstanding any other provisions of the Plan, the accrued benefit of a Participant, including the right to any optional benefits provided in the Plan and any benefits distributed under the Plan, shall not increase to an amount in excess of the amount permitted under Code section 415 at any time. (To the extent that this Plan is required to be aggregated with another defined benefit plan sponsored by a single Employer, only the benefits under this Plan that are provided by such Employer shall be taken into account for purposes of such aggregation.) The cost-of-living adjustments in both the dollar limit, and, if applicable, the compensation limit provided for in Code section 415(d) are hereby incorporated by reference and shall be automatic, including those for Participants who have incurred a severance from Covered Employment; provided, however, that (i) the annual benefit payable at the initial Pension Effective Date (and including any additional accrual earned thereafter), which is otherwise limited by the dollar limitation under Code section 415(b)(1)(A), shall not be increased under Code section 415(d) after the initial Pension Effective Date and (ii) notwithstanding anything herein to the contrary, this Section 5.08 shall be applied as if the dollar limitation set forth in Code section 415(b)(1)(A) (as adjusted) is no more than $195,000.

(c) For purposes of this Section, "limitation year" shall mean the calendar year. A limitation as adjusted under section 415(d) will apply to limitation years ending with or within the calendar year for which the adjustment applies.

(d) For purposes of applying the limitations of Code section 415, compensation (hereinafter "415 Compensation") shall mean the employee's wages within the meaning of Code section 3401(a) and all other payment of compensation to an Employee by an Employer (in the course of the Employer's trade or business) for which the Employer is required to furnish to the Employee a written statement under Code sections 6041(d), 6051(a)(3) and 6052. 415 Compensation includes amounts that would be included in wages but for an election under Code sections 125(a), 132(f)(4), 402(e)(3), 402(h)(1)(B), 402(k), or 457(b).

415 Compensation shall be included in a limitation year only if actually paid or made available during such limitation year, but also shall include amounts earned but not paid during the limitation year solely because of the timing of pay periods and pay dates, provided the amounts are paid during the first few weeks of the next limitation year, the amounts are included on a uniform and consistent basis with respect to all similarly situated employees, and no compensation is included in more than one limitation year.

415 Compensation for a limitation year shall also include compensation paid no later than the later of 2-1/2 months after a Participant's severance from Covered Employment or the end of the limitation year that includes the date of the Participant's severance from Covered Employment. In such instances, compensation shall be included as 415 Compensation only if the payment is regular compensation for services during the Participant's regular working hours,

or compensation for services outside the Participant's regular working hours (such as overtime or shift differential), commissions, bonuses, or other similar payments, and absent a severance from employment, the payments would have been paid to the Participant while the Participant continued in Covered Employment. In addition, 415 Compensation shall include vacation and sick leave payouts that are paid no later than the later of 2-1/2 months after a Participant's severance from Covered Employment or the end of the limitation year that includes the date of the Participant's severance from Covered Employment. Notwithstanding the foregoing, the provisions of this paragraph shall not apply to payments to an individual who does not currently perform services in Covered Employment by reason of qualified military service (as defined in Code section 414(u)) to the extent those payments do not exceed the amount the individual would have received had he or she continued in Covered Employment rather than entering military service.

(e)(1) Notwithstanding the foregoing, any higher limits, or any lower limits, provided for in this Section 5.08 as in effect prior to January 1, 2008 are hereby grandfathered to the extent permitted by applicable law. With respect to benefits accrued prior to January 1, 2008, the maximum benefit limits of Code Section 415 and this Section 5.08 shall be applied separately to each Contributing Employer. For limitation years beginning on or after January 1, 2008, a Participant's maximum benefit under Code Section 415 and this Section 5.08 shall not be less than such Participant's maximum benefit as of December 31, 2007.

(2) For purposes of applying the limitations of Code Sections 415(b) and 415(e), for an individual who was a Participant as of the first day of the first limitation year beginning after December 31, 1986 in a defined benefit plan which was in existence on May 6, 1986, and whose accrued benefit, as of the close of the 1986 limitation year, exceeds the dollar limitation of Code section 415(b), as amended by the Tax Reform Act of 1986, then the Participant's applicable dollar limitation is the Participant's accrued benefit as of the close of the last limitation year beginning prior to December 31, 1986 (determined as if the individual separated from service as of the end of that year and without regard to any changes in the terms of the Plan or cost of living increases occurring after May 6, 1986).

(3) The accrued benefit of any Participant which exceeds the benefit limitations under Code Section 415, as amended by Tax Reform Act of 1986 (including the protected current accrued benefit described in Q&A 12 of Notice 87-21), is reduced as of the first day of the first limitation year beginning after December 31, 1986, to the level permitted under Tax Reform Act of 1986.

Section 5.09 TOP HEAVY DETERMINATION.

(a) **Definitions.** Wherever used in this Section 5.09, the following words and phrases shall have the following meanings:

(1) Aggregated Plans: All plans of a Contributing Employer satisfying the requirements of Code section 401(a)(i) which are required to be aggregated with the Plan pursuant to Code section 416(g)(2)(A)(i), including each plan which must be considered with such plan in order for such plan to meet the requirements of Code section 401(a)(4) or Code section 410, and (ii) which the Trustees elect to aggregate with the Plan pursuant to Code section 416(g)(2)(A)(ii), including any other plan as elected by the Trustees that satisfies the requirements of Code sections 401(a)(4) and 410 when considered together with the plans required to be aggregated as described above. A terminated or frozen plan shall be treated as an Aggregated Plan only in accordance with Treasury Department regulations.

(2) Average Pay: The compensation of a Participant averaged over the 5 consecutive Plan Years which produces the highest average prior to such Participant's retirement, death or other termination of employment. The term "compensation" as used in this Section 5.09 shall mean the Employee's compensation on his Form W-2 for the calendar year that ends with or within the applicable Plan Year and shall include amounts excluded from taxable income under Code section 125, 402(g)(3), 457, and 132(f)(4). For purposes hereof, the term "compensation" shall not include such compensation after the last Plan Year in which a Plan is a Top-Heavy Plan.

(3) Determination Date: The date as of which it is determined if a plan is to be a Top-Heavy Plan for a Plan Year. The Determination Date with respect to a plan shall be the last day of the immediately preceding plan year or, in the case of a new plan for the first plan year, the last day of such plan year.

(4) Key Employee: Any individual (and the beneficiary of such individual) described in Code section 416(i)(1) and the Treasury Regulations thereunder.

(5) Present Benefit Value —

(A) With respect to a defined benefit plan which is included in the Aggregated Plans, the sum of the present values of a Participant's accrued benefits under such plans. The accrued benefit of an Employee other than a Key Employee shall be determined under (1) the method, if any, that uniformly applies for accrual purposes under all plans maintained by a Contributing Employer, or (2) if there is no such method, as if such benefit accrued not more rapidly than the slowest accrual rate permitted under the fractional accrual rate of Code section 411(b)(1)(C). Except as provided in the applicable Treasury Regulations, such accrued benefits shall be

determined as if the Participant had voluntarily terminated employment on the valuation date which is or would be used for computing plan costs for minimum funding purposes pursuant to Code section 412 and which is within the 12-month period ending on the Determination Date. Such present value shall be determined on the basis of the actuarial assumptions in effect under such defined benefit plan and may include cost of living increases (to the maximum benefit then permitted pursuant to Code section 415). Non-proportional subsidies may be taken into consideration in accordance with Treasury Regulations.

(B) With respect to a defined contribution plan which is included in the Aggregated Plans, the sum of a Participant's account balances attributable to employer and employee contributions under such plans as of the most recent valuation date under the plan ending within the 12-month period ending on the applicable Determination Date and shall be adjusted for contributions due as of such Determination Date. If a plan is not subject to the funding requirements of Code section 412, the adjustment is the amount of contributions actually made after the valuation date and on or before the Determination Date and, in the first plan year of any plan, also shall include contributions allocated as of a date in such plan year but made after the Determination Date. If a plan is subject to the funding requirements of Code section 412, a Participant's account balance shall include contributions not yet required to be contributed, but which would be allocated as of a date not later than the Determination Date, and the adjustment shall reflect any contributions made or due after the valuation date but prior to the expiration of the extended payment period of Code section 412(c)(10).

(C) Present Benefit Value shall also include any related rollovers and transfers. A determination as to whether a rollover or transfer is related or unrelated shall be made in accordance with applicable Treasury Regulations.

(D) Present Benefit Value shall also include, to the extent not otherwise included, any amounts distributed to the Participant or the Participant's beneficiary during the Plan Year under the Plan or any Aggregated Plan, during the 1-year period ending on the Determination Date. The preceding sentence shall also apply to distributions under a terminated plan which, had it not been terminated, would have been aggregated with the Plan under Code section 416(g)(2)(A)(i). In the case of a distribution made for a reason other than severance from employment, death, or disability, this provision shall be applied by substituting "5-year period" for

"1-year period." Present Benefit Value shall not include the present value of any accrued benefit under a defined benefit plan or the account balance under a defined contribution plan with respect to a Participant who has not performed services for an employer maintaining the plan at any time during the 1-year period ending on the applicable Determination Date or with respect to a Participant who is not a Key Employee for a Plan Year, although such person was a Key Employee in a prior Plan Year.

(6) Top-Heavy Plan: Aggregated Plans in which more than 60% of the sum of all Present Benefit Values is attributable to Key Employees, as determined as of the applicable Determination Date. For this purpose, plans will be aggregated with reference to the Determination Date which occurs within the same calendar year.

(7) Year of Top-Heavy Service: Each Year of Service which commences in a Plan Year in which the Plan is a Top-Heavy Plan.

(b) **Minimum Benefit.**

(1) For any Plan Year in which the Plan is a Top-Heavy Plan, the Accrued Benefit for a Participant who is not a Key Employee shall not be less than the Participant's Average Pay multiplied by the lesser of (i) 2% multiplied by the Participant's Years of Top-Heavy Service or (ii) 20%.

(2) If a Participant is also a participant in any other defined benefit plan of a Contributing Employer, the minimum benefit set forth in (1) above shall be reduced by any benefits provided from such other plan with respect to any of the Participant's Years of Top-Heavy Service.

(3) If a Participant is also a participant in any defined contribution plan of a Contributing Employer, the minimum benefit set forth in (1) above shall be reduced to the extent permitted by Code section 416 (or any regulations issued thereunder) with respect to any benefits provided under such plans.

(4) The minimum benefit set forth in (1) above, shall be payable as a life annuity (with no ancillary benefits) commencing at the Participant's Normal Retirement Age. Any benefit which is payable as other than a life annuity, or which commences at other than the Participant's Normal Retirement Age shall be adjusted to an amount which is actuarially equivalent to such benefit. For purposes hereof, such actuarially equivalent determination shall be based on such actuarial assumptions set forth in Appendix A.

(c) **Minimum Vesting.** If the Plan is a Top-Heavy Plan, each Participant shall be fully vested after having completed three Years of Vesting Service. If the Plan ceases to be a Top-Heavy Plan for any future year, the minimum vesting schedule shall not be applicable with respect to any such future Plan Year; provided, however, that such minimum vesting schedule shall continue to apply with respect to the Accrued Benefit of any Participant who had completed 3 or more Years of Service as of the first day of the Plan Year as of which the Plan ceases to be a Top-Heavy Plan.

(d) **Amendment Not Required.** The foregoing provisions of this Section 5.11 are intended to conform the Plan to the requirements of Code section 416 and any regulations, rulings or other pronouncements issued pursuant thereto, and shall be construed accordingly. In the event that under any statute, regulation or ruling all or a portion of the conditions of this Section are no longer required for the Plan to comply with the requirements of Code section 401 (or any other provisions with respect to qualification for tax exemption of retirement plans and trusts), to the extent possible such conditions shall become void and shall no longer apply without the necessity of an amendment to the Plan.

(e) **Non-applicability to Collectively Bargained Groups.** The provisions of this Section 5.09 do not apply with respect to any Employee included in a unit of employees covered by a collective bargaining agreement.

(f) **Minimum Benefits.** For purposes of satisfying the minimum benefit requirements of Code section 416(c)(1) and the Plan, in determining years of service with an Employer, any service with an Employer shall be disregarded to the extent that such service occurs during a Plan Year when the Plan benefits (within the meaning of Code section 410(b)) no Key Employee or former Key Employee.

ARTICLE 6
RETIREMENT ACCOUNT BENEFITS

Section 6.01 RETIREMENT ACCOUNT BALANCE. The balance of a Participant's Retirement Account shall be the amount of Contributions credited to such Participant's Retirement Account through December 31, 1967 in accordance with the terms of the Plan then in effect as described in Section 6.02, plus interest thereon compounded annually at the rate of 5% per annum. Such interest shall be credited at the end of each calendar year until the end of the calendar year immediately preceding the date of payment; provided, however, that with respect to a Retirement Account balance death benefit, interest shall be credited only until the end of the calendar year immediately preceding the date of the Participant's death. Notwithstanding the foregoing, in no event will a Participant's Retirement Account balance as of the date of distribution (or, if earlier, the Participant's date of death) be less than the Actuarial Equivalent lump-sum value of the Regular Pension Benefit calculated with respect to Contributions credited to such Participant's Retirement Account (in accordance with Section 6.02) and the Basic Monthly Amount dollar rates in effect for benefits with an Pension Effective Date of December 1, 2003.

Section 6.02 CREDITS TO RETIREMENT ACCOUNT.

(a) A Participant is credited in his or her Retirement Account with the Contributions paid to the Trust Fund on his or her behalf prior to January 1, 1968 (including any Contributions credited prior to the Participant's satisfaction of the general Plan participation requirements set forth in Section 2.01) if his or her Covered Earnings amounted to an aggregate of $1,500 during any five consecutive calendar year period prior to January 1, 1968. Contributions for Covered Earnings prior to the first such five-year period are not credited to the Retirement Account.

(b) If a Participant has had Covered Earnings on which Contributions were due but not paid, he or she shall not receive credit for such unpaid amounts in his or her Retirement Account, but shall, subject to such nondiscriminatory rules and limitations as the Trustees may establish, be credited with such Covered Earnings for an appropriate calendar year for the sole purpose of meeting the $1,500 requirement of subsection (a) of this Section. This Section shall only apply to Contributions that were due to the Fund prior to January 1, 1968.

Section 6.03 ELIGIBILITY FOR RETIREMENT ACCOUNT BENEFIT.

(a) Any Participant who had an aggregate of $1,500 or more of Covered Earnings during any five consecutive calendar year period prior to January 1, 1968, shall be 100% vested in his or her Retirement Account balance.

(b) With respect to a Participant who is 100% vested in his or her Retirement Account balance in accordance with subsection (a) of this Section, and who satisfies the eligibility requirements for a Regular Pension Benefit or a Disability

Pension Benefit described in Article 5, the Participant's Regular Pension Benefit, Disability Pension Benefit or death benefit under the provisions of Article 5 or 7, as applicable, shall be calculated based on the Contributions made on behalf of the Participant which are credited to the Participant's Retirement Account (in accordance with Section 6.02), as well as the Contributions which are not credited to his or her Retirement Account, in the manner provided in Section 5.03(a)(2).

(c) With respect to a Participant who is 100% vested in his or her Retirement Account balance in accordance with subsection (a) of this Section, and who does not satisfy the eligibility requirements for a Regular Pension Benefit or Disability Pension Benefit, the following provisions shall apply:

(1) The Participant shall be eligible to receive distribution of his or her Retirement Account balance once he or she has (i) attained his or her Normal Retirement Age, or (ii) retired and attained age 55, provided the Plan Administrator receives from the Participant a written application for such a benefit which is complete in all respects on the form(s) provided by the Plan Administrator for such purpose. Notwithstanding the preceding sentence, no Retirement Account benefit shall be paid to a Participant who received a lump-sum disability award under the provisions of the Plan in effect prior to January 1, 2004. The provisions concerning the distribution of benefits set forth in Article 8 shall apply with respect to the distribution of the Retirement Account balance, except that the monthly benefit payable to a Participant with respect to the Retirement Account balance shall be computed as the Actuarial Equivalent of the lump-sum value of the Participant's Retirement Account balance (as described in Section 6.01).

ARTICLE 7
PAYMENTS ON DEATH

Section 7.01 PRE-RETIREMENT DEATH BENEFIT FOR VESTED PARTICIPANTS.

(a) **Eligibility for Benefit.** A Participant's Beneficiary shall be eligible to receive the Pre-retirement Death Benefit described in this Section if the Participant dies after he or she is vested in a Regular Pension Benefit in accordance with Section 4.01, but prior to his or her Pension Effective Date for a Regular Pension Benefit or a Disability Pension Benefit, subject to the provisions of Section 7.03. No Pre-retirement Death Benefit is payable if the Participant dies without having designated a primary or alternate Beneficiary, if there is no designated primary or alternate Beneficiary living on the date of the Participant's death, or if the Beneficiary dies prior to the commencement of payment of the Pre-retirement Death Benefit.

(b) **Form and Amount of Benefit.** The Pre-retirement Death Benefit shall, subject to the provisions of Section 8.04, be an annuity for the life of the Beneficiary which is equivalent (as described in the following paragraph) to the benefit that would have been paid to the Beneficiary if the Participant had retired from Covered Employment immediately prior to his or her death (if he or she had not already retired from Covered Employment), commenced a 50% Joint and Survivor Annuity with the Beneficiary as the Joint Annuitant on the later of (A) the first day of the month following the date the Participant would have attained his or her earliest retirement age under the Plan had the Participant lived until such date and (B) the first day of the month following the Participant's date of death, and died the next day.

In the case of a Pre-retirement Death Benefit commencing before the date the Participant would have attained his or her earliest retirement age under the Plan, the death benefit described in the preceding paragraph shall be reduced to an Actuarial Equivalent based on the attained age (rounded down to the nearest year) that the Participant would have reached as of the date benefits commence. In the case of a Pre-retirement Death Benefit commencing after the later of the dates set forth in (A) and (B) of the preceding paragraph, the death benefit described in the preceding paragraph shall be increased to an Actuarial Equivalent based on the attained age (rounded down to the nearest year) that the Participant would have reached as of the date benefits commence. Notwithstanding the foregoing, in the event that a Pre-retirement Death Benefit commences to be paid under Section 7.03 within six months of the first day of the month following the death of the Participant, it shall be treated as though it commenced on the first day of the month following the death of the Participant, in which case (A) a lump sum payment (without interest) shall be paid to reflect the payments that would have been made between the first of the month following the death of the Participant and actual date of commencement and (B) the actuarial adjustment described in

this paragraph shall be calculated with reference to the first of the month following the death of the Participant, rather than the date benefits commenced.

(c) **Commencement of Benefit to Beneficiaries Other Than Spouses.** Subject to the provisions of Section 7.03, payment to a Beneficiary who is not a Spouse shall commence as soon as administratively practicable following the death of the Participant.

(d) **Commencement of Benefit to Spouses.** If the Participant has a Spouse at the time of death, the Participant's Spouse shall be the Beneficiary of the Pre-retirement Death Benefit. If the Participant dies prior to attaining Normal Retirement Age, distribution of the Pre-retirement Death Benefit to the Participant's Spouse shall, subject to the provisions of Section 7.03, commence on the first day of the month immediately following the date the Participant would have attained Normal Retirement Age unless the surviving Spouse files a written election, on the form(s) provided by the Plan Administrator for such purpose, to commence distribution earlier.

Section 7.02 RETIREMENT ACCOUNT DEATH BENEFIT. With respect to a Participant who is 100% vested in his or her Retirement Account balance in accordance with Section 6.03(a), and who dies (i) prior to being vested in a Regular Pension Benefit in accordance with Section 4.01, and (ii) prior to the distribution of his or her Retirement Account balance, such Participant's Beneficiary shall be eligible to receive distribution of the Participant's Retirement Account balance payable in accordance with Section 7.01.

Section 7.03 APPLICATION AND ELIGIBILITY FOR A DEATH BENEFIT. A Participant's Beneficiary shall be eligible to receive the death benefit described in Section 7.01 or Section 7.02, as applicable, if the eligibility requirements set forth in that Section are satisfied, provided the Plan Administrator receives from the Beneficiary a written application for such a death benefit which is complete in all respects on the form(s) and at such time(s) as are provided by the Plan Administrator for such purpose. Except as explicitly provided in Section 7.01(b), no interest on, or adjustment to, the amount of the applicable death benefit shall be due or owing the Beneficiary with respect to the period of time between the Participant's death and the commencement of the death benefit following the Plan Administrator's receipt of the complete application from the Beneficiary.

Section 7.04 ADDITIONAL DEATH BENEFIT RULES.

(a) Notwithstanding any other provision of this Article 7, if a Participant dies while performing qualified military service (as defined in Code section 414(u)) on or after January 1, 2007, the Participant's Beneficiary shall be entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan had the Participant resumed Covered Employment and then terminated Covered Employment on account of death.

(b) Notwithstanding any other provision of the Plan, all death benefits shall be based solely on Contributions received before (i) in the case of additional Contributions described in Section 5.06, and the Participant dies on or after July 1, the calendar year in which the Participant dies if the Participant dies on or after July 1, (ii) in the case of additional Contributions described in Section 5.06, the calendar year preceding the year in which the Participant dies if the Participant dies before July 1, or (iii) in all other cases, the date of the Participant's death.

ARTICLE 8
METHOD AND TIMING OF DISTRIBUTION OF BENEFITS

Section 8.01 NORMAL FORM OF DISTRIBUTION OF PENSION BENEFITS. The normal form of payment of the Participant's Regular Pension Benefit, Disability Pension Benefit, Retirement Account Benefit or Re-Retirement Benefit, as applicable, shall (subject to the provisions of Section 8.04) be:

(a) If a Participant has a Spouse as of his or her Pension Effective Date, a 50% Joint and Survivor Annuity with the Participant's Spouse as the Participant's Joint Annuitant.

(b) If the Participant does not have a Spouse as of his or her Pension Effective Date, a Single Life Annuity.

Section 8.02 QUALIFIED ELECTION; OPTIONAL FORMS OF PAYMENT.

(a) Subject to the provisions of Section 8.04, in lieu of receiving a pension benefit in the normal form of payment provided in Section 8.01(a), a Participant who has a Spouse as of his or her Pension Effective Date may make a Qualified Election (or other election, in the case of the form of payment described in subsection (a)(4) below) at any time during the 180 day period immediately preceding his or her Pension Effective Date, to receive payment of his or her pension benefit in one of the following optional forms:

(1) a 50% Joint and Survivor Annuity with a Joint Annuitant other than the Participant's Spouse;

(2) a 75% Joint and Survivor Annuity with a Joint Annuitant other than the Participant's Spouse;

(3) a Single Life Annuity; or

(4) a 75% Joint and Survivor Annuity with the Spouse as the Joint Annuitant, in which case a Qualified Election shall not be required and the Participant may make the election without consent of his or her Spouse on the form(s) provided by the Plan Administrator for such purpose.

(b) Subject to the provisions of Section 8.04, in lieu of receiving a pension benefit in the normal form of payment provided in Section 8.01(b), a Participant who does not have a Spouse as of his or her Pension Effective Date may, within 180 days prior to his or her Pension Effective Date, elect in writing on the form(s) provided by the Plan Administrator for such purpose, to waive the normal form of payment described in Section 8.01(b) and, in lieu thereof, receive payment of his or her pension benefit in one of the following optional forms:

(1) a 50% Joint and Survivor Annuity; or

(2) a 75% Joint and Survivor Annuity.

(c) A Participant who makes a Qualified Election or a written election under the provisions of subsection (a) or (b) of this Section, as applicable, may revoke his or her Qualified Election, or written election, as applicable, with the consent of the Spouse in the case of a Qualified Election, at any time prior to his or her Pension Effective Date. The number of revocations shall not be limited. Any consent by a Spouse to a Participant's Qualified Election to waive the 50% Joint and Survivor Annuity may not be revoked and shall be effective only with respect to such spouse.

Section 8.03 NOTICE OF NORMAL FORM OF PAYMENT TO PARTICIPANTS. No less than 30 days, and no more than 180 days, prior to a Participant's Pension Effective Date, the Plan Administrator shall furnish the Participant, by mail or personal delivery, a written explanation of (i) the terms and conditions of the normal form of payment applicable to the Participant and, with respect to a Participant with an Spouse, the 75% Joint and Survivor Annuity with such Spouse as the Joint Annuitant, as applicable, (ii) the availability of a Qualified Election or a written election to waive the normal form of payment described in Section 8.01(a) or (b), as applicable, (iii) the right of the Participant's Spouse to consent to, or withhold consent from, a Qualified Election, if applicable, (iv) the general financial effect of an election not to receive the applicable normal form of payment, and (v) the eligibility conditions, other material features and relative values of the optional forms of benefit available. Notwithstanding the preceding sentence, distribution may commence fewer than 30 days (but no fewer than seven days) after the written explanation is given, provided that (i) the Plan Administrator clearly informs the Participant that the Participant has a right to a period of at least 30 days to consider whether to waive the normal form of payment and elect an optional form of payment, and (ii) the Participant, after receiving the explanation, affirmatively elects to receive a distribution sooner (with consent of the Participant's Spouse, if applicable) on the form(s) provided by the Plan Administrator for such purpose.

Section 8.04 LUMP-SUM CASH-OUT OF SMALL BENEFITS. Notwithstanding anything contained herein to the contrary, if the Actuarial Equivalent present value of a Participant's entire benefit payable under the Plan does not (and at the time of any prior distribution in the form of a monthly annuity did not) exceed $5,000 at the time that the Participant satisfies the eligibility requirements for payment of a Regular Pension Benefit, Disability Pension Benefit, Retirement Account benefit, Re-Retirement Benefit or Pre-retirement Death Benefit, as applicable, the Participant's benefit shall be payable only in the form of a single lump sum payment and any such distribution to the Participant or the Participant's surviving Spouse or other Beneficiary, as the case may be, shall not require the consent of the Participant or Spouse or other Beneficiary and shall be in complete discharge of the Plan's obligation with respect to such benefit. Notwithstanding the foregoing, effective March 28, 2005, the lump sum distribution described in the previous sentence will not be paid until such time as the Participant applies for a distribution on the form(s) provided by the Plan Administrator for such purpose.

Section 8.05 COMMENCEMENT OF PENSION BENEFITS GENERALLY.

(a) **Pension Effective Date.** After a Participant fulfills the applicable eligibility requirements, payment of a Regular Pension Benefit, Disability Pension Benefit, or Retirement Account Benefit, as applicable, shall be effective as of the following date (the "Pension Effective Date"): (i) the first day of the calendar month immediately following receipt by the Plan Administrator from the Participant of an application for pension benefits which is complete in all respects on the forms provided by the Plan Administrator for such purpose (including all necessary election and consent forms) or (ii) the first day of the second calendar month following receipt by the Plan Administrator from the Participant of an application for pension benefits which is complete in all respects on the forms provided by the Plan Administrator for such purpose (including all necessary election and consent forms) if such receipt occurs after the fifteenth day of a calendar month. Payment will be made or commence on the Pension Effective Date or, if the completed application is received by the Fund Office after the monthly payment processing cut-off date, the first day of the following calendar month next following the Pension Effective Date.

If the Actuarial Equivalent lump-sum value of a Participant's benefit exceeds (or at the time of any prior distribution of a monthly annuity exceeded) $5,000 and it is distributable prior to the Participant's Normal Retirement Age, the Participant and the Participant's Spouse or other Beneficiary must consent to any distribution of such pension benefit in writing within the 180-day period ending on the Pension Effective Date. Notwithstanding the foregoing, only the Participant need consent to the commencement of a 50% Joint and Survivor Annuity or a 75% Joint and Survivor Annuity with the Participant's Spouse as the Joint Annuitant that is distributable prior to the Participant's Normal Retirement Age. The consent of neither the Participant nor the Participant's Spouse shall be required to the extent that a distribution is required to satisfy Section 401(a)(9) or Code section 415.

(b) Unless a Participant elects to defer the commencement of his or her Regular Pension Benefit or Retirement Account Benefit, the payment of the Participant's Regular Pension Benefit or Retirement Account Benefit shall commence not later than the sixtieth (60th) day after the close of the Plan Year in which occurs the latest of (i) the date on which the Participant attains age 65, (ii) the date the Participant terminates his service with the Employer, or (iii) the tenth anniversary of the year in which the Participant commenced participation in the Plan. Notwithstanding the foregoing, (i) the failure of a Participant and the Participant's spouse to consent to a distribution prior to the Participant's Normal Retirement Age, or (ii) the failure of a Participant to file a written application for payment of a Regular Pension Benefit or Retirement Account Benefit shall be deemed to be an election to defer commencement of such Regular Pension Benefit or Retirement Account Benefit, provided, however, that the deferred commencement date of a Participant's pension benefit may not be later than the Participant's Required Beginning Date described in Section 8.06.

Section 8.06 TIMING AND DISTRIBUTION OF BENEFITS.

(a) General Rules.

The provisions of this Section 8.06 will apply for purposes of determining required minimum distributions for calendar years beginning with the 2003 calendar year, and will take precedence over any inconsistent provisions of the Plan. All distributions required under this Section 8.06 will be determined and made in accordance with Code section 401(a)(9), including the incidental death benefit requirements of Code section 401(a)(9)(G), and Treasury Regulation Sections 1.401(a)(9)-2 through 1.401(a)(9)-9. Notwithstanding the other provisions of this Section 8.06, distributions may be made under a designation made before January 1, 1984, in accordance with Section 242(b)(2) of the Tax Equity and Fiscal Responsibility Act (TEFRA) and the provisions of the Plan that relate to Section 242(b)(2) of TEFRA.

(b) Time and Manner of Distribution.

(1) The Participant's entire interest will be distributed, or begin to be distributed, to the Participant no later than the Participant's required beginning date.

(2) If the Participant dies before distributions begin, the Participant's entire interest will be distributed, or begin to be distributed, no later than as follows:

(A) If the Participant's Spouse is the Participant's sole designated Beneficiary, then distributions to the Spouse will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died, or by December 31 of the calendar year in which the Participant would have attained age 70½, if later.

(B) If the Participant's Spouse is not the Participant's sole designated Beneficiary, then distributions to the designated Beneficiary will begin by December 31 of the calendar year immediately following the calendar year in which the Participant died.

(C) If there is no designated Beneficiary as of September 30 of the year following the year of the Participant's death, the Participant's entire interest will be distributed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(D) If the Participant's Spouse is the Participant's sole designated Beneficiary and the Spouse dies after the

Participant but before distributions to the Spouse begin, this Section 8.06(b)(2), other than Section 8.02(b)(2)(A), will apply as if the Spouse were the Participant.

For purposes of this Section 8.06(b)(2) and Section 8.06(e), distributions are considered to begin on the Participant's required beginning date (or, if Section 8.06(b)(2)(D) applies, the date distributions are required to begin to the Spouse under Section 8.06(b)(2)(A). If annuity payments irrevocably commence to the Participant before the Participant's required beginning date (or to the Participant's Spouse before the date distributions are required to begin to the Spouse under Section 8.06(b)(2)(A), the date distributions are considered to begin is the date distributions actually commence.

(3) Unless the Participant's interest is distributed in the form of an annuity purchased from an insurance company or in a single sum on or before the required beginning date, as of the first distribution calendar year distributions will be made in accordance with Sections 8.06(c), (d) or (e) hereof. If the Participant's interest is distributed in the form of an annuity purchased from an insurance company, distributions thereunder will be made in accordance with the requirements of Section 401(a)(9) of the Code and the Treasury Regulations. Any part of the Participant's interest which is in the form of an individual account described in Code section 414(k) will be distributed in a manner satisfying the requirements of Code section 401(a)(9) and the Treasury Regulations that apply to individual accounts.

(c) Determination of Amount to be Distributed Each Year.

(1) If the Participant's interest is paid in the form of annuity distributions under the Plan, payments under the annuity will satisfy the following requirements:

(A) the annuity distributions will be paid in periodic payments made at intervals not longer than one year;

(B) the distribution period will be over a life (or lives) or over a period certain not longer than the period described in Sections 8.07(d) or (e);

(C) once payments have begun over a period certain, the period certain will not be changed even if the period certain is shorter than the maximum permitted;

(D) payments will either be nonincreasing or increase only as follows:

(i) by an annual percentage increase that does not exceed the annual percentage increase in a cost-of-living index that is based on prices of all items and issued by the Bureau of Labor Statistics in accordance with Q&A 14 of section 1.401(a)(9)-6 of the Treasury Regulations;

(ii) to the extent of the reduction in the amount of the Participant's payments to provide for a survivor benefit upon death, but only if the Beneficiary whose life was being used to determine the distribution period described in Section 8.06 dies or is no longer the Participant's Beneficiary pursuant to a qualified domestic relations order within the meaning of Code section 414(p);

(iii) to allow a beneficiary to convert the survivor portion of a joint and survivor annuity into a single sum distribution upon the employee's death; or

(iv) to pay increased benefits that result from a Plan amendment.

(2) The amount that must be distributed on or before the Participant's required beginning date (or, if the Participant dies before distributions begin, the date distributions are required to begin under Section 7.01) is the payment that is required for one payment interval. The second payment need not be made until the end of the next payment interval even if that payment interval ends in the next calendar year. Payment intervals are the periods for which payments are received, e.g., bi-monthly, monthly, semi-annually, or annually. All of the Participant's benefit accruals as of the last day of the first distribution calendar year will be included in the calculation of the amount of the annuity payments for payment intervals ending on or after the Participant's required beginning date.

(3) Any additional benefits accruing to the Participant in a calendar year after the first distribution calendar year will be distributed beginning with the first payment interval ending in the calendar year immediately following the calendar year in which such amount accrues.

(d) Requirements For Annuity Distributions That Commence During Participant's Lifetime.

(1) If the Participant's interest is being distributed in the form of a joint and survivor annuity for the joint lives of the Participant and a nonspouse Beneficiary, annuity payments to be made on or after the Participant's required beginning date to the designated Beneficiary after the Participant's death must not at any time exceed the applicable percentage of the annuity payment for such period that would have been payable to the Participant using the table set forth in Q&A-2 of section 1.401(a)(9)-6(c)(2) of the Treasury Regulations. If the form of distribution combines a joint and survivor annuity for the joint lives of the Participant and a nonspouse Beneficiary and a period certain annuity, the requirement in the preceding sentence will apply to annuity payments to be made to the designated Beneficiary after the expiration of the period certain.

(2) Unless the Participant's Spouse is the sole designated Beneficiary and the form of distribution is a period certain and no life annuity, the period certain for an annuity distribution commencing during the Participant's lifetime may not exceed the applicable distribution period for the Participant under the Uniform Lifetime Table set forth in section 1.401(a)(9)-9 of the Treasury Regulations for the calendar year that contains the Pension Effective Date. If the Pension Effective Date precedes the year in which the Participant reaches age 70, the applicable distribution period for the Participant is the distribution period for age 70 under the Uniform Lifetime Table set forth in section 1.401(a)(9)-9 of the Treasury Regulations plus the excess of 70 over the age of the Participant as of the Participant's birthday in the year that contains the Pension Effective Date. If the Participant's Spouse is the Participant's sole designated Beneficiary and the form of distribution is a period certain and no life annuity, the period certain may not exceed the longer of the Participant's applicable distribution period, as determined under this Section 8.06(d)(2), or the joint life and last survivor expectancy of the Participant and the Participant's spouse as determined under the Joint and Last Survivor Table set forth in section 1.401(a)(9)-9 of the Treasury Regulations, using the Participant's and Spouse's attained ages as of the Participant's and Spouse's birthdays in the calendar year that contains the Pension Effective Date.

(e) Requirements For Minimum Distributions Where Participant Dies Before Date Distributions Begin.

(1) If the Participant dies before the date distribution of his or her interest begins and there is a designated Beneficiary, the Participant's entire interest will be distributed, beginning no later

than the time described in Section 8.06(b)(2)(A) or (B)), over the life of the designated Beneficiary or over a period certain not exceeding:

(A) unless the Pension Effective Date is before the first distribution calendar year, the life expectancy of the designated Beneficiary determined using the Beneficiary's age as of the Beneficiary's birthday in the calendar year immediately following the calendar year of the Participant's death; or

(B) if the Pension Effective Date is before the first distribution calendar year, the life expectancy of the designated Beneficiary determined using the Beneficiary's age as of the Beneficiary's birthday in the calendar year that contains the Pension Effective Date.

(2) If the Participant dies before the date distributions begin and there is no designated Beneficiary as of September 30 of the year following the year of the Participant's death, distribution of the Participant's entire interest will be completed by December 31 of the calendar year containing the fifth anniversary of the Participant's death.

(3) If the Participant dies before the date distribution of his or her interest begins, the Participant's Spouse is the Participant's sole designated Beneficiary, and the Spouse dies before distributions to the Spouse begin, this Section 8.06(e) will apply as if the Spouse were the Participant, except that the time by which distributions must begin will be determined without regard to Section 8.06(b)(2)(A)

(f) Definitions.

(1) Designated Beneficiary. The individual who is designated as the Beneficiary under the Plan and is the designated Beneficiary under Code Section 401(a)(9) and Treasury Regulation Section 1.401(a)(9)-1, Q&A-4.

(2) Distribution calendar year. A calendar year for which a minimum distribution is required. For distributions beginning before the Participant's death, the first distribution calendar year is the calendar year immediately preceding the calendar year which contains the Participant's required beginning date. For distributions beginning after the Participant's death, the first

distribution calendar year is the calendar year in which distributions are required to begin pursuant to Section 8.06(b)(2).

(3) Life expectancy. Life expectancy as computed by use of the Single Life Table in Section 1.401(a)(9)-9 of the Treasury Regulations.

(g) Required Beginning Date.

(1) Each Participant's pension benefit must begin to be distributed not later than his Required Beginning Date, as defined below.

(2) The Required Beginning Date of a Participant (other than a 5% owner of an Employer, as defined in Code section 416(i), during the Plan Year ending in the calendar year in which he or she attains age 66 ½ or any later Plan Year), who attained age 70 ½ before January 1, 1988, is April 1 of the calendar year following the calendar year in which the later of retirement or attainment of age 70 ½ occurs.

(3) The Required Beginning Date of a Participant who is not a 5-percent owner (as defined in paragraph (2) hereof), who attained age 70 ½ during 1988 and who had not retired as of January 1, 1989, is April 1, 1990.

(4) The Required Beginning Date of a Participant who is a 5-percent owner (as defined in paragraph (2) hereof) who attained age 70 ½ before January 1, 1988 is April 1 of the calendar year following the calendar year in which the later of (i) attainment of age 70 1/2, or (ii) the earlier of retirement or becoming a 5-percent owner (as defined in paragraph (2) hereof), occurs.

(5) The Required Beginning Date of all other Participants is April 1 of the calendar year following the calendar year in which the Participant attains age 70 1/2.

Section 8.07 FORFEITURE OF UNCLAIMED BENEFITS OF LOST PARTICIPANTS OR BENEFICIARIES.

(a) When distribution of a benefit is to commence to a Participant or Beneficiary under the Plan, including without limitation pursuant to Section 8.06 above, the Plan Administrator shall use all reasonable efforts to locate and contact the Participant or Beneficiary in accordance with the procedure that the Administrative Committee adopts for such purpose. If a Participant or Beneficiary does not respond to the Plan Administrator and claim his or her benefit within six months after the Plan Administrator, in accordance with procedure, has undertaken all reasonable measures to locate and contact such

individual, such individual shall be deemed to be "lost" as of such six-month anniversary.

(b) Subject to the provisions of subsection (c) of this Section, the unclaimed benefit of a Participant or Beneficiary that has been "lost" for a period of two consecutive years shall be forfeited at the end of such two year period and treated in accordance with other amounts forfeited under the Plan.

(c) Notwithstanding the provisions of subsection (b) above, a "lost" Participant or Beneficiary shall have the right to claim payment of his or her benefit at any time beyond the two-year period referred to in subsection (b) of this Section, and such benefit shall be paid to such Participant or Beneficiary; provided, however, that (i) such benefit shall be reduced to the extent of any inadvertent overpayment made by the Fund as a result of such Participant or Beneficiary having been deemed "lost," and (ii) no interest shall be payable with respect to such benefit.

ARTICLE 9
PLAN AMENDMENT AND TERMINATION

Section 9.01 AMENDMENT.

(a) This Plan may be amended by the Trustees at any time, consistent with the provisions of, and in the manner provided by, the Trust Agreement. However, no amendment may decrease retroactively the accrued benefit of any Participant, except as permitted under Section 1.411(d)-4 of the Treasury Regulations or Code section 432. In the event of any such amendment, no part of the funds held in the Trust Fund shall be used for or diverted to any purpose other than for the exclusive benefit of the Participants or their Beneficiaries, except as may otherwise be permitted by ERISA or the Code.

(b) No amendment of this Plan may deprive a Participant of any non-forfeitable right to a benefit accrued to the date of such amendment. If an amendment is adopted which has the effect of changing the vesting schedule, each Participant who has credit for at least three (3) Years of Vesting Service at the time the amendment is adopted or effective (whichever is later) may elect to have his or her non-forfeitable accrued benefit computed without regard to such amendment. Such election shall be made during the period commencing on the date the amendment is adopted and ending 60 days after the latest of the following:

(1) the date the amendment is adopted;

(2) the date the amendment becomes effective; or

(3) the date the Participant is furnished written notice of the amendment.

Section 9.02 TERMINATION.

(a) **Right to Terminate.** The Trustees reserve the right to terminate the Plan, in whole or in part, consistent with the provisions of, and in the manner provided by, the Trust Agreement. In the event of such termination, no part of the funds held in the Trust Fund shall be used for or diverted to any purpose other than for the exclusive benefit of the Participants or their Beneficiaries, except as may otherwise be permitted by ERISA or the Code.

(b) **Vesting Upon Termination.** Upon termination of the Plan in whole or in part, all affected Participants shall be 100% vested in their benefits accrued to the date of the complete or partial termination to the extent that such benefits are funded.

(c) **Limitations on Benefits to Highest-Paid Highly Compensated Employees.**

(1) In the event of the termination of the Plan, the benefit of any Highly Compensated Employee and former Employee shall be limited to a benefit that is non-discriminatory under Code section 401(a)(4).

(2) The provisions of this paragraph (2) shall apply to any one of the 25 highest paid Highly Compensated Employees and former Employees of Employers. The annual benefit payments to any such Employee shall be restricted to an amount equal to the payments that would be made on behalf of such Employee under a Single Life Annuity that is the actuarial equivalent of the sum of such Employee's accrued benefit (and the Employee's other benefits) under the Plan. The restrictions in this paragraph do not apply, however, if:

(A) after payment to such Employee of all of his or her accrued benefits, the value of Plan assets equals or exceeds 110% of the value of current liabilities, as defined in Code section 412(l)(7); or

(B) the value of such Employee's accrued benefits is less than one percent of the value of current liabilities; or

(C) the value of such Employee's accrued benefits does not exceed the amount described in Code section 411(a)(11)(A).

(3) For purposes of the Plan, a "Highly Compensated Employee" shall mean each Employee who:

(A) at any time during the calendar year or the preceding calendar year was a five percent owner of an Employer;

(B) for the preceding calendar year received Testing Compensation from an Employer in excess of $115,000 (or such higher adjusted amount prescribed by the Secretary of the Treasury).

For purposes of this Section, the term "Testing Compensation" means wages, salaries and other amounts received by or made available to an Employee for services rendered to an Employer, including deferred contributions under a cash or deferred arrangement described in Code section 401(k), 125 or 132(f).

ARTICLE 10
ADMINISTRATION

Section 10.01 GENERAL ADMINISTRATION. This Plan is established, operated and administered, and the assets of the Plan held in the Trust Fund are invested, in accordance with the terms of the Trust Agreement.

Section 10.02 AUTHORITY OF TRUSTEES. The Trustees, and any committee of the Trustees designated by the Trustees in accordance with the provisions of, and in the manner provided by, the Trust Agreement, shall have the exclusive right, power, and authority, in its sole and absolute discretion, to administer, apply and interpret the Plan, Trust Agreement and any other Plan documents and to decide all matters arising in connection with the operation or administration of the Plan or the Trust and the investment of Plan assets. Without limiting the generality of the foregoing, the Trustees, and any committee of the Trustees designated by the Trustees in accordance with the provisions of, and in the manner provided by, the Trust Agreement, shall have the sole and absolute discretionary authority to: (1) take all actions and make all decisions with respect to the eligibility for, and the amount of, benefits payable under the Plan; (2) formulate, interpret and apply rules, regulations and policies necessary to administer the Plan in accordance with its terms; (3) decide questions, including legal or factual questions, relating to the calculation and payment of benefits under the Plan; (4) resolve and/or clarify any ambiguities, inconsistencies and omissions arising under the Plan, Trust Agreement or other Plan documents; and (5) process, and approve or deny, benefit claims and rule on any benefit exclusions and determine the standard of proof in any case. All determinations and interpretations made by the Trustees, and any committee of the Trustees designated by the Trustees in accordance with the provisions of, and in the manner provided by, the Trust Agreement, with respect to any matter arising under the Plan, Trust Agreement and any other Plan documents shall be final and binding on all affected Participants, Beneficiaries, and other individuals claiming benefits under the Plan.

Section 10.03 INFORMATION AND PROOF. Benefits under this Plan will be paid only if the Trustees, or any committee of the Trustees designated by the Trustees in accordance with the provisions of, and in the manner provided by, the Trust Agreement, decide, in their discretion, that the claimant is entitled to them.

(a) Every Participant, Beneficiary or other claimant shall furnish, at the request of the Trustees, any information or proof reasonably required to determine his or her benefit rights under the Plan. Failure on the part of a claimant to comply with such request promptly, accurately, and in good faith shall be sufficient grounds for denying, postponing, or discontinuing benefits under the Plan to such person. If a claimant makes a willfully false statement material to his or her claim or furnishes fraudulent information or proof material to his or her claim, any benefits may be denied, suspended or discontinued. The Trustees shall have the right to recover any benefit payments made in reliance on any false or fraudulent statements, information or proof submitted by a Participant, Beneficiary or other claimant (including the withholding of a material fact) plus interest and costs

(including, without limitation, by recovery through offset of future benefit payments).

(b) Each Participant and Beneficiary shall provide the Plan Administrator his or her current address in writing and prompt written notification of any change of address. No interest shall be payable with respect to any benefit payment delayed, postponed or discontinued as a result of the Plan Administrator not having correct address information. Any Fund communication addressed to a Participant or Beneficiary at his or her last address filed with the Plan Administrator shall be binding on the Participant and/or his or her Beneficiary. When distribution of a benefit is to commence to a Participant or Beneficiary under the Plan, and such Participant or Beneficiary cannot be reached at his or her last known address, the provisions of Section 8.07 shall apply.

Section 10.04 CLAIMS PROCEDURE.

(a) All initial claims for benefits under the Plan shall be directed to the attention of the Plan Administrator or its designee. A decision regarding the status of a claim for benefits shall be made by the Plan Administrator or its designee within 90 days from the date the claim is filed.

(b) If a claim is denied, in whole or in part, the Plan Administrator shall provide the claimant with the reasons for the denial with reference to the specific Plan provisions on which the denial was based, a description of any additional information needed to perfect the claim (including an explanation of why such information is necessary), and a description of the Plan's claims procedures, including a statement of the claimant's right to bring a civil action under ERISA section 502(a) following an adverse benefit determination on review. The Plan Administrator shall notify the claimant in writing of the reasons for the denial within 90 days after the date the claim is filed. If special circumstances require an extension of the time for the Plan Administrator to respond, the Plan Administrator may extend the 90 day period up to an additional 90 days. If this happens, the claimant shall receive written notification explaining the special circumstances which require more time as well as indicating the date by which a final decision is expected.

(c) If a claim has been denied, the claimant may, within 60 days after receipt of the written notice of denial, request a review of the denial. This request must be in writing to the Administrative Committee and may include written comments, documents, records and other information relating to the claim for benefits. The claimant shall be provided, upon request and free of charge, reasonable access to, and copies of, all documents, records and other information relevant to the claimant's claim for benefits. A decision on review of the denial shall be made by the Administrative Committee at its next regularly scheduled meeting; provided, however, that if the request for a review is received by the Administrative Committee within 30 days prior to its next regularly scheduled meeting, the

decision may be made at the second regularly scheduled meeting of the Administrative Committee following receipt of the request for review. The Administrative Committee's review will take into account all comments, documents, records, and other information submitted by the claimant relating to the claim, without regard to whether such information was submitted or considered in the initial benefit determination. The written decision which shall be sent to the claimant shall specify the specific reason(s) for the denial, the Plan provisions on which the decision is based, a statement that the claimant is entitled to receive, upon request and free of charge, reasonable access to, and copies of, all documents, records, and other information relevant to the claimant's claim for benefits, as well as a statement of the claimant's right to bring a civil action under ERISA section 502(a). If special circumstances require an extension for time for processing a request for review, the decision of the Administrative Committee may be made at the third meeting following the date the request for review is made; provided, however, that the claimant shall receive written notification explaining the special circumstances which require more time as well as indicating the date by which a final decision is expected.

(d) The decision of the Administrative Committee concerning an appeal shall be in writing and shall be final and binding on all affected parties.

(e) No legal action seeking payment of benefits under the Plan, to otherwise enforce rights under the Plan, or to clarify a right to future benefits under the Plan may be commenced by a Participant, Beneficiary or other claimant (or an agent or representative acting on behalf of a Participant, Beneficiary or other claimant) against the Plan, the Fund, the Trustees, or any employee or representative of the Plan or Fund:

(1) unless the person claiming the benefits has followed and exhausted the procedures for review by the Administrative Committee that are described in this Section 10.4 and the Administrative Committee has either (i) denied the request for review in whole or in part; or (ii) made no decision within the time period described in Section 10.04(c); or

(2) more than one year after the Administrative Committee has made its decision on review with regard to the relevant claim (provided that this provision shall have no effect on the applicable statute of limitations).

(f) Special Procedures for Applications for a Non-SSA-Based Disability Pension Benefit.

(1) Applications for a Disability Pension Benefit that are not based on a disability award issued by the Social Security Administration ("Non-SSA-Based Disability Pension Benefit") shall be subject to all of the general rules described in Section 10.04(a)-(e), except as they are amended by the specific provisions in this subsection.

(2) The initial decision on an application for a Non-SSA-Based Disability Pension Benefit will be made within 45 days after the application is filed, unless additional time is required due to matters beyond the control of the Fund, in which case the Plan Administrator will notify the Participant before the end of the initial 45 days of an extension of 30 days or less. If this happens, the claimant shall receive written notification explaining the standards on which entitlement to a benefit is based, the unresolved issues that prevent decision on the claim and the additional information needed to resolve those issues. The claimant shall be afforded at least 45 days within which to provide any information so requested. If necessary, the Plan Administrator may notify the Participant of a second extension of 30 days or less, following the same procedure. No additional extensions may be made, except with the Participant's voluntary consent.

(3) If an adverse decision on the application is based in whole or in part on any internal rule, guideline, or similar criterion, the notice to the Participant of the adverse decision will either set forth the internal rule, guideline, or similar criterion, or will state that such was relied upon and will be provided free of charge to the Participant upon request.

(4) The Plan will identify any medical or vocational expert whose advice was obtained on behalf of the Plan in connection with an adverse benefit determination, without regard to whether the advice was relied upon in making the benefit determination.

(5) If a claim has been denied, the claimant may, within 180 days after receipt of the written notice of denial, request a review of the denial.

(6) The Administrative Committee will consider the appeal *de novo*, without any deference to the initial benefit denial.

(7) The Administrative Committee will not include any person who participated in the initial benefit denial or who is the subordinate of a person who participated in the initial benefit denial.

(8) If the initial benefit denial was based in whole or in part on a medical judgment, the Administrative Committee will (i) consult with a health care professional who has appropriate training and experience in the field of medicine involved in the medical judgment, and who was neither consulted in connection with the initial benefit determination nor is the subordinate of any person who was consulted in connection with that determination, and (ii) upon notifying the Participant of an adverse determination on review, include in the written notice either an explanation of the clinical basis for the determination, applying the terms of the Plan to the claimant's medical circumstances, or a statement that such explanation will be provided free of charge upon request.

(g) If any extension of the time for responding to a claimant under this Section 10.04 is due to the claimant's failure to submit information necessary to decide the claim, the period for making the determination will be tolled from the date on which the extension notice is sent to the date on which the Participant responds to the request for information.

Section 10.05 EXCLUSIVE PROCEDURE FOR CORRECTING PLAN RECORDS RELATING TO COVERED EMPLOYMENT.

(a) If a Participant, Beneficiary or alternate payee under a qualified domestic relations order, as defined in Code section 414(p), contends that the Plan's records of Covered Employment, Covered Earnings or Contributions are inaccurate, a written request for correction of the Plan's records must be provided to the Fund Office on forms provided by the Plan Administrator for such purpose. The person submitting such a request is referred to in this Section 10.05 as the "Applicant."

(b) The Fund will consider a request for correction of the Plan's records with respect to Covered Employment or Contributions only if the request is received by the Fund Office no later than three years after the end of the calendar year in which the Participant received wages for that Covered Employment. No request that is received more than three years after the end of the calendar year in which the Participant received wages for that Covered Employment will be considered or granted.

(d) The Plan Administrator or its designee shall notify the Applicant of the decision on each such request for correction of records, following the procedures described in Section 10.04(b). The procedures described in Section 10.04(c), (d), (e) and (g) shall apply to any denial of such a request for correction of records in the same manner as those procedures apply to a denial of a benefit claim.

(e) This procedure is the exclusive means by which a Participant, Beneficiary or alternate payee under a qualified domestic relations order, as defined in Code section 414(p), may obtain correction of the Plan's records that pertain to the Participant's Contributions, Covered Earnings, or Covered Employment. If the Plan receives no request for correction of those records for any year in accordance with this procedure, the information in the Plan's records for that year shall be final and binding on the Participant and on anyone claiming through the Participant (including a Beneficiary or alternate payee under a qualified domestic relations order, as defined in Code section 414(p)) with regard to Contributions, Covered Earnings, Covered Employment, Hours Credited, Pension Credit, and Years of Vesting Service for that year.

ARTICLE 11
MISCELLANEOUS

Section 11.01 RETURN OF CONTRIBUTIONS. In no event shall any of the corpus or assets of the Pension Fund revert to the Employers or be subject to any claims of any kind by the Employers, except that, in the sole and absolute discretion of the Trustees, Contributions (i) made by an Employer by a mistake of fact or law (including any Contributions inadvertently made on the basis of overscale wages) may be returned to such Employer within six months after the Plan Administrator determines that such Contribution was made by such a mistake, or (ii) which are determined to be non-deductible for tax purposes under Code section 404 may be returned to such Employer within one year following the date of such determination.

Section 11.02 LIMITATION OF LIABILITY. The Plan has been established on the basis of an actuarial calculation which has established to the extent possible, that the Contributions will, if continued, be sufficient to maintain the Plan on a permanent basis, fulfilling the funding requirements of ERISA. Except as otherwise provided by law, (i) nothing in this Plan shall be construed to impose any obligation on an Employer to make payments to the Plan, beyond the Employer's obligation to make Contributions as required by any applicable collective bargaining agreement, participation agreement, or similar agreement acceptable to the Trustees, and (ii) there shall be no liability upon the Trustees, the Plan Administrator, any Employer, or the AFM (either individually or collectively) to provide the benefits established by this Plan if the Fund does not have sufficient assets to pay for such benefits.

Section 11.03 MERGERS, CONSOLIDATIONS AND TRANSFERS OF ASSETS. To the extent required by law, in the case of any merger or consolidation with, or transfer of assets and liabilities to, any other plan, provisions shall be made so that each Participant in the Plan affected thereby would (if the Plan then terminated) receive a benefit immediately after the merger, consolidation or transfer which was equal to or greater than the benefit such Participant would have been entitled to receive immediately prior to the merger, consolidation or transfer (if the Plan had then terminated).

Section 11.04 DIRECT ROLLOVER OF ELIGIBLE ROLLOVER DISTRIBUTIONS.

(a) **General Rule.** Notwithstanding any provision of the Plan to the contrary that would otherwise limit a Distributee's election under this Section, a Distributee may elect, at the time and in the manner prescribed by the Plan Administrator, to have any portion of an Eligible Rollover Distribution paid directly to an Eligible Retirement Plan specified by the Distributee in a Direct Rollover.

(b) **Definitions.**

(1) Eligible Rollover Distribution: An Eligible Rollover Distribution is any distribution of all or any portion of the balance to the credit of the Distributee, except that an Eligible Rollover Distribution does not include: any distribution that is one of a series of substantially equal periodic payments (not less frequently than annually) made for the life (or life

expectancy) of the Distributee or the joint lives (or joint life expectancies) of the Distributee and the Distributee's designated beneficiary, or for a specified period of ten years or more; any distribution to the extent such distribution is required under Code section 401(a)(9); any distribution that is made on account of hardship to the Participant; and the portion of any distribution that is not includible in gross income.

(2) Eligible Retirement Plan: An Eligible Retirement Plan is an individual retirement account described in Code section 408(a), an individual retirement annuity described in Code section 408(b), an annuity plan described in Section 403(a), an annuity contract described in Code section 403(b) and an eligible plan under Code section 457(b) which is maintained by a state, political subdivision of a state, or any agency or instrumentality of a state or political subdivision of a state and which agrees to separately account for amounts transferred into such plan from the Plan, or a qualified trust described in Code section 401(a), that accepts the Distributee's Eligible Rollover Distribution. With respect to distributions made on or after January 1, 2008, eligible retirement plan also means a Roth IRA described in Code section 408A.

(3) Distributee: A Distributee includes an Employee or former Employee. In addition, the Employee's or former Employee's surviving spouse and the Employee's or former Employee's spouse or former spouse who is the alternate payee under a qualified domestic relations order, as defined in Code section 414(p), are Distributees with regard to the interest of the spouse or former spouse. For purposes of this Section 11.4(b)(3, effective for distributions made on or after April 1, 2010, a nonspouse Beneficiary shall be considered a "Distributee," provided that such nonspouse Beneficiary shall only be allowed to elect, at the time and in the manner prescribed by the Plan Administrator, to have any portion of an Eligible Rollover Distribution paid in a Direct Rollover directly to an Eligible Retirement Plan that is (i) either an individual retirement account described in Code section 408(a), an individual retirement annuity described in Code section 408(b), or a Roth IRA described in Code section 408A(b), *and* (ii) an inherited retirement account or annuity under Code section 408. Effective for distributions made on or after April 1, 2010, a nonspouse Beneficiary shall be considered a "Distributee"; provided that such nonspouse Beneficiary shall only be allowed to elect, at the time and in the manner prescribed by the Plan Administrator, to have any portion of an Eligible Rollover Distribution paid in a Direct Rollover directly to an Eligible Retirement Plan that is (i) either an individual retirement account described in Code section 408(a), an individual retirement annuity described in Code section 408(b), or a Roth IRA described in Code section 408A(b) and (ii) an inherited retirement account or annuity under Code section 408.

(4) Direct Rollover: A Direct Rollover is a payment by the Plan to the Eligible Retirement Plan specified by the Distributee.

Section 11.05 NON-ALIENATION OF BENEFITS. No Participant or Beneficiary entitled to any benefits under this Plan shall have the right to assign, alienate, transfer, encumber, pledge, mortgage, hypothecate, anticipate, or otherwise impair in any manner his legal or beneficial interest, or any interest in assets of the Fund, or benefits of this Plan. Any such assignment, alienation, transfer, encumbrance, pledge, mortgage, hypothecation, anticipation, or other impairment shall be void and of no effect whatsoever. Such benefit payments or portions thereof shall not in any way be subject to legal process, execution, attachment or garnishment, nor be used for the payment of any legal claim against any such person nor be subject to the jurisdiction of any bankruptcy court or insolvency proceedings by operation of law or otherwise. Nothing in this Section shall prevent the Trustees or the Plan Administrator from complying with an order that is determined to be a qualified domestic relations order (as defined in ERISA section 206(d) and Code section 414(p)) or with any qualified domestic relations order procedures (or similar rules) that may be adopted by the Trustees or Administrative Committee from time to time. Notwithstanding the foregoing, a Participant's benefit under the Plan may be offset by any amount that the Participant is ordered or required to pay to the Plan to the extent permitted by Code section 401(a)(13)(C) and ERISA sections 206(d)(4) and (5).

Section 11.06 BENEFIT OVERPAYMENTS. (a) In the event that any individual receives any payment from the Plan in excess of the amount that he or she is entitled to receive under the Plan (including due to mistake of fact or law, reliance on false or fraudulent statements, information or proof submitted by a claimant, or continuation of payments after the death of a Participant or a Beneficiary) ("Excess Payments"), he or she is obligated to repay such Excess Payments to the Plan upon receipt of a written notice by the Trustees or their designee requesting such repayment.

(b) The Trustees or their designee shall have full authority, in their sole and absolute discretion, to recover the amount of any Excess Payments (plus interest and costs). That authority shall include, but shall not be limited to, the right to: (i) seek the Excess Payment in a lump sum from the recipient; (ii) the right to reduce benefits payable in the future to the recipient, (iii) the right to reduce benefits payable to a Beneficiary who is, or may become, entitled to receive payments under the Plan following the death of that person, and/or (iv) the right to initiate a lawsuit or take such other legal action as may be necessary to recover any overpayment (plus interest and costs).

Section 11.07 INCOMPETENCE OR INCAPACITY OF PENSIONER OR BENEFICIARY. In the event it is determined to the satisfaction of the Administrative Committee or the Plan Administrator that a Pensioner or Beneficiary is unable to care for his or her affairs because of mental or physical incapacity, any payment due may be made to the legally appointed guardian, committee, or other legal representative appropriate to receive such payments on behalf of the Pensioner or Beneficiary, as determined by the Administrative Committee, in its sole discretion.

Section 11.08 GENDER AND NUMBER. Whenever the masculine pronoun is used in the Plan, it shall also be deemed to include the feminine, and when words are used in the Plan in the singular form, they shall, where appropriate, be construed so as to include the plural.

Section 11.09 APPLICABLE LAW. The terms of the Plan shall be construed under the laws of the State of New York applicable to contracts made and to be performed within the County and State of New York (without regard to any conflict of laws provision), except to the extent that such laws are pre-empted by ERISA or any other applicable laws of the United States.

Section 11.10 NEW EMPLOYERS. If an Employer is sold, merged or otherwise undergoes a change of identity, the successor Employer shall participate in the Plan as to the Employees of such Employer theretofore covered under the Plan just as if it were the original Employer.

Section 11.11 DEFINITIONS. All words and phrases defined in the Trust Agreement shall have the same meaning in this Plan, except as otherwise expressly provided herein.

Section 11.12 SEVERABILITY. If any one or more of the provisions of this Plan (or any amendment hereto) shall be held contrary to any provision of law, or shall for any reason whatsoever be held invalid, then such provisions (or amendments) shall (i) be enforced only to the extent not contrary to law, (ii) be deemed severable from the remaining provisions of this Plan, and (iii) shall in no way affect the validity or enforceability of the other provisions of this Plan or the rights of the parties hereto.

Section 11.13 SUCCESSOR PROVISIONS OF LAW. Any references to a section of ERISA or the Code (or any other statute), or to any regulations or administrative pronouncements thereunder, shall be deemed to include a reference to any successor provision of ERISA or the Code (or of any successor federal law), or to any successor regulations or administrative pronouncements thereunder.

Section 11.14 CONSTRUCTION. Anything in this Plan, or any amendment hereof, to the contrary notwithstanding, no provision of this Plan shall be construed so as to violate the requirements of ERISA, the Code, or other applicable law.

Section 11.15 RIGHTS IN FUND. No Employee, Participant, Beneficiary, or other person or group of persons, nor any organization, nor any person claiming through them (other than the Trustees), shall have any right, title or interest in any of the income or property of any character received or held by or for the account of the Fund (by reason of having been named a Beneficiary or otherwise), and no such person shall have any right to any benefit provided by the Plan (except as otherwise provided herein), nor shall any person be entitled to any payment from the assets of the Fund, unless and until the Trustees determine that he or she fulfills all the requirements for a benefit in accordance with the specific provisions of the Plan.

Section 11.16 PROVISIONS INCONSISTENT WITH QUALIFIED STATUS. This Plan is intended to be a qualified Plan under the Code. Any provision of this Plan that would cause the Plan to fail to comply with the requirements for qualified plans under the Code shall, to the extent necessary to maintain the qualified status of the Plan, be null and void ab initio, and of no

force and effect, and the Plan shall be construed as if the provision had never been inserted in the Plan.

Section 13.05 AFM PLAN ACTIVE PARTICIPANTS. AFM Plan Active Participants shall be considered Participants under this Plan and shall be governed by the terms and provisions of this Plan, except as provided in subsections (a) through (e) below.

(a) The amount of an eligible AFM Plan Active Participant's monthly Regular Pension Benefit shall be the sum of (i) the amount calculated for such individual under Section 5.03(a) of this Plan with respect to benefits accrued by such individual under this Plan (not including the amount of such individual's monthly accrued benefit under the AFM Plan as of March 31, 2000), and (ii) the amount of such individual's monthly accrued benefit under the AFM Plan as of March 31, 2000 as set forth in Exhibit A to the AFM Plan Merger Agreement. (c) If an AFM Plan Active Participant commences receiving payment of a pension benefit prior to Normal Retirement Age, and thereafter becomes eligible for an additional benefit under Section 5.06 of this Plan, the portion of the AFM Plan Active Participant's original monthly benefit which is attributable to the benefits accrued under the AFM Plan prior to April 1, 2000 shall not be taken into consideration in calculating the additional benefit under Section 5.06 of this Plan.

(d) **Benefit Improvements.**

(1) No provision of this Plan regarding benefit improvements shall apply to the portion of the monthly benefits paid to AFM Plan Active Participants and their beneficiaries which is attributable to the benefits accrued by the AFM Plan Active Participants under the AFM Plan prior to April 1, 2000.

(2) Effective each July 1, for AFM Plan Active Participants and their beneficiaries who are receiving payment of monthly benefits as of the previous July, the portion of the monthly benefits which is attributable to benefits accrued under the AFM Plan prior to April 1, 2000 shall be adjusted upward or downward to reflect the percentage change in the Consumer Price Index between March of the year prior to the adjustment year and March of the adjustment year, rounded to the nearest one-tenth of one percent; provided, however, that such portion shall not be adjusted below its value as of the Pension Effective Date under this Plan, or above the sum of (i) its value as of the Pension Effective Date under this Plan, plus (ii) four percent times the number of full years during which the pension has been in effect. For an AFM Plan Active Participant who commenced receiving payment of his or her monthly benefits since July 1 of the preceding year, the portion of such individual's monthly benefits attributable to benefits accrued under the AFM Plan shall receive a pro rata portion of the benefit adjustment described in the preceding sentence.

(e) With respect to an AFM Plan Active Participant who dies after he or she is vested in a Regular Pension Benefit, but prior to his or her Pension Effective Date under this Plan for a Regular Pension Benefit or Disability Pension Benefit, and who is unmarried at death, the death benefit which shall be payable to his or her Beneficiary shall be (i) the benefit determined under Section 7.01 of this Plan with respect to benefits accrued by such individual under this Plan, and (ii) the lump sum payment of the AFM Plan Active Participant's "Accumulated Contributions" under the AFM Plan, as defined in Section 1.01 of the AFM Plan.

Section 14.02. APPLICABILITY OF THIS ARTICLE. This Article 14 amends the provisions of the Plan only to the extent that it is applicable to a Puerto Rico Employee. In no case shall any provision of this Article 14 cause the reduction or elimination of any Employee's accrued benefit (including optional forms of benefit and the manner and timing thereof) in violation of Section 411(d)(6) of the Code or Section 204(g) of ERISA.

Section 14.03. ADDITIONAL DEFINITIONS OF TERMS.

APPENDIX A
ACTUARIAL FACTORS

(a) General

The provisions of this Appendix A shall apply to determine actuarial equivalence under the Plan.

Subject to the provisions set forth below, the interest rate generally used to determine actuarially equivalent forms of benefit under the Plan shall be seven and one-half percent. Subject to the provisions set forth below, the mortality rates generally used to compute actuarially equivalent forms of benefit under the Plan shall be the rates contained in the 1971 Group Annuity Mortality 50%/50% blended table.

(b) Cash-outs, Redeterminations, Re-retirements and Pre-retirement Death Benefits

In order to determine the present value of lump-sum benefits subject to Code section 417(e)(3) and to determine actuarial equivalence under Sections 5.06 and 7.01, the following assumptions shall apply:

(1)(A) Effective for Plan Years ending on or before March 31, 2000, the interest rate used shall be the lower of:

(i) the annual interest rate on 30-year Treasury securities which is in effect for the month of February immediately preceding the Plan Year which contains the applicable Pension Effective Date; or

(ii) 7.50%.

(B) Effective for the Plan Year beginning on April 1, 2000, and ending on March 31, 2001, the interest rate used shall be the lower of:

(i) the annual interest rate on 30-year Treasury securities which is in effect for either (A) the month of February immediately preceding the Plan Year which contains the applicable Pension Effective Date, or (B) the month of December immediately preceding the Plan Year which contains the applicable Pension Effective Date, whichever rate produces the higher benefit; or

(ii) 7.50%.

(C) Effective for Plan Years beginning on and after April 1, 2001 and ending on or before March 31, 2008, the interest rate used shall be the lower of:

(i) the annual interest rate on 30-year Treasury securities which is in effect for the month of December immediately preceding the Plan Year which contains the applicable Pension Effective Date; or

(ii) 7.50%.

(D) Effective for Plan Years beginning on or after April 1, 2008, the interest rate to be used shall be the lower of:

(i) the "applicable interest rate," as defined in Code section 417(e)(3), for the month of December preceding the Plan Year which contains the applicable Pension Effective Date; or

(ii) 7.50%.

(2) the mortality rates used shall be the rates contained in the mortality table prescribed in Internal Revenue Service Revenue Notice 2008-85 or such other mortality table prescribed by the Secretary of the Treasury under Code section 417(e)(3).

Notwithstanding the foregoing, the present value of a lump sum benefit subject to Section 417(e)(3) which is payable on or after April 1, 1995 shall not be less than the value calculated based on the Participant's benefit accrued through March 31, 1995 using (i) an interest rate of seven and one-half percent, and (ii) the applicable mortality rate contained in the 1971 Group Annuity Mortality Table for Males (for Participants) and the Table for Females (for Beneficiaries).

(c) Post Normal Retirement Age

In order to calculate monthly benefits that commence after Normal Retirement Age under Section 5.03(b) and Section 5.03(c), the Actuarial Equivalent of the Participant's monthly pension benefit shall be the amount that would have been payable as of Normal Retirement Age, increased by the applicable factor.

In order to compute a 50% Joint and Survivor Annuity or a 75% Joint and Survivor Annuity, the amount of the monthly payment that would otherwise be payable to the Participant shall be adjusted by multiplying it by the following percentage, as applicable:

(1) 50 % Joint and Survivor Annuity - Regular Pension Benefit: 93.2% minus .50% for each full year that the Joint Annuitant's date of birth is later than the Participant's date of birth or plus .50% for each full year that the Joint Annuitant's date of birth precedes the Participant's date of birth, up to 99%; or

(2) 50 % Joint and Survivor Annuity - Disability Pension Benefit: 89.6% minus .40% for each full year that the Joint Annuitant's date of birth is later than the Participant's date of birth or plus .40% for each full year that the Joint Annuitant's date of birth precedes the Participant's date of birth, up to 99%; or

(3) 75% Joint and Survivor Annuity - Regular Pension Benefit: 90.2% minus .60% for each full year that the Joint Annuitant's date of birth is later than the Participant's date of birth or plus .60% for each full year that the 75% Joint Annuitant's date of birth precedes the Participant's date of birth, up to 99%; or

(4) 75% Joint and Survivor Annuity - Disability Pension Benefit: 84.5% minus .50% for each full year that the 75% Joint Annuitant's date of birth is later than the Participant's date of birth or plus .50% for each full year that the Joint Annuitant's date of birth precedes the Participant's date of birth, up to 99%.

(e) Disability Pension Benefit

In order to determine the Disability Pension Benefit under Section 5.05, the following factors shall apply to the Regular Pension Benefit monthly amount a Participant would receive if he or she were age 65 based upon his or her attained age as of the Pension Effective Date of the Participant's Disability Pension Benefit (as determined in accordance with Section 5.04(c):

To determine whether a Puerto Rico Employee owns more than five percent (5%) of the stock, capital or interest in the profits of an Employer, the provisions under Section 1081.01(a)(A)(A) of the Puerto Rico Code shall apply. This definition shall be interpreted consistently with Section 1081.01(d)(3)(e)(iii) of the Puerto Rico Code and any optional rules permitted by Puerto Rico law in identifying Highly Compensated Puerto Rico Employees shall be incorporated into this definition.

(ii) At the written request of such distributee, and upon receipt of the written direction of the Trustees (or a person or committee designated by the Trustees), the Trustees shall make a Direct Rollover Distribution of the amount requested by such distributee in accordance with Section 1081.01(b)(2)(A) of the Puerto Rico Code, to an eligible retirement plan (as defined below).

(or a person or committee designated by the Trustees) shall require and deem to be sufficient.

(iv) Direct Rollover Distributions shall be treated as all other distributions under the Plan. They shall not be treated as a direct trustee-to-trustee transfer of Plan assets and liabilities.

A Participant shall be eligible to receive a Disability Pension Benefit if the Participant (i) ceases all Covered Employment with all Contributing Employers on account of Total Disability (as determined in accordance with subsection (b) below) (ii) is not eligible, at the time of his or her Pension Effective Date under Section 8.05(a), for a Regular Pension Benefit under Section 5.02 (if he or she retired and submitted all necessary documentation), (iii) has earned at least 1 Year of Vesting Service in the three calendar year period immediately preceding the Pension

Effective Date, (iv) has completed 10 Years of Vesting Service, and (v) has provided to the Plan Administrator a written application for such pension benefit which is complete in all respects on the form(s) provided by the Plan Administrator for this purpose.

10.04(f) Special Procedures for Applications for a Disability Pension Benefit.

(1) Applications for a Disability Pension Benefit shall be subject to all of the general rules described in Section 10.04(a)-(e), except as they are amended by the specific provisions in this subsection.

(2) The claimant will be notified of the initial decision on an application for a Disability Pension Benefit within a reasonable period of time, but no later than 45 days after the application is filed, unless additional time is required due to matters beyond the control of the Fund, in which case the Plan Administrator will notify the claimant before the end of the initial 45 days of an extension of 30 days or less. If this happens, the claimant shall receive written notification explaining the circumstances requiring the extension of time, the standards on which entitlement to a benefit is based, the unresolved issues that prevent decision on the claim and the additional information needed to resolve those issues, and the date by which the Plan expects to render a decision. If necessary, the Plan Administrator may notify the claimant of a second extension of 30 days or less, following the same procedure, with notification to be provided prior to the expiration of the first 30-day period. No additional extensions may be made, except with the claimant's voluntary consent. If any extension of the time for responding to a claimant under this Section 10.04(f) is due to the claimant's failure to submit information necessary to decide the claim, the claimant shall be afforded at least 45 days within which to provide any information so requested, and the period for making the determination will be tolled from the date on which the extension notice is sent to the date on which the claimant responds to the request for information.

(3) For claims for a Disability Benefit that are filed after April 1, 2018, notice to the claimant of an adverse benefit determination shall be provided in a culturally and linguistically appropriate manner and must include, in addition to information described in Section 10.04(b), the following:

A. The internal provisions of the Plan, if any, which were relied upon in making the adverse determination, or, alternatively, a statement that such provisions of the Plan do not exist;

B. A discussion of the decision, including an explanation of the basis for disagreeing with or deciding not to follow:

(i) The views presented by the claimant to the Plan of health care professionals treating the claimant and vocational professionals who evaluated the claimant;

(ii) The views of medical or vocational experts whose advice was obtained on behalf of the Plan in connection with a claimant's adverse benefit determination, without regard to whether the advice was relied upon in making the benefit determination; and

(iii) A disability determination regarding the claimant presented by the claimant to the Plan made by the Social Security Administration;

C. If an adverse benefit determination is based on a medical necessity or experimental treatment or similar exclusion or limit, either an explanation of the scientific or clinical judgment for the determination, applying the terms of the Plan to the claimant's medical circumstances, or a statement that such explanation will be provided free of charge upon request;

D. The Plan will identify any medical or vocational expert whose advice was obtained on behalf of the Plan in connection with an adverse benefit determination, without regard to whether the advice was relied upon in making the benefit determination.

E. If an adverse benefit determination is based in whole or in part on any internal rule, guideline, or similar criterion, the notice to the claimant of the adverse decision will either set forth the internal rule, guideline, or similar criterion, or will state that such was relied upon and will be provided free of charge to the claimant upon request.

F. A statement that the claimant is entitled to receive, upon request and free of charge, reasonable access to, and copies of, all documents, records, and other information relevant to the claimant's claim for benefits.

(4) If a claim has been denied, the deadline for the claimant to request review under Section 10.04(c) will be 180 days after receipt of the written notice of the denial.

(5) The Administrative Committee will consider the appeal *de novo*, without any deference to the initial benefit denial.

(6) The Administrative Committee will not include any person who participated in the initial benefit denial or who is the subordinate of a person who participated in the initial benefit determination.

(7) If the initial benefit denial was based in whole or in part on a medical judgment, the Administrative Committee will consult with a health care professional who has appropriate training and experience in the field of medicine involved in the medical judgment, and who was neither consulted in connection with the initial benefit determination nor is the subordinate of any person who was consulted in connection with that determination

(8) Before the Plan issues the notice of an adverse benefit determination on review, the Administrative Committee shall provide the claimant, free of charge, with any new or additional evidence considered, relied upon, or generated by the Administrative Committee or any new or additional rationale relied upon by the Administrative Committee. The information must be provided as soon as possible and sufficiently in advance of the date on which the notice of adverse benefit determination on review is required to be provided to give the claimant a reasonable opportunity to respond prior to that date.

(9) The notice of an adverse determination on review must be provided in a manner to satisfy paragraph (f)(3) of this Section and Section 10.04(c). In addition, it will contain a description of any applicable contractual limitations period that applies to the claimant's right to file the claim in court, including the date on which the contractual limitations period expires for the claim.

AMERICAN FEDERATION OF MUSICIANS AND EMPLOYERS' PENSION PLAN

REHABILITATION PLAN

April 15, 2010

I. INTRODUCTION

The Pension Protection Act of 2006 ("PPA") requires an annual actuarial status determination for multiemployer pension plans including the American Federation of Musicians and Employers' Pension Plan (the "Plan"). On April 15, 2010, the Plan was certified by its actuary, Milliman Inc. ("Milliman"), to be in critical status, also known as the "red zone", for the plan year beginning on April 1, 2010 and ending on March 31, 2011 (the "2010 Plan Year"). The certification of critical status was based upon the Plan actuary's determination that the Plan is projected to have an accumulated funding deficiency for the plan year ending March 31, 2011.

The PPA requires that the board of trustees of a multiemployer pension plan that has been certified by its actuary as being in critical status develop a rehabilitation plan that is intended to improve the plan's funding over a period of years. A rehabilitation plan sets forth the actions to be taken by the pension plan's trustees, as well as the collective bargaining parties, to enable the plan to emerge from critical status or forestall possible insolvency. The rehabilitation plan must be based on reasonably anticipated experience and reasonable actuarial assumptions regarding investment income and other experience of the plan over a period of future years.[1]

II. REHABILITATION PLANS GENERALLY

A rehabilitation plan consists of either (i) actions (including increases in employer contributions to, and/or reductions in benefits under, the plan) that, based on reasonably anticipated experience and reasonable actuarial assumptions, are formulated to enable the plan to emerge from critical status no later than the end of a 10-year "rehabilitation period"; or (ii) reasonable measures implemented by the plan's trustees that are expected to enable the plan to emerge from critical status after such 10-year period, or to forestall possible plan insolvency, if the trustees determine that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the plan cannot reasonably be expected to emerge from critical status by the end of the 10-year rehabilitation period.[2]

After extensive deliberations and consultations with Milliman and Plan legal counsel, as well as an in-depth review of a variety of possible alternatives, the Board of Trustees of the Plan (the "Board") has concluded that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the Plan cannot reasonably be expected to emerge from critical status by the end of a 10-year rehabilitation period. Further information regarding that conclusion is described in greater detail below.

---

1 All of these requirements are set forth in Section 305(e)(3) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and Section 432(e)(3) of the Internal Revenue Code of 1986, as amended (the "Code").

2 The 10-year rehabilitation period begins with the first plan year that begins two years after adoption of the rehabilitation plan or, if earlier, the first plan year after expiration of collective bargaining agreements (in effect when the actuarial certification for the first critical year was due) covering at least 75% of the plan's active participants, although the rehabilitation plan may be effective before the 10-year rehabilitation period begins. In the case of the Plan, the 10-year rehabilitation period begins April 1, 2013.

Accordingly, the Board adopted this rehabilitation plan (the "Rehabilitation Plan") on April 15, 2010 as the best long-term option for improving the funded status of the Plan and determined that it is in the best interest of the Plan and its participants and beneficiaries. The Rehabilitation Plan consists of a single schedule, known as the "default schedule" required by the PPA, and employs reasonable measures to enable the Plan to emerge from critical status.

III. OVERVIEW OF REHABILITATION PLAN

The Rehabilitation Plan consists of a single schedule that sets forth both benefit modifications and the employer contribution requirements. Under the PPA, the collective bargaining parties are responsible for adopting a contribution schedule consistent with the Rehabilitation Plan.

The main elements of the Rehabilitation Plan are as follows:

1. Effective April 1, 2010, the Board will seek approval, from the Internal Revenue Service (the "IRS"), for the Plan to obtain a 5-year extension of the period for amortizing unfunded liabilities of the Plan. This provision is described in more detail in Section IV below.

2. In addition to the reduction in the Plan's "Benefit Multiplier" that was effective January 1, 2010, the following benefits and benefit alternatives currently available under the Plan will be eliminated: (i) early retirement subsidies; (ii) benefit guarantees for the single life annuity; (iii) "pop-up" and benefit guarantee features of the 50% joint and survivor annuity; (iv) post-normal retirement age subsidies; (v) certain forms of benefit for merged plans; and (vi) the lump-sum form of benefit offered by the Plan (not including lump sums with an actuarial present value of $5,000 or less.). These changes, which generally become effective as of June 1, 2010, are described in more detail in Section V below.

3. The Rehabilitation Plan will require additional employer contributions to the Plan. Additional employer contributions are necessary to enable the Plan to emerge from critical status after future benefit accruals and other benefits have been reduced to the maximum extent permitted by law. The employer contribution requirement is described in more detail in Section VI below.

IV. EXTENSION OF AMORTIZATION

Section 431(d) of the Code and Section 304(d) of ERISA generally permit multiemployer plans to apply for IRS approval to extend (by up to five years) the period over which the plan's unfunded liability is amortized. Such applications, properly submitted, are automatically granted by law. The Rehabilitation Plan provides that the Board will apply to the IRS for this automatic extension of amortization effective April 1, 2010.

V. BENEFIT MODIFICATIONS

A. *Recent Change in Future Benefit Accruals*

The monthly pension benefit payable to participants in the form of a single life annuity generally is computed by multiplying each $100 of employer contributions earned by a participant by a specified dollar amount (the "Benefit Multiplier"). In anticipation of the need to develop a Rehabilitation Plan, and to facilitate what the Board hopes will be the Plan's ultimate financial recovery, the Board decided in October 2009 to reduce the Benefit Multiplier for benefits earned under the Plan on and after January 1, 2010 from $2.00 to $1.00 for benefits beginning at age 65. Corresponding revisions were made to the Benefit Multiplier for benefits commencing between the ages of 55 and 64.

While it is not technically part of the Rehabilitation Plan, the $1.00 Benefit Multiplier was adopted in anticipation of the Plan entering critical status.[3] The $1.00 Benefit Multiplier is the equivalent of a 1% monthly benefit accrual, which is the minimum rate permitted by a default schedule under the PPA. The Board considered the possibility of adopting an alternative schedule reducing the Benefit Multiplier below $1.00 in order to enable the Plan to emerge from critical status more rapidly. However, after lengthy deliberations, the Board ultimately concluded that the same likely effects of reducing the Benefit Multiplier to $1.00 that had made that decision so difficult – primarily, the wholly inadequate retirement benefits resulting from the reduction, and the consequent incentive for bargaining parties to withdraw from the plan and turn to alternative retirement vehicles that provide greater benefits for their contribution dollars – were of even greater concern when considering an even further reduction. These concerns were exacerbated by the fact that an alternative schedule would be extremely costly, if not impossible, to administer, given the large number of employers contributing to the Plan and the freelance nature of much of the covered employment.

B. ***Description of Additional Benefit Modifications***

The Rehabilitation Plan requires the additional modifications set forth below effective for pension benefit payments with an annuity starting date on or after June 1, 2010, including participants with respect to whom contributions are not currently required to be made. However, these benefit reductions will not apply to pension benefit payments with an annuity starting date of June 1, 2010 if the initial application for benefits was postmarked (or received in the Fund Office, in the case of applications delivered by fax or by hand) on or before February 24, 2010.

These reductions will include the following:

1. Elimination of the Early Retirement Subsidy

For benefits commencing prior to June 1, 2010, the portion of early retirement benefits earned by the participant before 2004 includes a subsidy from the Plan that is costly. The Rehabilitation Plan eliminates the subsidy. Thus, the Benefit Multiplier for benefits beginning at ages prior to 65 (expressed as a single life annuity) will be the actuarial equivalent of the Benefit Multiplier for benefits beginning at age 65, without any subsidy.

Accordingly, under the Rehabilitation Plan, all benefits will be based on the applicable Benefit Multiplier per $100 of contributions (rounded to the nearest $100) set forth in the chart below. Benefit Multipliers for early retirement benefits (ages 55 to 64) for amounts earned beginning in 2004 were never subsidized, so only the shaded Benefit Multipliers reflected in column A are being adjusted by the Rehabilitation Plan.

---

[3] By way of historical background, the Trustees began to discuss reducing the Benefit Multiplier in late 2008 in view of the effect of the substantial investment losses affecting the Plan and most other U.S. retirement plans, but could not initially agree on the amount of the reduction. The Union Trustees were deeply concerned, based on their experiences negotiating collective bargaining agreements and their understanding of the various bargaining parties, that a reduction below $2.00 would cause many bargaining parties to decide to leave the Plan. The Employer Trustees believed that it was necessary to take that risk in view of the Plan's funding problems. The Board ultimately agreed to reduce the Benefit Multiplier to $2.00 effective May 1, 2009, and deadlocked over whether to reduce the Benefit Multiplier still further to $1.00. The Board was able to reach agreement on this matter only shortly before an arbitration to resolve it was scheduled to occur, when the Union Trustees reluctantly concluded that the Plan's funding problems were unlikely to be remedied solely by market gains, at least in the short term.

2. Elimination of the Benefit Guarantee for Single Life Annuity

For pension benefits payable in the form of a single life annuity, there is currently a guaranteed payment of 100 times the portion of the monthly pension benefit as of the participant's annuity starting date for accruals earned prior to 2004. Under the guarantee, if a participant dies before receiving a total of 100 times the portion of the monthly benefit earned prior to 2004, the designated beneficiary receives the balance of that amount. The Rehabilitation Plan eliminates the guaranteed payment. Thus, the single life annuity will provide for monthly payments for the life of the retired participant and will cease at the participant's death.

3. Elimination of the "Pop-Up" Feature of the 50% Joint and Survivor Annuity

For pension benefits payable in the form of a 50% joint and survivor annuity, if the joint annuitant dies before the participant, and within five years of the participant's annuity starting date, the portion of the benefit earned prior to 2004 currently increases to what it would have been if the participant had elected a single life annuity form of benefit. The Rehabilitation Plan eliminates this "pop-up" feature. Accordingly, the death of the joint annuitant after the annuity starting date will no longer have any effect on the participant's monthly benefit.

4. Elimination of the Benefit Guarantee for 50% Joint and Survivor Annuity

For pension benefits payable in the form of a 50% joint and survivor annuity, if the participant and joint annuitant both die within five years of the participant's annuity starting date, the Plan currently pays the participant's beneficiary the balance of the five years of monthly benefit payments on the portion of the benefit earned by the participant prior to 2004. The Rehabilitation Plan eliminates this payment guarantee. Accordingly, there will no longer be any continuing payments after the death of the retired participant and his or her joint annuitant.

5. Elimination of the Post-Normal Retirement Age Subsidy

For participants who begin to receive their pension benefit after normal retirement age (generally age 65), the Plan currently pays the amount payable at normal retirement age, increased to account for the late commencement using

simplified factors. This results in a benefit that is greater than if it were computed using actuarial equivalent factors. Under the Rehabilitation Plan, the benefit payable after normal retirement age will be increased using the interest and mortality assumptions that achieve actuarial equivalence.

6. Elimination of Merged Plan Forms of Benefit

Under the Rehabilitation Plan, benefits earned by individuals who participated in either the AFM Retirement Plan or the AFM-EPF Staff Retirement Plan prior to merger with the Plan will be paid to these individuals only in the same benefit forms that are generally available with respect to benefits under the Plan.

7. Elimination of Lump-Sum Form of Payment for Retirement Account Benefit

The Plan currently permits participants to receive a lump-sum payment of the amounts attributable to contributions earned before 1968, plus interest (also known as the Retirement Account Benefit). This form of payment will be eliminated under the Rehabilitation Plan.[4]

VI. EMPLOYER CONTRIBUTION INCREASES

A. Employer Contribution Increases Required under the Rehabilitation Plan

The Rehabilitation Plan requires contributing employers to increase the amount of contributions made to the Plan. As described in Section VII below, if the bargaining parties do not agree to the increased contributions in this Rehabilitation Plan by June 1, 2010, the employer will be subject to a surcharge required by law that is greater than the contribution increases.

The required increase in the employer contributions is as follows:

1. Effective for contributions earned on or after June 1, 2010 but before April 1, 2011, the contribution rate will be 104% of the contribution rate otherwise in effect under the collective bargaining agreement or expired collective bargaining agreement.[5]

2. Effective for contributions earned on or after April 1, 2011 and thereafter, the contribution rate will be 109% of the contribution rate otherwise in effect under the collective bargaining agreement or expired collective bargaining agreement (excluding the 4% increase, which is not cumulative).

3. To the extent an employer's contributions are calculated as set forth in the arbitration award of Burton Turkus (the "Turkus Award"):

   a. the 104% and 109% required contribution amount set forth in paragraphs 1. and 2. will be based on 100% of the contributions calculated as set forth in the Turkus Award (or, if greater, 100% of the minimum contribution rate set forth in the employer's collective bargaining agreement) plus an additional 4% or 9% (as applicable) of the minimum contribution rate set forth in the employer's collective bargaining agreement.

   b. However, if the employer has a complete or partial withdrawal from the Fund, or is otherwise terminated as a contributing employer by the Board, on or before March 31, 2015, the employer must pay, within ten business days of the date on which the Fund sends the employer a written invoice, contributions (retroactive to June 1, 2010) calculated based on 104% or 109% (as applicable) of the contributions calculated as set forth in the Turkus Award (or, if greater, 100% of

---

[4] The Plan does not provide for any other lump-sum benefits other than those benefits with an actuarial present value of $5,000 or less.

[5] Contributions are considered earned in accordance with the normal Plan procedures for crediting contributions. For live work, it is generally the date of the performance.

the minimum contribution rate set forth in the employer's collective bargaining agreement), less any additional contributions already paid under subparagraph (a) above, plus interest calculated at an annual rate of 8%.

4. In the case of single engagement agreements, the contribution rate otherwise in effect under the collective bargaining agreement shall be deemed to be a rate that is no less than the average of the contribution rates in all of the agreements submitted to the Plan by the employer (or by the bandleader, if the bandleader is the payor) during calendar year 2009, where the employer or bandleader submitted five or more single engagement agreements during calendar year 2009.

5. Effective in the fifth year of any collective bargaining agreement entered into on or after May 1, 2010 that establishes pension contributions for a term of more than four years (including extensions), the contribution rate will increase an additional 25% above the contribution rate otherwise applicable to those contributions (and the portion of the increase above 9% will not generate benefit accruals).

The increased contributions are generally treated the same as all other employer contributions, so they will be payable on the same schedule as the contributions on which the increase is based and will generate benefit accruals for participants (except as noted in paragraph 5. above).

B. *Effective Date of Contribution Increases*

Unless otherwise specifically provided herein, the contribution increases required by the Rehabilitation Plan will become effective upon the *earlier of*:

1. the effective date of a collective bargaining agreement (or an amendment to that collective bargaining agreement) that adopts a contribution schedule that contains terms consistent with the Rehabilitation Plan contribution schedule, or

2. 180 days after the expiration date of a collective bargaining agreement providing for contributions to the Plan that was in effect on April 1, 2010, *if* by such date the bargaining parties have failed to adopt a contribution schedule that contains terms consistent with the contribution schedule set forth in this Rehabilitation Plan.

If the collective bargaining agreement had an expiration date before April 1, 2010 and no successor agreement was yet in effect on that date, the contribution schedule must be adopted by September 28, 2010 (180 days from April 1, 2010).

C. *No Decrease Permitted in Employer Contributions Otherwise Required*

The Board previously announced that the contribution rates in any collective bargaining agreement may not be decreased.[6] Accordingly, the contribution rate in a collective bargaining agreement may not be decreased to avoid application of the contribution rate increase under the Rehabilitation Plan.

VII. EMPLOYER SURCHARGES

The PPA requires that mandatory "surcharges" be imposed on every contributing employer beginning 30 days after the date on which the PPA-required notice of critical status is provided to the employer – in this case, it begins June 1, 2010 – and continuing until the employer's collective bargaining agreement(s) (or other agreement(s) pursuant to which it is contributing) is amended to incorporate a contribution schedule that contains terms consistent with the Rehabilitation Plan.

---

[6] Specifically, an employer and a collective bargaining agreement is not acceptable to the Board in the event that: (i) in the case of a collective bargaining agreement the terms of which were in effect (by agreement or operation of law) on October 15, 2009, the effective contribution rate applicable to any period of that collective bargaining agreement is reduced (by agreement or otherwise on or after October 16, 2009); or (ii) in the case of any future extension of or successor to any collective bargaining agreement the terms of which were in effect (by agreement or operation of law) on October 15, 2009, the effective contribution rate is reduced to a rate that is lower than the effective contribution rate in effect on the last day of the expiring collective bargaining agreement (based on the terms of the collective bargaining agreement as they existed on October 15, 2009).

The amount of the surcharge is as follows:

1. Effective for contributions earned on or after June 1, 2010 and before April 1, 2011, the surcharge is 5% of the employer's contributions to the Plan; and

2. Effective for contributions earned on or after April 1, 2011, the surcharge is 10% of the employer's contributions to the Plan. The 10% surcharge remains in effect for each plan year in which the Plan remains in critical status.

The surcharge is due and payable on the same schedule as the contributions on which the surcharges are based. Surcharges are over and above the required employer contributions and, consistent with law, will not generate any benefit accruals for participants.

Where the bargaining parties fail to adopt the contribution schedule in the Rehabilitation Plan by June 1, 2010, the employer remains subject to all surcharges imposed under the PPA until such time as the bargaining parties adopt provisions (or, if later, such time as those provisions take effect) in the employer's collective bargaining agreement that contain terms consistent with the Rehabilitation Plan schedule. No retroactive amendments are permitted. If there is an unreasonable delay in providing the Fund Office with an executed agreement that contains terms consistent with the Rehabilitation Plan schedule, the adoption date will be treated as the date of receipt by the Fund Office and the surcharge will be imposed through that date.

The law provides that employers on whom the Rehabilitation Plan contribution schedule is imposed (e.g., because the bargaining parties have not adopted the Rehabilitation Plan contribution schedule within 180 days after expiration of the collective bargaining agreement) will remain subject to the surcharges imposed under the PPA until such time as the collective bargaining parties adopt provisions in their collective bargaining agreements that contain terms consistent with the Rehabilitation Plan schedule. Thus, under the law, such employers would be subject to **both** the Rehabilitation Plan contribution schedule and the surcharge.

VIII. REHABILITATION PLAN OBJECTIVES

This Rehabilitation Plan consists of reasonable measures adopted by the Board which, based on reasonable actuarial assumptions, can be expected to enable the Plan to emerge from critical status.

In the absence of the benefit changes or the increases in employer contribution rates described in this Rehabilitation Plan, the Plan would not have been projected to emerge from critical status at any point during the 40-year projection period used by Milliman (although the Plan nonetheless was projected to remain solvent during this period). Under the Rehabilitation Plan adopted by the Board, the Plan is estimated to emerge from critical status no later than March 31, 2047 and also is not projected to become insolvent at any point during the projection period. These calculations were based on the Plan's actuarial assumptions, including achieving the 7.5% annual investment return assumption and, as required by law, do not take into account the possibility of investment returns achieved by the Plan in excess of that amount (which could reduce the period of time that the Plan remains in critical status).

IX. ALTERNATIVES CONSIDERED BY THE BOARD

The Board devoted a considerable amount of time and attention to considering the advantages and disadvantages of the alternatives that would enable the Plan to emerge from critical status by the end of the 10-year rehabilitation period. Some of the alternatives that were considered by the Board would have required **at least** 58% increases in employer contribution rates to emerge from critical status by the end of the 10-year rehabilitation period (even without corresponding increases in benefit accruals and with the benefit reductions described in Section V above).[7]

After considering each of these alternatives, the Board concluded that each would be unreasonable and would involve considerable risk to the long-term health (and even viability) of the Plan. In reaching this conclusion, the Board took into account various considerations, including the following:

---

[7] Specifically, the Board considered that a 58% contribution rate increase (or 91%, if the increase generated a benefit accrual) would have been required if the same benefit changes described in Section V, above, were adopted. In addition, the Board considered that the contribution rate increase would need to be 76.75% (120.5% if benefit accrual generating) if the benefit changes were not adopted.

1. The near-impossibility of emerging from critical status at the end of the 10-year rehabilitation period in view of the significant investment losses suffered by the Plan over the two plan years ended on March 31, 2009. The collapse of the financial markets in 2008 resulted in the Plan's experiencing the worst investment losses in its 50-year history over these two plan years. As compared to the asset level that was projected by Milliman over this period based on the Plan's assumed investment return of 7.5%, the Plan's assets declined by 40% or nearly $900 million. As a result of this decline in value, the Plan's funded percentage (using the fair market value of assets), which was 108.5% as of April 1, 2007, declined to 62.6% as of April 1, 2009 and then increased to 72.8% as of April 1, 2010.

2. The impact of the severe economic decline in 2008 and 2009 on the music industry. Overall, employer contributions to the Plan during 2009 declined by 7% from the previous year. Many of the contributing employers to the Plan are small organizations that do not have the financial resources to withstand the economic downturn. Of course, they are not alone. Larger contributors are also undergoing considerable economic stress as a result of the severe recession. As simply one example of the unprecedented problems afflicting the live music industry, many symphony orchestras, which together make up more than 40 percent of annual Plan contributions, are in significant financial distress.[8] The recorded music industry is in substantial economic distress as well. Sales of recorded music have been declining substantially for the past decade and all of the major record companies that contribute to the Plan have experienced large-scale layoffs; this downward trend is expected to continue by all accounts for the foreseeable future. The theatrical motion picture and television industries have also experienced significant restructuring and layoffs as a result of the economic downturn. On Broadway, producers have been under increased pressure to keep capitalization costs down, resulting in fewer musicals with smaller orchestras.

3. Even if certain contributing employers could financially withstand the enormous contribution increases under the alternative schedules described above, the Board believes that neither the participants nor contributing employers would find continuing value in participating at those rates in a retirement plan that has reduced accrual rates and eliminated adjustable benefits to the maximum extent permitted under the law.[9]

4. In addition, the magnitude of the employer contribution increases required by the alternative schedules would likely have resulted in lower negotiated wages for participants and/or decreased employer contributions to other benefit plans covering these participants (such as the plan providing their health benefit coverage). If participants perceive a significant decrease in value in their total overall compensation – including wages, pension benefits and health benefits – the Board concluded that they would be likely to encourage their employers to withdraw from the Plan. Thus, the Board concluded that a further reduction in benefits would be inconsistent with the goal of presenting a viable plan with ongoing value to active participants. Such action could also lead to increased employer withdrawals or reductions in contributions, as the collective bargaining parties would see less benefit to ongoing participation.

5. The Plan is maintained pursuant to thousands of collective bargaining agreements negotiated by the American Federation of Musicians of the United States and Canada (the "AFM") or one of the AFM's 145 local unions. The AFM does not have the ability to require its local unions to make ongoing participation in the Plan a core principle in contract negotiations.

6. The Board also considered other methods of calculating the Plan's liabilities. The implementation of one such method, known as the "shortfall method" of amortizing the liabilities of the Plan, could have the effect of causing the Plan not to be in critical status for the plan year beginning April 1, 2010. However, the Board concluded that entering critical status was inevitable and implementing this actuarial technique would only require even more severe benefit and contribution modifications in the future to protect the Plan's long-term viability.

---

[8] All orchestras are non-profit organizations and most depend on donations and endowment income for the majority of their income. These particular revenue sources have declined significantly as a result of the recent economic crisis. Many orchestras have been driven close to bankruptcy and some have gone out of business altogether. Most, including some of the nation's oldest and most prominent symphony orchestras, are negotiating wage freezes and wage reductions.

[9] As merely one example, the Board concluded that it was unlikely that contributing employers will pay the required contribution increases to maintain the current plan of benefits under one of the alternative schedules considered by the Board. As employer contribution payments are increased to levels that exceed their annual withdrawal liability payment amounts, the Board is concerned that employers would respond by completely and/or partially withdrawing from the Plan.

7. The Board also considered eliminating early retirement benefits entirely (such that participants would not be permitted to receive retirement benefits prior to age 65, even on an actuarially equivalent basis) and eliminating pre-retirement death benefits for non-spousal beneficiaries. However, the Board chose not to do so due to (i) the Plan actuary's conclusion that the actuarial impact of eliminating these benefits would be *de minimis* and (ii) the administrative costs associated with these changes.

X. DELINQUENT EMPLOYER CONTRIBUTIONS/WITHDRAWAL FROM THE PLAN

A contributing employer's failure to contribute to the Plan timely at the rates required by the Rehabilitation Plan schedule (once agreed to or imposed) will result in the deficient amounts being treated as delinquent employer contributions under the Plan. In addition, the contributing employer will be subject to excise taxes (equal to 100% of the unpaid contributions) as provided under the PPA. Additionally, this may result in a determination by the Board that the employer has failed to maintain (and thus has withdrawn from) the Plan, in which case such employer will then be subject to withdrawal liability under the terms of the Plan and Title IV of ERISA. Further, under the PPA, any failure to make a surcharge payment will also be treated as a delinquent contribution.

XI. NOTICE GIVEN BEFORE BENEFIT REDUCTIONS BECOME EFFECTIVE

Pursuant to Section 432(e)(8)(C) of the Code, this notice is being given at least 30 days before the general effective date of the reduction in adjustable benefits under the Plan.

XII. NON-COLLECTIVELY BARGAINED PARTICIPANTS

In the case of an employer that contributes to the Plan on behalf of both collectively bargained *and* non-collectively bargained participants, the contributions for, and the benefits provided to, the non-collectively bargained employees, including surcharges on those contributions, shall be determined as if those non-collectively bargained participants were covered under such employer's first-to-expire collective bargaining agreement that was in effect on April 1, 2010.

In the case of an employer that contributes to the Plan on behalf of non-collectively bargained employees *only*, the rules contained in this Rehabilitation Plan shall be applied as if the employer were the bargaining party, and its participation agreement (or other operative agreement) were a collective bargaining agreement with a term ending on the first day of the plan year beginning after the employer is provided with the Rehabilitation Plan (i.e., generally April 1, 2011).

XIII. APPLICATION OF REHABILITATION PLAN TO FUTURE AGREEMENTS

The rules contained herein shall be applied upon the expiration of (or earlier amendment to or renegotiation of) the first collective bargaining agreement that conforms to the Rehabilitation Plan (the "Initial Compliant Collective Bargaining Agreement") and each subsequent compliant collective bargaining agreement (a "Subsequent Compliant Collective Bargaining Agreement"). Furthermore, it will be applied as if the Initial Compliant Collective Bargaining Agreement or Subsequent Compliant Collective Bargaining Agreement, as the case may be, were "in effect" at the time the Plan entered critical status; provided that, the contribution surcharges imposed under the PPA and this Rehabilitation Plan shall apply prospectively only and shall be based upon the contribution rate in the expired Initial Compliant Collective Bargaining Agreement or Subsequent Compliant Collective Bargaining Agreement, as the case may be.

XIV. REHABILITATION PLAN STANDARDS

The PPA requires that a plan set forth annual standards for meeting the requirements of its rehabilitation plan. However, the PPA does not currently define the standards applicable to a rehabilitation plan, such as this Rehabilitation Plan, that is not designed to emerge from critical status at the end of the 10-year rehabilitation period.

Until such time as these standards are more clearly defined pursuant to the PPA, the annual standard for satisfying the requirements of this Rehabilitation Plan will be a determination that, based on the updated actuarial projections each year using reasonable actuarial assumptions, the Rehabilitation Plan (as updated and amended from time to time), will enable the Plan to emerge from critical status or forestall possible insolvency.

XV. ANNUAL REVIEW AND UPDATE OF REHABILITATION PLAN

In consultation with the Plan's actuary, the Board will review the Rehabilitation Plan annually and amend it, as appropriate, to the objective of enabling the Plan to emerge from critical status. This will include an update of the contribution rates contained in its schedules to reflect the experience of the Plan. The annual review will include a thorough review of the Plan's funding status, including projections by the actuary of whether and when the Plan is expected to emerge from critical status or become insolvent. The Board will consider whether further benefit modifications or contribution rate increases are necessary to meet the stated objectives of the Rehabilitation Plan and ensure the long-term health of the Plan.

The Rehabilitation Plan may be amended for any benefit changes that may be required for the Plan to continue to satisfy all necessary legal requirements, to maintain its tax-qualified status under the Code, and to comply with other applicable law. Collective bargaining agreements that are entered into, renewed or extended after the date of any changes to the Rehabilitation Plan will be subject to the Rehabilitation Plan then in effect at the time of such entry, renewal or extension. Notwithstanding the foregoing, under current law the schedules of contribution rates provided by the Board, and agreed to by the bargaining parties in negotiating a collective bargaining agreement, will remain in effect for the duration of that collective bargaining agreement.

XVI. CONSTRUCTION AND MODIFICATIONS TO THIS REHABILITATION PLAN

This Rehabilitation Plan is intended to present only a summary of the law, the Plan and the upcoming changes to the Plan. It is not intended to serve as an exhaustive, complete description of the law, the Plan or the modifications discussed herein.[10]

The Board reserves the right, in its sole and absolute discretion, to construe, interpret and/or apply the terms and provisions of this Rehabilitation Plan in a manner that is consistent with the PPA and other applicable law. Any and all constructions, interpretations and/or applications of the Plan (and other Plan documents) or the Rehabilitation Plan by the Board, in its sole and absolute discretion, shall be final and binding on all parties affected thereby. Subject to the PPA and other applicable law, and notwithstanding anything herein to the contrary, the Board further reserves the right to make any modifications to this Rehabilitation Plan that they, in their sole and absolute discretion, determine are necessary and/or appropriate (including, without limitation in the event of any omission or the issuance of any future legislative, regulatory or judicial guidance).

[10] The terms of the official plan documents will govern in the event of any contradiction between this notice and the Plan documents as adopted to incorporate the changes to the Plan described herein.

AMERICAN FEDERATION OF MUSICIANS AND EMPLOYERS' PENSION PLAN

REHABILITATION PLAN

Adopted April 15, 2010, and updated June 27, 2016

I. INTRODUCTION

The Pension Protection Act of 2006 ("PPA") requires an annual actuarial status determination for multiemployer pension plans including the American Federation of Musicians and Employers' Pension Plan (the "Plan"). On April 15, 2010, the Plan was certified by its actuary, Milliman, Inc. ("Milliman"), to be in critical status, also known as the "red zone", for the plan year beginning on April 1, 2010 and ending on March 31, 2011 (the "2010 Plan Year"). The initial certification of critical status was based upon the Plan actuary's determination that the Plan was projected to have an accumulated funding deficiency for the plan year ending March 31, 2011. The Plan was further certified in critical status each plan year thereafter to date. (The most recent certification as of the date of the adoption of the updated Rehabilitation Plan was for the plan year beginning April 1, 2015.)

The PPA requires that the board of trustees of a multiemployer pension plan that has been certified by its actuary as being in critical status develop a rehabilitation plan that is intended to improve the plan's funding over a period of years. A rehabilitation plan sets forth the actions to be taken by the pension plan's trustees, as well as the collective bargaining parties, to enable the plan to emerge from critical status or forestall possible insolvency. The rehabilitation plan must be based on reasonably anticipated experience and reasonable actuarial assumptions regarding investment income and other experience of the plan over a period of future years.[1]

II. REHABILITATION PLANS GENERALLY

A rehabilitation plan consists of either (i) actions (including increases in employer contributions to, and/or reductions in benefits under, the plan) that, based on reasonably anticipated experience and reasonable actuarial assumptions, are formulated to enable the plan to emerge from critical status no later than the end of a 10-year "rehabilitation period"; or (ii) reasonable measures implemented by the plan's trustees that are expected to enable the plan to emerge from critical status after such 10-year period, or to forestall possible plan insolvency, if the trustees determine that, based on reasonable

[1] All of these requirements are set forth in Section 305(e)(3) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and Section 432(e)(3) of the Internal Revenue Code of 1986, as amended (the "Code").

actuarial assumptions and upon exhaustion of all reasonable measures, the plan cannot reasonably be expected to emerge from critical status by the end of the 10-year rehabilitation period.[2]

After extensive deliberations and consultations with Milliman and Plan legal counsel, as well as an in-depth review of a variety of possible alternatives, the Board of Trustees of the Plan (the "Board") concluded that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the Plan cannot reasonably be expected to emerge from critical status by the end of a 10-year rehabilitation period. Further information regarding that conclusion is described in greater detail below.

Accordingly, the Board adopted its initial rehabilitation plan (the "Rehabilitation Plan") on April 15, 2010 as the best long-term option for improving the funded status of the Plan and determined that it is in the best interest of the Plan and its participants and beneficiaries. The Rehabilitation Plan consists of a single schedule, known as the "default schedule" required by the PPA. The Rehabilitation Plan originally employed reasonable measures to enable the Plan to emerge from critical status at a later date than the 10-year rehabilitation period. As the Plan is currently not projected to emerge from critical status, the Rehabilitation Plan now employs reasonable measures to enable the Plan to forestall insolvency.

III. OVERVIEW OF REHABILITATION PLAN

The Rehabilitation Plan consists of a single schedule that sets forth both benefit modifications and the employer contribution requirements. Under the PPA, the collective bargaining parties are responsible for adopting a contribution schedule consistent with the Rehabilitation Plan.

The main elements of the Rehabilitation Plan are as follows:

1. In addition to the reduction in the Plan's "Benefit Multiplier" that was effective January 1, 2010, the Rehabilitation Plan eliminates the following benefits and benefit alternatives previously available under the Plan: (i) early retirement subsidies; (ii) benefit guarantees for the single life annuity; (iii) "pop-up" and benefit guarantee features of the 50% joint and survivor annuity; (iv) post-normal retirement age subsidies; (v) certain forms of benefit for merged plans; and (vi) the lump sum form of benefit offered by the Plan (not including lump sums with an actuarial present value of $5,000 or less.). These changes, which generally became effective as of June 1, 2010, are described in more detail in Section V below.

2. The Rehabilitation Plan requires additional employer contributions to the Plan. Additional employer contributions are necessary to enable the Plan to forestall insolvency after future benefit accruals and other benefits have been reduced to the maximum extent permitted by law. The employer contribution requirements are described in more detail in Section VI below.

---

[2] The 10-year rehabilitation period begins with the first plan year that begins two years after adoption of the rehabilitation plan or, if earlier, the first plan year after expiration of collective bargaining agreements (in effect when the actuarial certification for the first critical year was due) covering at least 75% of the plan's active participants, although the rehabilitation plan may be effective before the 10-year rehabilitation period begins. In the case of the Plan, the 10-year rehabilitation period begins April 1, 2013.

IV. EXTENSION OF AMORTIZATION

The original Rehabilitation Plan also provided that the Board would seek approval from the Internal Revenue Service (the "IRS") for the Plan to obtain a 5-year extension of the period for amortizing unfunded liabilities of the Plan pursuant to Section 431(d) of the Code and Section 304(d) of ERISA. However, the Rehabilitation Plan was subsequently updated to remove this provision because the Trustees instead elected to apply funding relief under the Pension Relief Act of 2010.

V. BENEFIT MODIFICATIONS

A. *Change in Future Benefit Accruals*

The monthly pension benefit payable to participants in the form of a single life annuity generally is computed by multiplying each $100 of employer contributions earned by a participant by a specified dollar amount (the "Benefit Multiplier"). In anticipation of the need to develop a Rehabilitation Plan, the Board decided in October 2009 to reduce the Benefit Multiplier for benefits earned under the Plan on and after January 1, 2010 from $2.00 to $1.00 for benefits beginning at age 65. Corresponding revisions were made to the Benefit Multiplier for benefits commencing between the ages of 55 and 64.

While it is not technically part of the Rehabilitation Plan, the $1.00 Benefit Multiplier was adopted in anticipation of the Plan entering critical status. The $1.00 Benefit Multiplier is the equivalent of a 1% monthly benefit accrual, which is the minimum rate permitted by a default schedule under the PPA. The Board considered the possibility of adopting an alternative schedule reducing the Benefit Multiplier below $1.00 in order to enable the Plan to emerge from critical status more rapidly. However, after lengthy deliberations, the Board ultimately concluded that the same likely effects of reducing the Benefit Multiplier to $1.00 that had made that decision so difficult – primarily, the wholly inadequate retirement benefits resulting from the reduction, and the consequent incentive for bargaining parties to withdraw from the plan and turn to alternative retirement vehicles that provide greater benefits for their contribution dollars – were of even greater concern when considering an even further reduction. These concerns were exacerbated by the fact that an alternative schedule would be extremely costly, if not impossible, to administer, given the large number of employers contributing to the Plan and the freelance nature of much of the covered employment.

Since the original Rehabilitation Plan was adopted, the Board and a special committee of the Board have attempted to develop other workable benefit structures that might improve the financial status of the Plan. Thus far, no structure has been identified that the Trustees consider reasonable and consistent with the applicable legal requirements. The Trustees are particularly concerned that further benefit reductions would undermine participant and employer support of the Plan.

B. *Description of Additional Benefit Modifications*

The Rehabilitation Plan requires the additional modifications set forth below effective for pension benefit payments with a pension effective date on or after June 1, 2010, including participants with respect to whom contributions were not required to be made as of April 15, 2010. However, these benefit reductions did not apply to pension benefit payments with a pension effective date of June 1, 2010 if the initial application for benefits was postmarked (or

received in the Fund Office, in the case of applications delivered by fax or by hand) on or before February 24, 2010.

The reductions made by the original Rehabilitation Plan include the following:

1. Elimination of the Early Retirement Subsidy

For benefits commencing prior to June 1, 2010, the portion of early retirement benefits earned by the participant before 2004 included a costly subsidy from the Plan. The Rehabilitation Plan eliminated the subsidy. Thus, the Benefit Multiplier for benefits beginning at ages prior to 65 (expressed as a single life annuity) is the actuarial equivalent of the Benefit Multiplier for benefits beginning at age 65, without any subsidy.

Accordingly, under the Rehabilitation Plan, all benefits are based on the applicable Benefit Multiplier per $100 of contributions (rounded to the nearest $100) set forth in the chart below. Benefit Multipliers for early retirement benefits (ages 55 to 64) for amounts earned beginning in 2004 were never subsidized, so only the shaded Benefit Multipliers reflected in column A are adjusted by the Rehabilitation Plan.

2. Elimination of the Benefit Guarantee for Single Life Annuity

For pension benefits payable in the form of a single life annuity, there was previously a guaranteed payment of 100 times the portion of the monthly pension benefit as of the participant's pension effective date for accruals earned prior to 2004. Under the guarantee, if a participant died before receiving a total of 100 times the portion of the monthly benefit earned prior to 2004, the designated beneficiary received the balance of that amount. The Rehabilitation Plan eliminated the guaranteed payment. Thus, the single life annuity under the Rehabilitation Plan provides for monthly payments for the life of the retired participant and ceases at the participant's death.

3. Elimination of the "Pop-Up" Feature of the 50% Joint and Survivor Annuity

For pension benefits payable in the form of a 50% joint and survivor annuity, if the joint annuitant dies before the participant, and within five years of the participant's pension effective date, the portion of the benefit earned prior to 2004 previously increased to what it would have been if the participant had elected a single life annuity form of benefit. The Rehabilitation Plan eliminated this "pop-up" feature. Accordingly, the death of the joint annuitant after the pension effective date no longer has any effect on the participant's monthly benefit.

4. Elimination of the Benefit Guarantee for 50% Joint and Survivor Annuity

For pension benefits payable in the form of a 50% joint and survivor annuity, if the participant and joint annuitant both die within five years of the participant's pension effective date, the Plan previously paid the participant's beneficiary the balance of the five years of monthly benefit payments on the portion of the benefit earned by the participant prior to 2004. The Rehabilitation Plan eliminated this payment guarantee. Accordingly, there are no longer any continuing payments after the death of the retired participant and his or her joint annuitant.

5. Elimination of the Post-Normal Retirement Age Subsidy

For participants who begin to receive their pension benefit after normal retirement age (generally age 65), the Plan previously paid the amount payable at normal retirement age, increased to account for the late commencement using simplified factors. This resulted in a benefit that was greater than if it were computed using actuarial equivalent factors. Under the Rehabilitation Plan, the benefit payable after normal retirement age is increased using the interest and mortality assumptions that achieve actuarial equivalence.

6. Elimination of Merged Plan Forms of Benefit

Under the Rehabilitation Plan, benefits earned by individuals who participated in either the AFM Retirement Plan or the AFM-EPF Staff Retirement Plan prior to merger with the Plan are paid to these individuals only in the same benefit forms that are generally available with respect to benefits under the Plan.

7. Elimination of Lump-Sum Form of Payment for Retirement Account Benefit

The Plan previously permitted participants to receive a lump-sum payment of the amounts attributable to contributions earned before 1968, plus interest (also known as the Retirement Account Benefit). This form of payment was eliminated under the Rehabilitation Plan.[3]

VI. EMPLOYER CONTRIBUTION INCREASES

A. Employer Contribution Increases Required under the Rehabilitation Plan

The Rehabilitation Plan requires contributing employers to increase the amount of contributions made to the Plan, except for contributions that are not taken into account in determining any benefit payable under the Plan. As described in Section VII below, if the bargaining parties did not agree to the increased contributions in this Rehabilitation Plan by June 1, 2010, the employer is subject to a surcharge required by law that is greater than the contribution increases.

The required increase in the employer contributions is as follows:

1. Effective for contributions earned on or after June 1, 2010 but before April 1, 2011, the contribution rate is 104% of the contribution rate otherwise in effect under the collective bargaining agreement or expired collective bargaining agreement.[4]

2. Effective for contributions earned on or after April 1, 2011 and thereafter, the contribution rate is 109% of the contribution rate otherwise in effect under the collective bargaining agreement or expired collective bargaining agreement (excluding the 4% increase, which is not cumulative).

3. To the extent an employer's contributions are calculated as set forth in the arbitration award of Burton Turkus (the "Turkus Award"):

   a. the 104% and 109% required contribution amounts set forth in paragraphs 1. and 2. are based on 100% of the contributions calculated as set forth in the Turkus Award (or, if greater, 100% of the minimum contribution rate set forth in the employer's collective bargaining agreement) plus an additional 4% or 9% (as applicable) of the minimum contribution rate set forth in the employer's collective bargaining agreement.

   b. However, if the employer had a complete or partial withdrawal from the Plan, or is otherwise terminated as a contributing employer by the Board,

[3] The Plan does not provide for any other lump-sum benefits other than those benefits with an actuarial present value of $5,000 or less.

[4] Contributions are considered earned in accordance with the normal Plan procedures for crediting contributions. For live work, it is generally the date of the performance.

on or before March 31, 2015, the employer must pay, within ten business days of the date on which the Plan sends the employer a written invoice, contributions (retroactive to June 1, 2010) calculated based on 104% or 109% (as applicable) of the contributions calculated as set forth in the Turkus Award (or, if greater, 100% of the minimum contribution rate set forth in the employer's collective bargaining agreement), less any additional contributions already paid under subparagraph (a) above, plus interest calculated at an annual rate of 8%.

4. In the case of single engagement agreements, the contribution rate otherwise in effect under the collective bargaining agreement shall be deemed to be a rate that is no less than the average of the contribution rates in all of the agreements submitted to the Plan by the employer (or by the bandleader, if the bandleader is the payor) during calendar year 2009, where the employer or bandleader submitted five or more single engagement agreements during calendar year 2009.

5. Effective in the sixth year of any collective bargaining agreement entered into on or after May 1, 2010 that establishes pension contributions for a term of more than five years (including extensions), the contribution rate will increase an additional 25% above the contribution rate otherwise applicable to those contributions (and the portion of the increase above 9% will not generate benefit accruals).

The increased contributions are generally treated the same as all other employer contributions, so they are payable on the same schedule as the contributions on which the increase is based and will generate benefit accruals for participants (except as noted in paragraph 5. above).

B. ***Effective Date of Contribution Increases***

Unless otherwise specifically provided herein, the contribution increases required by the Rehabilitation Plan become effective upon the *earlier of*:

1. the effective date of a collective bargaining agreement (or an amendment to that collective bargaining agreement) that adopts a contribution schedule that contains terms consistent with the Rehabilitation Plan contribution schedule, or

2. 180 days after the expiration date of a collective bargaining agreement providing for contributions to the Plan that was in effect on April 1, 2010, *if* by such date the bargaining parties have failed to adopt a contribution schedule that contains terms consistent with the contribution schedule set forth in this Rehabilitation Plan.

If the collective bargaining agreement had an expiration date before April 1, 2010 and no successor agreement was yet in effect on that date, the contribution schedule must have been adopted by September 28, 2010 (180 days from April 1, 2010).

C. *No Decrease Permitted in Employer Contributions Otherwise Required*

The Board previously announced that the contribution rates in any collective bargaining agreement may not be decreased.[5] Accordingly, the contribution rate in a collective bargaining agreement may not be decreased to avoid application of the contribution rate increase under the Rehabilitation Plan.

VII. EMPLOYER SURCHARGES

The PPA requires that mandatory "surcharges" be imposed on every contributing employer beginning 30 days after the date on which the PPA-required notice of critical status is provided to the employer – in this case, surcharges began June 1, 2010 – and continuing until the employer's collective bargaining agreement(s) (or other agreement(s) pursuant to which it is contributing) is amended to incorporate a contribution schedule that contains terms consistent with the Rehabilitation Plan.

The amount of the surcharge is as follows:

1. Effective for contributions earned on or after June 1, 2010 and before April 1, 2011, the surcharge was 5% of the employer's contributions to the Plan; and

2. Effective for contributions earned on or after April 1, 2011, the surcharge is 10% of the employer's contributions to the Plan. The 10% surcharge remains in effect for each plan year in which the Plan remains in critical status.

The surcharge is due and payable on the same schedule as the contributions on which the surcharges are based. Surcharges are over and above the required employer contributions and, consistent with law, will not generate any benefit accruals for participants.

Where the bargaining parties failed to adopt the contribution schedule in the Rehabilitation Plan by June 1, 2010, the employer remains subject to all surcharges imposed under the PPA until such time as the bargaining parties adopt provisions (or, if later, such time as those provisions take effect) in the employer's collective bargaining agreement that contain terms consistent with the Rehabilitation Plan schedule. No retroactive amendments are permitted. If there is an unreasonable delay in providing the Fund Office with an executed agreement that contains terms consistent with the Rehabilitation Plan schedule, the adoption date will be treated as the date of receipt by the Fund Office and the surcharge will be imposed through that date.

The law provides that employers on whom the Rehabilitation Plan contribution schedule is imposed (e.g., because the bargaining parties have not adopted the Rehabilitation Plan contribution schedule

---

[5] Specifically, an employer and a collective bargaining agreement is not acceptable to the Board in the event that: (i) in the case of a collective bargaining agreement the terms of which were in effect (by agreement or operation of law) on October 15, 2009, the effective contribution rate applicable to any period of that collective bargaining agreement is reduced (by agreement or otherwise on or after October 16, 2009); or (ii) in the case of any future extension of or successor to any collective bargaining agreement the terms of which were in effect (by agreement or operation of law) on October 15, 2009, the effective contribution rate is reduced to a rate that is lower than the effective contribution rate in effect on the last day of the expiring collective bargaining agreement (based on the terms of the collective bargaining agreement as they existed on October 15, 2009).

within 180 days after expiration of the collective bargaining agreement) will remain subject to the surcharges imposed under the PPA until such time as the collective bargaining parties adopt provisions in their collective bargaining agreements that contain terms consistent with the Rehabilitation Plan schedule. Thus, under the law, such employers would be subject to **both** the Rehabilitation Plan contribution schedule and the surcharge.

VIII. REHABILITATION PLAN OBJECTIVES

The original Rehabilitation Plan consisted of reasonable measures adopted by the Board which, based on reasonable actuarial assumptions, were expected to enable the Plan to emerge from critical status at a later time than the end of the 10-year rehabilitation period. At the time the Rehabilitation Plan was adopted by the Board, the Plan was estimated to emerge from critical status no later than March 31, 2047.

Currently, Milliman does not project that the Plan will emerge from critical status. Accordingly, the objective of the Rehabilitation Plan is to take reasonable measures to forestall possible insolvency.

These projections were based on the Plan's actuarial assumptions, including achieving the 7.5% annual investment return assumption and, as required by law, do not take into account the possibility of investment returns achieved by the Plan in excess of that amount. Whether the Plan will continue to remain solvent over the long term depends most on its investment performance over time and also on the total amount of contributions made to the Plan.

IX. ALTERNATIVES CONSIDERED BY THE BOARD

At the time it adopted the Rehabilitation Plan, the Board devoted a considerable amount of time and attention to considering the advantages and disadvantages of the alternatives that would enable the Plan to emerge from critical status by the end of the 10-year rehabilitation period. Some of the alternatives that were considered by the Board would have required **at least** 58% increases in employer contribution rates to emerge from critical status by the end of the 10-year rehabilitation period (even without corresponding increases in benefit accruals and with the benefit reductions described in Section V above).[6] The contributions that would be required to meet this goal are far higher now.

After considering these alternatives when designing the Rehabilitation Plan, the Board concluded that each would be unreasonable and would involve considerable risk to the long-term health (and even viability) of the Plan. In that regard, the original Rehabilitation Plan stated the following:

> *"In reaching this conclusion, the Board took into account various considerations, including the following:*
>
> *1. The near-impossibility of emerging from critical status at the end of the 10-year rehabilitation period in view of the significant investment losses suffered by the Plan over the two plan years ended on March 31, 2009. The collapse of the financial markets in 2008 resulted in the Plan's experiencing the worst investment losses in its*

[6] Specifically, the Board considered that a 58% contribution rate increase (or 91%, if the increase generated a benefit accrual) would have been required if the same benefit changes described in Section V, above, were adopted. In addition, the Board considered that the contribution rate increase would need to be 76.75% (120.5% if benefit accrual generating) if the benefit changes were not adopted.

50-year history over these two plan years. As compared to the asset level that was projected by Milliman over this period based on the Plan's assumed investment return of 7.5%, the Plan's assets declined by 40% or nearly $900 million. As a result of this decline in value, the Plan's funded percentage (using the fair market value of assets), which was 108.5% as of April 1, 2007, declined to 62.6% as of April 1, 2009 and then increased to 72.8% as of April 1, 2010.

2. *The impact of the severe economic decline in 2008 and 2009 on the music industry. Overall, employer contributions to the Plan during 2009 declined by 7% from the previous year. Many of the contributing employers to the Plan are small organizations that do not have the financial resources to withstand the economic downturn. Of course, they are not alone. Larger contributors are also undergoing considerable economic stress as a result of the severe recession. As simply one example of the unprecedented problems afflicting the live music industry, many symphony orchestras, which together make up more than 40 percent of annual Plan contributions, are in significant financial distress.[7] The recorded music industry is in substantial economic distress as well. Sales of recorded music have been declining substantially for the past decade and all of the major record companies that contribute to the Plan have experienced large-scale layoffs; this downward trend is expected to continue by all accounts for the foreseeable future. The theatrical motion picture and television industries have also experienced significant restructuring and layoffs as a result of the economic downturn. On Broadway, producers have been under increased pressure to keep capitalization costs down, resulting in fewer musicals with smaller orchestras.*

3. *Even if certain contributing employers could financially withstand the enormous contribution increases under the alternative schedules described above, the Board believes that neither the participants nor contributing employers would find continuing value in participating at those rates in a retirement plan that has reduced accrual rates and eliminated adjustable benefits to the maximum extent permitted under the law.[8]*

4. *In addition, the magnitude of the employer contribution increases required by the alternative schedules would likely have resulted in lower negotiated wages for participants and/or decreased employer contributions to other benefit plans covering these participants (such as the plan providing their health benefit coverage). If participants perceive a significant decrease in value in their total overall compensation – including wages, pension benefits and health benefits – the Board concluded that they would be likely to encourage their employers to withdraw from the Plan. Thus, the*

---

7 All orchestras are non-profit organizations and most depend on donations and endowment income for the majority of their income. These particular revenue sources have declined significantly as a result of the recent economic crisis. Many orchestras have been driven close to bankruptcy and some have gone out of business altogether. Most, including some of the nation's oldest and most prominent symphony orchestras, are negotiating wage freezes and wage reductions.

8 As merely one example, the Board concluded that it was unlikely that contributing employers will pay the required contribution increases to maintain the current plan of benefits under one of the alternative schedules considered by the Board. As employers' contribution payments are increased to levels that exceed their annual withdrawal liability payment amounts, the Board is concerned that employers would respond by completely and/or partially withdrawing from the Plan.

Board concluded that a further reduction in benefits would be inconsistent with the goal of presenting a viable plan with ongoing value to active participants. Such action could also lead to increased employer withdrawals or reductions in contributions, as the collective bargaining parties would see less benefit to ongoing participation.

5. *The Plan is maintained pursuant to thousands of collective bargaining agreements negotiated by the American Federation of Musicians of the United States and Canada (the "AFM") or one of the AFM's 145 local unions. The AFM does not have the ability to require its local unions to make ongoing participation in the Plan a core principle in contract negotiations.*

6. *The Board also considered other methods of calculating the Plan's liabilities. The implementation of one such method, known as the "shortfall method" of amortizing the liabilities of the Plan, could have the effect of causing the Plan not to be in critical status for the plan year beginning April 1, 2010. However, the Board concluded that entering critical status was inevitable and implementing this actuarial technique would only require even more severe benefit and contribution modifications in the future to protect the Plan's long-term viability.*

7. *The Board also considered eliminating early retirement benefits entirely (such that participants would not be permitted to receive retirement benefits prior to age 65, even on an actuarially equivalent basis) and eliminating pre-retirement death benefits for non-spousal beneficiaries. However, the Board chose not to do so due to (i) the Plan actuary's conclusion that the actuarial impact of eliminating these benefits would be de minimis and (ii) the administrative costs associated with these changes."*

Each year since the adoption of the Rehabilitation Plan, the Board and a special committee of the Board have continued to assess the Plan's funded status and have confirmed the original conclusion about the alternatives considered. Based on its experience in the industry and in negotiating collective bargaining agreements that include contribution obligations to the Plan, regardless of the employer size and financial strength, contribution rates and benefits are such that a further increase in contributions or reduction in benefits would create an unreasonable risk that contributing employers would seek to negotiate withdrawals from the Plan at a substantially increased rate, and that an increased number of bargaining units would cease their efforts to negotiate agreements requiring contributions to the Plan. The Board therefore concluded that requiring annual contribution increases above the level currently required or reducing benefits below the level currently provided would not be reasonable and would accelerate a possible insolvency of the Plan, rather than forestall it.

X. DELINQUENT EMPLOYER CONTRIBUTIONS/WITHDRAWAL FROM THE PLAN

A contributing employer's failure to contribute to the Plan timely at the rates required by the Rehabilitation Plan schedule (once agreed to or imposed) will result in the deficient amounts being treated as delinquent employer contributions under the Plan. In addition, the contributing employer will be subject to excise taxes (equal to 100% of the unpaid contributions) as provided under the PPA. Additionally, this may result in a determination by the Board that the employer has failed to maintain (and thus has withdrawn from) the Plan, in which case such employer will then be subject to withdrawal liability under the terms of the Plan and Title IV of ERISA. Further, under the PPA, any failure to make a surcharge payment will also be treated as a delinquent contribution.

XI. NOTICE GIVEN BEFORE BENEFIT REDUCTIONS BECOME EFFECTIVE

Pursuant to Section 432(e)(8)(C) of the Code, notice was given at least 30 days before the general effective date of the reduction in adjustable benefits under the Plan.

XII. NON-COLLECTIVELY BARGAINED PARTICIPANTS

In the case of an employer that contributes to the Plan on behalf of both collectively bargained *and* non-collectively bargained participants, the contributions for, and the benefits provided to, the non-collectively bargained employees, including surcharges on those contributions, were determined as if those non-collectively bargained participants were covered under such employer's first-to-expire collective bargaining agreement that was in effect on April 1, 2010.

In the case of an employer that contributes to the Plan on behalf of non-collectively bargained employees *only*, the rules contained in this Rehabilitation Plan shall be applied as if the employer were the bargaining party, and its participation agreement (or other operative agreement) were a collective bargaining agreement with a term ending on the first day of the plan year beginning after the employer is provided with the Rehabilitation Plan (i.e., generally April 1, 2011).

XIII. APPLICATION OF REHABILITATION PLAN TO FUTURE AGREEMENTS

If a collective bargaining agreement providing for contributions to the Plan in accordance with the Rehabilitation Plan schedule expires while the Plan is still in critical status and the bargaining parties to the agreement fail to adopt a contribution schedule with terms consistent with the updated Rehabilitation Plan and its contribution schedules, then the contribution schedule under the expired collective bargaining agreement (as updated and in effect on the date the collective bargaining agreement expires) is implemented 180 days after the date on which the collective bargaining agreement expires.

XIV. REHABILITATION PLAN STANDARDS

The PPA requires that a plan set forth annual standards for meeting the requirements of its rehabilitation plan. However, the PPA does not define the standards applicable to a rehabilitation plan, such as this Rehabilitation Plan, that is not designed to emerge from critical status at the end of the 10-year rehabilitation period.

Based on reasonable assumptions, Milliman currently projects that, if the Plan meets its current assumptions, the Plan will remain solvent over Milliman's 20-year projection period. Longer-term projections show that insolvency may occur after that 20-year period, but Milliman has advised that projections that far into the future are less likely to be accurate.

Accordingly, this projection will change over time, as the Plan's actual experience differs from the assumptions that were made to develop the projection. The Board recognizes the possibility that the Plan's actual experience could be more or less favorable than the assumptions used as the basis for developing the Rehabilitation Plan. The Board also recognizes the need to review and update the Rehabilitation Plan on an annual basis. Consequently, the Board will rely on an annual updated assessment regarding this projection as the basis for evaluating the Plan's progress under this Rehabilitation Plan, and the annual standard for meeting the requirements of the Rehabilitation Plan will be a demonstration, based on the updated actuarial projections each year using reasonable

assumptions, that the Rehabilitation Plan (as amended from time to time and as then currently in effect) will forestall insolvency until at least the end of the 10-year rehabilitation period.

XV. ANNUAL REVIEW AND UPDATE OF REHABILITATION PLAN

Milliman will annually report to the Board regarding the Plan's progress in meeting this annual standard. The Board may make any changes to this Rehabilitation Plan that it deems necessary or advisable.

XVI. CONSTRUCTION AND MODIFICATIONS TO THIS REHABILITATION PLAN

This Rehabilitation Plan is intended to present only a summary of the law, the Plan and the changes to the Plan. It is not intended to serve as an exhaustive, complete description of the law, the Plan or the modifications discussed herein.[9]

The Board reserves the right, in its sole and absolute discretion, to construe, interpret and/or apply the terms and provisions of this Rehabilitation Plan in a manner that is consistent with the PPA and other applicable law. Any and all constructions, interpretations and/or applications of the Plan (and other Plan documents) or the Rehabilitation Plan by the Board, in its sole and absolute discretion, shall be final and binding on all parties affected thereby. Subject to the PPA and other applicable law, and notwithstanding anything herein to the contrary, the Board further reserves the right to make any modifications to this Rehabilitation Plan that they, in their sole and absolute discretion, determine are necessary and/or appropriate (including, without limitation in the event of any omission or the issuance of any future legislative, regulatory or judicial guidance).

[9] The terms of the official plan documents will govern in the event of any contradiction between this notice and the Plan documents as adopted to incorporate the changes to the Plan described herein.

AMERICAN FEDERATION OF MUSICIANS AND EMPLOYERS' PENSION PLAN

UPDATE TO REHABILITATION PLAN

June 2018

The Rehabilitation Plan contribution schedule has been updated to require a 10% increase in the rate of contributions to the American Federation of Musicians and Employers' Pension Plan (the "Fund"), as described in greater detail below. This increase is in addition to the 9% additional contribution previously required by the original 2010 Rehabilitation Plan. This means for all successor collective bargaining agreements, the contribution rate for contributions made on scale wages must increase by 10%, to 110% of the current contribution rate.

1. Required effective date of change

This increase must be included in the successor to any collective bargaining agreement (or extension of that collective bargaining) that expires on or after August 1, 2018.

This increase must be effective on the effective date of the successor agreement (but no later than the Automatic Effective Date described below).

> Example: A collective bargaining agreement expires on December 31, 2018. On April 1, 2019, the bargaining parties agree to an agreement with a retroactive general effective date of January 1, 2019. The effective date of the increase must be no later than January 1, 2019.
>
> Example: A collective bargaining agreement expires on December 31, 2018. On April 1, 2019, the bargaining parties agree to an agreement with an effective date of April 1, 2019. The effective date of the increase must be no later than April 1, 2019.

Treatment of Extensions

Any extension agreed to on or after August 1, 2018 will be disregarded in determining the expiration date of a collective bargaining agreement in effect on July 31, 2018 for purposes of the required contribution increase.

> Example: On July 31, 2018, a collective bargaining agreement provides that it expires on September 30, 2018. On August 1, 2018, the bargaining parties agree to extend the collective bargaining agreement's term through October 31, 2019. Because the extension was agreed to on or after August 1, 2018, the collective bargaining agreement is treated as expired on September 30, 2018 for the purposes of the requirement to increase the contribution rate.

If an expired collective bargaining agreement was extended prior to August 1, 2018 and the extension expires by its terms on a specific calendar date on or after August 1, 2018, the contribution increase will not be required until the extension expires (or, if earlier, the effective date of the successor agreement).

> Bargaining parties must submit to the Fund Office by August 15, 2018 documentation evidencing the existing extension.

If an expired collective bargaining agreement was extended prior to August 1, 2018 but the extension does not expire by its terms on a specific calendar date (for example, it extends until a new collective

bargaining agreement is reached), the agreement will be deemed to have expired on August 1, 2018 for the purposes of the required increase.

Agreements Without Specific Expiration Dates

If a collective bargaining agreement or extension in effect on July 31, 2018 does not expire on a specific calendar date, it will be deemed to have expired on August 1, 2018 for the purposes of the required increase.

If a collective bargaining agreement, by its terms, automatically renews for an additional term absent notice to the contrary, it will be deemed to have expired the day before the next automatic renewal date for the purposes of the required increase.

Already Expired Agreements

If a collective bargaining agreement or extension expired prior to August 1, 2018 but a successor agreement or extension has not been agreed to prior to August 1, 2018, the collective bargaining agreement or extension will be deemed to have expired on August 1, 2018 for the purposes of the required increase.

Contributions for Non-Collectively Bargained Employees

In the case of an employer that contributes to the Fund on behalf of non-collectively bargained employees in accordance with a participation or other agreement with the Fund, the contribution increase will be required immediately following the expiration of the participation agreement in effect on July 31, 2018.

New Use/Reuse of Media Content

In the case of a new use or reuse of media content for which the contribution rate remains governed by an expired collective bargaining agreement, the contribution increase will take effect on February 1, 2019.

Contracts Agreed to Prior to July 1, 2018 Subject to Ratification

If the bargaining parties of an agreement that expires on or after August 1, 2018 have agreed to the terms of a successor agreement prior to July 1, 2018, but the successor agreement is still subject to ratification, then the successor agreement will not be subject to the 10% increase as long as it is ratified prior to September 1, 2018. The 10% increase will instead apply to the next successor or extension after that one.

> Bargaining parties must submit to the Fund Office by August 15, 2018 documentation evidencing the bargaining parties' agreement and the scheduled date for ratification.

2. Automatic Effective Date

The required increase will automatically take effect on the date that is 180 days after the expiration or deemed expiration of the collective bargaining agreement or extension, if the bargaining parties (or the parties to the participation agreement, in the case of non-collectively bargained employees) have not agreed to the required increase by that date.

3. Amount of increase

The increase is a 10% increase in the contribution rate in effect when the collective bargaining agreement expires, including any previous negotiated increases (including previous increases required by the Rehabilitation Plan). The final rate derived is rounded to the nearest hundredth of one percent.

> Example: If an expiring collective bargaining agreement provides for an 8.72% contribution rate (8.0% being the original contribution rate and 0.72% being the 9% increase previously required by the Rehabilitation Plan), the successor agreement must contain a rate of at least 9.59% (8.72% x 110%).

The increase in contribution rate required by this Update applies to contributions based on scale wages. It does not apply to contributions that are not based on scale wages or do not result in increased benefits under the Fund's plan of benefits.

Turkus Award

To the extent an employer's contributions are calculated as set forth in the arbitration award of Burton Turkus (the "Turkus Award"), the required contribution amount will be (i) 100% of the contributions calculated as set forth in the Turkus Award (but no less than 100% of the minimum contribution rate set forth in the employer's collective bargaining agreement) plus (ii) 19.9% of the minimum contribution rate set forth in the employer's collective bargaining agreement (which represents the cumulative 9% and 10% increases on the minimum).

Single Engagements

For employers or bandleaders (if the bandleader is the payor) who have in the past submitted one or more single engagement agreements, the contribution rate in any new single engagement agreement must be at least 10% higher than the rate specified in the wage scale book for the applicable Local Union or, if none, in the last single engagement agreement submitted for the period prior to August 1, 2018.

4. Effect on Benefits

Amounts paid to the Fund as a result of the 10% increase in the contribution rate will be used solely to improve the financial health of the Fund. Those amounts will not be considered when calculating a pension benefit and therefore will not increase future benefit payments to participants.

> Example: Assume a participant has scale wages of $5,000, the expiring collective bargaining agreement provides for an 8.72% contribution rate (8.0% being the original contribution rate and 0.72% being the 9% increase previously required by the Rehabilitation Plan), and the new successor agreement contains a rate of 9.59% (8.72% x 110%). In that case, the employer will pay contributions of $479.50 ($5,000 x 9.59%), but the participant's benefit amount earned in the year of the successor agreement will be based on contributions of $436.00 ($5,000 x 8.72%).

5. New Employers

A new contributing employer to the Fund under a new collective bargaining agreement will be required to pay the contribution rate set forth in the new collective bargaining agreement. However, 9.09%[1] of the

[1] The June 22, 2018 version of this Update rounded this percentage to 9.1%. This is the precise number.

contribution rate (which is equivalent to the 10% increase for existing employers) will not be considered when calculating a pension benefit and therefore will not increase benefit payments to participants. As described below, it will also generally be disregarded in determining the amount of, and payment schedule for, withdrawal liability.

If a new contributing employer to the Fund becomes obligated under an existing collective bargaining agreement for which the 10% increase is effective, the employer will be required to pay the full contribution rate (including the portion representing the 10% increase) in the collective bargaining agreement. The portion of the contributions representing the 10% increase will not be considered when calculating a pension benefit and therefore will not increase benefit payments to participants.

6. Delinquent Contributions and Withdrawal Liability

A contributing employer's failure to contribute to the Fund timely at the new rate required by this Update to the Rehabilitation Plan (once effective) will subject the contributing employer to the remedies imposed on delinquent employers. The failure will also subject the contributing employer to excise taxes (equal to 100% of the unpaid contributions) as provided under the Pension Protection Act of 2006. Additionally, this may result in a determination by the Board that the employer has failed to maintain (and thus has withdrawn from) the Fund, in which case such employer will then be subject to withdrawal liability.

Employers should note that the 10% increase in the contribution rate is considered required by the Rehabilitation Plan under Section 432(g)(3) of the Internal Revenue Code. Therefore, generally speaking, for withdrawal liability purposes, the increase in the contribution rate is disregarded in determining the allocation of unfunded vested benefits to an employer used to determine the employer's withdrawal liability. It is also disregarded in determining the employer's highest contribution rate for the purposes of determining the payment schedule for withdrawal liability in the event of a withdrawal.

7. Decreases in Contribution Rates Not Permitted

The Board previously announced that the contribution rates in any collective bargaining agreement may not be decreased. Accordingly, the contribution rate in a collective bargaining agreement may not be decreased to avoid application of the contribution rate increase under the Rehabilitation Plan. See this link for further information regarding the Fund's policies in this regard:

For 2019 there will be two 2019 Forms - one for the short plan year from 1/1/2019 to 9/30/2019, and another for the plan year 10/1/2019 to 9/30/2020. For additional submission due to merger under § 4262.4(f)(1)(ii): *Template 2 Plan Name Merged*, where "Plan Name Merged" is an abbreviated version of the plan name for the separate plan involved in the merger.

If the plan has 10,000 or more participants, as required to be entered on line 6f of the plan's most recently filed Form 5500 (by the filing date of the initial application), enter a listing of the 15 contributing employers with the largest contribution amounts and the amount of contributions paid by each employer during the most recently completed plan year. For example, if a calendar year plan filed an application on April 1, 2023, the plan would look to line 6f of the 2021 Form 5500 filed in 2022. If the line 6f of the 2021 Form 5500 showed 10,000 or more participants, the plan must list the 15 contributing employers with the largest contributions and the contributions made by each employer during 2022 without regard to whether a contribution was made on account of a year other than 2022. Alternatively, the plan may choose to provide the listing of the 15 largest contributing employers and the amounts of contributions paid by each of these employers on account of the most recently completed plan year. Identify the basis (cash or accrual) used to report the employer contributions.

If the plan is required to provide this information, it is required for the Top 15 employers even if the employer's contribution is less than 5% of total contributions.

Provide historical plan information for the 2010 plan year through the plan year immediately preceding the date the plan's initial application was filed that separately identifies: total contributions, total contribution base units (including identification of the base unit used (i.e., hourly, weekly)), average contribution rates, and number of active participants at the beginning of each plan year. Also show separately for each of the plan years in the same period all other sources of non-investment income, including, if applicable, withdrawal liability payments collected, reciprocity contributions (if applicable), additional contributions from the rehabilitation plan (if any), and other identifiable contribution streams.

If the sum of all contributions and withdrawal liabilities shown on this table does not equal the amount shown as contributions credited to the funding standard account on the plan year Schedule MB of Form 5500, include an explanation as a footnote to this table.

SFA Determination - under the "basic method" for all plans, and under the "increasing assets method" for MPRA plans

File name: *Template 4A Plan Name* , where "Plan Name" is an abbreviated version of the plan name.

If submitting additional information due to a merger under § 4262.4(f)(1)(ii): *Template 4A Plan Name Merged* , where "Plan Name Merged" is an abbreviated version of the plan name for the separate plan involved in the merger.

If submitting additional information due to certain events with limitations under § 4262.4(f)(1)(i): *Template 4A Plan Name Add* , where "Plan Name" is an abbreviated version of the plan name.

If submitting a supplemented application under § 4262.4(g)(6): *Template 4A Supp Plan Name* , where "Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item (4) of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

IFR filers submitting a supplemented application should see Addendum C for more information.

MPRA plans using the "increasing assets method" should see Addendum D for more information.

For all plans, provide information used to determine the amount of SFA under the "basic method" described in § 4262.4(a)(1).

For MPRA plans, also provide information used to determine the amount of SFA under the "increasing assets method" described in § 4262.4(a)(2)(i).

The information to be provided is:

NOTE: All items below are provided on Sheet '4A-4 SFA Details .4(a)(1)' unless otherwise indicated.

a. The amount of SFA calculated using the "basic method", determined as a lump sum as of the SFA measurement date.

b. Non-SFA interest rate required under § 4262.4(e)(1) of PBGC's SFA regulation, including supporting details on how it was determined.
[Sheet: 4A-1 Interest Rates]

c. SFA interest rate required under § 4262.4(e)(2) of PBGC's SFA regulation, including supporting details on how it was determined.
[Sheet: 4A-1 Interest Rates]

d. Fair market value of assets as of the SFA measurement date. This amount should include any assets at the SFA measurement date attributable to financial assistance received by the plan under section 4261 of ERISA, but should not reflect a payable for amounts owed to PBGC for all amounts of such financial assistance received by the plan.

e. For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"):

   i. Separately identify the projected amount of contributions, projected withdrawal liability payments reflecting a reasonable allowance for amounts considered uncollectible, and other payments expected to be made to the plan (excluding the amount of financial assistance under section 4261 of ERISA and SFA to be received by the plan).

   ii. Identify the benefit payments described in § 4262.4(b)(1) (including any benefits that were restored under 26 CFR 1.432(e)(9)-(1)(e)(3) and excluding the payments in e.iii. below), separately for current retirees and beneficiaries, current terminated vested participants not yet in pay status, current active participants, and new entrants.
   [Sheet: 4A-2 SFA Ben Pmts]

   Identify total benefit payments paid and expected to be paid from projected SFA assets separately from total benefit payments paid and expected to be paid from non-SFA assets after the projected SFA assets are fully exhausted.

   iii. Separately identify the make-up payments described in § 4262.4(b)(1) attributable to the reinstatement of benefits under § 4262.15 that were previously suspended through the SFA measurement date.
   [Also see applicable examples in Section C, Item (4)e.iii. of the SFA instructions.]

   iv. Separately identify administrative expenses paid and expected to be paid (excluding the amount owed PBGC under section 4261 of ERISA) for premiums to PBGC and for all other administrative expenses.
   [Sheet: 4A-3 SFA Pcount and Admin Exp]

   Identify total administrative expenses paid and expected to be paid from projected SFA assets separately from total administrative expenses paid and expected to be paid from non-SFA assets after the projected SFA assets are fully exhausted.

   v. Provide the projected total participant count at the beginning of each year.
   [Sheet: 4A-3 SFA Pcount and Admin Exp]

   vi. Provide the projected investment income earned by assets not attributable to SFA based on the non-SFA interest rate in b. above and the projected fair market value of non-SFA assets at the end of each plan year.

   vii. Provide the projected investment income earned by assets attributable to SFA based on the SFA interest rate in c. above (excluding investment returns for the plan year in which the sum of annual projected benefit payments and administrative expenses for the year exceeds the beginning-of-year projected SFA assets) and the projected fair market value of SFA assets at the end of each plan year.

f. The projected SFA exhaustion year. This is the first day of the plan year in which the sum of annual projected benefit payments and administrative expenses for the year exceeds the beginning-of-year projected SFA assets. Note this date is only required for the calculation method under which the requested amount of SFA is determined.

Additional instructions for each individual worksheet:

Sheet

4A-1 SFA Determination - non-SFA Interest Rate and SFA Interest Rate

See instructions on 4A-1 Interest Rates.

4A-2 SFA Determination - Benefit Payments for the "basic method" for all plans, and for the "increasing assets method" for MRPA plans

This sheet is not required for an IFR filer submitting a supplemented application under § 4262.4(g)(6) if the total projected benefit payments are the same as those used in the application approved under the interim final rule.

On this sheet, you will provide:
--Basic plan information (plan name, EIN/PN, SFA measurement date), and
--Year-by-year deterministic projection of benefit payments.

For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"), identify benefit payments described in § 4262.4(b)(1) for current retirees and beneficiaries, current terminated vested participants not yet in pay status, currently active participants, and new entrants. Projected benefit payments should be entered based on current participant status as of the SFA census date. On this Sheet 4A-2, show all benefit payments as positive amounts.

If the plan has suspended benefit payments under sections 305(e)(9) or 4245(a) of ERISA, the benefit payments in this Sheet 4A-2 projection should reflect prospective reinstatement of benefits assuming such reinstatements commence as of the SFA measurement date. If the plan restored or partially restored benefits under 26 CFR 1.432(e)(9)-1(e)(3) before the SFA measurement date, the benefit payments in this Sheet 4A-2 should reflect fully restored prospective benefits.

Make-up payments to be paid to restore previously suspended benefits should not be included in this Sheet 4A-2, and are separately shown in Sheet 4A-4.

Except for the first row in the projection exhibit, each row must include the full plan year of the indicated information up to the plan year ending in 2051. The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date, so the first row may contain less than a full plan year of information. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

4A-3 SFA Determination - Participant Count and Administrative Expenses for the "basic method" for all plans, and for the "increasing assets method" for MPRA plans

This sheet is not required for an IFR filer submitting a supplemented application under § 4262.4(g)(6).

On this sheet, you will provide:
--Basic plan information (plan name, EIN/PN, SFA measurement date), and
--Year-by-year deterministic projection of participant count and administrative expenses.

For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"), identify the projected total participant count at the beginning of each year, as well as administrative expenses, separately for premiums to PBGC and for all other administrative expenses. On this Sheet 4A-3, show all administrative expenses as positive amounts. Total expenses should match the amounts shown on 4A-4 and 4A-5.

Any amounts owed to PBGC for financial assistance under section 4261 of ERISA should not be included in this Sheet 4A-3.

Except for the first row in the projection exhibit, each row must include the full plan year of the indicated information up to the plan year ending in 2051. The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date, so the first row may contain less than a full plan year of information. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

4A-4 SFA Determination - Details for the "basic method" under § 4262.4(a)(1) for all plans

On this sheet, you will provide:
--Basic plan information (plan name, EIN/PN, SFA measurement date, non-SFA interest rate, SFA interest rate),
--MPRA plan status and, if applicable, certain MPRA information,
--Fair Market Value of Assets as of the SFA measurement date,
--SFA Amount as of the SFA measurement date calculated under the "basic method",
--Projected SFA exhaustion year (only if the requested amount of SFA is determined under the "basic method"), and
--Year-by-year deterministic projection.

For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"), provide each of the items requested in Columns (1) through (12). Show payments INTO the plan as positive amounts and payments OUT of the plan as negative amounts.

If the plan has suspended benefit payments under sections 305(e)(9) or 4245(a) of ERISA, Column (5) should show the make-up payments to be paid to restore the previously suspended benefits. These amounts should be determined as if such make-up payments are paid beginning as of the SFA measurement date. If the plan sponsor elects to pay these amounts as a lump sum, then the lump sum amount is assumed paid as of the SFA measurement date. If the plan sponsor elects to pay equal installments over 60 months, the first monthly payment is assumed paid on the first regular payment date on or after the SFA measurement date. See the examples in the SFA Instructions. If the make-up payments are paid over 60 months, each row in the projection should reflect the monthly payments for that period. The prospective reinstatement of suspended benefits is included in Column (4); Column (5) is only for make-up payments for past benefits that were suspended.

Except for the first row in the projection exhibit, each row must include the full plan year of the indicated information up to the plan year ending in 2051. The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date, so the first row may contain less than a full plan year of information. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

4A-5 SFA Determination - Details for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans

This sheet is to only be used by MPRA plans. For such plans, this sheet should be completed in addition to Sheet 4A-4.

On this sheet, you will provide:
--Basic plan information (plan name, EIN/PN, SFA measurement date, non-SFA interest rate, SFA interest rate),
--MPRA plan status, and if applicable, certain MPRA information,
--Fair Market Value of Assets as of the SFA measurement date,
--SFA Amount as of the SFA measurement date calculated under the "increasing assets method",
--Projected SFA exhaustion year (only if the requested amount of SFA is determined under the "increasing assets method"), and
--Year-by-year deterministic projection.

This sheet is identical to Sheet 4A-4, and the information in Columns (1) through (6) should be the same as that used in the "basic method" calculation in Sheet 4A-4. The SFA Amount as of the SFA Measurement Date will differ from that calculated in Sheet 4A-4, as it will be calculated in accordance with § 4262.4(a)(2)(i) as the lowest whole dollar amount (not less than $0) for which, as of the last day of each plan year during the SFA coverage period, projected SFA assets and projected non-SFA assets are both greater than or equal to zero, and, as of the last day of the SFA coverage period, the sum of projected SFA assets and projected non-SFA assets is greater than the amount of such sum as of the last day of the immediately preceding plan year.

SFA Measurement Date:		
Fair Market Value of Assets as of the SFA Measurement Date:		
SFA Amount as of the SFA Measurement Date under the method calculated in this Sheet:		Per § 4262.4(a)(2)(i), the lowest whole dollar amount (not less than $0) for which, as of the last day of each plan year during the SFA coverage period, projected SFA assets and projected non-SFA assets are both greater than or equal to zero, and, as of the last day of the SFA coverage period, the sum of projected SFA assets and projected non-SFA assets is greater than the amount of such sum as of the last day of the immediately preceding plan year.
Projected SFA exhaustion year:		Only required on this sheet if the requested amount of SFA is based on the "increasing assets method". TEMPLATE 5A

v20220802p

Baseline - for non-MPRA plans using the "basic method", or for MPRA plans for which the requested amount of SFA is determined under the "increasing assets method"

File name: *Template 5A Plan Name* , where "Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item (5) of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

This Template 5A is not required if all assumptions and methods used to determine the requested SFA amount are identical to those used in the most recent actuarial certification of plan status completed before 1/1/2021 ("pre-2021 certification of plan status"), except the non-SFA and SFA interest rates, and except any assumptions that were changed in accordance with Section III, Acceptable Assumption Changes in PBGC's SFA assumptions guidance (other than the acceptable assumption change for "missing" terminated vested participants described in Section III.E. of PBGC's SFA assumptions guidance).

Provide a separate deterministic projection ("Baseline") using the same calculation methodology used to determine the requested SFA amount, in the same format as Template 4A (Sheets 4A-2, 4A-3, and either 4A-4 or 4A-5) that shows the amount of SFA that would be determined if all underlying assumptions and methods used in the projection were the same as those used in the pre-2021 certification of plan status, except the plan's non-SFA interest rate and SFA interest rate, which should be the same as used in Template 4A (Sheet 4A-1).

For purposes of this Template 5A, any assumption change made in accordance with Section III, Acceptable Assumption Changes, in PBGC's SFA assumptions guidance should be reflected in this Baseline calculation of the SFA amount and supporting projection information, except that an assumption change for “missing” terminated vested participants described in Section III.E of PBGC’s SFA assumptions guidance should not be reflected in the Baseline projections. See examples in the SFA instructions for Section C, Item (5).

Additional instructions for each individual worksheet:

Sheet

5A-1 Baseline - Benefit Payments for the "basic method", or for MPRA plans for which the requested amount of SFA is determined under the "increasing assets method"

See Template 4A instructions for Sheet 4A-2, except provide the benefit payment projection used to determine the Baseline SFA amount.

5A-2 Baseline - Participant Count and Administrative Expenses for the "basic method", or for MPRA plans for which the requested amount of SFA is determined under the "increasing assets method"

See Template 4A instructions for Sheet 4A-3, except provide the projected total participant count and administrative expense projection used to determine the Baseline SFA amount.

5A-3 Baseline - Details for the "basic method" under § 4262.4(a)(1) for non-MPRA plans, or for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans for which the requested amount of SFA is determined under that method

For non-MPRA plans, see Template 4A instructions for Sheet 4A-4, except provide the projection used to determine the Baseline SFA amount under the "basic method" described in § 4262.4(a)(1). Unlike Sheet 4A-4, it is not necessary to explicitly identify the projected SFA exhaustion year in Sheet 5A-3.

For MPRA plans for which the requested amount of SFA is determined under the "increasing assets method", see Template 4A instructions for Sheet 4A-5, except provide the projection used to determine the Baseline SFA amount under the "increasing assets method" described in § 4262.4(a)(2)(i). Unlike Sheet 4A-5, it is not necessary to identify the projected SFA exhaustion year in Sheet 5A-3.

See Template 4A instructions for Sheet 4A-4 or Sheet 4A-5, except provide the projection used to determine the Baseline SFA amount.

TEMPLATE 6A

v20220802p

Reconciliation - for non-MPRA plans using the "basic method", or for MPRA plans for which the requested amount of SFA is determined under the "increasing assets method"

File name: *Template 6A Plan Name* , where "Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item (6) of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

This Template 6A is not required if all assumptions and methods used to determine the requested SFA amount are identical to those used in the most recent actuarial certification of plan status completed before 1/1/2021 ("pre-2021 certification of plan status"), except the non-SFA and SFA interest rates, and except any assumptions changed in accordance with Section III, Acceptable Assumption Changes, in PBGC's SFA assumptions guidance (other than the acceptable assumption change for "missing" terminated vested participants described in Section III.E of PBGC's SFA assumptions guidance).

This Template 6A is also not required if the requested SFA amount from Template 4A is the same as the SFA amount shown in Template 5A (Baseline).

If the assumptions/methods used to determine the requested SFA amount differ from those in the "Baseline" projection in Template 5A, then provide a reconciliation of the change in the total amount of SFA due to each change in assumption/method from the Baseline to the requested SFA as shown in Template 4A.

For each assumption/method change from the Baseline through the requested SFA amount, provide a deterministic projection using the same calculation methodology used to determine the requested SFA amount, in the same format as Template 4A (either Sheet 4A-4 or Sheet 4A-5).

Additional instructions for each individual worksheet:

Sheet

6A-1 **Reconciliation - Summary for the "basic method", or for MPRA plans for which the requested amount of SFA is determined under the "increasing assets method"**

For Item number 1, show the SFA amount determined in Template 5A using the "Baseline" assumptions and methods. If there is only one change in assumptions/methods between the Baseline (Template 5A) and the requested SFA amount (Template 4A), then show on Item number 2 the requested SFA amount, and briefly identify the change in assumptions from the Baseline.

If there is more than one change in assumptions/methods from the Baseline, show each individual change as a separate Item number. Each Item number should reflect all changes already measured in the prior Item number. For example, the difference between the SFA amount shown for Item number 4 and Item number 5 should be the incremental change due to changing the identified single assumption/method. The Item numbers should show assumption/method changes in the order that they were incrementally measured.

6A-2 Reconciliation - Details for the "basic method" under § 4262.4(a)(1) for non-MPRA plans, or for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans for which the requested amount of SFA is determined under that method

For non-MPRA plans, see Template 4A instructions for Sheet 4A-4, except provide the projection used to determine the intermediate Item number 2 SFA amount from Sheet 6A-1 under the "basic method" described in § 4262.4(a)(1). Unlike Sheet 4A-4, it is not necessary to explicitly identify the projected SFA exhaustion year in Sheet 6A-2.

For MPRA plans for which the requested amount of SFA is determined under the "increasing assets method", see Template 4A instructions for Sheet 4A-5, except provide the projection used to determine each intermediate SFA amount from Sheet 6A-1 under the "increasing assets method" described in § 4262.4(a)(2)(i). Unlike Sheet 4A-5, it is not necessary to explicitly identify the projected SFA exhaustion year in Sheet 6A-2.

A Reconciliation Details sheet is not needed for the last Item number shown in the Sheet 6A-1 Reconciliation, since the information should be the same as shown in Template 4A. For example, if there is only one assumption change from the Baseline, then Item number 2 should identify what assumption changed between the Baseline and Item number 2, where Item number 2 is the requested SFA amount. Since details on the determination of the requested SFA amount are shown in Template 4A, a separate Sheet 6A-2 Reconciliation Details is not required here.

6A-3 Reconciliation - Details for the "basic method" under § 4262.4(a)(1) for non-MPRA plans, or for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans for which the requested amount of SFA is determined under that method

See instructions for 6A-2 Reconciliation Details, except for the intermediate Item number 3 SFA amount from Sheet 6A-1.

6A-4 Reconciliation - Details for the "basic method" under § 4262.4(a)(1) for non-MPRA plans, or for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans for which the requested amount of SFA is determined under that method

See instructions for 6A-2 Reconciliation Details, except for the intermediate Item number 4 SFA amount from Sheet 6A-1.

6A-5 Reconciliation - Details for the "basic method" under § 4262.4(a)(1) for non-MPRA plans, or for the "increasing assets method" under § 4262.4(a)(2)(i) for MPRA plans for which the requested amount of SFA is determined under that method

See instructions for 6A-2 Reconciliation Details, except for the intermediate Item number 5 SFA amount from Sheet 6A-1.

7a - Assumption/Method Changes for SFA Eligibility

File name: *Template 7 Plan Name* , where "Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item (7)a. of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

Sheet 7a of Template 7 is not required if the plan is eligible for SFA under § 4262.3(a)(2) (MPRA suspensions) or § 4262.3(a)(4) (certain insolvent plans) of PBGC's special financial assistance regulation.

Sheet 7a of Template 7 is not required if the plan is eligible based on a certification of plan status completed before January 1, 2021.

Sheet 7a of Template 7 is not required if the plan is eligible based on a certification of plan status completed after December 31, 2020 but reflects the same assumptions as those in the pre-2021 certification of plan status.

Provide a table identifying which assumptions/methods used in determining the plan's eligibility for SFA differ from those used in the pre-2021 certification of plan status and brief explanations as to why using those assumptions/methods is no longer reasonable and why the changed assumptions/methods are reasonable.

This table should identify all changed assumptions/methods (including those that are reflected in the Baseline provided in Template 5A or Template 5B) and should be an abbreviated version of information provided in Section D, Item (6)a. of the SFA filing instructions.

For example, if the mortality assumption used in the pre-2021 certification of plan status is the RP-2000 mortality table, and the plan proposes to change to the Pri-2012(BC) table, complete one line of the table as follows:

	(A)	(B)	(C)
Assumption/Method That Has Changed From Assumption/Method Used in Most Recent Certification of Plan Status Completed Prior to 1/1/2021	Brief description of assumption/method used in the most recent certification of plan status completed prior to 1/1/2021	Brief description of assumption/method used in showing the plan's eligibility for SFA (if different)	Brief explanation on why the assumption/method in (A) is no longer reasonable and why the assumption/method in (B) is reasonable
Base Mortality Assumption	RP-2000 mortality table	Pri-2012(BC) mortality table	Prior assumption is outdated. New assumption reflects more recently published experience for blue collar workers.

Add one line for each assumption/method that has changed from that used in the most recent certification of plan status completed prior to 1/1/2021.

Since this Template 7a is intended as an abbreviated version of more detailed information provided in Section D, Item (6)a. of the SFA filing instructions, it is not necessary to include full tables of rates at every age (e.g., for retirement, turnover, etc.). Instead, a high level description that focuses on what aspect of the assumption/method has changed is preferred.

7b - Assumption/Method Changes for SFA Amount

File name: *Template 7 Plan Name* , where "Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item (7)b. of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

Provide a table identifying which assumptions/methods used in determining the amount of SFA differ from those used in the pre-2021 certification of plan status (except the non-SFA and SFA interest rates) and brief explanations as to why using those original assumptions/methods is no longer reasonable and why the changed assumptions/methods are reasonable.

Please state if the changed assumption is an extension of the CBU assumption or the administrative expenses assumption as described in Paragraph A "Adoption of assumptions not previously factored into pre-2021 certification of plan status" of Section III, Acceptable Assumption Changes of PBGC's guidance on Special Financial Assistance Assumptions.

This table should identify all changed assumptions/methods except for the interest rates (including those that are reflected in the Baseline provided in Template 5A or Template 5B) and should be an abbreviated version of information provided in Section D, Item (6)b. of the SFA filing instructions.

For example, if the mortality assumption used in the pre-2021 certification of plan status is the RP-2000 mortality table, and the plan proposes to change to the Pri-2012(BC) table, complete one line of the table as follows:

	(A)	(B)	(C)
Assumption/Method That Has Changed From Assumption Used in Most Recent Certification of Plan Status Completed Prior to 1/1/2021	Brief description of assumption/method used in the most recent certification of plan status completed prior to 1/1/2021	Brief description of assumption/method used to determine the requested SFA amount (if different)	Brief explanation on why the assumption/method in (A) is no longer reasonable and why the assumption/method in (B) is reasonable
Base Mortality Assumption	RP-2000 mortality table	Pri-2012(BC) mortality table	Original assumption is outdated. New assumption reflects more recently published experience for blue collar workers.

For example, assume the plan is projected to be insolvent in 2029 in the pre-2021 certification of plan status. The plan changes its CBU assumption by extending the assumption to the later projection years as described in Paragraph A, "Adoption of assumptions not previously factored into pre-2021 certification of plan status" of Section III, Acceptable Assumption Changes of PBGC's guidance on Special Financial Assistance Assumptions. Complete one line of the table as follows:

	(A)	(B)	(C)
Assumption/Method That Has Changed From Assumption Used in Most Recent Certification of Plan Status Completed Prior to 1/1/2021	Brief description of assumption/method used in the most recent certification of plan status completed prior to 1/1/2021	Brief description of assumption/method used to determine the requested SFA amount (if different)	Brief explanation on why the assumption/method in (A) is no longer reasonable and why the assumption/method in (B) is reasonable
CBU Assumption	Decrease from most recent plan year's actual number of CBUs by 2% per year to 2028	Same number of CBUs for each projection year to 2028 as shown in (A), then constant CBUs for all years after 2028.	Original assumption does not address years after original projected insolvency in 2029. Proposed assumption uses acceptable extension methodology.

Add one line for each assumption/method that has changed from that used in the most recent certification of plan status completed prior to 1/1/2021.

Since this Template 7b is intended as an abbreviated version of more detailed information provided in Section D, Item (6)b. of the SFA filing instructions, it is not necessary to include full tables of rates at every age (e.g., for retirement, turnover, etc.). Instead, a high level description that focuses on what aspect of the assumption/method has changed is preferred.

PLAN INFORMATION

Abbreviated Plan Name:	AFM-EPF
EIN:	51-6120204
PN:	001

	(A)	(B)	(C)
Assumption/Method That Has Changed From Assumption Used in Most Recent Certification of Plan Status Completed Prior to 1/1/2021	Brief description of assumption/method used in the most recent certification of plan status completed prior to 1/1/2021	Brief description of assumption/method used to determine the requested SFA amount (if different)	Brief explanation on why the assumption/method in (A) is no longer reasonable and why the assumption/method in (B) is reasonable
New Entrant Profile	Based on new entrants and rehires from March 31, 2016 through March 31, 2020.	Based on new entrants and rehires from March 31, 2018 through March 31, 2022.	Prior assumption is outdated. Proposed assumption is reasonable because it follows Section III, D of PBGC's assumptions guidance.
Hard to Value Assets	Value reported on custodial statements, generally more than 30 days from the valuation date.	Use reported December 31, 2022 market value using manager reports received by March 2, 2023, estimate internal rate of return from those reported values, apply estimated rate of return to remaining private investments that did not report values as of December 31, 2022, separately for private credit and private equity.	Prior methodology does not comply with PBGC assumptions guidance. Proposed methodology is a reasonable method developed by the Plan's Outsourced Chief Investment Officer. Reported December 31, 2022 returns from almost half the private investments are a sufficiently representative sample from which to extrapolate.
Missing Terminated Vested Participants	Include all missing participants and interest on missed payments after RBD	Exclude missing participants age 85 and over at SFA measurement date, adjust data based on recent death audit, and exclude interest on missed payments after RBD	Prior assumption is no longer reasonable because it does not comply with Section III, F of PBGC's assumptions guidance. Proposed assumption follows PBGC's assumptions guidance. Excluding interest on missed payments after RBD follows Plan's administrative practice.
Mortality assumptions	RP-2006 with MP-2019	Plan-specific mortality assumption for in-pay participants with MP-2021; RP-2006 with MP-2021 for not in pay participants	Prior assumption is no longer reasonable because Plan was experiencing consistent pattern of mortality losses. Proposed assumption is reasonable because it develops a base mortality table using plan experience and the framework under 26 CFR 1.430(4)(3)-2 for single employer plans. The mortality improvement scale has been updated to use the projection scale published by the Society of Actuaries in the two calendar years preceding the SFA measurement date.
Contribution projections	Prior year's wage-based contributions with 2.7% increases per year. Increases on non-benefit bearing, non-wage-based contributions include both negotiated contribution rate increases and projected revenue growth.	Prior year's wage-based contributions with 1.9% increases per year for the first ten years and 1.0% increases per year thereafter, plus additional growth to pre-pandemic levels through 2025. Non-benefit bearing, non-wage-based contributions include projected revenue growth and exclude post-July 9, 2021 negotiated rate increases.	Prior assumption is no longer reasonable because it overstates expected increases in wage-based contributions. Proposed assumption is reasonable because it follows the reasoning in PBGC's generally acceptable assumption changes related to CBU assumptions. Furthermore, proposed assumption also takes into account Trustees' expectations regarding the industry's return to pre pandemic levels. Projected digital revenue excludes post-July 9, 2021 negotiated rate increases.
Active Participant Counts	Remains level after March 31, 2020.	Increases 4% from 2022 to 2023, 2.5% from 2023 to 2024, 2.5% from 2024 to 2025, and then remains level thereafter.	The prior assumption is no longer reasonable given the current number of active participants and the projected increase in wage-based contributions. Proposed assumption is reasonable because it is consistent with the wage-based contribution assumption.
Administrative Expense	Prior year's expense plus additional $1 million with inflationary increases at 2.25% per year	2023 PBGC premium rate of $35 per participant with annual inflationary increases at 2.25%, further adjusted for 2031 increase in PBGC premium rate, plus all other administrative expenses increases with the 2.25% assumed rate of inflation, plus a one-time SFA application expense of $760,000 in 2023. All other administrative expenses are limited based on a per capita cost which is assumed to be $306.63 per participant for 2023 and increases with inflation.	Prior assumption is no longer reasonable because it did not address years after the projected insolvency or 2031 increase in PBGC premium rate. Proposed assumption is reasonable because it takes into account expected SFA application and reflects administrative costs adjusted for inflation.

Contribution and Withdrawal Liability Details

Provide details of the projected contributions and withdrawal liability payments used to calculate the requested SFA amount. This should include total contributions, contribution base units (including identification of the base unit used (i.e., hourly, weekly)), average contribution rate(s), reciprocity contributions (if applicable), additional contributions from the rehabilitation plan (if applicable), and any other identifiable contribution streams. For withdrawal liability, separately show amounts for currently withdrawn employers and for future assumed withdrawals. Also provide the projected number of active participants at the beginning of each plan year.

The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

4.2 Written Plan of Benefits. The specific detailed basis upon which the eligibility for benefits, types and forms of benefits payable (and any restrictions thereon), and the payment of benefits to Covered Employees and Beneficiaries, is to be specified in (and determined under) the Plan, as amended by the Board from time to time.

4.3 Insurance Contracts. The written plan of benefits comprising the Plan may consist, in part, of contracts with one or more insurance companies.

(b) The determination as to whether an Employer has made a contribution or other payment to the Trust Fund by a mistake of fact or law, and whether such contribution or payment should be returned to the Employer, shall be made in the sole and absolute discretion of the Board or the Audit Committee (or either of their duly authorized designees) in accordance with ERISA and other applicable law, taking into account all of the evidence submitted by such Employer to demonstrate that such contribution or payment was made by mistake; provided, however, that the Employer shall have the burden of proving that such contribution or payment was made by mistake. The decision of the Board or the Audit Committee (or either of their duly authorized designees) as to whether such contribution or payment was made by mistake, and whether it should be returned to the Employer, shall be final and binding on the Employer.

4.5 No Assignment of Benefits. Except with respect to "qualified domestic relations orders" (as defined in Section 206(d)(3) of ERISA), voluntary and revocable assignments (as permitted by Section 206(d)(2) of ERISA), or as may otherwise be provided in the Plan, ERISA or the Code:

(a) No benefit payable at any time under the Plan prior to receipt thereof by a Covered Employee (or Beneficiary or estate), shall be subject in any manner to alienation, sale, transfer, assignment, pledge, attachment or encumbrance of any kind, nor shall any retirement benefit, until actually paid to the Covered Employee (or Beneficiary or estate), be in any manner subject to the debts or liabilities of said Covered Employee (or Beneficiary or estate);

(b) Any attempt to alienate, sell, transfer, assign, pledge or otherwise encumber any such benefit, prior to receipt thereof by the Covered Employee (or Beneficiary or estate), in violation of the restrictions set forth in the preceding sentence shall be void and of no effect;

(c) Benefit payments (or portions thereof) under the Plan or Trust shall not in any way be subject to any legal process, execution, attachment or garnishment, be used for the payment of any legal claim against any such person, or be subject to the jurisdiction of any bankruptcy court or, insolvency proceedings by operation of law or otherwise.

6.1 Officers.

(a) The Board shall elect two (2) Co-Chairs from among the Trustees, one of whom shall be a Union Trustee and the other an Employer Trustee.

(b) The term of such officers shall commence on the date of their election and continue until their successors are elected.

(c) During even-numbered calendar years, the Co-Chair who is a Union Trustee shall preside over meetings of the Board. During odd numbered calendar years, the Co-Chair who is an Employer Trustee shall preside over meetings of the Board.

6.2 Calling of Meetings.

(a) The Board shall endeavor to meet at least three (3) times per year, and at such other times as the Board may reasonably decide; except that either Co-Chair may call a special meeting of the Board, at any time, by giving at least five (5) business days advance written notice of the time and place thereof to the other Co-Chair and all other Trustees.

(b) Any two (2) Employer Trustees and two (2) Union Trustees may likewise call a meeting of the Trustees, at any time, by giving at least ten (10) business days advance written notice of the time and place thereof to the Co-Chairs and to all other Trustees.

(c) Meetings of the Board may be held at any time by telephone conference with proper advance notice (as prescribed by either paragraph (a) or (b) above).

(d) Meetings of the Board may also be held at any time, without notice, in person or by telephone conference; provided, however, that a majority of the Employer Trustees and a majority of the Union Trustees consent thereto in writing.

6.3 Quorum. Four Employer Trustees and four Union Trustees shall constitute a quorum for the purpose of transacting business.

6.4 Vote of Trustees.

(a) Except as otherwise provided in this Section 6.4, all actions of the Board shall be taken by either (1) a vote of two to zero, or (2) a vote of one and one

www.afm-epf.org

abstention. The Employer Trustees, as a unit, shall have one vote, and the Union Trustees, as a unit, shall have one vote. The Employer Trustees shall determine how they cast their vote on any matter, except as provided elsewhere in this Section 6.4, by a majority vote of the Employer Trustees present and attending the meeting. The Union Trustees shall determine how they cast their vote on any matter, except as provided elsewhere in this Section 6.4, by a majority vote of the Union Trustees present and attending the meeting.

(b) The vote of any absent Trustee may be cast in accordance with a written proxy delivered to any other Trustee present at the meeting of the Trustees (or a Committee meeting); provided that such authorization and proxies shall be valid only at the Trustee (or Committee) meeting immediately succeeding its execution.

(c) In addition to decisions made at meetings, each Trustee may also be polled with respect to an issue by the Executive Director or either Co-Chair (or any of their designees) either in writing (including e-mail) or by telephone without the necessity of having a meeting; provided however, that any action taken in a telephone poll must be consented to in writing (including e-mail) by each Trustee who voted for the action taken either before or as soon as practicable following the vote (but no later than thirty (30) days after the vote).

(d) In the event that any matter presented for decision by the Board cannot be decided due to a deadlock (as defined in Section 6.6(b)), the matter shall then be resolved by arbitration (as provided by Section 6.6).

6.5 Minutes of Meetings. The Board, Committee or the Executive Director (or their duly authorized designees) shall maintain minutes of all Board and Committee meetings, but such minutes need not be verbatim. Copies of such minutes shall be provided to all Trustees.

6.6 Arbitration.

(a) Whenever the Board is unable to decide a question during a meeting due to a deadlock among the Trustees (as defined in Section 6.6(b)), either Co-Chair shall submit the question for decision to such impartial arbitrator as the Board shall select (pursuant to the voting procedures contained in Section 6.4) or, if it is unable to agree on such selection within fifteen (15) business days after the deadlock arose, either Co-Chair or a majority of either the Employer Trustees or Union Trustees may petition the American Arbitration Association (hereinafter, the "AAA") for the appointment of an arbitrator pursuant to the Labor Rules of the AAA. If neither Co-Chair nor a majority of the Employer Trustees or Union Trustees petitions the AAA, then any two (2) Trustees may petition the United States District Court for the Southern District of New York for the appointment of an impartial umpire.

www.afm-epf.org

(b) A deadlock for purposes of this Agreement shall mean either:

(1) a majority of the Employer Trustees or a majority of the Union Trustees cannot agree upon the manner in which their unit should cast its vote and do not agree to abstain as a unit; or

(2) one unit of the Board votes for a motion and the other unit votes against it; or

(3) the inability to take an action with respect to an issue presented due to the lack of a necessary quorum at two successive meetings.

(c) The failure of any Trustee to attend the arbitration hearing as scheduled and noticed by the AAA or by the arbitrator shall not delay the arbitration, and the arbitrator is authorized to proceed to take evidence and issue his or her decision as though such Trustee were present.

(d) In the event that such arbitrator, having been selected, shall resign or for whatever reason shall fail or refuse to act within a reasonable time after his or her selection, the AAA shall be requested to appoint another arbitrator; provided, however, that should the AAA fail to act within fifteen (15) business days after the request, or should the Board be unable to agree on another arbitrator within fifteen (15) business days after the AAA is requested to act, an arbitrator shall be appointed by the United States District Court for the Southern District of New York upon the petition of any two (2) Employer Trustees or two (2) Union Trustees.

(e) The arbitrator, after hearings, of which all interested parties as stated in the submission shall have due notice and opportunity to be heard, shall promptly announce his or her award in writing to the Trustees and such award shall be final and binding on all parties concerned as though it was embodied in a resolution duly adopted by the unanimous vote of the Board.

(f) All hearings of the arbitrator shall take place in the City of New York unless otherwise specifically mutually agreed upon.

(g) All reasonable expenses of the arbitration (including, without limitation, the fees of the AAA, attorneys and the arbitrator) shall be paid from the Trust Fund.

7.3 Administrative Committee.

(a) The Board shall appoint an Administrative Committee consisting of at least four (4) Trustees (or such other number of Trustees as the Board shall, in its sole discretion, determine), having an equal number of Employer Trustees and Union Trustees, who shall serve at the sole pleasure of the Employer Trustees and Union Trustees, respectively. (a) In its sole and absolute discretion, the Board may, from time to time, by notice to the Custodian, appoint one or more Investment Managers to manage and invest (including the power to acquire and dispose of) all or a portion of the assets of the Trust Fund. Such appointments shall generally be made in consultation with the Investment Committee.

(b) In the event that more than one Investment Manager is appointed, the Board or the Investment Committee shall separately segregate, or request the Custodian or sub-custodian to segregate, each portion of the assets constituting the account to be managed by each respective Investment Manager into a separate Investment Manager Account.

(c) The Board or the Investment Committee may also supervise and direct the investment of any portion of the Trust Fund that is not subject to the management and control of an Investment Manager, by exercising any of the powers set forth in Section 5.5 with respect to the Securities or Real Property or Interests in Real Property of the Trust Fund so invested.

8.2 Authorization.

(a) Any appointment of an Investment Manager shall be authorized by the Board, and shall become effective as of the date specified by the Board or the Investment Committee. The Investment Manager shall also identify to the Board or the Investment Committee the person or persons authorized to give Instructions or directions to the Board on behalf of the Investment Manager.

(b) The Investment Manager shall have full discretion and authority, to the extent required, permitted or not prohibited by ERISA and other applicable law, to invest and reinvest the portion of Trust Fund assets allocated to it by the Board, without further notice, consent or approval of any party, except as expressly provided to the contrary in this Agreement or any agreement between the Board and the Investment Manager, and subject to any directions or guidelines as may be delivered from time to time to the Investment Manager by the Board (pursuant to Section 8.7).

(c) The duties, responsibilities and compensation of each Investment Manager shall be expressed in writing in a written agreement to be entered into and executed on behalf of the Board and by such Investment Manager.

www.afm-epf.org

(d) The Board or the Investment Committee shall meet periodically with any Investment Manager appointed hereby for the purpose of reviewing the activities of the Investment Manager, monitoring its investment performance (including the voting of any proxies that the Investment Manager has been delegated the right to vote), its compliance with any Investment Guidelines that may have been promulgated by the Board or Investment Committee (pursuant to Section 8.7).

8.3 Acknowledgments. The Board or the Investment Committee may require any Investment Manager to furnish it with a certificate acknowledging that it:

(a) is a fiduciary (within the meaning of Section 3(21) of ERISA) with respect to its Investment Manager Account; and

(b) complies with the requirements of an investment manager (as set forth in Section 3(38) of ERISA).

8.4 Direction by Investment Manager. Each Investment Manager shall have the exclusive authority to manage, acquire and dispose of any Securities or other property held in its Investment Manager Account and, subject to its written agreement with the Board and any Investment Guidelines, may exercise with respect to such Securities or other property all of the powers set forth in Section 5.5, except subsections (j) through (z) (unless the Board or the Investment Committee has explicitly consented in writing to the Investment Manager exercising the powers set forth in such subsections).

Notwithstanding anything to the contrary contained in this Agreement, neither the Board, the Investment Committee nor any Trustee shall be responsible or liable for any acts or omissions of any Investment Manager or be under any obligation to invest or otherwise manage any assets contained in an Investment Manager Account, except those assets over which it has specifically assumed investment management duties.

8.6 Issuance of Orders. Subject to the terms of the investment management agreement between the Board and each Investment Manager:

www.afm-epf.org

8.7 Investment Guidelines. The investment powers of any Investment Manager may be subject to any general or specific investment directions or guidelines that from time to time may be delivered to it by the Board or the Investment Committee (in its sole discretion), expressing the investment objectives, restrictions and policies of the Board or the Investment Committee with respect to the Securities and other property contained in an Investment Manager Account. Notwithstanding the preceding sentence, the issuance of any specific investment directions or guidelines by the Board or the Investment Committee shall not in any manner be construed as an acceptance by the Board or Investment Committee of any investment management or supervisory powers in connection with Trust Fund assets managed by an Investment Manager (and neither the Board nor the Investment Committee shall, as a result of issuing such directions or guidelines, be liable for any acts or omissions of an Investment Manager with respect to such assets, or be under any obligation to invest or otherwise manage such assets).

8.8 Proxies or Other Ancillary Rights.

(a) The Board or the Investment Committee may delegate to an Investment Manager the sole right to exercise (as it deems prudent and solely in the interest of Covered Employees and Beneficiaries), any proxies, conversion privilege or subscription right, and any other right to make an investment decision with respect to the Investment Manager Account assets (including, without limitation, the voting of proxies and exercise of all other rights of shareholders appurtenant to Investment Manager Account assets) as from time to time the Investment Manager in its discretion deems prudent.

(b) Each Investment Manager to whom such right has been delegated shall issue to the Investment Committee a set of policy guidelines explaining the Investment Manager's positions and likely voting pattern pertaining to proxies.

(c) Such Investment Manager shall also issue a report to the Investment Committee, at least annually, indicating the proxies that were voted on the Trust Fund's behalf and an explanation as to why they were voted in such manner.

(b) In addition, each Employer shall contribute to the Trust Fund on behalf of each employee whose exclusion from participation in the Fund is later determined by the Board, or a governmental agency or court or administrative tribunal, to violate the terms of the Plan or to result in the Trust Fund's failure to satisfy the requirements of the Code applicable to tax-qualified pension plans, including without limitation part-time employees on behalf of whom the Employer is required to make contributions under Section 410 of the Code and employees for whom the Employer has maintained a waiting period in violation of Section 1.12 of the Plan. Contributions shall be at the rate set forth in the Collective Bargaining Agreement for similarly situated employees commencing as of the first date on which contributions would have been required, but for the exclusion of participation.

(c) The rate and amount of contribution shall at all times be based solely on, and no more than, the scale wages (as defined in the Collective Bargaining Agreement) received by Covered Employees. The minimum contribution rate shall be 4% of scale wages and the maximum contribution rate shall be 15% of scale wages; provided that the Board shall review proposed contribution rates of less than 4% or greater than 15% and may approve variances in such minimum and maximum contribution rates, on a case-by-case basis, in its sole and absolute discretion.

9.2 Effective Date of Employer Contributions. All contributions shall be made effective as of the date specified in the applicable Collective Bargaining Agreements between the Union and the Employer, and said contributions shall continue to be paid as long as the Employer is so obligated pursuant to said Collective Bargaining Agreements.

9.4 Default in Payment.

(a) Employer contributions to the Trust Fund are due no later than:

(1) with respect to contributions due under any National Collective Bargaining Agreement, or any other Collective Bargaining Agreement that becomes effective before June 1, 2005:

(a) the due date for such contributions as set forth in the applicable Collective Bargaining Agreements, but no later than the last day of the month immediately following the calendar quarter in which the Covered Employee performed the services for which such contributions are due and payable to the Trust Fund; or

(b) if the Collective Bargaining Agreement does not specify a due date for Employer contributions to the Trust Fund, the last day of the month immediately following the month in which the Covered Employee performed the services for which such contributions are due and payable to the Trust Fund; or

(2) with respect to contributions due under any Collective Bargaining Agreement, other than a National Collective Bargaining Agreement, that becomes effective on or after June 1, 2005 (or that become effective earlier, but are renewed or extended effective on or after that date), the last day of the calendar month immediately following the calendar month in which the Covered Employee performed the services for which such contributions are due and payable to the Trust Fund; or

(3) notwithstanding anything in Section 9.4(a)(1) or (2) of this Trust Agreement to the contrary, with respect to contributions (i) that are due from an Employer that has an outstanding delinquency to the Fund at the time the contribution obligation arises, and (ii) on which the Board (in its sole and absolute discretion) has determined the Employer is at risk of defaulting, any date on or after the due date for the payment of the wages on which the contributions are due, as prescribed by the Board, on a case-by-case basis, in its sole and absolute discretion. The Board shall notify an Employer as soon as reasonably practicable following the Board's determination that the provisions of this Section 9.4(a)(3) will be invoked and applied to the Employer.

(b) In addition to any other enforcement remedies that may exist under this Agreement or any applicable Collective Bargaining Agreements, the Board or the Audit Committee is authorized and empowered to initiate whatever actions or proceedings the Trustees determine, in their sole discretion, to be proper and necessary for the enforcement of an Employer's contribution obligations to the

www.afm-epf.org

Trust (including, but not limited to, proceedings at law or in equity, arbitration, mediation, other dispute resolution mechanisms and any other remedies that generally would be available for the enforcement of said obligation to contribute to the Trust Fund). Venue for such actions or proceedings shall be in New York County, New York or, in the sole discretion of the Board or the Audit Committee, in any other location authorized by law.

(c) In the event that any Employer shall fail to make required Employer contributions to the Trust Fund when due, the Board may and is empowered, in its sole and absolute discretion, to terminate, on a prospective basis, the participation of the Employer in the Plan and Trust Fund, and the crediting of future service credit to Employees of such terminated Employer. Nothing in this Section 9.4(c) shall affect or otherwise modify any other rights of the Board or the Audit Committee (as may be set forth in this Agreement, the Plan or any Collective Bargaining Agreement, or as may be provided by applicable law) against such Employer for the collection of any delinquent Employer contributions to the Plan or Trust Fund (including, but not limited to, those rights and actions set forth in this Article).

(d) A delinquent Employer shall be liable for all costs and expenses incurred in effectuating its contributions or other payments due to the Trust Fund including but not limited to:

(1) The employer's audit costs (as provided in Section 9.9(g));

(2) The Trust Fund's audit costs as provided in Sections 9.4(e) and 9.9(f);

(3) attorneys' fees;

(4) court costs;

(5) other costs and expenses attributable to the collection of such contributions or other payments; and

(6) interest for every calendar year (or portion thereof) during which the delinquent contribution remained unpaid, calculated at the annual prime rate of interest quoted in The Wall Street Journal on the first business day of that calendar year, plus five percent, compounded monthly, or, if greater, any minimum interest charge established by the Trustees.

(e) In addition to the right to assess an Employer with audit costs provided in Section 9.9(f), the Board or the Audit Committee shall also have the right to assess an Employer with all reasonable costs and expenses (including, without

www.afm-epf.org

limitation, all audit, accounting, and legal fees) attributable to the audit of the Employer's payroll, wage, and related business records with respect to the contributions which the Employer is obligated to make to the Fund; provided, however, that the Board or the Audit Committee has determined that such Employer has been delinquent in remitting such contributions or payments to the Fund, and the aggregate amount of such delinquency, plus all accrued interest thereon and the cost of the audit, exceeds twenty percent (20%) of the actual audited amount determined by the Fund's auditors to be due the Fund.

9.5 Enforcement Actions. In addition to any other remedies to which the Board or the Audit Committee may be entitled hereunder, in the event that an Employer fails to make required contributions to the Trust Fund, in accordance with the terms and conditions of this Agreement and any rules or guidelines promulgated by the Board or the Audit Committee pursuant hereto (hereinafter collectively referred to as "Unpaid Contributions"), the Board may bring an action on behalf of the Trust Fund pursuant to Sections 502(g)(2) and 515 of ERISA to enforce the Employer's obligation to contribute to the Trust Fund.

9.6 Payments Required by Court Award. In any action under this Article IX in which a judgment is awarded by a court in favor of the Plan, the Trust, or the Board, the Employer shall pay to the Trust, in accordance with the court's award, the following amounts:

(a) all Unpaid Contributions due and payable; plus

(b) interest on such Unpaid Contributions (computed in accordance with Section 9.4(d)); plus

(c) an amount equal to the greater of:

(1) the interest on the Unpaid Contributions (computed in accordance with Section 9.4(d)), or

(2) twenty percent (20%) of the Unpaid Contributions; plus

(d) attorneys' fees, costs of the action, reasonable expenses attributable to any audit of the Employer's payroll, wage, and related business records with respect to Unpaid Contributions or payments, and any other related expenses; and

(e) such other legal or equitable relief as the court deems appropriate.

www.afm-epf.org

9.7 No Waiver of Other Rights.

(a) The failure of any Employer to make Employer contributions to the Trust Fund when due shall not relieve any other Employer of its obligations to make Employer contributions to said Trust.

(b) Nothing in this Article IX shall be construed as a waiver or limitation on the right of the Plan, the Trust, the Board, or the Audit Committee to enforce an Employer's contribution obligation in any other type of proceeding, and the provisions of this Article IX shall be without prejudice to the rights of the Union to enforce the provisions of any Collective Bargaining Agreement to which it is a party.

(c) The Board or the Audit Committee (or either of their duly authorized designees) shall have the exclusive authority to compromise or discharge Employer contributions to the Trust and any other Employer obligations that arise under this Trust Agreement.

9.8 Remittance Reports.

(a) All contributions must be accompanied by a remittance report form that includes the name of the Employer, the name, address and phone number of the payor, if different (*e.g.*, payroll company, affiliated entity), as well as all Employee first and last names, addresses, social security numbers, type of engagement(s) (*e.g.*, name of applicable Collective Bargaining Agreement and indication of original use, new use or re-use of recording), description of engagement(s) (*e.g.*, title of show, commercial, jingle or song and location of engagement), all engagement date(s), "scale wage" and contribution amount(s) and such other information as the Board may elect to prescribe in the future. The Employer shall submit to the Fund separate remittance or other reports for each type of engagement.

(b) If contributions due the Fund are not accompanied by a remittance form containing all of the information set forth in subsection (a) above, the Fund may assess a fee from the Employer in its sole discretion in an amount that the Audit Committee prescribes for each day following the contribution due date for which the remittance report is incomplete or not received by the Fund.

9.9 Audits.

(a) The Board or the Audit Committee (or either of their duly authorized designees) shall be authorized and empowered to initiate on behalf of the Fund whatever action(s) or proceedings(s) it determines to be proper and necessary, in its sole and absolute discretion, for the enforcement of an Employer's contribution

www.afm-epf.org

obligations to the Trust (including, but not limited to, periodic audits or other forms of examination of an Employer's books and records, enforcement and/or collection proceedings).

(b) The Board or the Audit Committee (or either of their duly authorized designees) shall have the right to designate an accountant, attorney or other representative of the Fund (a "Fund Representative") periodically to examine, copy and audit, the Employer's accounts, books and records at the Employer's place of business (or other mutually agreed upon location) which the Fund Representative determines is necessary to confirm that the Employer has fully satisfied its obligations to contribute to the Fund under the Employer's Collective Bargaining Agreement, this Agreement, the Plan, the rules and policies of the Trustees, or under applicable law. The Employer must permit such Fund Representative to conduct such periodic examinations and audits.

(c) The Fund Representative shall have the right to examine all of the Employer's accounts, books and records including, without limitation, all check registers; payroll registers; general, production cost and other ledgers; royalty statements; vouchers; payroll tax deductions; calculations supporting "scale wage" determinations; IRS Forms 1096, 1099, W-2 and W-3; state employment reports; evidence of unemployment insurance contributions; insurance company reports; supporting cancelled checks; disability insurance premiums; certification of workers' compensation coverage; personnel files and/or other documentation supporting employee job classifications; and any other items concerning the Employer's payroll(s) or contributions to the Fund deemed necessary by such Fund Representative to determine the accuracy, completeness, and timeliness of the Employer's contributions and payments to the Fund (all of which are hereinafter collectively referred to as "Records"). The Employer's Records shall be made available at the Employer's place of business at all reasonable times for examination, audit, and copying (at the Employer's expense) by such Fund Representative. In addition, the Records of any affiliate, subsidiary, alter ego, joint venture, successor or related company of the Employer (including, where applicable, payroll companies) shall also be made available at all reasonable times for examination and audit by the Fund's Representative, at the request of said Fund Representative.

(d) The Employer shall retain, for a minimum period of six (6) years or such longer period as may be required by applicable law (whichever is greater), all Records necessary for the conduct of the examination and audit contemplated in this Article IX.

(e) An Employer shall be entitled to thirty (30) days' advance written notice of any audit to be conducted under this Article IX. If, however, exigent circumstances exist for conducting the audit on shorter notice, the Fund

www.afm-epf.org

Representative may do so, provided that it gives the Employer advance written notice of such audit. Except where the Fund Representative has determined that exigent circumstances require otherwise, the Employer shall be permitted to adjourn the audit for up to ten (10) business days upon demonstrating to the Fund, no less than ten (10) business days' in advance of the scheduled commencement of the audit, a legitimate business need for such adjournment.

(f) In the event that the Fund Representative has provided proper and timely notice of the audit to the affected Employer in accordance with Section 9.9(e) above, but the Employer nonetheless fails to produce the Records necessary for an audit as set forth in this Article IX, and the Fund brings and prevails in a legal action against said Employer to obtain an audit of said Employer's Records, said Employer shall be obligated to pay the reasonable costs and attorneys' fees incurred in pursuing said action, together with the full cost of such audit (without regard to any of the limitations or other conditions on the amount that can be assessed against such Employer set forth in Section 9.4(e)). In any such action, the affected Employer consents to jurisdiction and venue in the Federal District Court for the Southern District of New York.

(g) The Employer shall bear all of its own costs of the audit.

ARTICLE X

AMENDMENT; TERMINATION; AND TRANSFER OF ASSETS

10.1 Amendment. This Agreement and the Plan may be amended, at any time and in any manner, by a vote of the Board (in the manner prescribed in Section 6.4), and the provisions of any such amendment may be made applicable to the Plan or the Trust Fund as constituted at the time of such amendment and to any part of the Trust Fund subsequently acquired, as well as to the Executive Director, all Trustees, all Contributing Employers, any Investment Manager, or Custodian, and all others whosoever; provided that the amendment:

(a) is consistent with the purposes for which the Fund was established; and

(b) will not cause the Plan to be disqualified under Section 401(a), or the Trust to lose its tax-exemption under Section 501(a), of the Code.

10.2 Limitation of Amendments. No amendment shall be made to this Trust Agreement or the Plan which shall divert the Fund to any purpose other than that of providing pension or related benefits or result in the return or diversion of any part of the Fund to any of the Contributing Employers except as otherwise permitted by ERISA.

10.3 Termination.

(a) This Agreement, and the Trust Fund established hereunder, may be terminated:

(1) at any time, by a vote of the Board (in the manner prescribed in Section 6.4); or

(2) by an instrument in writing duly executed by the Union and by Employers which, in the aggregate, were responsible for 50% or more of the contributions paid to the Trust Fund by Employers during the last complete six (6) month period ended June 30 or December 31 immediately preceding the submission of such instrument; or

(3) automatically, in the event that the obligation of all Employers to make contributions to the Trust Fund shall terminate or there shall be no assets remaining in the Trust Fund.

(4) In the event of the termination of the Trust, the Board shall apply the assets of the Trust to pay or to provide for the payment of any and all obligations

www.afm-epf.org

of the Trust and distribute or apply any remaining surplus in a manner consistent, in their opinion, with this Agreement, the Plan, ERISA, the Code and any other applicable law; provided, however, that no part of the corpus or income of the Trust Fund shall be used for or diverted to purposes other than for the exclusive benefit of the Covered Employees (except as otherwise provided in Section 4.4); the payment of administrative expenses of the Trust Fund, or for other payments in accordance with the provisions of this Trust Agreement. Under no circumstances shall any portion of the corpus or income of the Trust Fund, directly or indirectly, revert or accrue to the benefit of any Employer or the Union except as otherwise permitted by ERISA.

(5) Upon termination of the Trust, the Board shall forthwith notify all necessary parties, and the Board shall continue to act as Trustees for the purpose of concluding the affairs of the Trust. The Board may take any action with regard to insurance policies or group contracts that may be required by the insurance carrier and which the Trustees, in their discretion, may deem appropriate.

10.4 Transfer of Assets.

(a) The Board may issue Instructions from time to time directing that all or a portion of the assets of the Trust Fund shall be transferred to another trust established and maintained for the custody or investment of assets of the Trust Fund.

(b) Nothing herein contained shall be deemed to prohibit the Board, in its sole and absolute discretion, from transferring any assets of the Fund to another pension fund established or maintained by any Contributing Employer for employees or former employees of the Contributing Employer who were participants in the Plan on such terms and under such conditions as the Board may determine; provided, however, that, in the case of any merger or consolidation with, or transfer of assets and liabilities to, any other pension plan or trust, provisions shall be made so that each Covered Employee affected thereby on the date thereof would (as if the Plan or Trust then terminated) receive a benefit immediately after the merger, consolidation, or transfer which is equal to or greater than the benefit that he or she would have been entitled to receive immediately prior to the merger, consolidation or transfer (as if the Plan or Trust then terminated).

(c) To the extent permitted by applicable law, and in accordance with the terms of the Plan and applicable law, the Executive Director shall direct the transfer of assets of the Fund directly to another retirement fund established or maintained by an employer in which an employee or former employee of a Contributing Employer who was a participant in the Plan participates, or to an individual retirement account established or maintained by a former Plan participant (or his

or her spousal beneficiary), pursuant to the written authorization of such participant (or his or her spousal beneficiary).

WHEREAS, the Board of Trustees (the "Board") of the American Federation of Musicians and Employers' Pension Fund (the "Fund") adopted the Agreement and Declaration of Trust Establishing the American Federation of Musicians and Employers' Pension Fund, as amended and restated effective as of April 1, 2005 (the "Trust Agreement"); and

WHEREAS, the Board wishes to amend the Trust Agreement in the manner set forth below, and has delegated to the undersigned the authority to execute this Amendment.

NOW, THEREFORE, the Trust Agreement is hereby amended as follows:

1. **Section 9.4 is amended to read as follows:**

9.4 Default in Payment.

(1) with respect to contributions due under any National Collective Bargaining Agreement, or any other Collective Bargaining Agreement that becomes effective before June 1, 2005:

(a) the due date for such contributions as set forth in the applicable Collective Bargaining Agreements, but no later than the last day of the month immediately following the calendar quarter in which the Covered Employee performed the services for which such contributions are due and payable to the Trust Fund; or

(b) if the Collective Bargaining Agreement does not specify a due date for Employer contributions to the Trust Fund, the last day of the month immediately following the month in which the Covered Employee performed the services for which such contributions are due and payable to the Trust Fund; or

(2) with respect to contributions due under any Collective Bargaining Agreement, other than a National Collective Bargaining Agreement, that becomes effective on or after June 1, 2005 (or that become effective earlier, but are renewed or extended effective

on or after that date), the last day of the calendar month immediately following the calendar month in which the Covered Employee performed the services for which such contributions are due and payable to the Trust Fund; or

(3) notwithstanding anything in Section 9.4(a)(1) or (2) of this Trust Agreement to the contrary, with respect to contributions (i) that are due from an Employer that has an outstanding delinquency to the Fund at the time the contribution obligation arises, and (ii) on which the Board or the Audit Committee (in its sole and absolute discretion) has determined the Employer is at risk of defaulting, any date on or after the due date for the payment of the wages on which the contributions are due, as prescribed by the Board or the Audit Committee , on a case-by-case basis, in its sole and absolute discretion. The Board or the Audit Committee shall notify an Employer as soon as reasonably practicable following the Board's determination that the provisions of this Section 9.4(a)(3) will be invoked and applied to the Employer.

(b) In addition to any other enforcement remedies that may exist under this Agreement or any applicable Collective Bargaining Agreements, the Board or the Audit Committee is authorized and empowered to initiate whatever actions or proceedings may be proper and necessary in their sole and absolute discretion for the enforcement of an Employer's contribution obligations to the Trust (including, but not limited to, proceedings at law or in equity, arbitration, mediation, other dispute resolution mechanisms and any other remedies that generally would be available for the enforcement of said obligation to contribute to the Trust Fund). Venue for such actions or proceedings shall be in New York County, New York or, in the sole discretion of the Board or the Audit Committee, in any other location authorized by law.

(c) In the event that any Employer shall fail to make required Employer contributions to the Trust Fund when due, the Board or the Audit Committee may and is empowered, in its sole and absolute discretion, to terminate, on a prospective basis, the participation of the Employer in the Plan and Trust Fund, and the crediting of future service credit to Employees of such terminated Employer. Nothing in this Section 9.4(c) shall affect or otherwise modify the ability of the Board or the Audit Committee to assert and enforce any and all other rights (as may be set forth in this Agreement, the Plan or any Collective Bargaining Agreement, or as may be provided by applicable law) against such Employer for the collection of any delinquent Employer contributions to the Plan or Trust Fund (including, but not limited to, those rights and actions set forth in this Article).

(d) A delinquent Employer shall be responsible for all late fees (including, without limitation, liquidated damages) set forth in any policy adopted by the Board or the Audit Committee from time to time. (4) court costs;

(5) other costs and expenses attributable to the collection of such contributions or other payments; and

(6) interest for every calendar year (or portion thereof) during which the delinquent contribution remained unpaid, calculated at the annual prime rate of interest quoted in The Wall Street Journal on the first business day of that calendar year, plus five percent, compounded monthly.

(e) All payments received from or on behalf of an Employer will be applied to amounts due in the following order: (i) interest; (ii) liquidated damages; (iii) surcharges under the Pension Protection Act of 2006; (iv) pension contribution obligations; and (v) withdrawal liability payments (including interest thereon).

(f) In addition to the right to assess an Employer with audit costs provided in Section 9.9(f), the Board or the Audit Committee shall also have the right to assess an Employer with all reasonable costs and expenses (including, without limitation, all audit, accounting, and legal fees) attributable to the audit of the Employer's payroll, wage, and related business records with respect to the contributions which the Employer is obligated to make to the Fund; provided, however, that the Board or the Audit Committee has determined that such Employer has been delinquent in remitting such contributions or payments to the Fund, and the aggregate amount of such delinquency, plus all accrued interest thereon and the cost of the audit, exceeds twenty percent (20%) of the actual audited amount determined by the Fund's auditors to be due the Fund.

2. **Section 9.8 is amended to read as follows:**

9.8 Remittance Reports

(a) Except as provided in Section 9.8(b), all contributions must be accompanied by a remittance report form that includes the name of the Employer, the name, address and phone number of the payor, if different (e.g., payroll company, affiliated entity), as well as all Employee first and last names, addresses, social security numbers, type of engagement(s) (e.g., name of applicable Collective Bargaining Agreement and indication of original use, new use or re-use of recording), description of engagement(s) (e.g., title of show, jingle or song and location of engagement), all engagement date(s), "scale wage" and contribution amount(s) and such other information as the Board may elect to prescribe in the future. The Employer shall submit to the Fund separate remittance or other reports for each type of engagement.

In the case of contributions that are required to be made on a basis other than scale wages (as described in Section 9.1(d)), the remittance report form shall include such information as may be required by the Board to verify the accuracy and completeness of such contributions.

(c) If contributions due the Fund are not accompanied by a remittance form containing all of the information set forth in subsection (a) or (b) above, as applicable, the Employer may in the sole discretion of the Audit Committee be assessed a fee in an amount as may be prescribed by the Audit Committee for each day following the

contribution due date for which the remittance report is incomplete or not received by the Fund.

NOTICE TO CONTRIBUTING EMPLOYERS REGARDING WITHDRAWAL LIABILITY

Each contributing employer is required to pay the Fund all amounts due as withdrawal liability resulting from a partial or complete withdrawal from the Fund, in accordance with Article XIII of the Agreement and Declaration of Trust of the Fund (the "Trust Agreement") and the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Under both ERISA and the Trust Agreement, the Board of Trustees ("Trustees") has full authority to adopt rules and regulations governing the determination and payment of withdrawal liability. These rules and regulations are binding on all employers. In the event of any inconsistency with governing federal law, that law will be binding.

Withdrawal liability represents a withdrawing employer's share of the unfunded vested benefit liability ("UVB") of the Fund. The calculation of UVB is done on an annual basis and the absence of withdrawal liability for any particular plan year cannot be taken as assurance that there will be no withdrawal liability in the following plan year.

Set forth below is a brief summary of the statutory withdrawal liability rules and the procedures adopted by the Trustees for applying those rules to the Fund.

- **Definition of a Withdrawal**

An employer may incur a withdrawal liability if it experiences either a "complete withdrawal" or a "partial withdrawal." An employer has a "complete withdrawal" when it permanently ceases to be obligated to contribute under the Fund (*e.g.*, the employer and the union agree in their collective bargaining agreement not to require further employer contributions to the Fund), or permanently ceases all covered operations under the Fund (*e.g.*, the employer no longer employs any musicians). An employer has a "partial withdrawal" when there is a 70% or more decline in contribution base units (i.e., the unit by which the contribution is measured) over a testing period or the employer's contribution obligation partially ceases. An employer's obligation partially ceases when (i) it permanently ceases to have an obligation to contribute under one or more but fewer than all collective bargaining agreements but continues to perform the same type of work in the jurisdiction of the collective bargaining agreement or transfers such work to another location or to an entity owned or controlled by the employer, or (ii) it permanently ceases to have an obligation to contribute for work performed at one or more but fewer than all of its facilities, but continues to perform the same type of work at the facility.

In determining whether a withdrawal has taken place, the employer is aggregated with all other entities under "common control" with the employer, as that term is defined in ERISA and the Internal Revenue Code. Accordingly, if the employer is affiliated with one or more other business entities (*e.g.*, a parent or a subsidiary, or a brother or sister, company), the Fund will need to take this into account in determining whether a complete or partial withdrawal from the Fund occurred and, if so, the amount of the withdrawal liability. Employers should provide the Fund with information necessary to confirm the entities under common control.

- **Amount of Withdrawal Liability**

For a *complete* withdrawal, the Fund determines the amount of withdrawal liability using the "one-pool" method, set forth in ERISA. Under this method, a withdrawing employer shares in the Fund's total UVB that exists as of the end of the plan year preceding the date of withdrawal, based on the ratio of (i) the employer's contributions during the preceding five consecutive plan years of its participation in the Fund to (ii) the total contributions to the Fund during that same period made by all contributing employers. (Generally, contributions of other withdrawn employers that have received a notice of withdrawal liability or have contributed at least $250,000 during any of those five plan years are disregarded in calculating this ratio.) Again, for this purpose, each employer is aggregated with all other entities under "common control."

The Fund's actuary calculates UVB based on the market value of assets. The investment return assumption used to calculate UVB is based on the interest rates published by the Pension Benefit Guaranty Corporation ("PBGC") for the purposes of determining the value for deferred and immediate annuities, which are prescribed as the basis to determine plan liabilities for a mass withdrawal, for the month of March in the plan year preceding the plan year of withdrawal. Further, in calculating withdrawal liability, the Fund will disregard (as required by law) any reduction in benefits under the Fund's rehabilitation plan through the use of the simplified method set forth in PBGC Technical Update 10-3.

An employer's liability for a *partial* withdrawal is a *pro rata* share of the liability that would have been assessed had the employer completely withdrawn.

Employers with a withdrawal liability of $100,000 or less are entitled to a $50,000 "deductible" that is subtracted from the total amount of withdrawal liability. For every dollar of withdrawal liability over $100,000, the deductible is reduced by one dollar. If the employer's withdrawal liability is $150,000 or more, no "deductible" applies.

- **Exception for New Employers ("Free Look" Rule)**

An employer that had an obligation to contribute to the Fund for no more than five plan years that withdraws from the Fund generally will not incur withdrawal liability unless it was required to contribute 2% or more of the total contributions in any plan year of its participation in the Fund (or it has previously avoided withdrawal liability because of the application of the "free look" rule). This rule will apply only if the requirements of Section 4210(b) of ERISA are also satisfied.

- **Exception for Certain Employers That Contribute on a Temporary or Project-by-Project Basis**

An employer that contributes to the Fund primarily on a temporary or project-by-project basis may not be liable for a complete withdrawal unless it continues (or resumes) operations employing professional musicians and does not make contributions to the Fund for musicians it employs. Such an employer is also not liable for a partial withdrawal (unless the Pension Benefit Guaranty Corporation issues regulations to the contrary). Whether an employer contributes "primarily on a temporary or project-by-project basis" will be determined by the Trustees based on the specific facts and circumstances of the employer's participation.

- **Payment of Withdrawal Liability**

Upon learning of an actual or possible withdrawal, the Fund will notify the employer and will request any information necessary about the company (including its parent, subsidiaries or other affiliates) to determine whether a complete or partial withdrawal has occurred, and to calculate the amount of withdrawal liability. Employers are required by ERISA to promptly provide such information to the Fund, and any other pertinent information or documents that the Fund may deem necessary to fulfill its obligations under ERISA.

An employer's withdrawal liability obligation is payable in quarterly installments over a period of time that varies with the employer's contribution history under the Fund, subject to acceleration as described in the delinquency/default provisions below.

Once the Fund assesses withdrawal liability and provides the employer with a payment schedule, the employer must commence quarterly payments, *even if it wishes to contest the Fund's assessment*.

- **Challenges to the Fund's Assessment of Withdrawal Liability**

An assessment of withdrawal liability by the Fund may be challenged only by filing a written request for review with the Trustees within ninety days of the employer's receipt of the Fund's initial withdrawal liability assessment. After filing a request for a review with the Trustees, the employer may initiate a binding arbitration regarding the assessment by making a formal filing with the American Arbitration Association within sixty days after the earlier of (i) the date that the employer is notified of the Trustees' decision on review; or (ii) 120 days after the date on which the employer requested the review. If an employer does not meet any of these time deadlines, the Trustees' determination will be deemed final and not subject to challenge in arbitration or court.

All arbitration hearings shall take place in New York City unless the Trustees and the employer agree on a different location.

- **Delinquency/Default**

Delinquent payments will be assessed interest at the annual rate of interest set forth in the Fund's Trust Agreement (currently, the greater of 7.5% or the prime rate of interest plus 2%). Delinquent withdrawal liability payments will also be assessed a liquidated damages penalty equal to *the greater of* the amount of the interest assessment or twenty percent of the amount involved, plus attorneys' fees, court costs, and other possible relief.

An employer will be required to pay immediately in a lump sum the full amount of its outstanding withdrawal liability (plus interest and the amounts above), if the employer defaults on its withdrawal liability payments. Default occurs when an employer (i) fails to pay the amounts when due, plus interest, and fails to cure that default within 60 days of notice from the Fund; or (ii) experiences an event that the Fund's rules identify as indicating a substantial likelihood that the employer will be unable to pay its withdrawal liability when due.

Events that the Fund's rules identify as indicating a substantial likelihood that the employer will be unable to pay its withdrawal liability include: (i) the employer's insolvency, or any assignment by the employer for the benefit of creditors, or the employer's calling of a meeting of creditors for the purpose of offering a composition or extension to such creditors, or the employer's appointment of a committee of creditors or liquidating agents, or the employer's offer of a composition or extension to creditors; (ii) the employer's

dissolution or the making (or sending notice of) an intended bulk sale by the employer; (iii) the assignment, pledge, mortgage or hypothecation by the employer of property that the Trustees deem to be material in relation to the financial condition of the employer; (iv) the filing or commencement by the employer, or the filing or commencement against the employer or any of its property, of any proceeding, suit or action relating to any bankruptcy, reorganization or consolidation, arrangement-of-debt, receivership, liquidation, or dissolution law; (v) the entry of any judgment or the issuance of any warrant, attachment, injunction or governmental tax lien or levy against the employer or its property with respect to a material portion of its property; (vi) the employer's ceasing or substantially curtailing business operations; (vii) the employer taking steps to liquidate a material portion of its assets; (viii) the employer's failure to provide information requested by the Fund pursuant to Section 4219(a) of ERISA regarding its ability to pay withdrawal liability (or as to whether it has taken an action for the principal purpose of avoiding paying withdrawal liability); (ix) the employer made three consecutive withdrawal liability payments more than thirty (30) days after their due date; (x) the employer's taking an action for the principal purpose of avoiding paying withdrawal liability; or (xi) any other event that the Trustees determine materially impairs the employer's creditworthiness or indicates a substantial likelihood that the employer will be unable to pay its withdrawal liability when due. This paragraph also applies to such occurrences with respect to an employer's controlled group of corporations or trades or businesses.

- **Obtaining an Estimate of Withdrawal Liability**

As required by Section 101(l) of ERISA, at an employer's written request, once during any 12-month period, the Fund will provide the employer with a notice of the estimated amount of the employer's withdrawal liability if the employer withdrew on the last day of the plan year preceding the date of the request. Upon written request, the employer also will be provided an explanation of how the estimated withdrawal liability was determined, including the actuarial assumptions and methods used to determine the value of the plan liabilities and assets, the data used in making the estimate, and the application of any relevant limits on the estimated liability amount.

Because the plan year runs from April 1 to March 31, this estimate will be made as if the employer had withdrawn on the March 31 immediately preceding the request. This estimate will be provided within 180 days of the request (or such longer period as permitted by law).

Since this information will be of limited utility to employers (because it only applies to withdrawals in a plan year that already ended), an employer can instead request in writing that the Fund provide (subject to the same conditions) the estimated amount of the employer's withdrawal liability if the employer withdrew in the current plan year. In that case, the Fund will provide one as soon as it reasonably can after the necessary information is available.

Two of the key pieces of information needed for such an estimate are the audited amount of Plan assets and the actuarial determination of the Plan's unfunded vested liabilities as of the end of the previous Plan Year. The Plan Year ends on March 31. The Fund will provide an estimate of employer liability prior to the completion of the actuary's valuation report (which is normally presented to the Trustees at their meeting in October or November) based on a roll-forward of the Fund's vested benefit liability from the prior year's actuarial valuation (when such information becomes available) and on unaudited assets as of the end of the prior Plan Year. Employers requesting current estimates should understand that this will be merely an estimate, which may change once the current year's actuarial valuation is completed and the audit of the Fund has been completed.

The Fund Office will provide these withdrawal liability estimates to an employer that makes a written request and that identifies any entities that are within the same "controlled group" (because all such entities must be treated as one employer for purposes of calculating the liability).

The Trustees will impose a charge to cover copying, mailing, and other costs of furnishing withdrawal liability estimates. Currently, the charge for such estimates is a flat fee of $1,000. This fee should be included in all written requests. No additional charge will be made to an employer that receives an estimate based on rolled-forward calculations and that requests a confirmation of its actual withdrawal liability after the actuarial valuation is completed.

Employers should note that, while the Fund does not provide a copy of withdrawal liability estimates to the union (the AFM or AFM local, as applicable) as a matter of course, there may be circumstances in which it will do so upon the union's request if the Fund's Withdrawal Liability Committee concludes that doing so is in the interest of the Fund.

- **Record Retention**

Because an employer's contribution history is critical to the determination of its withdrawal liability, employers are strongly encouraged to retain records evidencing their contribution history to the Fund for at least ten years.

INDEPENDENT AUDITOR'S REPORT

To the Trustees and Participants,
American Federation of Musicians and Employers' Pension Fund and Subsidiary:

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of the American Federation of Musicians and Employers' Pension Fund and Subsidiary (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), which comprise the consolidated statements of net assets available for benefits as of March 31, 2022 and 2021, and the related consolidated statements of changes in net assets available for benefits for the years then ended, and the consolidated statement of accumulated plan benefits for the year then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated statements present fairly, in all material respects, the net assets available for benefits of the Plan as of March 31, 2022 and 2021, the changes in its net assets available for benefits for the years then ended, the accumulated plan benefits as of March 31, 2021, and the changes in the accumulated plan benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan ability to continue as a going concern for one year after the date that the consolidated financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the consolidated financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The Form 5500, supplemental schedule H, line 4i - schedule of assets (held at end of year) as of March 31, 2022 and Form 5500, schedule H, line 4j - schedule of reportable transactions for the year then ended are presented for the purpose of additional analysis and are not a required part of the consolidated financial statements but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. PLAN DESCRIPTION AND FUNDING

The American Federation of Musicians and Employers' Pension Fund and Subsidiary (the "Plan") is a multi-employer, noncontributory defined benefit pension plan primarily covering individuals covered under collective bargaining agreements of the American Federation of Musicians of the United States and Canada, AFL-CIO or one of its affiliated local unions (collectively, the "Union"). The Plan is operated by a Board of Trustees with equal representation from the Union and the employers. The Trustees serve without compensation from the Plan.

General

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

The Plan is funded by employer contributions and investment returns. Employer contributions are based on a participant's covered earnings pursuant to the terms of the respective collective bargaining agreements between the employer and the Union, or other approved agreements, at various fixed contribution percentage rates.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"), and has complied with the applicable minimum funding requirements.

Eligibility

An individual is eligible to become a participant of the Plan if both of the following conditions are met:

- The individual is employed as a musician, by the Plan, the Union, or other employer acceptable to the Board of Trustees, and
- The individual's employer has entered into a collective bargaining agreement, participation agreement or similar agreement acceptable to the Board of Trustees requiring the employer to contribute to the Plan on the employee's behalf.

In order to become a participant, an eligible individual must earn at least $750 of covered earnings during a calendar year (also known as one quarter-year of vesting service).

Pension Benefits

A participant earns the non-forfeitable right to receive a Regular Pension Benefit (the participant is vested) when either of the following thresholds are met:

- Completion of 5 years of vesting service, including at least one quarter-year of vesting service after 1986, or completion of 10 years of vesting service, with no vesting service after 1986.
- Reaching age 65 while an active participant or reaching age 55, are vested, and retire from all Covered Employment.

Normal Retirement Age is 65, or, if later, the date on which the participant completes five years of participation (not including any years of participation before a permanent break in service) on or after April 1, 1988.

Participants with fewer than 3 years of vesting service on January 1, 2004 will need $750 of covered earnings during a calendar year to receive a one quarter-year of vesting service, or $3,000 during a calendar year to receive a full year of vesting service. Also, each participant with three or more years of vesting service on January 1, 2004 will continue to earn vesting service under the rules in effect before January 1, 2004 unless the participant has a permanent break-in-service after 2003. Prior to January 1, 2004, participants received one quarter-year of vesting service for each $375 of covered earnings during a calendar year, up to a maximum of one year of vesting service per calendar year for covered earnings of $1,500 or more.

The Plan also provides for certain periods of non-covered employment and military service to be counted in determining years of vesting service. For employment before 1977, vesting service was determined according to a different schedule.

The Regular Pension Benefit, generally paid as either a single life or a joint-and-survivor annuity, consists of monthly payments based on the total contributions earned by a participant through the participant's pension effective date. The Regular Pension Benefit is calculated by multiplying each $100 of contributions (rounded to the nearest $100) by the applicable benefit multiplier, which is determined by the participant's age at his/her pension effective date and the period when the contributions were earned.

Participants who currently are receiving a pension and return to work continue to receive their pension. In addition, they continue to earn additional benefits that are calculated differently depending on age. Additional benefits earned by working pensioners before normal retirement age are the greater of (1) the difference between (i) the monthly early retirement benefit being paid and (ii) the total benefit calculated as if the early retirement benefit had not begun, minus the actuarial value of benefits received expressed as a monthly benefit, and (2) the sum of all of the annual benefits payable with respect to contributions earned through May 31, 2010 under specified rules that were in effect before 1996. Additional benefits earned by working pensioners after age 65 will be reduced by the actuarial equivalent, as defined, of the benefits paid during the previous calendar year, so long as those benefits were both earned and paid after 2003.

Disability Benefits

A participant with ten years of vesting service who has not started to receive a regular pension benefit and becomes permanently and totally disabled is entitled to a disability pension benefit. The monthly disability benefit is calculated by multiplying each $100 of contributions by the applicable age 65 benefit multipliers and is actuarially reduced to reflect early commencement. Effective June 1, 2018, to be eligible for a disability pension benefit, a participant must also not be eligible, on his or her effective date, for a regular pension benefit and have earned at least one year of vesting service in the three calendar year period immediately preceding the pension effective date.

Death Benefits

The Plan provides for the payment of certain benefits to a participant's designated beneficiary upon the death of the participant. The calculation and form of death benefits are determined by the participant's status at the time of death.

Pension Protection Act Filing of Critical and Declining Status

The actuary certified that for the Plan year beginning April 1, 2019, the Plan transitioned from "critical" status under the Pension Protection Act of 2006 ("PPA") to "critical and declining" status. The significance of entering critical status is that the Plan's Board of Trustees is required by law to adopt a Rehabilitation Plan, consistent with the requirements of the PPA, designed to improve the Plan's financial health and to allow it to emerge from critical status. On April 15, 2010, the Board adopted a Rehabilitation Plan consistent with this requirement. The Rehabilitation Plan has been amended since the adoption.

The Rehabilitation Plan originally employed reasonable measures to enable the Plan to emerge from critical status at a later date than the 10-year rehabilitation period. As the Plan is currently not projected to emerge from critical status (either during the 10-year rehabilitation period that began April 1, 2013 or otherwise), the Rehabilitation Plan was updated in 2016 to employ reasonable measures to forestall insolvency and it does not have a definite term. The Rehabilitation Plan was further updated in June 2018 to require an additional 10% increase in the rate of contributions in collective bargaining agreements, or extensions thereof, that expire on or after August 1, 2018 and after the bargaining parties received notice of the update. The additional 10% in the rate of contributions will not be used to calculate any participant's benefits under the Plan, but will be used solely to improve the financial health of the Plan.

The following benefits and benefit alternatives available under the Plan were eliminated under the Rehabilitation Plan, effective June 1, 2010: (i) early retirement subsidies; (ii) benefit guarantees for the single life annuity; (iii) "pop-up" and benefit guarantee features of the 50% joint and survivor annuity; (iv) post-normal retirement age subsidies; (v) certain forms of benefit for merged plans; and (vi) the lump-sum form of benefit offered by the Plan (not including lump sums with an actuarial present value of $5,000 or less).

The Rehabilitation Plan also required additional employer contributions to the Plan. Effective for contributions earned on or after June 1, 2010 but before April 1, 2011, the contribution rate was 104% of the contribution rate otherwise in effect under the collective bargaining agreement or expired collective bargaining agreement. Effective for contributions earned on or after April 1, 2011, the contribution rate is 109% of the contribution rate otherwise in effect under the collective bargaining agreement or expired collective bargaining agreement (excluding the 4% increase, which is not cumulative). Consistent with the PPA, if the collective bargaining agreements were not amended to include the new contribution rates under the Rehabilitation Plan, mandatory surcharges on employer contributions were established as follows: (i) effective for contributions earned on or after June 1, 2010 and before April 1, 2011, the surcharge was 5% of the employer's contributions to the Plan; and (ii) effective for contributions earned on or after April 1, 2011, the surcharge is 10% of the employer's contributions to the Plan. Surcharges do not generate benefit accruals and are included in employer contributions on the consolidated statements of changes in net assets available for benefits.

On March 17, 2021, Trustees of the Plan decided to withdraw the Plan's application to reduce benefits under the Multiemployer Pension Reform Act and the U.S. Department of Treasury was notified of the decision. Under the American Rescue Plan Act of 2021, the Plan may be eligible for financial relief and the Plan is currently monitoring its future guidance in applicability to the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Principles of Consolidation
The consolidated financial statements include the accounts of the Plan and the Plan's wholly owned subsidiary, AFM 14 PENN LLC ("Penn"). Penn was organized on November 28, 2012, for the purpose of entering into a new lease for office space for the Plan.

Use of Estimates
The preparation of consolidated financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; fair value measurement of investments; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Cash Equivalents
Highly liquid investments with a maturity of three months or less, when acquired, are considered cash equivalents. Cash equivalents include money market funds and are valued at cost, which approximates fair value.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Investment policies, guidelines and procedures have been established by the Trustees of the Plan and may be modified or amended only at the direction of the Trustees. In establishing and determining the reasonableness of investment valuations, management enlists the assistance of an investment consultant, who reviews and monitors the performance of investments to ensure adherence to those policies, guidelines and procedures. See the note on fair value measurements.

Realized and unrealized gains and losses on the value of investments are recognized in net appreciation in fair value of investments on the consolidated statements of changes in net assets available for benefits. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Purchases and sales are recorded on a trade-date basis.

Employer Contributions Receivable
For the fiscal years ended March 31, 2022 and 2021, the Plan reported as employer contributions receivable any contributions due to the Plan as of the fiscal year-end date which related to engagements performed on or before March 31 of the respective years. No provision for uncollectible accounts has been reported, as management believes all receivables to be collectible.

The Plan, in its normal course of business, performs audits of the records of contributing employers to monitor the contributing employers' compliance with their obligation to make contributions. It is the Plan's policy that any additional employer contributions that are due to the Plan based on the aforementioned engagements are recorded as income in the period in which such amounts are received.

Employers' Withdrawal Liability
Each contributing employer is required to pay the Plan all amounts due as withdrawal liability resulting from a partial or complete withdrawal from the Plan, in accordance with Article XIII of the Agreement and Declaration of Trust of the Plan and ERISA.

Withdrawal liability represents a withdrawing employer's share of the unfunded vested benefit liability ("UVB") of the Plan. The UVB arises when the actuarial present value of a Plan's vested accrued benefits exceeds the fair value of the Plan's net assets available for benefits. A portion of the Plan's actuarially determined UVB is allocated to a withdrawing employer. For a complete withdrawal, the Plan determines the amount of withdrawal liability using the "one-pool" method, set forth in ERISA.

During the years ended March 31, 2022 and 2021, management of the Plan adjusted previous years' withdrawal liability estimates. The adjustments are reflected on the consolidated statements of changes in net assets available for benefits as withdrawal liability assessment adjustments. As of March 31, 2022 and 2021, the Plan recognized receivables from withdrawing employers in the amount of $9,085,282 and $9,209,510, respectively. The allowance for doubtful accounts, totaling $8,557,651 and $8,443,892 as of March 31, 2022 and 2021, respectively, was estimated based on an analysis by management and recognized as a reduction of the receivables.

Fixed Assets and Depreciation and Amortization
Fixed assets are capitalized at cost. Costs of major additions, replacements and improvements are capitalized. Maintenance and repairs which do not improve or extend the useful lives of the respective assets are charged to expense as incurred. Depreciation and amortization is computed using the straight-line method over the estimated useful lives of the assets as follows:

Description	Estimated Life (Years)
Computer software	3-10
Computer equipment	5
Office furniture and equipment	10
Leasehold improvements	Lesser of the estimated life or the remaining term of lease

Recognition of Benefits
Benefits are recorded when paid.

Other Income
During the year ended March 31, 2021, the Plan received a payment to reimburse certain legal fees and other costs the Plan had incurred related to a class action settlement. The settlement payment received was recognized as other income on the consolidated statements of changes in net assets available for benefits.

Accounting Principles Adopted
Derivatives and Hedging
For the year ended March 31, 2022, management adopted the changes in accounting principles reflected in Accounting Standards Update ("ASU") No. 2017-12, *Derivatives and Hedging* (Topic 815): *Targeted Improvements to Accounting for Hedging Activities*, which was amended by ASU 2019-12, *Financial Instruments - Credit Losses* (Topic 326), *Derivatives and Hedging* (Topic 815). ASU 2019-12 amended the effective dates for ASU 2017-12 to effective for fiscal years beginning after December 15, 2020, and interim periods within fiscal years beginning after December 15, 2021. The ASU simplified and expanded the eligible hedging strategies for financial and nonfinancial risks and created more transparency in how hedging results are presented and disclosed. See Note 5 for additional detail.

Future Changes in Accounting Standards

Lease Transactions

In February 2016, the Financial Accounting Standards Board ("FASB") issued ASU No. 2016-02, *Leases* (Topic 842), which supersedes existing lease accounting standards. Together with subsequent amendments, this created Accounting Standards Codification Topic 842 ("ASC 842"). ASC 842 requires that a lessee recognize a right-of-use asset and a corresponding liability for its obligation under virtually all operating leases, as well as expands disclosure requirements. On June 3, 2020, the FASB approved an extended effective date which now makes ASC 842 effective for periods beginning after December 15, 2021. Early adoption was permitted. Management is currently evaluating the effect of the adoption of ASC 842 on its net assets and its changes in net assets.

Subsequent Events

In preparing these consolidated financial statements, management of the Plan has evaluated events and transactions that occurred after March 31, 2022 for potential recognition or disclosure in the consolidated financial statements. These events and transactions were evaluated through December 22, 2022, the date that the consolidated financial statements were available to be issued, and no items, other than noted below, have come to the attention of management that require recognition or disclosure.

After the year ended March 31, 2022, Trustees of the Plan elected to change the tax year-end from March 31 to December 31. The Plan has submitted the application to request the change and is currently waiting the IRS approval of the change in the tax year-end.

3. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service that participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries. Benefits under the Plan are based on a basic monthly amount for each $100 of contributions made to the Plan on a participant's behalf.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary, Milliman, Inc., and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the benefit obligations. The computation of the actuarial present value of accumulated plan benefits was made as of April 01, 2021. Had the valuation been performed as of March 31, 2021, there would be no material difference. The following were significant assumptions used in the valuation as of April 01, 2021:

Investment Earnings

7.00% (net of investment-related administrative expenses).

The current liability interest rate assumption is 2.02%.

March 2021 PBGC interest rates for mass withdrawal purposes of 1.69% for first 20 years and ultimate rate of 1.66% for unfunded vested benefit liability for withdrawal liability calculations.

Actuarial Cost Method
Unit Credit Actuarial Cost Method.

Actuarial Value of Assets
The fair value of assets is adjusted by smoothing the differences between the expected fair value of assets and the actual fair value of assets from the past five years. In accordance with the special asset valuation rule under funding relief, the amount of the difference in the expected fair value of assets and the actual fair value of assets for the Plan year ending March 31, 2009 is amortized over a 10-year period. The expected value of assets for each year is the fair value of assets at the valuation date for the prior year brought forward with interest at the valuation rate to the current year plus contributions minus benefit payments and administrative expenses, all adjusted with interest at the valuation rate from the prior year to the valuation date for the current year. The actuarial value of assets is the resulting amount except that if the resulting amount is greater than 120% of the fair value, the actuarial value of assets is set equal to 120% of the fair value of assets and if the resulting amount is less than 80% of the fair value, the actuarial value of assets is set equal to 80% of the fair value of assets.

Termination Rates
Termination rates have been separated into two groups: (1) participants who earned less than $10,000, or (2) participants who earned $10,000 or more in the plan year prior to the valuation date.

Sample rates are shown below for participants who earned less than $10,000 in the plan year prior to the valuation date:

* Participants with less than one year of service are not included for valuation purposes. Therefore, this select period with respect to the present value of benefits only impacts participants who have accrued between 1 and 2 years of vesting service as of the valuation date. Nonetheless, this select period has an impact on the Normal Cost (which spreads liability from entry age to retirement age) for all participants.

Administrative Expenses
$19.0 million for the 2021-2022 Plan year based on the Fund office's estimated administrative expenses budget for the 2021-2022 Plan year. For FASB ASC Topic 960 plan accounting, the present value of the administrative expenses was calculated by projecting the payment of expected administrative expenses for the duration of the Plan's liabilities. The duration of the Plan's liabilities was calculated to be 12 years at April 1, 2021 and 12 years at April 1, 2020. Projected administrative expenses were increased 2.25% per annum after the valuation year, then discounted using the Plan's investment return assumption of 7.0% as of April 1, 2021 and 7.5% as of April 1, 2020, respectively.

Future Benefits Accruals
Current actives until retirement and current in-pay retirees under 65 until age 65: Future years' contributions are assumed to increase by 2.25% per year from those contributions reported for the prior pension credit year.

Current in-pay retirees at or over 65: Future years' contributions are assumed to be equal to contributions reported for the prior pension credit year.

Attained Age	Annual Contribution Amount

76-85	$ 250

Assumed Age of Commencement of Deferred Benefits
Age 65.

Special Amortization Rule
The Plan's investment loss for the Plan year ended March 31, 2009 is treated separately from other investment gains/losses, to be amortized in equal installments over the period from April 1, 2009 through March 31, 2039.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of Accumulated Plan Benefits.

For funding purposes, the current liability mortality assumption was updated, as mandated by the IRS.

Significant Changes in Actuarial Assumptions
In developing the actuarial present value of accumulated plan benefits as of April 1, 2021, the following changes in actuarial assumptions were made from the assumptions used for the April 1, 2020 valuation.

- For ERISA minimum funding and FASB ASC Topic 960 plan accounting purposes, the investment return assumption was changed to 7.00% from 7.50%.
- The administrative expense assumption was changed to $19.0 million (based on the Fund office's administrative expenses budget for the 2021-2022 Plan year) from $22.2 million (based on the average of the prior two years' administrative expenses, increased by 2.25% plus an additional $3 million due to the MPRA suspension).

- For Current Liability purposes, the interest rate changed to 2.02% from 2.98%. The statutory mortality tables also have been updated as required by law.
- For withdrawal liability purposes, the interest rate was changed to 1.69% for the first 20 years and ultimate rate of 1.66% from 2.12% for the first 25 years and ultimate rate of 2.26%.
- The actuarial liability valuation cost method used for determining ERISA minimum funding requirement was changed to traditional unit credit from the entry age normal actuarial cost method.

4. FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America define fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, establish a fair value reporting hierarchy and define three broad levels of inputs (the assumptions that market participants would use in pricing the asset or liability) as noted below:

Level 1 - Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 - Inputs are quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Valuation is based on unobservable inputs for the asset or liability. Level 3 assets may include financial instruments whose value is determined using pricing models with internally developed assumptions, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant management judgment or estimation.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. The valuation methodology was not changed during the years ended March 31, 2022 and 2021.

- *Corporate stocks and futures* - valued at closing quoted market prices in active markets in which the securities are traded.
- *Corporate bonds, asset-backed securities, and other bonds* - valued using quoted prices of like assets, corroborated market data, indices and/or yield curves.
- *U.S. government bonds and U.S. agency obligations* – valued using closing quoted market prices in active markets in which the securities are traded.
- *Short-term investments* - valued at cost which approximates fair value.
- *Registered investment companies* – mutual funds are valued at closing quoted market prices in active markets which represent the net asset value of shares ("NAV") held by the Plan at year end. Other registered investment companies are valued on the basis of the NAV per share of the last business day of the year.
- *Collective trusts* - valued at NAV. The NAV, as provided by the investment advisor, is used as a practical expedient to estimate fair value. The NAV of these investments is based on the fair value of the underlying assets held by the fund less its liabilities.
- *Limited partnerships* – valued at NAV. The NAV, as provided by the investment advisor, is used as a practical expedient to estimate fair value. The NAV of these investments is based on the fair value of the underlying assets held by the fund less its liabilities.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

During the years ended March 31, 2022 and 2021, there were no transfers in or out of Level 3.

As of March 31, 2022 and 2021, assets measured at fair value on a recurring basis are summarized by level within the fair value hierarchy as follows:

	2022

5. DERIVATIVE FINANCIAL INSTRUMENTS

The Plan is exposed to certain risks relating to its ongoing investment operations. The primary risk managed by using derivative instruments is interest rate risk.

The Plan enters into interest rate contracts such as fixed-income futures contracts in the normal course of its investment activities to reduce the interest rate risk associated with its fixed-income investments, as substitutes for the underlying fixed income securities, and as a duration management tool to enhance portfolio returns. Treasury futures are used to implement yield curve strategies.

Upon entering into a futures contract, the Plan is required to deposit either cash or securities in an amount equal to a certain percentage of the nominal value of the contract as specified by the exchange. Subsequent payments are then made or received by the Plan, depending on daily fluctuation in the value of the underlying contracts. Such receipts or payments are included in the net appreciation in fair value of investments on the consolidated statements of changes in net assets available for benefits. As of March 31, 2022 and 2021, the fair value of futures contracts in the consolidated statements of net assets available for benefits is $(3,208,533) and $(1,871,641) respectively, and is included in corporate stocks and futures in the fair value hierarchy table.

While these contracts involve elements of market risk in excess of amounts recognized in the consolidated statements of net assets available for benefits, the investment manager employs risk controls at the portfolio and individual security levels by which the duration impact of the futures contracts is evaluated and monitored to ensure that duration bands for the portfolio of fixed income securities are within the investment policy guidelines.

The risk of counterparty nonperformance associated with the use of fixed-income and equity futures are considered to be modest as performance is assured by the futures exchanges, which provide multiple layers of protection, such as the collection of variation margin on a daily basis and the use of standardized contracts to facilitate liquidity.

U.S. Treasury bonds and equities owned and included in the investments of the Plan in the consolidated statements of net assets available for benefits, with a fair value of $5,752,162 and $5,190,137 at March 31, 2022 and 2021, respectively, were held by the Plan's brokers as collateral on fixed-income futures contracts.

At March 31, 2022 and 2021, the Plan had futures contracts to purchase and sell as follows:

	Number of Contracts	Maturity Date	Notional Amount 2022	Notional Amount 2021
Fixed income futures				
Future U.S. Treasury Note 2 Year	104	Jun-22	$ 22,039,876	$ 27,370,093

			$ 51,755,744	$ 74,954,571

Notional amounts do not quantify risk or represent assets or liabilities of the Plan but are used in the calculation of cash settlements under the contracts.

For the years ended March 31, 2022 and 2021, the recognized loss in net appreciation in fair value of investments of derivatives designated as hedging instruments under ASC 815-20, *Derivatives and Hedging*, on the Plan's consolidated statements of net assets available for benefits was as follows:

	2022	2021
Fixed income and equity future contracts	$ (3,208,533)	$ (1,871,641)

6. FIXED ASSETS

At March 31, 2022 and 2021, fixed assets consisted of the following:

	2022	2021
Computer software	$ 14,500,462	$ 14,498,214
Computer equipment	3,746,344	3,655,913

Leasehold improvements	1,662,504	1,662,504
	21,416,413	21,323,734
Accumulated depreciation and amortization	(21,263,359)	(21,163,790)
	$ 153,054	$ 159,944

Depreciation and amortization expense for the years ended March 31, 2022 and 2021 was $99,569 and $109,446, respectively.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the custodian. Any purchases and sales of these investments are made at fair value and qualify as party-in-interest transactions under ERISA. Such transactions are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

8. EMPLOYEE PENSION BENEFITS

The Plan provides pension benefits to Plan employees. With regard to these benefits, the Plan computes an appropriate contribution amount each year and recognizes both contribution revenue and administrative expense in an equal amount. For the years ended March 31, 2022 and 2021, the Plan recognized contributions and administrative expense of $522,702 and $520,218, respectively. These amounts were less than 5% of contributions to the Plan for each year.

9. TAX STATUS

The Plan is a qualified plan under Section 401(a) of the Internal Revenue Code ("IRC"), and its trust is exempt from Federal income taxes under Section 501(a). However, the Plan is subject to income tax on unrelated business income. Unrelated business income arises from certain investments of the Plan, but the amount of income and resulting tax is insignificant. The Plan obtained a favorable determination letter dated February 4, 2016, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Management has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability in the consolidated financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

10. RISKS AND UNCERTAINTIES

Management continues to evaluate the impact of the COVID-19 pandemic on the Plan and has concluded that the virus had a negative effect on the Plan's employers' contributions for the years ended March 31, 2022 and 2021. The specific impact to employers' contributions for future years is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported on the consolidated statements of net assets available for benefits.

The Plan maintains accounts at several high-quality financial institutions. While the Plan attempts to limit any financial exposure, its cash deposit balances, at times, exceed Federally insured limits. Financial instruments that subject the Plan to concentrations of credit risk include cash, short-term investment funds and money market funds. The Plan has not experienced any losses on such accounts.

The Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the consolidated financial statements.

11. PRIORITIES UPON TERMINATION

It is the intent of the Trustees to continue the Plan in full force and effect. However, the right to discontinue the Plan is reserved to the Trustees. Termination shall not permit any part of the Plan to be used for or diverted to purposes other than the exclusive benefit of the pensioners, beneficiaries, and other participants. In the event of termination, the net assets of the Plan will be allocated to pay benefits in priorities as prescribed by the governing documents and in accordance with ERISA and its related regulations. Whether or not a particular participant will receive full benefits should the Plan terminate at some future time will depend on the sufficiency of the Plan's net assets at the time of the priority of those benefits.

The Plan is insured by the Pension Benefit Guaranty Corporation ("PBGC"); however, the PBGC does not guarantee the payment of all benefits provided under the Plan. Moreover, the PBGC guarantees apply only when the Plan becomes insolvent, that is, when available resources are insufficient to pay benefits under the Plan. Additional information describing pension guarantees can be found in the SPD, as well as the annual funding notice.

12. LEASE COMMITMENTS

On December 10, 2012, Penn entered into a fifteen-year lease agreement for office premises located in New York City. The lease and rent commencement dates were May 1, 2013 and November 1, 2013, respectively, which provided a rent abatement of six months. The Plan has guaranteed all of Penn's obligations under the lease.

In accordance with ASC 840-20, *Leases*, the rental payments are recognized on a straight-line basis over the term of the lease. The difference between the actual rent paid and the expense recognized is recorded as an adjustment to deferred rent payable, which totaled $893,689 and $922,573, as of March 31, 2022 and 2021, respectively. Deferred rent payable is included in accrued expenses and other liabilities in the consolidated statements of net assets available for benefits at March 31, 2022 and 2021.

As of March 31, 2022, the minimum annual rental payments due (exclusive of escalation clauses for real estate taxes and building operating expenses) for the years ended March 31 are summarized as follows:

2023	$ 1,151,190
2024	1,268,441
2025	1,279,100
2026	1,279,100
2027	1,279,100
Thereafter	2,025,242
	$ 8,282,173

The Plan's rent and other occupancy costs were $1,408,248 and $1,404,788 for the years ended March 31, 2022 and 2021, respectively, and are included in administrative expenses on the consolidated statements of changes in net assets available for benefits.

Funding Status Projection Results

An accumulated funding deficiency is projected to occur for the current Plan year ending March 31, 2022.

The funded percentage as of April 1, 2021 is projected to be 51.8%.

The Plan fails tests under both IRC Section 432(b)(2)(B) and IRC Section 432(b)(2)(C), used to determine whether the Plan is in critical status.

The ratio of inactive to active participants as of April 1, 2020 is 1.55.

The Plan is projected to become insolvent during the Plan year ending March 31, 2038.

PPA Certification

I hereby certify that the American Federation of Musicians & Employers' Pension Fund is considered "critical and declining" under IRC Section 432(b)(6) for the Plan year beginning April 1, 2021, as defined in the Pension Protection Act of 2006 as amended by the Multiemployer Pension Reform Act of 2014 ("MPRA").

Further, I hereby certify that to the best of my knowledge and belief, the actuarial assumptions employed in preparing this certification are individually reasonable and represent my best estimate of future experience. Additionally, the "projected industry activity" assumption, as required under IRC Section 432(b)(3)(B)(iii), has been based on input provided by the Board of Trustees.

Scheduled Progress

The Pension Protection Act (PPA) requires the actuary to certify whether the plan is making scheduled progress in meeting the requirements of its Rehabilitation Plan. The Rehabilitation Plan for the American Federation of Musicians & Employers' Pension Fund was adopted in April 2010 which reduced certain benefits and increased the Plan's contribution rates. The Trustees determined using reasonable actuarial assumptions and methods that they were unable to adopt a Rehabilitation Plan that would enable the Plan to emerge from critical status by the end of the ten-year Rehabilitation Period on March 31, 2023 which began on April 1, 2013. As a result, the Trustees adopted a Rehabilitation Plan that, in their judgment, consisted of all reasonable measures to either emerge from critical status by a later date than the ten-year period mentioned above or forestall insolvency. The Trustees revised the Rehabilitation Plan effective June 27, 2016 such that in their judgment, it consisted of all reasonable measures to forestall insolvency. The Rehabilitation Plan contribution schedule has been updated effective June, 2018 to require a 10% increase in the rate of contributions with such increases not considered when calculating a pension benefit. As required under the PPA, the Trustees have been and will continue to review the Rehabilitation Plan annually. Based on implementation of the Rehabilitation Plan and reflecting the Plan's experience through March 31, 2021, I hereby certify that the Plan is making scheduled progress as of April 1, 2021 as required under IRC Section 432(b)(3)(A)(ii).

Summary of Assumptions/Methods

Our projections are based on:

- April 1, 2020 participant data and April 1, 2020 actuarial valuation results, as described in the actuarial report for the Plan year ended March 31, 2021.
- March 31, 2021 unaudited assets and on investment performance and the summary of receipts and disbursements for the year ended March 31, 2021 provided by the Fund office.
- An assumption that the active population will remain stable for each plan year after March 31, 2021.
- Investment Returns
    - Investment returns after March 31, 2021 are based on the Fund's target asset allocation and 2020 Horizon 10-year capital market survey assumptions for first 10 years and 2020 Horizon 20-year capital market survey assumptions thereafter. The assumed rates of return on market assets (net of investment-related administrative expenses) for every year after the plan year ended March 31, 2021 are shown in the table below.

2023	6.93
2024	6.93

- Contribution Income:

(a) Long-term, wage-based contribution assumption

- Wage-based contributions of $62,988,432 for fiscal year ending March 31, 2020 ("FYE") are expected to increase 2.6% per annum thereafter prior to consideration of the impact of COVID-19 described below. In addition, the 10% contribution rate increase implemented in June 2018 updated rehabilitation plan is expected to phase in according to the following schedule:
  - Freelance and Single-Engagement: 66% of contracts renewed in FYE 2020 and remaining 34% in FYE 2021
  - Broadway Theaters reflected prior to FYE 2021
  - All other: 25% of contracts renewed in FYE 2020 and remaining 75% distributed equally over FYE 2021 – 2023, inclusive

(b) Impact of COVID-19

- The following chart shows the Trustees' expectations in wage-based contributions for FYE 2022 to 2025.

FYE	Projected Wage-Based Revenue ($M)
2022	$39.7
2023	66.8
2024	74.1
2025	76.2

These projections are based on an individualized analysis of each of the various industry segments, and take into account all information available to the Trustees. In each case, the Trustees began with the current decline in the industry segment, determined the date in which the segment is reasonably expected to begin to recover and established an expected timeline over which that the recovery would occur, typically on a graduated basis.

>= $3,000	1.00

A Participant becomes vested upon completion of 5 years of Vesting Service or upon attainment of Normal Retirement Age.

Regular Pension Benefit

A Participant is eligible to receive a Regular Pension Benefit at Normal Retirement Age or at age 55 with 5 years Vesting Service.

Regular Pension Benefit is calculated by multiplying each $100 of vested contributions earned by a Benefit Multiplier (a specific dollar amount). The monthly benefit amount under the Life Annuity form of payment is calculated in accordance with the following tables:

For participants who retire after Normal Retirement Age, the monthly benefit is the regular pension amount at Normal Retirement Age actuarially increased to account for delayed retirement.

Disability Pension Benefits

An active participant who has completed at least 10 years of Vesting Service, who has stopped working in Covered Employment because of a condition of Total Disability, and who has not started to receive a Regular Pension Benefit, is eligible for a Disability Pension Benefit.

The monthly Disability Pension Benefit is calculated by multiplying each $100 of contributions by the applicable age-65 Benefit Multipliers, actuarially reduced to participant's actual age as of the effective date of Disability Pension Benefit.

Pre-Retirement Death Benefits

If a vested participant who has not yet retired dies after age 55, the participant's beneficiary will receive a benefit equal to the benefit the beneficiary would have received had the participant retired on his date of death and elected to receive a 50% Joint and Survivor Annuity.

If a vested participant dies before age 55, the beneficiary's benefit is actuarially equivalent to the 50% Joint and Survivor Annuity at age 55.

Post-Retirement Death Benefits

If a vested participant dies after his or her benefit begins and the pension benefit was being paid as a Joint and Survivor Annuity, the Joint Annuitant will receive 50% of the participant's monthly benefit for his or her lifetime; if the pension benefit was being paid as Life Annuity, the remaining balance of the guaranteed benefit will be paid.

Re-Retirement Benefits

If a participant retires before his or her Normal Retirement Age, later returns to Covered Employment, and earns $50 or more of contributions in at least one calendar year between his or her initial pension Benefit Annuity Start Date and Normal Retirement Age, an additional benefit calculated based on the contributions made on the participant's behalf during that period will be paid as of the first of the month after the participant reaches Normal Retirement Age.

Redetermination Benefits

If a pensioner returns to Covered Employment and earns $50 or more of contributions in a calendar year after Normal Retirement Age, he or she will earn an additional pension benefit. This redetermination benefit is calculated each July 1st based on contributions for Covered Employment earned during the previous calendar year. The redetermination benefit is based on the age-65 Benefit Multiplier in effect at the end of the previous calendar year and is offset by the actuarial equivalent of any redetermination benefit received in the previous year that is based on contributions earned after 2003.

Normal Form of Payment

If a participant has an eligible spouse as of his or her Annuity Starting Date, the normal form of payment is Joint and Survivor Annuity. If a participant does not have an eligible spouse as of the Annuity Starting Date, the normal form of payment will be Single Life Annuity with respect to any benefit earned on and after January 1, 2004. If a portion of the participant's benefit was based on contributions earned prior to January 1, 2004, there is a guaranteed amount of 100 times that portion of the participant's benefit. The guaranteed feature is eliminated for benefit with an annuity starting date on or after June 1, 2010.

Funding Status Projection Results

An accumulated funding deficiency is projected to occur for the current Plan year ending March 31, 2022.

The funded percentage as of April 1, 2021 is projected to be 51.8%.

The Plan fails tests under both IRC Section 432(b)(2)(B) and IRC Section 432(b)(2)(C), used to determine whether the Plan is in critical status.

The ratio of inactive to active participants as of April 1, 2020 is 1.55.

The Plan is projected to become insolvent during the Plan year ending March 31, 2038.

PPA Certification

I hereby certify that the American Federation of Musicians & Employers' Pension Fund is considered "critical and declining" under IRC Section 432(b)(6) for the Plan year beginning April 1, 2021, as defined in the Pension Protection Act of 2006 as amended by the Multiemployer Pension Reform Act of 2014 ("MPRA").

Further, I hereby certify that to the best of my knowledge and belief, the actuarial assumptions employed in preparing this certification are individually reasonable and represent my best estimate of future experience. Additionally, the "projected industry activity" assumption, as required under IRC Section 432(b)(3)(B)(iii), has been based on input provided by the Board of Trustees.

Scheduled Progress

The Pension Protection Act (PPA) requires the actuary to certify whether the plan is making scheduled progress in meeting the requirements of its Rehabilitation Plan. The Rehabilitation Plan for the American Federation of Musicians & Employers' Pension Fund was adopted in April 2010 which reduced certain benefits and increased the Plan's contribution rates. The Trustees determined using reasonable actuarial assumptions and methods that they were unable to adopt a Rehabilitation Plan that would enable the Plan to emerge from critical status by the end of the ten-year Rehabilitation Period on March 31, 2023 which began on April 1, 2013. As a result, the Trustees adopted a Rehabilitation Plan that, in their judgment, consisted of all reasonable measures to either emerge from critical status by a later date than the ten-year period mentioned above or forestall insolvency. The Trustees revised the Rehabilitation Plan effective June 27, 2016 such that in their judgment, it consisted of all reasonable measures to forestall insolvency. The Rehabilitation Plan contribution schedule has been updated effective June, 2018 to require a 10% increase in the rate of contributions with such increases not considered when calculating a pension benefit. As required under the PPA, the Trustees have been and will continue to review the Rehabilitation Plan annually. Based on implementation of the Rehabilitation Plan and reflecting the Plan's experience through March 31, 2021, I hereby certify that the Plan is making scheduled progress as of April 1, 2021 as required under IRC Section 432(b)(3)(A)(ii).

Summary of Assumptions/Methods

Our projections are based on:

- April 1, 2020 participant data and April 1, 2020 actuarial valuation results, as described in the actuarial report for the Plan year ended March 31, 2021.
- March 31, 2021 unaudited assets and on investment performance and the summary of receipts and disbursements for the year ended March 31, 2021 provided by the Fund office.
- An assumption that the active population will remain stable for each plan year after March 31, 2021.
- Investment Returns
    - Investment returns after March 31, 2021 are based on the Fund's target asset allocation and 2020 Horizon 10-year capital market survey assumptions for first 10 years and 2020 Horizon 20-year capital market survey assumptions thereafter. The assumed rates of return on market assets (net of investment-related administrative expenses) for every year after the plan year ended March 31, 2021 are shown in the table below.

FYE	Assumed Investment Return
2022	6.93%
2023	6.93
2024	6.93
2025	6.93
2026	6.93
2027	6.93
2028	6.93
2029	6.93

- Contribution Income:
- Future Benefit Accruals:
- Long-term assumptions before reflecting impact of COVID-19 on work levels:
    - Current actives and current in-pay retirees under 65: Future years' contributions are assumed to increase by 2.25% per year from those contributions reported for the prior pension credit year.

(a) Long-term, wage-based contribution assumption

- Wage-based contributions of $62,988,432 for fiscal year ending March 31, 2020 ("FYE") are expected to increase 2.6% per annum thereafter prior to consideration of the impact of COVID-19 described below. In addition, the 10% contribution rate increase implemented in June 2018 updated rehabilitation plan is expected to phase in according to the following schedule:
  - Freelance and Single-Engagement: 66% of contracts renewed in FYE 2020 and remaining 34% in FYE 2021
  - Broadway Theaters reflected prior to FYE 2021
  - All other: 25% of contracts renewed in FYE 2020 and remaining 75% distributed equally over FYE 2021 – 2023, inclusive

(b) Impact of COVID-19

- The following chart shows the Trustees' expectations in wage-based contributions for FYE 2022 to 2025.

FYE	Projected Wage-Based Revenue ($M)
2022	$39.7
2023	66.8
2024	74.1
2025	76.2

These projections are based on an individualized analysis of each of the various industry segments, and take into account all information available to the Trustees. In each case, the Trustees began with the current decline in the industry segment, determined the date in which the segment is reasonably expected to begin to recover and established an expected timeline over which that the recovery would occur, typically on a graduated basis.

  80% of the participants are assumed to have beneficiaries. Male participants are assumed to be three years older than female beneficiaries and female participants are assumed to be three years younger than male beneficiaries.

- **Future Benefit Accruals:**
  Long-term assumptions before reflecting impact of COVID-19 on work levels:
  Current actives until retirement and current in-pay retirees under 65 until age 65: Future years' contributions are assumed to increase by 2.25% per year from those contributions reported for the prior pension credit year.

  Current in-pay retirees at or over 65: Future years' contributions are assumed to be equal to contributions reported for the prior pension credit year.

  Contribution amounts for future retirees and current in-pay retirees under 65 starting at age 65 are shown below:

Attained Age	Annual Contribution Amount
55-75	$750

  Adjustments to long-term assumptions to reflect impact of COVID-19 on work levels:

- **Administrative Expenses:**

  $19.0 million for the 2021-2022 Plan year based on the Fund office's estimated administrative expenses budget for the 2021-2022 Plan year. For FASB ASC Topic 960 plan accounting, the present value of the administrative expenses was calculated by projecting the payment of expected administrative expenses for the duration of the Plan's liabilities. The duration of the Plan's liabilities was calculated to be 12 years at April 1, 2021 and 12 years at April 1, 2020. Projected administrative expenses were increased 2.25% per annum after the valuation year, then discounted using the Plan's investment return assumption of 7.0% as of April 1, 2021 and 7.5% as of April 1, 2020 respectively.

- **Benefit Limitations:**
  The Section 415 limit of $195,000* is applied on an aggregate basis but the participant's total benefit at December 31, 2007 is applied on an employer-by-employer basis using a Section 415 limit of $180,000.

  The Section 401(a)(17) limit of $245,000* is applied on an employer-by-employer basis. For valuation purposes, the Section 401(a)(17) limit is assumed to not apply for future accruals.

  * The limits do not change based on automatic cost-of-living adjustments. Rather, the limits will remain at the noted levels above until the Trustees amend the plan.

- **Assumptions regarding missing or incomplete data:**
  Lost Participants: Assume 100% of lost participants will receive benefits. Lost participants over age 70½ receive actuarial increase from Normal Retirement Date to Required Beginning Date. In addition, a one-time payment of missed payments from Required Beginning Date to the valuation date with interest at 7.5%.

Summary of Lost Participants as of 4/1/2021	
Count	358
Average Age	67
Average Annual Benefit	$2,300
One-Time Payment	$6.3M

  Unreported Data: Active participants with unreported data (gender, date of birth) are assumed to have characteristics of the average group. If not easily determined, participants with unknown sex are assumed to be male.

- **Changes in Assumptions from Prior Valuation**
  The assumptions used in this valuation are the same as those used in the prior valuation except as follows:

Attachment to 2021 Form 5500

- For ERISA minimum funding and FASB ASC Topic 960 plan accounting purposes, the investment return assumption was changed to 7.00% from 7.50%.
- The administrative expense assumption was changed to $19.0 million (based on the Fund office's administrative expenses budget for the 2021-2022 Plan year) from $22.2 million (based on the average of the prior two years' administrative expenses, increased by 2.25% plus an additional $3 million due to the MPRA suspension).
- For Current Liability purposes, the interest rate changed to 2.02% from 2.98%. The statutory mortality tales also have been updated as required by law.
- For withdrawal liability purposes, the interest rate was changed to 1.69% for the first 20 years and ultimate rate of 1.66% from 2.12% for the first 25 years and ultimate rate of 2.26%.

Actuarial Cost Methods

- **Liability Valuation Method:**
  The actuarial cost method used for determining the plan sponsor's ERISA funding requirements and the FASB ASC Topic 960 values is the traditional unit credit actuarial cost method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

- **Asset Valuation Method:**
  The market value of assets is adjusted by smoothing the differences between the expected market value of assets and the actual market value of assets from the past five years. In accordance with the special asset valuation rule under funding relief, the amount of the difference in expected market value of assets and the actual market value of assets for the plan year ending March 31, 2009 is amortized over a 10-year period. The expected value of assets for each year is the market value of assets at the valuation date for the prior year brought forward with interest at the valuation rate to the current year plus contributions minus benefit payments and administrative expenses, all adjusted with interest at the valuation rate from the prior year to the valuation date for the current year. The actuarial value of assets is the resulting amount except if the resulting amount is greater than 120% of the market value, actuarial value of assets is set equal to 120% of market value of assets and if the resulting amount is less than 80% of the market value, actuarial value of assets is set equal to 80% of market value of assets.

  For purposes of determining the unfunded vested benefit liability for withdrawal liability calculations, the asset valuation method is market value.

- **Special amortization rule:**

  The Plan's investment loss for the Plan year ended March 31, 2009 is treated separately from other investment gains/losses, to be amortized in equal installments over the period beginning from April 1, 2009 through March 31, 2039.

The portion of the net experience loss is based on the prospective method as described in Notice 2010-83. The schedule of amortization bases is as follows:

Year	Amount (Gain)/Loss	Years in Amortization Base*	Years in Offset Base*
4/1/09	$ 545,478,705	29	15
4/1/10	(124,097,819)	28	15
4/1/11	153,283,704	27	15
4/1/12	21,184,391	26	15
4/1/13	63,061,837	25	15
4/1/14	45,271,288	24	15
	$ 704,182,106*		

* The total loss of $704,182,106 equals the investment loss for the year ended March 31, 2009.

- **Changes in Method from Prior Valuation**
  The actuarial liability valuation cost method used for determining the plan sponsor's ERISA funding requirement was change to the traditional unit credit actuarial cost method from the entry age normal actuarial cost method. This change is automatically approved by the IRS because it was made pursuant to Revenue Procedure 2000-40.

American Federation of Musicians and Employers' Pension Fund

2021 Schedule R (Form 5500) Attachment

Part V
Additional Employer Information for Multiemployer Defined Benefit Pension Plan

Schedule R, Summary of Rehabilitation Plan/Update of Rehabilitation Plan

Plan Name: American Federation of Musicians and Employers' Pension Fund

Plan Sponsor: Board of Trustees of Above Named Plan

EIN/PN: 51-6120204/001

The Board of Trustees of the Fund (the "Board") adopted a Rehabilitation Plan on April 15, 2010. The main elements of the Rehabilitation Plan, which consists of a single schedule that sets forth benefit modifications and employer contribution requirements, are summarized as follows:

- In addition to the reduction in the Plan's "Benefit Multiplier" that was effective January 1, 2010, the following benefits and benefit alternatives were eliminated (generally effective June 1, 2010):
    - Early retirement subsidies;
    - Benefit guarantees for the single life annuity;
    - "Pop-up" and benefit guarantee features of the 50% joint and survivor annuity;
    - Post-normal retirement age subsidies;
    - Certain forms of benefit for merged plans; and
    - The lump-sum form of benefit offered by the Plan (not including lump sums with an actuarial present value of $5,000 or less.)

- The Rehabilitation Plan requires contributing employers to increase the amount of contributions made to the Plan. Generally, effective for contributions earned on or after June 1, 2010 but before April 1, 2011, the required contribution rate was 104% of the contribution rate otherwise in effect under the collective bargaining agreement or expired collective bargaining agreement. Effective for contributions earned on or after April 1, 2011, the required contribution rate is 109% (excluding the 4% increase, which is not cumulative). There are special rules for employer contributions calculated as set forth in the arbitration award of Burton Turkus and single engagement agreements. The Rehabilitation Plan had a special rule for collective bargaining agreements with terms of more than four years. An update to the Rehabilitation Plan on May 18, 2011 changed that to five years.

- The Rehabilitation Plan provided that the Board will apply to the IRS for an automatic five-year extension of amortization, effective April 1, 2010, pursuant to Section 431(d) of the Code and Section 304(d) of ERISA. However, an update to the Rehabilitation Plan on May 18, 2011 eliminated that provision.

The 10-year rehabilitation period begins on April 1, 2013 and ends on March 31, 2023. After extensive deliberations and an in-depth review of a variety of possible alternatives, the Board concluded that, based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures, the Plan could not reasonably be expected to emerge from critical status by the end of the rehabilitation period, and that the Rehabilitation Plan consisted of reasonable measures adopted by the Board which, based on reasonable actuarial assumptions, could be expected to enable the Plan to emerge from critical status. In the absence of the benefit changes or the increases in employer contribution rates described in this Rehabilitation Plan, the Plan would not have been projected to emerge from critical status at any point during the 40-year projection period used by the Plan's actuaries. When the Rehabilitation Plan was adopted by the Board, the Plan was estimated to emerge from critical status no later than March 31, 2047 and also was not projected to become insolvent at any point during the projection period.

The Board devoted a considerable amount of time and attention to considering the advantages and disadvantages of the alternatives that would enable the Plan to emerge from critical status by the end of the 10-year rehabilitation period. Specifically, the Board considered:

- An alternative schedule reducing the Benefit Multiplier below $1.00.
- A 58% contribution rate increase (or 91%, if the increase generated a benefit accrual) that would have been required if the benefit changes described above were adopted.
- A contribution rate increase of 76.75% (120.5% if benefit accrual generating) if the benefit changes were not adopted.

After considering each of these alternatives, the Board concluded that each would be unreasonable and would involve considerable risk to the long-term health (and even viability) of the Plan.

Until such time as the Pension Protection Act defines more clearly the annual standards for meeting the requirements of a rehabilitation plan that is not expected to emerge from critical status at the end of the 10-year rehabilitation period, the annual standard for satisfying the requirements of the Rehabilitation Plan will be a determination that, based on the updated actuarial projections each year using reasonable actuarial assumptions, the Rehabilitation Plan (as updated and amended from time to time), will enable the Plan to emerge from critical status or forestall possible insolvency.

The Rehabilitation Plan was updated on February 12, 2015 to include the following regarding application of Rehabilitation Plan to future agreements.

If a collective bargaining agreement providing for contributions to the Plan in accordance with the Rehabilitation Plan schedule expires while the Plan is still in critical status and the bargaining parties to the agreement fail to adopt a contribution schedule with terms consistent with the updated Rehabilitation Plan and its contribution schedules, then the contribution schedule under the expired collective bargaining agreement (as updated and in effect on the date the collective bargaining agreement expires) is implemented 180 days after the date on which the collective bargaining agreement expires.

The Rehabilitation Plan originally employed reasonable measures to enable the Plan to emerge from critical status at a later date than the 10-year rehabilitation period. As the Plan is currently not projected to emerge from critical status, the Rehabilitation Plan was restated on June 27, 2016, to employ reasonable measures to enable the Plan to forestall insolvency.

The Rehabilitation Plan was further updated in June 2018 to require an additional 10% increase in the rate of contributions in collective bargaining agreements, or extensions thereof, that expire or, under the update, are deemed to have expired, on or after August 1, 2018. The additional 10% in the rate of contributions will not be used to calculate any participant's benefits under the Plan, but will be used solely to improve the financial health of the Plan.

AMERICAN FEDERATION OF MUSICIANS AND EMPLOYERS' PENSION FUND

PROCEDURE FOR LOCATING MISSING PARTICIPANTS OR BENEFICIARIES

When distribution of a benefit is to commence to a Participant or Beneficiary under the terms of the American Federation of Musicians and Employers' Pension Plan (the "Plan"), and correspondence sent by the Fund Office to the last known address of the Participant or Beneficiary is returned by the Post Office due to an incorrect address, unknown addressee or similar problem, the Plan Administrator shall follow the procedure outlined below in order to locate the missing Participant or Beneficiary:

A. The internal steps taken to locate:
   1. Search
      a- web-based locator services, such as Accurint,
      b- the AFM on-line membership roster, and
      c- no-cost internet search tools, such as Google.
   2. Contact
      a- the AFM Local where the Participant is/was a member,
      b- the Participant's beneficiary, and
      c- the employer and/or Film Musicians' Secondary Markets Fund/Sound Recording Special Payments Fund, if applicable.

   If a different street or email address is found, a second mailing will be done by regular mail and/or an email will be sent. If a different street or email address is notfound or the second mailing produces no response within 30 days proceed to B.

B. The Plan Administrator will send the name, SSN and last known address of the missing Participant or Beneficiary in a periodic report, as needed, to a third-party locator service designed to locate individuals as selected in the discretion of the Plan Administrator (currently, Pension Benefit Information Services[1]).

If the missing Participant or Beneficiary does not respond to the Plan Administrator within six months after the date that the Plan Administrator mails the inquiry concerning the missing Participant or Beneficiary under B above, he or she will be deemed to be "lost" for purposes of Section 8.07 of the Plan – Forfeiture of Unclaimed Benefits of Lost Participants and Beneficiaries. The designation of "Lost Participant or Beneficiary" is noted in the individual's data base record with a reason code, date and comment.

---

[1] For many years the Fund has used the locator services provided by PBI. In addition to a multi-source address search PBI provides a letter writing service. If PBI is unsuccessful in its attempt to confirm an address at the end of its two-month process, the Fund receives a closeout letter that serves as a proof that due diligence was performed.

Re: Pension Protection Act (PPA) Actuarial Certification for Plan Year Beginning April 1, 2018 – American Federation of Musicians & Employers' Pension Fund

In accordance with IRC Section 432(b)(3)(A), we have prepared and attached an actuarial certification for the plan year beginning April 1, 2018 for American Federation of Musicians & Employers' Pension Fund.

In our opinion, the assumptions used for the actuarial certification are individually reasonable based on the experience of the plan and on reasonable expectations of anticipated experience under the plan. The projections in this report are dependent on the assumptions used. Differences between our projections and actual amounts depend on the extent to which future experience conforms to the assumptions made for this analysis. It is certain that actual experience will not conform exactly to the assumptions used in these projections. Actual results will differ from projected amounts to the extent that actual experience is better or worse than expected.

On the basis of the foregoing and as a member of the American Academy of Actuaries (AAA) who meets the Qualification Standards of the AAA to render the actuarial opinion contained herein, I hereby certify that, to the best of my knowledge and belief, this letter is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices.

American Federation of Musicians & Employers' Pension Fund

PPA Actuarial Certification for Plan Year Beginning April 1, 2018

Funding Status Projection Results

An accumulated funding deficiency is projected to occur for the current Plan year ending March 31, 2019.

The funded percentage as of April 1, 2018 is projected to be 62.3%.

The Plan fails tests under both IRC Section 432(b)(2)(B) and IRC Section 432(b)(2)(C), used to determine whether the Plan is in critical status.

PPA Certification

I hereby certify that the American Federation of Musicians & Employers' Pension Fund is considered "critical" for the Plan year beginning April 1, 2018, as defined in the Pension Protection Act of 2006 as amended by the Multiemployer Pension Reform Act of 2014 ("MPRA").

Further, I hereby certify that to the best of my knowledge and belief, the actuarial assumptions employed in preparing this certification are individually reasonable and represent my best estimate of future experience. Additionally, the "projected industry activity" assumption, as required under IRC Section 432(b)(3)(B)(iii), has been provided by the Board of Trustees.

Scheduled Progress

The Pension Protection Act (PPA) requires the actuary to certify whether the plan is making scheduled progress in meeting the requirements of its Rehabilitation Plan. The Rehabilitation Plan for the American Federation of Musicians & Employers' Pension Fund was adopted in April 2010 which reduced certain benefits and increased the Plan's contribution rates. The Trustees determined using reasonable actuarial assumptions and methods that they were unable to adopt a Rehabilitation Plan that would enable the Plan to emerge from critical status by the end of the ten-year Rehabilitation Period on March 31, 2023 which began on April 1, 2013. As a result, the Trustees adopted a Rehabilitation Plan that, in their judgment, consisted of all reasonable measures to either emerge from critical status by a later date than the ten-year period mentioned above or forestall insolvency. The Trustees revised the Rehabilitation Plan effective June 27, 2016 such that in their judgment, it consisted of all reasonable measures to forestall insolvency. The Rehabilitation Plan contribution schedule has been updated effective June, 2018 to require a 10% increase in the rate of contributions with such increases not considered when calculating a pension benefit. As required under the PPA, the Trustees have been and will continue to review the Rehabilitation Plan annually. Based on implementation of the Rehabilitation Plan and reflecting the Plan's experience through March 31, 2018, I hereby certify that the Plan is making scheduled progress as of April 1, 2018 as required under IRC Section 432(b)(3)(A)(ii).

PPA Actuarial Certification for Plan Year Beginning April 1, 2018

Summary of Assumptions/Methods

Our projections are based on:

- April 1, 2017 participant data and April 1, 2017 actuarial valuation results, as described in the actuarial report for the Plan year ended March 31, 2018.

- April 1, 2018 unaudited assets and on investment performance and the summary of receipts and disbursements for the year ended March 31, 2018 provided by the Fund office.

- A change in the target asset allocation, with a transition period assumed to end in the plan year ending March 31, 2022, to: 21% U.S. equity, 14% developed market equity, 5% emerging market equity, 12% investment grade bonds, 15% private equity, 13% private credit, 17% hedge funds, and 3% real estate.

- Investment returns after March 31, 2018 are based on the Fund's target asset allocation and Horizon 10-year capital market survey assumptions for first 10 years and Horizon 20-year capital market survey assumptions thereafter. The assumed rates of return on market assets (net of investment-related administrative expenses) for every year after the plan year ended March 31, 2018 are as follows:

  - April 1, 2018 through March 30, 2019: 5.65%
  - April 1, 2019 through March 30, 2020: 6.54%
  - April 1, 2020 through March 30, 2021: 6.80%
  - April 1, 2021 through March 30, 2022: 6.91%
  - April 1, 2022 through March 30, 2023: 7.21%
  - April 1, 2023 through March 30, 2024: 7.25%
  - April 1, 2024 through March 30, 2025: 7.27%
  - April 1, 2025 through March 30, 2026: 7.29%
  - April 1, 2026 through March 30, 2027: 7.31%
  - On and after April 1, 2027: 7.51%

- No future asset gains or losses other than the gains or losses related to the asset smoothing method.

- An assumption that the active population will remain stable for each plan year after March 31, 2018.

- Input from the Fund's Board of Trustees of increases in earnings of 3.00% per year.

Summary of Assumptions/Methods (continued)

- An update to the Rehabilitation Plan contribution schedule adopted June 2018 to require a 10% increase in the rate of contributions with such increases not considered when calculating a pension benefit with 25% of collective bargaining agreements generally expected to expire over each of the next four years and be renewed with the noted contribution increase.

- Contributions which do not generate benefits from streaming income received pursuant to the Sound Recording Labor Agreement as follows:

  - April 1, 2018 through March 30, 2019: $5,500,000
  - April 1, 2019 through March 30, 2020: $6,000,000
  - On and after April 1, 2020: increasing at 3.00% per year

- Input from the Fund's Board of Trustees that contributions which do not generate benefits will be received pursuant to an agreement with Film Musicians Secondary Markets Fund in the amount of $1,436,448 for the period from April 1, 2018 through March 30, 2019 and increasing at 3.00% per year thereafter.

- All other actuarial assumptions, methods and plan provisions being the same as those used to determine April 1, 2017 actuarial valuation results, except as follows:

  - The mortality projection scale was changed from MP-2015 to MP-2017
  - Administrative expenses are assumed to decrease by $2,527,728 for the plan year ending March 31, 2019
  - Administrative expenses are assumed to increase by 2.25% for each plan year after March 31, 2019

April 1, 2021 Actuarial Valuation of the American Federation of Musicians & Employers' Pension Fund

The actuarial valuation of the American Federation of Musicians & Employers' Pension Fund (the "Plan") for the plan year beginning April 1, 2021 has been completed in accordance with our understanding of the minimum funding requirements under ERISA and the Pension Protection Act of 2006 as well as the applicable sections of the Internal Revenue Code (IRC), including all regulations and guidance issued to date. It also has been completed in accordance with our understanding of FASB ASC Topic 960 for determining plan accounting requirements. The valuation results contained in this report are based on the actuarial methods and assumptions (Appendix A), and principal plan provisions (Appendix B) summarized in the appendices and were developed using models intended for valuations that use standard actuarial techniques. In addition, Appendix C contains information about the Plan's risks.

Purpose of the Valuation

In general, the actuarial valuation determines the current level of employer contributions that, taking into account prior funding, will accumulate assets sufficient to meet benefit payments and administrative expenses when due under the terms of the Plan. This report has been prepared for the American Federation of Musicians & Employers' Pension Fund as of April 1, 2021 to:

- Calculate the Minimum Required Contribution for the plan year beginning April 1, 2021.
- Calculate the Maximum Deductible Contribution for the 2021 fiscal year.
- Determine the actuarial Present Value of Accumulated Plan Benefits as of March 31, 2021 for purposes of disclosing the Plan's liabilities under FASB ASC Topic 960.
- Determine the Plan's unfunded vested benefit liability as of March 31, 2021 for withdrawal liability purposes calculated in accordance with the requirements of the Multiemployer Pension Plan Amendments Act of 1980.
- Review the Plan's funded status.
- Review the experience for the plan year ending March 31, 2021, including the performance of the Plan's assets during the year and changes in the Plan's participant demographics that impact liabilities.
- Provide operational information required for governmental agencies and other interested parties.

Limited Distribution

Milliman's work is prepared solely for the internal business use of the Plan's Trustees and may not be provided to third parties without our prior written consent. Milliman does not intend to benefit or create a legal duty to any third party recipient of its work product. Milliman's consent to release its work product to any third party may be conditioned on the third party signing a release, subject to the following exceptions:

- The Plan may provide a copy of Milliman's work, in its entirety, to the Plan's professional service advisors who are subject to a duty of confidentiality and who agree to not use Milliman's work for any purpose other than to benefit the Plan.
- The Plan may distribute certain work product that Milliman and the Plan mutually agree is appropriate as may be required by the Pension Protection Act of 2006.

Any third party recipient of this work product who desires professional guidance should not rely upon Milliman's work product, but should engage qualified professionals for advice appropriate to its own specific needs.

Reliance

In preparing this report, we relied, without audit, on information (both written and oral) supplied by the Plan's Administrator and Auditor. This information includes, but is not limited to, plan documents and summaries, participant data, and financial information. We found this information to be reasonably consistent and comparable with information used for other purposes. The valuation results depend on the integrity of this information. If any of this information is incomplete or inaccurate, our results may be different and our calculations may need to be revised.

The valuation results were developed using models that use standard actuarial techniques. The intent of the models is to estimate future plan costs. We have reviewed the models, including their inputs, calculations, and outputs for consistency, reasonableness, and appropriateness to the intended purpose and in the compliance with generally accepted actuarial practice and relevant actuarial standards of practice.

Limited Use

Actuarial computations for purposes other than determining the contribution requirements for an ongoing plan (such as for assessing benefit security upon potential plan termination) may yield significantly different results from those shown in this report.

Future actuarial measurements may differ significantly from the current measurements presented in this report due to factors such as, but not limited to, the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as the end of an amortization period or additional cost or contribution requirements based on plan funded status); and changes in plan provisions or applicable law. Except for the information provided in Appendix C, due to the limited scope of the actuarial assignment, we did not perform an analysis of the potential range of such future measurements.

The consultants who worked on this assignment are pension actuaries. Milliman's advice is not intended to be a substitute for qualified legal or accounting counsel.

Certification

In our opinion, each assumption used, other than those assumptions mandated directly by the Internal Revenue Code and regulations thereon, is individually reasonable (taking into account the experience of the Plan and reasonable expectations) and, in combination, such other assumptions offer our best estimate of anticipated experience under the Plan.

On the basis of the foregoing, we hereby certify that to the best of our knowledge and belief, this report is complete and accurate and has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the principles prescribed by the Actuarial Standards Board and the Code of Professional Conduct and Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States promulgated by the American Academy of Actuaries. We are members of the American Academy of Actuaries and meet its Qualification Standards to render the actuarial opinion contained herein.

B. Purpose of the report

In general, the actuarial valuation determines the current level of employer contributions that, taking into account prior funding, will accumulate assets sufficient to meet benefit payments and administrative expenses when due under the terms of the Plan. This report has been prepared for the American Federation of Musicians & Employers' Pension Fund as of April 1, 2021 to:

- Calculate the Minimum Required Contribution for the plan year beginning April 1, 2021.
- Calculate the Maximum Deductible Contribution for the 2021 fiscal year.
- Determine the actuarial Present Value of Accumulated Plan Benefits as of March 31, 2021 for purposes of disclosing the Plan's liabilities under PPA 2006 and FASB ASC Topic 960.
- Determine the Plan's unfunded vested benefit liability as of March 31, 2021 for withdrawal liability purposes calculated in accordance with the requirements of the Multiemployer Pension Plan Amendments Act of 1980.
- Review the Plan's funded status.
- Review the experience for the plan year ending March 31, 2021, including the performance of the Plan's assets during the year and changes in the Plan's participant demographics that impact liabilities.
- Provide operational information required for governmental agencies and other interested parties.

C. Risk Disclosure

The Plan's risk is the potential that future actuarial measurements will differ from the current measurements presented in this report because future experience is different than expected. Risks include investment risk, interest rate risk, longevity and other demographic risks, and contribution risk. As required by Actuarial Standard of Practice No. 51 *Assessment and Disclosure of Risk Associated with Measuring Pension Obligations and Determining Pension Plan Contributions*, Appendix C provides information on the Plan's risks.

D. Actuarial Methods and Assumptions

The methods and assumptions used in this valuation are the same as those used in the prior valuation except as follows:

- The actuarial liability valuation cost method used for determining ERISA minimum funding requirement was changed to traditional unit credit from the entry age normal actuarial cost method.
- The investment return assumption for ERISA minimum funding and FASB ASC Topic 960 plan accounting was changed to 7.00% from 7.50%.
- The administrative expense assumption was changed to $19.0 million (based on the Fund office's administrative expenses budget for the 2021-2022 Plan year) from $22.2 million (based on the average of the prior two years' administrative expenses, increased by 2.25% plus an additional $3 million due to the MPRA suspension).
- For Current Liability purposes, the interest rate changed to 2.02% from 2.98%. (The statutory mortality tables also have been updated as required by law.
- For withdrawal liability purposes, the interest rate was changed to 1.69% for the first 20 years and ultimate rate of 1.66% from 2.12% for the first 25 years and ultimate rate of 2.26%.

These changes resulted in an increase in plan liabilities. Please see Appendix A for a complete summary of all methods and assumptions used in this valuation.

E. Plan Provisions

This valuation reflects the plan provisions in effect on April 1, 2021, which are the same provisions that were valued in the April 1, 2020 actuarial valuation report.

Please see Appendix B for a detailed summary of plan provisions.

The Normal Cost is the amount allocated to the current plan year under the Plan's actuarial cost method. The Actuarial Accrued Liability is the accumulation of all prior Normal Costs. The unfunded Actuarial Accrued Liability is the excess (deficiency) of the Actuarial Accrued Liability over the Actuarial Value of Assets. The employer Normal Cost and the unfunded Actuarial Accrued Liability as of April 1, 2020 and April 1, 2021 are determined below.

Unfunded Vested Benefit Liability for Withdrawal Liability Calculations

Withdrawal liability payments are based on unfunded vested benefit liability. Vested benefit liability is the present value of benefits earned to date, excluding benefits for non-vested participants and certain benefits such as death and disability benefits which are not considered vested. These liabilities have been determined as of March 31, 2020 and March 31, 2021. However, if there is a termination by mass withdrawal during the year, a separate calculation has to be performed.

  - 2.02% for current liability purposes.
  - March 2021 PBGC interest rates for mass withdrawal purposes of 1.69% for first 20 years and ultimate rate of 1.66% for unfunded vested benefit liability for withdrawal liability calculations.

  Disabled: RP-2006 Disabled Annuitant Mortality Table and Mortality Improvement Scale MP-2020 on a generational basis for males and females.

  Mortality Rates Used in Conjunction with Full Funding Limitation Computations

  Test I (ERISA): Based on the Plan's mortality, as defined above.

  Test II (RPA '94): RP-2014 mortality table (male and female rates) with projection for mortality improvement, updated annually, as mandated by the IRS.

* Participants with less than one year of service are not included for valuation purposes. Therefore, this select period with respect to the present value of benefits only impacts participants who have accrued between 1 and 2 years of vesting service as of the valuation date.

Sample rates are shown below for participants who earned $10,000 or more in the plan year prior to the valuation date:

Attained Age	Termination Rate

- **Form of Payment:**

  Future retirees will elect each optional form of benefit as shown below:

Form of Payment	% Electing
Single Life	50%
Joint & 50% Survivor	30
Joint & 75% Survivor	20

60-64	3.0
65-68	20.0
69-70	10.0
71 and Over	100.0

  The weighted average retirement age is 67.2.

- **Pre-Retirement Death Benefits:**

  80% of the participants are assumed to have beneficiaries. Male participants are assumed to be three years older than female beneficiaries and female participants are assumed to be three years younger than male beneficiaries.

- **Future Benefit Accruals:**

  Long-term assumptions before reflecting impact of COVID-19 on work levels:

  Current actives until retirement and current in-pay retirees under 65 until age 65: Future years' contributions are assumed to increase by 2.25% per year from those contributions reported for the prior pension credit year.

  Current in-pay retirees at or over 65: Future years' contributions are assumed to be equal to contributions reported for the prior pension credit year.

  Contribution amounts for future retirees and current in-pay retirees under 65 starting at age 65 are shown below:

Attained Age	Annual Contribution Amount
55-75	$750
76-85	250

  Adjustments to long-term assumptions to reflect impact of COVID-19 on work levels:

  Future benefit accruals adjusted by the same reduction to work levels reflected in the projected contribution income from a participant's contributions during 2019 (if available) described below.

Fiscal Year Ending 3/31	% of Work Level Due to COVID-19
2021	32%
2022	57
2023	91
2024 and later	98

  Participants who are considered terminated since 2020: Assumed to continue to accrue benefits as indicated above but reduced by the probability expected termination since 2020. This assumption resulted in the following revised counts for purposes of accruals:

Status	Accrual Count
Active	21,472
Terminated Vested	12,404

- **Administrative Expenses:**

  $19.0 million for the 2021-2022 Plan year based on the Fund office's estimated administrative expenses budget for the 2021-2022 Plan year. For FASB ASC Topic 960 plan accounting, the present value of the administrative expenses was calculated by projecting the payment of expected administrative expenses for the duration of the Plan's liabilities. The duration of the Plan's liabilities was calculated to be 12 years at April 1, 2021 and 12 years at April 1, 2020. Projected administrative expenses were increased 2.25% per annum after the valuation year, then discounted using the Plan's investment return assumption of 7.0% as of April 1, 2021 and 7.5% as of April 1, 2020 respectively.

- **Benefit Limitations:**

  The Section 415 limit of $195,000* is applied on an aggregate basis but the participant's total benefit at December 31, 2007 is applied on an employer-by-employer basis using a Section 415 limit of $180,000.

  The Section 401(a)(17) limit of $245,000* is applied on an employer-by-employer basis. For valuation purposes, the Section 401(a)(17) limit is assumed to not apply for future accruals.

  * The limits do not change based on automatic cost-of-living adjustments. Rather, the limits will remain at the noted levels above until the Trustees amend the plan.

- **Assumptions regarding missing or incomplete data:**

  Lost Participants: Assume 100% of lost participants will receive benefits. Lost participants over age 70½ receive actuarial increase from Normal Retirement Date to Required Beginning Date. In addition, a one-time payment of missed payments from Required Beginning Date to the valuation date with interest at 7.5%.

Summary of Lost Participants as of 4/1/2021	
Count	358
Average Age	67
Average Annual Benefit	$2,300
One-Time Payment	$6.3M

  Unreported Data: Active participants with unreported data (gender, date of birth) are assumed to have characteristics of the average group. If not easily determined, participants with unknown sex are assumed to be male.

- **Rationale for Significant Assumptions**

  Investment Return for ERISA minimum funding and FASB ASC Topic 960 plan accounting: Selected based on the Plan's target asset allocation as of the valuation date, capital market assumptions from several sources, including published studies summarizing the expectations of various investment experts. This information was used to develop forward-looking long-term expected returns, producing a range of reasonable expectations according to industry experts. Based on the resulting range of potential

assumptions, in our professional judgement the selected investment return assumption is reasonable for this purpose and is not expected to have any significant bias.

Investment Return for withdrawal liability: Rates of return used by the PBGC to value annuities under a mass withdrawal. Withdrawal liability is used to allocate a portion of Unfunded Vested Benefits to employers who withdraw from the fund. A withdrawal is viewed as a settlement similar to an annuity purchase where the transfer of investment risk for a portion of a plan's liabilities is assumed by an insurance company. Use of the PBGC rates reflects the fact that a withdrawn employer transfers investment risk to the remaining employers. As such it is reasonable to use PBGC interest rates that are used to measure plan termination liabilities and which are considered comparable to rates used by insurance companies for annuities to measure the financial obligation of the withdrawing employer. In our professional judgement, the selected investment return assumption for withdrawal liability is reasonable for this purpose and is not expected to have any significant bias.

Mortality: Based on the assumptions and methods contained in our Mortality Experience Study, dated December 23, 2020.

Retirement Rates: Based on analysis of retirements experienced by the Plan from April 2011 through April 2016.

- **Changes in Assumptions from Prior Valuation**

  The assumptions used in this valuation are the same as those used in the prior valuation except as follows:

  - For ERISA minimum funding and FASB ASC Topic 960 plan accounting purposes, the investment return assumption was changed to 7.00% from 7.50%.
  - The administrative expense assumption was changed to $19.0 million (based on the Fund office's administrative expenses budget for the 2021-2022 Plan year) from $22.2 million (based on the average of the prior two years' administrative expenses, increased by 2.25% plus an additional $3 million due to the MPRA suspension).
  - For Current Liability purposes, the interest rate changed to 2.02% from 2.98%. The statutory mortality tales also have been updated as required by law.
  - For withdrawal liability purposes, the interest rate was changed to 1.69% for the first 20 years and ultimate rate of 1.66% from 2.12% for the first 25 years and ultimate rate of 2.26%.

Actuarial Cost Methods

- **Liability Valuation Method:**

  The actuarial cost method used for determining the plan sponsor's ERISA funding requirements and the FASB ASC Topic 960 values is the traditional unit credit actuarial cost method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on service at both the beginning and the end of the current year. The Plan's Normal Cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

- **Asset Valuation Method:**

  The market value of assets is adjusted by smoothing the differences between the expected market value of assets and the actual market value of assets from the past five years. In accordance with the special asset valuation rule under funding relief, the amount of the difference in expected market value of assets and the actual market value of assets for the plan year ending March 31, 2009 is amortized over a 10-year period. The expected value of assets for each year is the market value of assets at the valuation date for the prior year brought forward with interest at the valuation rate to the current year plus contributions minus benefit payments and administrative expenses, all adjusted with interest at the valuation rate from the prior year to the valuation date for the current year. The actuarial value of assets is the resulting amount except if the resulting amount is greater than 120% of the market value, actuarial value of assets is set equal to 120% of market value of assets and if the resulting amount is less than 80% of the market value, actuarial value of assets is set equal to 80% of market value of assets.

  For purposes of determining the unfunded vested benefit liability for withdrawal liability calculations, the asset valuation method is market value.

- **Special amortization rule:**

  The Plan's investment loss for the Plan year ended March 31, 2009 is treated separately from other investment gains/losses, to be amortized in equal installments over the period beginning from April 1, 2009 through March 31, 2039.

  The portion of the net experience loss is based on the prospective method as described in Notice 2010-83. The schedule of amortization bases is as follows:

Year	Amount (Gain)/Loss	Years in Amortization Base*	Years in Offset Base*
4/1/09	$ 545,478,705	29	15
4/1/10	(124,097,819)	28	15
4/1/11	153,283,704	27	15
4/1/12	21,184,391	26	15
4/1/13	63,061,837	25	15
4/1/14	45,271,288	24	15
	$ 704,182,106*		

* The total loss of $704,182,106 equals the investment loss for the year ended March 31, 2009.

- **Changes in Method from Prior Valuation**

  The actuarial liability valuation cost method used for determining the plan sponsor's ERISA funding requirement was change to the traditional unit credit actuarial cost method from the entry age normal actuarial cost method.

Appendix B – Summary of Principal Plan Provisions

Effective Date

November 16, 1959. The plan was amended and restated effective January 1, 2014.

Participation

An eligible employee becomes a participant on January 1 of the year in which the participant earns $750 in Covered Earnings by an Employer who is required to make contributions to the Fund.

Normal Retirement Age

Age 65 or if later, the date on which a Participant completes five years of participation in the Plan.

Vesting Service

Vesting Service is based on the Covered Earnings earned in each calendar year, as follow:

Covered Earnings	Years of Vesting Service
< $750	0.00
$750 - $1,499	0.25
$1,500 - $2,249	0.50

A Participant becomes vested upon completion of 5 years of Vesting Service or upon attainment of Normal Retirement Age.

Regular Pension Benefit

A Participant is eligible to receive a Regular Pension Benefit at Normal Retirement Age or at age 55 with 5 years Vesting Service.

Regular Pension Benefit is calculated by multiplying each $100 of vested contributions earned by a Benefit Multiplier (a specific dollar amount). The monthly benefit amount under the Life Annuity form of payment is calculated in accordance with the following tables:

Effective June 1, 2010 Monthly Amount per $100 of Vested Contributions					
Age	For Contributions for Covered Employment before 1/1/04	For Contributions for Covered Employment Between 1/1/04 and 3/31/07	For Contributions for Covered Employment Between 4/1/07 and 4/30/09	For Contributions for Covered Employment Between 5/1/09 and 12/31/09	For Contributions For Covered Employment on and after 1/1/10
55	$1.70	$1.28	$1.19	$0.73	$0.37
56	1.86	1.40	1.30	0.80	0.40

64	4.16	3.13	2.91	1.79	0.90
65	4.65	3.50	3.25	2.00	1.00

For participants who retire after Normal Retirement Age, the monthly benefit is the regular pension amount at Normal Retirement Age actuarially increased to account for delayed retirement.

Disability Pension Benefits

An active participant who has completed at least 10 years of Vesting Service, who has stopped working in Covered Employment because of a condition of Total Disability, and who has not started to receive a Regular Pension Benefit, is eligible for a Disability Pension Benefit.

The monthly Disability Pension Benefit is calculated by multiplying each $100 of contributions by the applicable age-65 Benefit Multipliers, actuarially reduced to participant's actual age as of the effective date of Disability Pension Benefit.

Pre-Retirement Death Benefits

If a vested participant who has not yet retired dies after age 55, the participant's beneficiary will receive a benefit equal to the benefit the beneficiary would have received had the participant retired on his date of death and elected to receive a 50% Joint and Survivor Annuity.

If a vested participant dies before age 55, the beneficiary's benefit is actuarially equivalent to the 50% Joint and Survivor Annuity at age 55.

Post-Retirement Death Benefits

If a vested participant dies after his or her benefit begins and the pension benefit was being paid as a Joint and Survivor Annuity, the Joint Annuitant will receive 50% of the participant's monthly benefit for his or her lifetime; if the pension benefit was being paid as Life Annuity, the remaining balance of the guaranteed benefit will be paid.

Re-Retirement Benefits

If a participant retires before his or her Normal Retirement Age, later returns to Covered Employment, and earns $50 or more of contributions in at least one calendar year between his or her initial pension Benefit Annuity Start Date and Normal Retirement Age, an additional benefit calculated based on the contributions made on the participant's behalf during that period will be paid as of the first of the month after the participant reaches Normal Retirement Age.

Redetermination Benefits

If a pensioner returns to Covered Employment and earns $50 or more of contributions in a calendar year after Normal Retirement Age, he or she will earn an additional pension benefit. This redetermination benefit is calculated each July 1st based on contributions for Covered Employment earned during the previous calendar year. The redetermination benefit is based on the age-65 Benefit Multiplier in effect at the end of the previous calendar year and is offset by the actuarial equivalent of any redetermination benefit received in the previous year that is based on contributions earned after 2003.

Normal Form of Payment

If a participant has an eligible spouse as of his or her Annuity Starting Date, the normal form of payment is Joint and Survivor Annuity. If a participant does not have an eligible spouse as of the Annuity Starting Date, the normal form of payment will be Single Life Annuity with respect to any benefit earned on and after January 1, 2004. If a portion of the participant's benefit was based on contributions earned prior to January 1, 2004, there is a guaranteed amount of 100 times that portion of the participant's benefit. The guaranteed feature is eliminated for benefit with an annuity starting date on or after June 1, 2010.

Appendix C – Risk Disclosure

The purpose of this appendix is to identify, assess, and provide illustrations of risks that are significant to the Plan, and in some cases to the Plan's participants.

The results of the actuarial valuation are based on one set of reasonable assumptions. However, it is almost certain that future experience will not exactly match the assumptions. As an example, investments may perform better or worse than assumed in any single year and over any longer time horizon. It is therefore important to consider the potential impacts of these likely differences when making decisions that may affect the future financial health of the Plan, or of the Plan's participants.

In addition, as plans mature they accumulate larger pools of assets and liabilities. This increases the potential risk to plan funding and the finances of those who are responsible for plan funding. As an example, it is more difficult for a plan sponsor to deal with the effects of a 10% investment loss on a plan with $1 billion in assets and liabilities than if the same plan sponsor is responsible for a 10% investment loss on a plan with $1 million in assets and liabilities. Since pension plans make long-term promises and rely on long-term funding, it is important to consider how mature the Plan is today, and how mature it may become in the future.

Actuarial Standard of Practice No. 51 (ASOP 51) addresses these issues by providing actuaries with guidance for assessing and disclosing the risk associated with measuring pension liabilities and the determination of pension plan contributions. Specifically, it directs the actuary to:

- Identify risks that may be significant to the Plan.
- Assess the risks identified as significant to the Plan. The assessment does not need to include numerical calculations.
- Disclose plan maturity measures and historical information that are significant to understanding the Plan's risks.

ASOP 51 states that if in the actuary's professional judgment, a more detailed assessment would be significantly beneficial in helping the individuals responsible for the Plan to understand the risks identified by the actuary, then the actuary should recommend that such an assessment be performed.

This appendix uses the framework of ASOP 51 to communicate important information about: significant risks to the Plan, the Plan's maturity, and relevant historical plan data.

Investment Risk

Definition: The potential that investment returns will be different than expected.

Identification: To the extent that actual investment returns differ from the assumed investment return, the Plan's future assets, funding contributions, and funded status may differ significantly from those presented in this valuation.

Interest Rate Risk

Definition: The potential that interest rates will be different than expected.

Identification: The pension liabilities reported herein have been calculated by computing the present value of expected future benefit payments using the interest rate(s) described in Appendix A. If interest rates in future valuations differ from this valuation, future pension liabilities, funding contributions, and funded status may differ significantly from those presented in this valuation. As a general rule, using a higher interest rate to compute the

present value of future benefit payments will result in a lower pension liability, and vice versa. One aspect that can be used to estimate the impact of different interest rates is a plan's duration.

Assessment: If the interest rate changes by 1%, the estimated percentage change in pension liability is a plan's duration in years. The approximate duration of this Plan is 12 years. As such, if the interest rate changes by 1%, the estimated change in pension liability is 12%.

Demographic Risks

Definition: The potential that mortality or other demographic experience will be different than expected.

Identification: The pension liabilities reported herein have been calculated by assuming that participants will follow patterns of demographic experience (e.g., mortality, withdrawal, disability, retirement, form of payment election, etc.) as described in Appendix A. If actual demographic experience or future demographic assumptions are different from what is assumed to occur in this valuation, future pension liabilities, funding contributions, and funded status may differ significantly from those presented in this valuation.

Contribution Risk

Definition: This is the possibility that actual future contributions deviate from expected future contributions.

Identification: The Plan is subject to the contribution risk that if contributions are lower than anticipated, investment income is lost in the intervening period and future collective bargaining agreements will need to have higher contribution rates.

Covered Employment Risk

Definition: The potential that future covered employment is lower than expected due to a declining workforce in a company or industry, or a temporary workforce reduction due to market forces.

Identification: A reduction in the Plan's contribution base can potentially threaten its ability to recover from another market downturn.

Employer Withdrawal Risk

Definition: The potential that contribution rate increases or benefit reductions will drive the bargaining parties to withdraw from the Plan.

Identification: Employer withdrawals will reduce the Plan's contribution base and add pressure on the remaining participating employers and the Plan's investment returns to restore or strengthen the Plan's funded status.

Assessment: Since the Plan has negative cash flow (i.e., annual contributions minus benefit payments and expenses), a reduction in contributions will add even more pressure on assets to achieve or exceed the assumed investment return.

Business Risk

Definition: The potential that a company suffers a financial setback which impairs its ability to make contributions to the Plan.

Identification: If contributions cannot be recovered, it will shift the weight of maintaining the Plan's funded status upon the remaining employers of the Plan.

Zone Status Risk

Definition: The potential that the Plan will deteriorate to a zone status such that the Trustees would need to take action to improve the Plan's funded status through the development of an improvement plan that increases contributions, reduces benefits, or both.

Identification: The type of benefit reductions and/or contribution rate increases would depend on the zone status. Specifically, yellow zone plans are generally limited to reducing benefits, rights, and features on future accruals only. Red zone plans can reduce features on all accrued benefits (such as early retirement subsidies), but cannot reduce benefits to those in pay status. Deep red zone plans have the same tools as red zone plans, but can also apply to the IRS and PBGC to reduce benefits to participants and beneficiaries in pay status.

Maturity Risk

Definition: This is the potential for total plan liabilities to become more heavily weighted toward inactive liabilities over time.

Identification: The Plan is subject to maturity risk because as plan assets and liabilities continue to grow, the impact of any gains or losses on the assets or liabilities also becomes larger.

Assessment: Currently assets are equal to 60 times last year's contributions indicating a one-year asset loss of 10% would be equal to six times last year's contributions.

Liquidity Risk

Definition: This is the potential that assets must be liquidated at a loss earlier than planned in order to pay for the Plan's benefits and operating costs. This risk is heightened for plans with negative cash flow, in which contributions do not exceed annual benefit payments plus expenses.

Identification: The Plan has moderate cash flow requirements because the sum of benefit payments plus expenses exceeds contributions. The Plan also has some allocation to illiquid assets such as real estate and private equity. As a result, there is a risk that assets may need to be liquidated at a loss before planned in order to pay benefits and expenses.
