

PENSION BENEFIT GUARANTY CORPORATION

Semiannual Report to Congress

Management's Response to the OIG Semiannual Report:

April 1, 2021 to September 30, 2021

PENSION BENEFIT GUARANTY CORPORATION

SEMIANNUAL REPORT TO CONGRESS

The Pension Benefit Guaranty Corporation (PBGC) remains dedicated to enhancing the retirement security of over 33 million American workers, retirees, and beneficiaries. We are committed to ethically and effectively carrying out the agency's critical mission and ensuring the agency's employees and contractors operate responsibly, transparently, and in accordance with the law. Through its dedicated, independent work, PBGC's Office of Inspector General (OIG) is important to our continued success in serving the public. PBGC has worked diligently to address OIG's recommendations.

Throughout the COVID-19 pandemic, we have remained fully operational and have ensured that we are preserving plans and protecting pensioners, paying timely and accurate benefits, and maintaining high standards of stewardship and accountability, while focusing on the health and safety of our workforce.

The American Rescue Plan Act of 2021 (ARP), enacted on March 11, 2021, established a new Special Financial Assistance program (SFA), funded by taxpayer funds. PBGC will receive appropriated SFA funds to disburse to multiemployer plans that meet certain criteria. Unlike traditional financial assistance wherein PBGC provides assistance to multiemployer plans in the form of a loan, the new SFA will be provided via a one-time lump-sum payment with no obligation of repayment. In fiscal year (FY) 2021, 68 insolvent and probable multiemployer plans were removed from PBGC's present value of nonrecoverable future financial assistance liability as a result of the new SFA program. The total liability of these 68 plans was \$61.7 million, which significantly reduced PBGC's total liabilities and helped eliminate PBGC's Multiemployer Program deficit.

PBGC has developed initial internal controls to meet the specific requirements and mitigate risks with the SFA program. Management will continue to review the related internal control processes and consider additional controls to maintain our high standards of stewardship, accountability, and integrity. Additionally, PBGC is developing processes and procedures for auditing multiemployer plans that have received SFA, and we will continue to keep the OIG informed. We value the OIG's role and working relationship to prevent fraud, waste, and abuse.

Additionally, while currently financially healthy, the Single-Employer Program remains exposed to more than \$105 billion in underfunding in pension plans sponsored by financially weak companies that could potentially become claims to PBGC.

Over the last 46 years, PBGC has worked diligently to preserve plans, protect plan participants, and ensure participants in trustee plans and their beneficiaries receive timely, uninterrupted benefits. Last year, PBGC attained its 28th consecutive unmodified audit opinion and maintained, in all material respects, effective internal control over financial reporting.

Table 1 presents resolved audit reports issued prior to September 30, 2021, which contain recommendations that remain open. I am pleased to report that PBGC has closed more than 70 percent of the recommendations in these reports. Table 2 summarizes OIG reports requiring final action.

Our ongoing work with Congress, the PBGC Board, and our OIG is critical to carrying out PBGC's vital mission. We remain committed to enhancing internal controls and operations to better serve the workers and retirees we serve.

Gordon Hartogensis
Director
