To: Pension Benefit Guaranty Corporation

Re: UTWA NJ Union Employer Pension Plan –
Application for Special Financial Assistance under ERISA Section 4262

This letter is to formally request Special Financial Assistance (SFA) in accordance with Section 4262 of the Employee Retirement Income Security Act of 1974 (ERISA), PBGC's SFA regulation (29 CFR part 4262) and Section D(1) of the Instructions for Filing Requirements for Multiemployer Plans Applying for SFA.

In accordance with the Instructions for Filing Requirements, the PBGC will accept filings under Section 4262.10(d)(2)(ii) beginning 12/27/2021 for any plan that is insolvent or expected to be insolvent within one year of the date the plan's application is filed. The UTWA NJ Union Employer Pension Plan is projected to become insolvent in the plan year beginning January 1, 2023 and have insufficient resources to pay all benefits under the Plan when due during the 2023 plan year. Based on an SFA measurement date of December 31, 2021, the Plan meets the within one year requirement for filing under priority group 2.

## D(3) - SFA Eligibility Criteria

The Plan was certified by the plan actuary to be in critical and declining status in the plan year beginning January 1, 2020, as indicated in the attached 2020 ceritification of plan status (2020Zone20200331 UTWA Pension Plan.pdf). The information required in Section B(5) of the instructions can be found in the attached 2019 actuarial valuation (2019AVR UTWA Pension Plan.pdf). The cash flow projection below is from the 2019 Schedule MB (Form 5500) attachments and is based on page 6 of the attached 2019 actuarial valuation.

# Cash Flow Projections Projected Market Value of Assets (in millions)

| <u>Date</u> | Market Value |
|-------------|--------------|
| 12/31/2018  | \$2.3        |
| 12/31/2019  | 1.8          |
| 12/31/2020  | 1.2          |
| 12/31/2021  | 0.6          |
| 12/31/2022  | 0.0          |

### D(4) - Priority Group

The Plan is in priority group 2 as described in section 4262.10(d)(2)(ii) of PBGC's SFA regulation. The UTWA NJ Union Employer Pension Plan is projected to become insolvent in the plan year beginning January 1, 2023 and have insufficient resources to pay all benefits under the Plan when due during the 2023 plan year. Based on an SFA measurement date of December 31, 2021, the Plan meets the within one year requirement for filing under priority group 2.

## D(5) - Narrative Description of Future Contributions and Future Withdrawal Liability Payments

Independence Plating is the only remaining contributing employer. As of January 1, 2021, there were two remaining active employees. They will reach normal retirement age during the SFA coverage period when it is assumed they will retire and begin receiving monthly benefit payments.

The Plan's rehabilitation plan is based upon exhaustion of all reasonable measures under Internal Revenue Code Section 432(e)(3)(A)(ii) and does not call for an increase in the contribution rate as such a large increase would be unreasonable. Therefore, it was assumed that Independence Plating will continue to contribute at a rate of \$0.46 per hour.

The two remaining active employees are assumed to work 2,000 hours per year until normal retirement age. Based on this, contributions of \$1,840 (= 2 employees x 2,000 hours/employee x \$0.46/hour) are expected each plan year until the two remaining active employees are assumed to retire.

General Plastics is the only former contributing employer paying withdrawal liability payments. General Plastics pays quarterly payments of \$1,930.75 with their final payment due 12/31/2038.

#### D(6) (a) N/A

(b) Actuarial assumptions used to determine the SFA amount were the same as those used in the pre-2021 certification of plan status (except for the interest rate, which is determined as required by Section 4262.4(e)(1) as shown in Template 4) with the exception of the following:

<u>CBU Assumption</u>: The pre-2021 certification of plan status included an assumption of 2,000 hours per year per employee through the year of insolvency. For the SFA amount this assumption was extended through normal retirement of the two remaining active employees.

Administrative Expenses Assumption: The pre-2021 certification of plan status included an annual assumption of \$114,000 in administrative expenses through the year of insolvency. For the SFA amount this assumption was extended through the end of the SFA coverage period with an increase to reflect the PBGC premium increase under Section 4006(a)(3)(A) of ERISA that goes into effect in 2031.

We believe the proposed assumption changes are reasonable and in accordance with paragraph A "Adoption of assumptions not previously factored into pre-2021 certification of plan status" of Section III, Acceptable

Assumption Changes of PBGC's guidance on Special Financial Assistance Assumptions.

In addition to the above, we have not limited projected administrative expenses for each year to 15% of the projected benefit payments for such year after insolvency and through the end of the SFA coverage period. Many future retirees will have very small benefit amounts and as projected benefit payments decrease, applying the 15% cap to these future benefit payments results in unrealistic future administrative expenses. We believe it is unlikely that administrative expenses will decrease during the SFA coverage period.

D(7) N/A

D(8) The most recent audited financial statements are as of December 31, 2020 (see attached 20201231 Financial Statements UTWA Pension Plan.pdf). The Plan's auditor prepared a reconciliation of assets from December 31, 2020 to December 31, 2021, the SFA measurement date (see attached 20211231 Reconciliation of Assets UTWA Pension Plan.pdf).

## **SECTION E(3)**

The UTWA NJ Union Employer Pension Plan is projected to become insolvent in the plan year beginning January 1, 2023 and have insufficient resources to pay all benefits under the Plan when due during the 2023 plan year. Based on an SFA measurement date of December 31, 2021, the Plan meets the within one year requirement for filing under priority group 2. The Plan is expected to be insolvent within one year of the application filing date and therefore, I hereby cerifiy that the Plan is in priority group 2, as defined in Section 4262.10(d)(2)(ii) of PBGC's SFA regulations.

Monica B. DeRyder, EA, ASA Enrolled Actuary #20-05499

#### **SECTION E(4)**

This is to certify that the requested amount of SFA is the amount to which the Plan is entitled under Section 4262(j)(1) of ERISA and Section 4262.4 of PBGC's SFA regulation and to identify the methods and assumptions used in the calculation of the SFA amount and the source of the participant data.

Monica B. DeRyder, EA, ASA Enrolled Actuary #20-05499

Actuarial methods and assumptions used to determine the SFA amount were the same as those used in the pre-2021 certification of plan status (except for the interest rate, which was determined as required by Section 4262.4(e)(1) as shown in Template 4) and are provided in the attached 2019 actuarial valuation with the exception of the following:

<u>CBU Assumption</u>: The pre-2021 certification of plan status included an assumption of 2,000 hours per year per employee through the year of insolvency. For the SFA amount this assumption was extended through normal retirement of the two remaining active employees.

Administrative Expenses Assumption: The pre-2021 certification of plan status included an annual assumption of \$114,000 in administrative expenses through the year of insolvency. For the SFA amount this assumption was extended through the end of the SFA coverage period with an increase to reflect the PBGC premium increase under Section 4006(a)(3)(A) of ERISA that goes into effect in 2031. Projected administrative expenses for each year have not been limited to 15% of the projected benefit payments for such year (see page 4 of attached Section D).

The participant census data used in determining the SFA amount is as of January 1, 2021 the same as used in the January 1, 2021 actuarial valuation.

## **SECTION E(5)**

The Board of Trustees is submitting an application to the Pension Benefit Guaranty Corporation for Special Financial Assistance under ERISA Section 4262 and PBGC's SFA regulation (29 CFR part 4262). This is to certify that the amount of the fair market value of assets as of the SFA measurement date, December 31, 2021, used in the application is accurate. The plan auditor provided a reconciliation of the fair market value of assets from December 31, 2020, the date of the most recent audited financial statements, to the SFA measurement date. The reconciliation is included with this application (see attached 20211231 Reconciliation of Assets UTWA Pension Plan.pdf).

Application Checklist v20210708p

Instructions for Section E, Item 1 of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance (SFA):

The Application for Approval of Special Financial Assistance Checklist ("Application Checklist" or "Checklist") identifies all information required to be filed with the application.

The information in this Application Checklist, and the Application Checklist itself, are uploaded in PBGC's e-Filing Portal by logging into the e-Filing Portal, going to the Multiemployer Events section and clicking on "Create New ME Filing," and then under "Select a Filing Type," selecting "Application for Financial Assistance – Special." Note, if you go to the e-Filing Portal and do not see the option "Application for Financial Assistance – Special," this means that the portal is currently closed and PBGC is not accepting applications at this time, unless the plan is eligible to make an emergency filing under § 4262.10(f). PBGC's website at <a href="https://www.pbgc.gov">www.pbgc.gov</a> will be updated when the e-Filing Portal reopens for applications. PBGC maintains information on its website at <a href="https://www.pbgc.gov">www.pbgc.gov</a> to inform prospective applicants about the current status of the e-Filing portal, as well as to provide advance notice of when PBGC expects to open or temporarily close the e-Filing Portal.

General instructions for completing the Application Checklist:

Complete all items that are shaded:

If required information was already filed: (1) through PBGC's e-Filing Portal; or (2) through any means for an insolvent plan, a plan that has received a partition, or a plan that submitted an emergency filing, the filer may either upload the information with the application or include a statement in the Plan Comments section of the Application Checklist indicating the date on which and the submission with which the information was previously filed. For any such items previously provided, enter N/A as the **Plan Response**.

If a revised application is filed after a denial was received but the application was not withdrawn, the revised application must differ from the denied application only to the extent necessary to address the reasons provided by PBGC for the denial. For the revised application, the filer may, but is not required to, submit an entire application. A revised application for SFA must use the same SFA measurement date, participant census data, and interest rate assumption as were used in the plan's initial application. For all Application Checklist Items that were previously filed that are not being changed, the filer may include a statement in the Plan Comments section of the Application Checklist to indicate that the other information was previously provided as part of the initial application. For each, enter N/A as the Plan Response.

If a revised application is filed after an application was withdrawn, the revised application must use the same SFA measurement date, participant census data, and interest rate assumption from the initial application. Upload only the information that changed from the initial application. For all Application Checklist Items that were previously filed that are not being changed, include a statement in the Plan Comments section of the Application Checklist to indicate that the information was previously provided as part of the initial application. For each, enter N/A as the **Plan Response**.

You must select N/A if a Checklist Item # is not applicable to your application. Your application will be considered incomplete if No is entered as a Plan Response for any of Checklist Items #1 through #47 on the Application Checklist. If there has been a plan merger as described in § 4262.4(f)(1)(ii), you also must provide responses for Checklist Items #48 through #60 on the Application Checklist. If you are required to provide responses for Checklist Items #48 through 60, your application will be considered incomplete if No is entered as a Plan Response for any of Checklist Items #48 through #60 on the Application Checklist. | Unifoil          | 25.00               |

#### UNFUNDED VESTED BENEFITS

The Multiemployer Pension Plan Amendments Act of 1980 defines Unfunded Vested Benefits (U.V.B.) as the excess of the actuarial present value of vested plan benefits over the market value of assets. The U.V.B. as of January 1, 2017 is as follows:

| (a) | Actuarial present value of vested plan benefits | \$6,031,301 |
|-----|---|-------------|
| (b) | Market value of assets                          | 3,043,168   |
| (c) | Payment received from Spiral Binding on 2/16/17 | 258,782     |
| (d) | Unfunded Vested Benefits: $(a) - (b) - (c)$     | 2,729,351   |

As of January 1, 2017, the market value of assets plus payment from Spiral Binding (\$3,301,950) is 54.7% of the actuarial present value of vested plan benefits (\$6,031,301). This is also the Funded Percentage under the Pension Protection Act of 2006.

#### **FUND PROJECTION**

As of December 31, 2016 the Total Assets of the Fund plus the payment from Spiral Binding are \$3,301,950. Based on the actuarial assumptions in this Report, the Fund will become insolvent in the plan year beginning January 1, 2023 unless the Rehabilitation Plan is followed.

#### RESULTS OF THE ACTUARIAL VALUATION

The current actuarial valuation was made as of January 1, 2017. The calculations covered 5 active employees, 299 inactive employees and 239 persons receiving pension payments. The funding requirements of the present benefits provided under the Plan have been determined as of the current actuarial valuation date for the 543 persons included in the calculations as follows:

Actuarial present value of all benefits

|                                      | Active employees                             | \$ | 5           | 51,504 |  |          |            |

The required annual contribution to amortize the unfunded actuarial liability in 10 years and pay estimated annual administrative expenses of \$116,000 is \$492,000.

## FUNDING STANDARD ACCOUNT

Section 412 of the Internal Revenue Code contains rules on minimum funding standards. Since 1976 the Pension Fund has kept a funding standard account which is reported annually to the Internal Revenue Service. The account is charged with minimum contribution requirements and credited with actual employer contributions.

If the funding standard account has a credit balance at the end of a plan year, the minimum standard has been met. If the account has a deficit, the minimum standard has failed to be met. A deficit imposes the taxes contained in Section 4971 of the Internal Revenue Code on the contributing employers.

The funding standard account decreased from \$774,940 to \$340,153 in the plan year ending December 31, 2016. Our projections indicate that the account will have a deficit in the plan year beginning January 1, 2018.

#### ACTUARIAL COST METHOD AND ASSUMPTIONS

Funding requirements are determined by the Unit Credit Actuarial Cost Method.

The normal cost of the Plan is the amount needed to fund the projected benefit accruals in the plan year beginning January 1, 2017.

The actuarial accrued liability is the lump sum required on the current actuarial valuation date to provide for all future benefit payments earned up to the present.

The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over valuation assets.

The actuarial assumptions on which the current actuarial valuation has been based are illustrated below for representative ages.

**Interest:** 7% compounded annually (net of investment fees).

**Mortality:** 1983 Group Annuity Mortality Table, except for disabled

lives where a higher rate of mortality is used.

**Terminations**: (other than by death)

#### UNFUNDED VESTED BENEFITS

The Multiemployer Pension Plan Amendments Act of 1980 defines Unfunded Vested Benefits (U.V.B.) as the excess of the actuarial present value of vested plan benefits over the market value of assets. The U.V.B. as of January 1, 2018 is as follows:

| (a) | Actuarial present value of vested plan benefits | \$5,894,266 |
|-----|---|-------------|
| (b) | Market value of assets                          | 2,975,230   |
| (c) | Unfunded Vested Benefits: (a) – (b)             | 2,919,036   |

As of January 1, 2018, the market value of assets (\$2,975,230) is 50.5% of the actuarial present value of vested plan benefits (\$5,894,266). This is also the Funded Percentage under the Pension Protection Act of 2006.

#### FUND PROJECTION

As of December 31, 2017 the Total Assets of the Fund are \$2,975,230. Based on the actuarial assumptions in this Report, the Fund will become insolvent in the plan year beginning January 1, 2023 unless the Rehabilitation Plan is followed.

#### RESULTS OF THE ACTUARIAL VALUATION

The current actuarial valuation was made as of January 1, 2018. The calculations covered 4 active employees, 284 inactive employees and 243 persons receiving pension payments. The funding requirements of the present benefits provided under the Plan have been determined as of the current actuarial valuation date for the 531 persons included in the calculations as follows:

Actuarial present value of all benefits

Active employees \$ 20,010

Inactive former employees 1,455,288

Pensioners and beneficiaries 4,418,968

Total \$5,894,266

Valuation assets 2,975,230

Unfunded actuarial accrued liability \$2,919,036

Annual normal cost due 1/1/18 \$ 0

The required annual contribution to amortize the unfunded actuarial liability in 10 years and pay estimated annual administrative expenses of \$117,000 is \$519,000.

### **FUNDING STANDARD ACCOUNT**

Section 412 of the Internal Revenue Code contains rules on minimum funding standards. Since 1976 the Pension Fund has kept a funding standard account which is reported annually to the Internal Revenue Service. The account is charged with minimum contribution requirements and credited with actual employer contributions.

If the funding standard account has a credit balance at the end of a plan year, the minimum standard has been met. If the account has a deficit, the minimum standard has failed to be met. A deficit imposes the taxes contained in Section 4971 of the Internal Revenue Code on the contributing employers.

The funding standard account decreased from \$340,153 to \$84,855 in the plan year ending December 31, 2017. Our projections indicate that the account will have a deficit in the plan year beginning January 1, 2018.

#### ACTUARIAL COST METHOD AND ASSUMPTIONS

Funding requirements are determined by the Unit Credit Actuarial Cost Method.

The normal cost of the Plan is the amount needed to fund the projected benefit accruals in the plan year beginning January 1, 2018.

The actuarial accrued liability is the lump sum required on the current actuarial valuation date to provide for all future benefit payments earned up to the present.

The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over valuation assets.

The actuarial assumptions on which the current actuarial valuation has been based are illustrated below for representative ages.

**Interest:** 7% compounded annually (net of investment fees).

**Mortality:** 1983 Group Annuity Mortality Table, except for disabled

lives where a higher rate of mortality is used.

**Terminations**: (other than by death)

**ACTUARIAL CERTIFICATION** 

This actuarial valuation was carried out in our office under our direction in

accordance with the foregoing description, and was based on generally accepted

actuarial principles and practices. To the best of our knowledge and belief, this

actuarial valuation report exhibits the true financial condition of the Plan as of

January 1, 2018 based on the data made available to us, is complete and accurate,

and complies with the requirements of the Employee Retirement Income Security Act.

In our opinion, the assumptions and techniques used and described in our report are,

in the aggregate, reasonably related to the experience of the Plan and to reasonable

- 5. Eligibility for Early Retirement Age 55 and 10 years of credit.
- 6. **Eligibility for Disability Retirement** Eliminated effective January 1, 2011.
- 7. **Pension Benefit** The normal and disability monthly pension is a benefit rate times years of credit as follows:

| <u>Employer</u>  | <u>Benefit Rate</u> |

| General Plastics | \$19.34             |
| Unifoil          | 25.00               |

- (i) After retirement, none. The pension is reduced to provide one-half of such reduced pension to the spouse after the employee's death unless the employee and his spouse reject the reduced pension.
- (ii) If death occurs before retirement and after 10 years of credit have been earned and if the employee has a spouse, a lifetime pension commencing on the date the employee would have attained age 55 is payable to the spouse.
- 10. **Amendment** The Plan may be amended by the Trustees at any time.

#### UNFUNDED VESTED BENEFITS

The Multiemployer Pension Plan Amendments Act of 1980 defines Unfunded Vested Benefits (U.V.B.) as the excess of the actuarial present value of vested plan benefits over the market value of assets. The U.V.B. as of January 1, 2019 is as follows:

(a) Actuarial present value of vested plan benefits \$5,610,113
 (b) Market value of assets 2,259,857

(c) Unfunded Vested Benefits: (a) – (b) 3,350,256

As of January 1, 2019, the market value of assets (\$2,259,857) is 40.3% of the actuarial present value of vested plan benefits (\$5,610,113). This is also the Funded Percentage under the Pension Protection Act of 2006.

#### FUND PROJECTION

As of December 31, 2018 the Total Assets of the Fund are \$2,259,857. Based on the actuarial assumptions in this Report, the Fund will become insolvent in the plan year beginning January 1, 2022.

#### RESULTS OF THE ACTUARIAL VALUATION

The current actuarial valuation was made as of January 1, 2019. The calculations covered 2 active employees, 279 inactive employees and 238 persons receiving pension payments. The funding requirements of the present benefits provided under the Plan have been determined as of the current actuarial valuation date for the 519 persons included in the calculations as follows:

Actuarial present value of all benefits

Active employees \$ 17,043

Inactive former employees 1,438,087

Pensioners and beneficiaries 4,154,983

Total \$5,610,113

Valuation assets 2,259,857

Unfunded actuarial accrued liability \$3,350,256

Annual normal cost due 1/1/19 \$ 0

The required annual contribution to amortize the unfunded actuarial liability in 10 years and pay estimated annual administrative expenses of \$114,000 is \$576,000.

#### FUNDING STANDARD ACCOUNT

Section 412 of the Internal Revenue Code contains rules on minimum funding standards. Since 1976 the Pension Fund has kept a funding standard account which is reported annually to the Internal Revenue Service. The account is charged with minimum contribution requirements and credited with actual employer contributions.

If the funding standard account has a credit balance at the end of a plan year, the minimum standard has been met. If the account has a deficit, the minimum standard has failed to be met. A deficit imposes the taxes contained in Section 4971 of the Internal Revenue Code on the contributing employers.

The funding standard account decreased from \$84,855 to \$-484,077 in the plan year ending December 31, 2018. Our projections indicate that the deficit will continue to increase.

#### ACTUARIAL COST METHOD AND ASSUMPTIONS

Funding requirements are determined by the Unit Credit Actuarial Cost Method.

The normal cost of the Plan is the amount needed to fund the projected benefit accruals in the plan year beginning January 1, 2019.

The actuarial accrued liability is the lump sum required on the current actuarial valuation date to provide for all future benefit payments earned up to the present.

The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over valuation assets.

The actuarial assumptions on which the current actuarial valuation has been based are illustrated below for representative ages.

**ACTUARIAL CERTIFICATION** 

This actuarial valuation was carried out in our office under my direction in

accordance with the foregoing description, and was based on generally accepted

actuarial principles and practices. To the best of my knowledge and belief, this

actuarial valuation report exhibits the true financial condition of the Plan as of

January 1, 2019 based on the data made available to us, is complete and accurate,

and complies with the requirements of the Employee Retirement Income Security Act.

In our opinion, the assumptions and techniques used and described in our report are,

in the aggregate, reasonably related to the experience of the Plan and to reasonable

expectations, and represent our best estimate of anticipated experience under the

Plan.

#### UNFUNDED VESTED BENEFITS

The Multiemployer Pension Plan Amendments Act of 1980 defines Unfunded Vested Benefits (U.V.B.) as the excess of the actuarial present value of vested plan benefits over the market value of assets. The U.V.B. as of January 1, 2020 is as follows:

| (a) | Actuarial present value of vested plan benefits | \$5,448,794 |
|-----|---|-------------|
| (b) | Market value of assets                          | 1,944,512   |
| (c) | Unfunded Vested Benefits: (a) - (b)             | 3,504,282   |

As of January 1, 2020, the market value of assets (\$1,944,512) is 35.7% of the actuarial present value of vested plan benefits (\$5,448,794). This is also the Funded Percentage under the Pension Protection Act of 2006.

#### **FUND PROJECTION**

As of December 31, 2019 the Total Assets of the Fund are \$1,944,512. Based on the actuarial assumptions in this Report, the Fund will become insolvent in the plan year beginning January 1, 2023.

#### RESULTS OF THE ACTUARIAL VALUATION

The current actuarial valuation was made as of January 1, 2020. The calculations covered 2 active employees, 271 inactive employees and 236 persons receiving pension payments. The funding requirements of the present benefits provided under the Plan have been determined as of the current actuarial valuation date for the 509 persons included in the calculations as follows:

#### Actuarial present value of all benefits

| Active employees                     | \$ 19,419 |             |
|--------------------------------------|-----------|-------------|
| Inactive former employees            | 1,399,523 |             |
| Pensioners and beneficiaries         | 4,029,852 |             |
| Total                                |           | \$5,448,794 |
| Valuation assets                     |           | 1,944,512   |
| Unfunded actuarial accrued liability |           | \$3,504,282 |
| Annual normal cost due 1/1/20        |           | \$ 0        |

#### **FUNDING STANDARD ACCOUNT**

Section 412 of the Internal Revenue Code contains rules on minimum funding standards. Since 1976 the Pension Fund has kept a funding standard account which is reported annually to the Internal Revenue Service. The account is charged with minimum contribution requirements and credited with actual employer contributions.

If the funding standard account has a credit balance at the end of a plan year, the minimum standard has been met. If the account has a deficit, the minimum standard has failed to be met. A deficit imposes the taxes contained in Section 4971 of the Internal Revenue Code on the contributing employers.

The funding standard account deficit increased from \$484,077 to \$1,088,682 in the plan year ending December 31, 2019. Our projections indicate that the deficit will continue to increase.

#### ACTUARIAL COST METHOD AND ASSUMPTIONS

Funding requirements are determined by the Unit Credit Actuarial Cost Method.

The normal cost of the Plan is the amount needed to fund the projected benefit accruals in the plan year beginning January 1, 2020.

The actuarial accrued liability is the lump sum required on the current actuarial valuation date to provide for all future benefit payments earned up to the present.

The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over valuation assets.

The actuarial assumptions on which the current actuarial valuation has been based are illustrated below for representative ages.

**Interest:** 7% compounded annually (net of investment fees).

**Mortality:** 1983 Group Annuity Mortality Table, except for disabled lives where a higher rate of mortality is used.

The actuarial accrued liability is the lump sum required on the current actuarial valuation date to provide for all future benefit payments earned up to the present.

The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over valuation assets.

The actuarial assumptions on which the current actuarial valuation has been based are illustrated below for representative ages.

#### Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, information regarding the United Textile Workers of America New Jersey Union Employer Pension Plan's net assets available for benefits as of December 31, 2020 and changes therein for the year then ended, and its financial status as of December 31, 2019, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, in my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

#### NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

- Death Benefit If an employee dies before eligibility for vesting, early or normal retirement, no benefit is payable. If an employee dies after eligibility for early or normal retirement, his surviving spouse receives for life one-half the amount the employee would have received if he had retired on his date of death and received payment in the joint and is survivor form. The same benefit is payable to the surviving spouse of vested employee who is not eligible for early retirement, but the benefit does not begin until the date the employee would have attained age 55. If a pensioner dies, death benefits are paid in accordance with the form of payment elected at the time of retirement.
- 9. Termination Benefit A participant who has worked after December 31, 1998 with at least five years of vesting service has a non-forfeitable right to 100% of his or her accrued benefit. A participant who has worked prior to December 31, 1998 with at least ten years of vesting service has a non-forfeitable right to 100% of his or her accrued benefit.
- Amendment The Plan may be amended by the Trustees at any time.

#### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. Basis of Accounting The accompanying financial statements are prepared on the accrual basis of accounting.
- B. Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.
- C. Allowance for Doubtful Accounts The Fund uses the allowance method to account for uncollectible contribution receivable. At December 31, 2020 and 2019, the Fund had allowances of \$0 and \$17,239
- D. Valuation of Investments and Income Recognition if available, quoted market prices are used to value investments.
- E. Actuarial Present Value of Accumulated Plan Benefits Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that members have rendered. The actuarial present value of accumulated plan benefits is determined by an actuary from the IE Shaffer Plan Administrators and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The Fund is using the beginning of the year balances for financial statement presentation for statement of accumulated plan benefits and changes in accumulated plan benefits for December 31, 2020 and 2019.

The significant actuarial assumptions used in the valuations as of December 31, 2019 were (1) life expectancy of participants (the 1983 group annuity mortality table, except for disabled lives where a higher mortality rate is used) and (2) retirement age assumption (the assumed retirement age was 65).

Notes to Financial Statements December 31, 2020 and 2019

#### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

- F. Investment Return The 2020 valuation included assumed average rates of return of 7.00%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.
- G. Purchases and Sales of Securities Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.
- Reclassification Certain items in the 2019 financial statements have been reclassified to conform to the 2020 presentation.

#### NOTE 3: FUNDING POLICY

The multi-employers' funding policy is to contribute a flat rate per hour worked for each employee to the trust, which represents the full cost of providing retirement and death benefits for its participants as determined by an enrolled actuary. Each company's contribution rate differs as determined by the actuary. The company's contribution levels ranged from 46 cents to 58 cents an hour. In 2020 and 2019, the company's contributions were subject to a 10% surcharge because the Plan was in critical status.

#### NOTE 4: PLAN TERMINATION

- A. First, in the case of benefits payable as an annuity -
  - 1. In the case of the benefit of a Participant or Beneficiary which was in pay status as of the beginning of the three year period ending on the termination or partial termination date of the Plan, to each such benefit, based on the provisions of the Plan (as in effect during the five year period ending on such date) under which such benefit would be the least, provided, however, the lowest benefit in pay status during a three year period shall be considered the benefit in pay status for such period.
  - 2. In the case of a participant's or Beneficiary's benefit which would have been in pay status as of the beginning of such three year period if the Participant had retired prior to the beginning of the three year period and if his benefits had commenced (in the normal form of annuity under the Plan) as of the beginning of such period, to each such benefit based on the provisions of the Plan, (as in effect during the five year period ending on such date) under which such benefit would be the least.
- B. Other vested benefits insured by the Pension Benefit Guarantee Corporation (PBGC), a government agency, up to the applicable limitations.
- C. All other vested benefits (that is vested benefits not insured by the PBGC).
- D. All non-vested benefits.

#### NOTE 5: FAIR VALUE MEASUREMENTS

The Plan adopted the provisions of FASB ASC 820-10-50, "Fair Value Measurements" effective January 1, 2008. Under FASB ASC 820-10-50, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Plan uses various valuation approaches. FASB ASC 820-10-50 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan assumption about the inputs market participants would use in pricing an asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets:
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or hability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value used at December 31, 2020.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes it valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

#### NOTE 8: PLAN AMENDMENT

For the years ended December 31, 2020 and 2019, there were no amendments to the plan.

On January 20, 2016, the Trustees adopted a resolution to amend the Plan in accordance with Article I (28). Article I (28) is amended to read:

"Distributee" means an Employee or former Employee. In addition, the Employee's or former Employee's surviving Spouse and the Employee's or former Employee's Spouse or former Spouse who is the alternate payee under a qualified domestic relations order, as defined in section 414(p) of the Code, are Distributees with regards to the interest of the Spouse or former Spouse. In addition, a non-spouse Beneficiary is a Distributee.

The accompanying notes are an integral part of the financial statements

Notes to Financial Statements December 31, 2020 and 2019

#### NOTE 9: FEDERAL INCOME TAX

The Internal Revenue Service has determined and informed the Company by a letter dated December 5, 2001 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

The plan obtained its latest determination letter on March 15, 2018, in which the Internal Revenue Service states that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

#### NOTE 10: CONCENTRATION OF RISK

For year ending December 31, 2020, the Plan had one employer that comprised 100% of the funds' contributions and one employer that comprises 100% of the funds' contributions receivable at December 31, 2020. For year ending December 31, 2019, the Plan had one employer that comprised 100% of the funds' contributions and one employer that comprises 100% of the funds' contributions receivable at December 31, 2019. This excluded the one withdrawal liability contributions in 2020 and 2019 of \$7.723 and \$7.723, respectively.

#### NOTE IT: EMPLOYER STATUS

On June 1, 2018, an employer in the pension fund gave notice of their withdrawal from the pension plan. The Plan Trustees and the employer negotiated an employer's withdrawal liability settlement of \$154,460. The employer will make quarterly payments of \$1,930 for a term of twenty years.

Notes to Financial Statements December 31, 2020 and 2019

#### NOTE 12: PLAN STATUS

On March 31, 2021, the Plan's actuary certified to the United States Department of the Treasury and also the Board of Trustees that the Plan is in critical status for the plan year beginning January 1, 2021. The Plan is in critical and declining status as described in Internal Revenue Code Sec 432(b)(2)(B). The Plan is also in critical and declining status as described in Internal Revenue Code Sec 432(b)(2)(B). The Plan is also in critical and declining status as described in Internal Revenue Code Sec 432(b) (6). The Plan is not making the scheduled progress in meeting the requirements of Rehabilitation Plan since employer contribution rates have not been increased to those in the Rehabilitation Plan. Federal law requires that a notice is given to the employers. The Plan is considered to be in critical and declining status because it has funding or liquidity problems, or both. More specifically, the Plan's actuary determined that 1) the Plan is projected to become insolvent in 2023. The Plan's actuary determined that the funded percentage of the Plan is projected to become insolvent in 2023. The Plan's actuary determined that the funded percentage of the Plan is less than 65 percent and over the next four plan years, the Plan is projected to have an accumulated funding deficiency for the year beginning January 1, 2015. The Plan being in critical status for the second years would require a five percent (5%) surcharge in the initial critical year and ten percent (10%) surcharge for all succeeding years on the employer's contributions.

On March 31, 2016, the Plan's actuary certified to the United States Department of the Treasury and also the Board of Trustees that the Plan is in critical status for the plan year beginning January 1, 2016. Federal law requires that a notice is given to the employers. The Plan is considered to be in critical status because it has funding or liquidity problems, or both. The Plan's actuary determined that the funded percentage of the Plan is less than 65 percent and over the next four plan years, the Plan is projected to have an accumulated funding deficiency for the year beginning January 1, 2015.

The Trustees adopted a rehabilitation plan on November 16, 2011 and will update the plan later during 2018. The rehabilitation plan adopted on November 5, 2010 eliminated all adjustable benefits

The Federal law requires pension plans in critical status to adopt a rehabilitation plan aimed at restoring the financial health of the plan. The law permits pension plans to reduce, or even eliminate, benefits called "adjustable benefits" as part of a rehabilitation plan. If benefits are reduced by the Plan Trustees then a separate notice is required. Any reduction of the adjustable benefits will not reduce the level of a participant's basic benefits payable at normal retirement. In addition, the reduction may only apply to participants and beneficiaries whose benefit commencement date is on or after April 30, 2010.

The Plan offers the following adjustable benefits which may be reduced or eliminated as part of any rehabilitation plan the pension plan may adopt:

- Disability benefits if not yet in pay status
- 2 Benefit payments options other than a qualified joint and survivor annuay

The law requires that all contributing employers pay the Plan a surcharge to help correct the Plan's financial situation. The amount of the surcharge is equal to a percentage of the amount of an employer is otherwise required to contribute to the Plan under the applicable collective bargaining agreement. With some exception, a five (5) percent surcharges are applicable in the initial critical year and a ten (10) percent surcharges is applicable for each succeeding plan year thereafter in which the Plan is in critical status. The Plan contributing employers paid a ten (10) percent surcharge for years ending December 31, 2020 and 2019, respectively.

- 4. **Eligibility for Normal Retirement** Later of age 65 and 5 years after covered employment commenced.
- 5. **Eligibility for Early Retirement** Age 55 and 10 years of credit.
- 6. **Eligibility for Disability Retirement** Eliminated effective January 1, 2011.
- 7. **Pension Benefit** The normal and disability monthly pension is a benefit rate times years of credit as follows:

| <u>Employer</u>  | <u>Benefit Rate</u> |
|------------------|---------------------|
|                  |                     |
| General Plastics | \$19.34             |

| Spiral Binding   | 10.97               |
| Independence     | 17.15               |

The early retirement pension is calculated by the normal formula and then reduced by 5/9 of 1% for each month early between ages 60 and 65 and 5/18 of 1% for each month early prior to age 60.

8. **Vested Rights** - An employee has a vested right to a normal pension at age 65 after he has earned 5 years of vesting credit. One year of vesting credit is earned for each plan year in which 870 or more hours are worked. The vested pension is the normal pension accrued at date of termination.

### 9. **Death Benefit** -

- (i) After retirement, none. The pension is reduced to provide one-half of such reduced pension to the spouse after the employee's death unless the employee and his spouse reject the reduced pension.
- (ii) If death occurs before retirement and after earning non-forfeitable rights and if the employee has a spouse, a lifetime pension commencing on the date the employee would have attained age 55 is payable to the spouse.
- 10. **Amendment** The Plan may be amended by the Trustees at any time.

#### **UNFUNDED VESTED BENEFITS**

The Multiemployer Pension Plan Amendments Act of 1980 defines Unfunded Vested Benefits (U.V.B.) as the excess of the actuarial present value of vested plan benefits over the market value of assets. The U.V.B. as of January 1, 2021 is as follows:

(a) Actuarial present value of vested plan benefits \$5,073,861

(b) Market value of assets 1,561,794

(c) Unfunded Vested Benefits: (a) – (b) 3,512,067

As of January 1, 2021, the market value of assets (\$1,561,794) is 30.8% of the actuarial present value of vested plan benefits (\$5,073,861). This is also the Funded Percentage under the Pension Protection Act of 2006.

#### **FUND PROJECTION**

As of December 31, 2020 the Total Assets of the Fund are \$1,561,794. Based on the actuarial assumptions in this Report, the Fund will become insolvent in the plan year beginning January 1, 2023.

### **RESULTS OF THE ACTUARIAL VALUATION**

The current actuarial valuation was made as of January 1, 2021. The calculations covered 2 active employees, 220 inactive employees and 227 persons receiving pension payments. The funding requirements of the present benefits provided under the Plan have been determined as of the current actuarial valuation date for the 449 persons included in the calculations as follows:

#### **FUNDING STANDARD ACCOUNT**

Section 412 of the Internal Revenue Code contains rules on minimum funding standards. Since 1976 the Pension Fund has kept a funding standard account which is reported annually to the Internal Revenue Service. The account is charged with minimum contribution requirements and credited with actual employer contributions.

If the funding standard account has a credit balance at the end of a plan year, the minimum standard has been met. If the account has a deficit, the minimum standard has failed to be met. A deficit imposes the taxes contained in Section 4971 of the Internal Revenue Code on the contributing employers.

The funding standard account deficit increased from \$1,088,682 to \$1,720,351 in the plan year ending December 31, 2020. Our projections indicate that the deficit will continue to increase.

#### ACTUARIAL COST METHOD AND ASSUMPTIONS

Funding requirements are determined by the Unit Credit Actuarial Cost Method.

The normal cost of the Plan is the amount needed to fund the projected benefit accruals in the plan year beginning January 1, 2021.

The actuarial accrued liability is the lump sum required on the current actuarial valuation date to provide for all future benefit payments earned up to the present.

The unfunded actuarial accrued liability is the excess of the actuarial accrued liability over valuation assets.

The actuarial assumptions on which the current actuarial valuation has been based are illustrated below for representative ages.

**Interest:** 7% compounded annually (net of investment fees).

**Mortality:** 1983 Group Annuity Mortality Table, except for disabled

lives where a higher rate of mortality is used.

**ACTUARIAL CERTIFICATION** 

This actuarial valuation was carried out in our office under my direction in

accordance with the foregoing description, and was based on generally accepted

actuarial principles and practices. To the best of my knowledge and belief, this

actuarial valuation report exhibits the true financial condition of the Plan as of

January 1, 2021 based on the data made available to us, is complete and accurate,

and complies with the requirements of the Employee Retirement Income Security Act.

In our opinion, the assumptions and techniques used and described in our report are,

in the aggregate, reasonably related to the experience of the Plan and to reasonable

expectations, and represent our best estimate of anticipated experience under the

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

My responsibility is to express an opinion on these financial statements based on my audits. I conducted my audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

#### Opinion

In my opinion, the financial statements referred to above present fairly, in all material respects, information regarding the United Textile Workers of America New Jersey Union Employer Pension Plan's net assets available for benefits as of December 31, 2020 and changes therein for the year then ended, and its financial status as of December 31, 2019, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Report on Supplementary Information

The supplemental schedules of assets held at the end of year December 31, 2020, schedule of assets (acquired and disposed of within year) at the end of the year December 31, 2020 and schedules of reportable transactions, together referred to as "supplemental information "are presented for the purpose of additional analysis and are not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

#### NOTE 1: DESCRIPTION OF PLAN (CONTINUED)

- Beath Benefit If an employee dies before eligibility for vesting, early or normal retirement, no benefit is payable. If an employee dies after eligibility for early or normal retirement, his surviving spouse receives for life one-half the amount the employee would have received if he had retired on his date of death and received payment in the joint and ½ survivor form. The same benefit is payable to the surviving spouse of vested employee who is not eligible for early retirement, but the benefit does not begin until the date the employee would have attained age 55. If a pensioner dies, death benefits are paid in accordance with the form of payment elected at the time of retirement.
- 9. Termination Benefit A participant who has worked after December 31, 1998 with at least five years of vesting service has a non-forfeitable right to 100% of his or her accrued benefit. A participant who has worked prior to December 31, 1998 with at least ten years of vesting service has a non-forfeitable right to 100% of his or her accrued benefit
- 10. Amendment The Plan may be amended by the Trustees at any time.

# NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. Basis of Accounting The accompanying financial statements are prepared on the accrual basis of accounting.
- B. Estimates The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.
- C. Allowance for Doubtful Accounts The Fund uses the allowance method to account for uncollectible contribution receivable. At December 31, 2020 and 2019, the Fund had allowances of \$0 and \$17,239
- D. Valuation of Investments and Income Recognition if available, quoted market prices are used to value investments.
- E. Actuarial Present Value of Accumulated Plan Benefits Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service that members have rendered. The actuarial present value of accumulated plan benefits is determined by an actuary from the IE Shaffer Plan Administrators and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment. The Fund is using the beginning of the year balances for financial statement presentation for statement of accumulated plan benefits and changes in accumulated plan benefits for December 31, 2020 and 2019.

The significant actuarial assumptions used in the valuations as of December 31, 2019 were (1) life expectancy of participants (the 1983 group annuity mortality table, except for disabled lives where a higher mortality rate is used) and (2) retirement age assumption (the assumed retirement age was 65).

Notes to Financial Statements December 31, 2020 and 2019

### NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

- F. Investment Return The 2020 valuation included assumed average rates of return of 7.00%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.
- G. Purchases and Sales of Securities Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.
- H. Reclassification Certain items in the 2019 financial statements have been reclassified to conform to the 2020 presentation.

#### NOTE 3: FUNDING POLICY

The multi-employers' funding policy is to contribute a flat rate per hour worked for each employee to the trust, which represents the full cost of providing retirement and death benefits for its participants as determined by an enrolled actuary. Each company's contribution rate differs as determined by the actuary. The company's contribution levels ranged from 46 cents to 58 cents an hour. In 2020 and 2019, the company's contributions were subject to a 10% surcharge because the Plan was in critical status.

#### NOTE 4: PLAN TERMINATION

- A. First, in the case of benefits payable as an annuity -
  - 1. In the case of the benefit of a Participant or Beneficiary which was in pay status as of the beginning of the three year period ending on the termination or partial termination date of the Plan, to each such benefit, based on the provisions of the Plan (as in effect during the five year period ending on such date) under which such benefit would be the least, provided, however, the lowest benefit in pay status during a three year period shall be considered the benefit in pay status for such period.
  - 2. In the case of a participant's or Beneficiary's benefit which would have been in pay status as of the beginning of such three year period if the Participant had retired prior to the beginning of the three year period and if his benefits had commenced (in the normal form of annuity under the Plan) as of the beginning of such period, to each such benefit based on the provisions of the Plan, (as in effect during the five year period ending on such date) under which such benefit would be the least.
- B. Other vested benefits insured by the Pension Benefit Guarantee Corporation (PBGC), a government agency, up to the applicable limitations.
- C. All other vested benefits (that is vested benefits not insured by the PBGC).
- D. All non-vested benefits.

The accompanying notes are an integral part of the financial statements

#### NOTE 5: FAIR VALUE MEASUREMENTS

The Plan adopted the provisions of FASB ASC 820-10-50, "Fair Value Measurements" effective January 1, 2008. Under FASB ASC 820-10-50, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

In determining fair value, the Plan uses various valuation approaches. FASB ASC 820-10-50 establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Plan. Unobservable inputs reflect the Plan assumption about the inputs market participants would use in pricing an asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

Level 1 Inputs to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

#### Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. The following is a description of the valuation methodologies used for assets measured at fair value used at December 31, 2020.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes it valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

|                                     | Level 1         | Lev | el 2 | Le | evel 3 |    | Total     |

In addition, a non-spouse Beneficiary is a Distributee.

Notes to Financial Statements December 31, 2020 and 2019

#### NOTE 9: FEDERAL INCOME TAX

The Internal Revenue Service has determined and informed the Company by a letter dated December 5, 2001 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2020, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2016.

The plan obtained its latest determination letter on March 15, 2018, in which the Internal Revenue Service states that the plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

#### NOTE 10: CONCENTRATION OF RISK

For year ending December 31, 2020, the Plan had one employer that comprised 100% of the funds' contributions and one employer that comprises 100% of the funds' contributions receivable at December 31, 2020. For year ending December 31, 2019, the Plan had one employer that comprised 100% of the funds' contributions and one employer that comprises 100% of the funds' contributions receivable at December 31, 2019. This excluded the one withdrawal liability contributions in 2020 and 2019 of \$7,723 and \$7,723, respectively.

#### NOTE 11: EMPLOYER STATUS

On June 1, 2018, an employer in the pension fund gave notice of their withdrawal from the pension plan. The Plan Trustees and the employer negotiated an employer's withdrawal liability settlement of \$154,460. The employer will make quarterly payments of \$1,930 for a term of twenty years.

Notes to Financial Statements December 31, 2020 and 2019

#### NOTE 12: PLAN STATUS

On March 31, 2021, the Plan's actuary certified to the United States Department of the Treasury and also the Board of Trustees that the Plan is in critical status for the plan year beginning January 1, 2021 The Plan is in critical and declining status as described in Internal Revenue Code Sec 432(b)(2) since the Plan is described in Internal Revenue Code Sec 432(b)(2)(B). The Plan is also in critical and declining status as described in Internal Revenue Code Sec 432(b) (6). The Plan is not making the scheduled progress in meeting the requirements of Rehabilitation Plan since employer contribution rates have not been increased to those in the Rehabilitation Plan. Federal law requires that a notice is given to the employers. The Plan is considered to be in critical and declining status because it has funding or liquidity problems, or both. More specifically, the Plan's actuary determined that 1) the Plan is projected to have an accumulated funding deficiency for the plan year beginning January 1, 2019 and 2) the Plan is projected to become insolvent in 2023. The Plan's actuary determined that the funded percentage of the Plan is less than 65 percent and over the next four plan years, the Plan is projected to have an accumulated funding deficiency for the year beginning January 1, 2015. The Plan being in critical status for the second years would require a five percent (5%) surcharge in the initial critical year and ten percent (10%) surcharge for all succeeding years on the employer's contributions.

On March 31, 2016, the Plan's actuary certified to the United States Department of the Treasury and also the Board of Trustees that the Plan is in critical status for the plan year beginning January 1, 2016. Federal law requires that a notice is given to the employers. The Plan is considered to be in critical status because it has funding or liquidity problems, or both. The Plan's actuary determined that the funded percentage of the Plan is less than 65 percent and over the next four plan years, the Plan is projected to have an accumulated funding deficiency for the year beginning January 1, 2015.

The Trustees adopted a rehabilitation plan on November 16, 2011 and will update the plan later during 2018. The rehabilitation plan adopted on November 5, 2010 eliminated all adjustable benefits.

The Federal law requires pension plans in critical status to adopt a rehabilitation plan aimed at restoring the financial health of the plan. The law permits pension plans to reduce, or even eliminate, benefits called "adjustable benefits" as part of a rehabilitation plan. If benefits are reduced by the Plan Trustees then a separate notice is required. Any reduction of the adjustable benefits will not reduce the level of a participant's basic benefits payable at normal retirement. In addition, the reduction may only apply to participants and beneficiaries whose benefit commencement date is on or after April 30, 2010.

The Plan offers the following adjustable benefits which may be reduced or eliminated as part of any rehabilitation plan the pension plan may adopt:

- 1. Disability benefits if not yet in pay status
- 2. Benefit payments options other than a qualified joint and survivor annuity

The law requires that all contributing employers pay the Plan a surcharge to help correct the Plan's financial situation. The amount of the surcharge is equal to a percentage of the amount of an employer is otherwise required to contribute to the Plan under the applicable collective bargaining agreement. With some exception, a five (5) percent surcharges are applicable in the initial critical year and a ten (10) percent surcharges is applicable for each succeeding plan year thereafter in which the Plan is in critical status. The Plan contributing employers paid a ten (10) percent surcharge for years ending December 31, 2020 and 2019, respectively.

#### NOTE 13: LEGAL SETTLEMENT

On March 10, 2016, the Administrator of the Plan entered into a settlement agreement with Independence Plating Corporation for employer's contributions that were in arrears for the periods December 31, 2014 thru December 31, 2016 The settlement agreement calls for Independence Plating Corporation to pay the Plan \$59,979.37 for the period of ending December 31, 2014 and any amounts owed for the years 2015 and 2016. Commencing on April 1, 2016, Independence Plating Corporation is required to make fixed, monthly payments in the amount of \$1,000.00 due on the first month day of each month until the entire obligation is paid in full. On May 26,2021, Independence Plating paid in full the settlement agreement.

#### NOTE 14: SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through October 7, 2021, which is the date the financial statements were available for issuance. All subsequent events requiring recognition as October 7, 2021 have been disclosed accordingly.

### ARTICLE V

## **PAYMENT OF PENSION**

(1) If an Employee has a Spouse on the date pension payments are to commence, and if such Employee has not elected otherwise in writing filed with the Trustees during the period of at least 90 days (a) following the furnishing (by the Trustees on or about nine months prior to the first date that a Participant becomes eligible to retire other than because of disability) to the Participant, a written explanation of (i) the reduced joint and survivor payment basis described herein, (ii) the circumstances in which such payment basis would be provided (unless the Participant has elected otherwise), (iii) the availability of the alternative election, (iv) the relative financial effect of both choices and (v) the consent rights of the Spouse and the Participant's rights to make and revoke an election to waive such reduced payment basis (and the effect of either making or revoking such election), and (b) ending on the date such payments commence, the amount of pension payments on the Full Annuity Form shall be reduced automatically to a percentage thereof payable to the Employee for life and upon his death payable at the rate of one-half of such reduced amount to his Spouse for life after the Employee's death. Such percentage for early or Normal Retirement shall be 90%, and for disability retirement shall be 80%, if the Spouse's date of birth is five or fewer years different from the Employee's date of birth reduced (increased, but not more than 99.9%) by 1/2% for each additional full year of age difference that the Spouse is younger (older) than the Employee. Any election by the Employee to waive such reduced joint and survivor payment basis shall not become effective unless his Spouse (i) consents in writing to such election, (ii) acknowledges the effect of such election and (iii) the Spouse's consent and acknowledgement is witnessed by a notary public, or it is established to the satisfaction of the Trustees that the consent

of the Spouse is not obtainable because there is no Spouse, the Spouse cannot be located or due to other circumstances prescribed by the Secretary of the Treasury.

(2) (a) Except as provided in Article V(1), an Employee who retires on or after January 1, 2014 upon or after Normal Retirement shall receive a monthly pension on the Full Annuity Form equal to the Employee's number of years of Credited Service at his retirement or other termination of employment multiplied by the applicable benefit rate determined from the following table. Credited Service after January 31, 2009 shall not be included.

| <u>Employer</u>  | Benefit Rate |
|------------------|--------------|
| General Plastics | \$19.34      |
| Unifoil          | \$25.00      |
| Annin & Co.      | \$10.80      |
| Spiral Binding   | \$10.97      |
| Independence     | \$17.15      |

- (b) If the benefit determined in (a) above commences after eligibility for Normal Retirement, such amount shall be increased by 2/3 of 1% of itself for each month by which the starting date of the pension payments succeeds the first of the month coinciding with or next following his 65th birthday.
- (3) (a) Except as provided in Article V(1), a former Employee who retires on or after January 1, 2014 who has a non-forfeitable right shall receive upon or after Normal Retirement a monthly pension on the Full Annuity Form equal to his Accrued Benefit.
  - (b) If the benefit determined in (a) above commences after eligibility for Normal Retirement, such amount shall be increased by 2/3 of 1% of itself for each month by which the starting date of the pension payments succeeds the first of the month coinciding with or next following his 65<sup>th</sup> birthday.

- (4) Except as provided in Article V(1), each Employee or former Employee who is eligible for and elects to retire on an early retirement pension shall receive a monthly pension on the Full Annuity Form as described in Article V but reduced by 5/9 of 1% of itself for each full month or fraction thereof up to 60 months by which the starting date of the pension payments precedes the Employee's 65th birthday and reduced by 5/18 of 1% of itself for each full month or fraction thereof by which the starting date of the pension payments precedes the Employee's 60th birthday.
- (5) In the event it is determined that a Participant is unable to care for his affairs because of mental or physical condition, any payments due may, unless claim shall have been made therefor by a guardian, be paid to the Spouse or such other object of natural bounty of the payee or such person or governmental authority having custody of the payee as the Trustees shall determine.
- (6) If a Pensioner other than a disability Pensioner accepts employment within the area for which credits under the Pension Plan are earned, pension payments payable prior to eligibility for Normal Retirement shall immediately cease as of the first of the month next following the date of such employment and pension payments payable after eligibility for Normal Retirement shall not be paid during any month in which an Employee has at least 40 Hours of Service. Upon retirement from such re-employment, the amount of his pension payments shall be recomputed and adjusted for any early retirement benefits not paid and to recognize additional benefits earned during reemployment, but with no change in the Accrued Benefit for service prior to his previous retirement. Any Pensioner who accepts such employment shall, within one week of commencement of such employment, give notice in writing thereof to the office of the Fund and be required to reimburse the Pension Fund for all pension benefits accepted in violation of the

Pension Plan. Upon receipt by the office of the Pension Fund of such notice of reemployment by a Pensioner after eligibility for Normal Retirement, or upon continuation of covered (Hours of Service for which credits under the Pension Plan are earned) employment after such eligibility, the office of the Pension Fund shall notify the Participant in writing of this Pension Plan provision that his pension payments are suspended for any month in which he is employed (after becoming eligible for Normal Retirement) for at least 40 Hours of Service in any area for which credits under the Pension Plan are earned, the specific reasons for such suspension, the claim provision of Article IX(3), and a statement that authorization is contained in Department of Labor Regulation 2530.203-3.

- (7) If a Participant has recovered from disability prior to becoming eligible for Normal Retirement so that his disability pension payments have stopped, he shall thereafter, notwithstanding any other provision of Article V, be able to apply for and receive all pension payments for which he is otherwise eligible. Disability pension payments that he has already received during disability shall be ignored in determining the amount of any future pensions available under Article V and Grace Hours shall be granted for the period of such disability.
- (8) Notwithstanding any other provision of the Pension Plan, once an Employee has received pension payments under the provision of Article V(4), he shall not thereafter be approved for any other type of pension benefit under the Pension Plan.
- (9) Distribution of benefits payable under this Plan shall commence no later than April 1st following the calendar year in which the Employee attains age 70½.
- (10) In addition to any other limitations set forth in the Plan and notwithstanding any other provisions of the Plan, effective for Limitation Years beginning on and after January 1, 2008, benefits under the Plan shall be limited in accordance with section 415 of the Code and the

Treasury Regulations thereunder. This Article V(10) is intended to incorporate the requirements of section 415 of the Code by reference except as otherwise specified herein.

- (a) For purposes of this Article V(10), the following terms shall have the following meanings:
  - (i) Limitation Year."Limitation Year" means the calendar year.
  - (ii) Plan Benefit.
    - "Plan Benefit" means, as of any date, the amount of a Participant's benefit as determined under the applicable provisions of the Plan before the application of the limits in this Article V(10).
- (b) For Limitation Years beginning on or after January 1, 2008, in no event shall a Participant's benefit accrued under the Plan for a Limitation Year exceed the annual dollar limit determined in accordance with section 415 of the Code and the Treasury Regulations thereunder (the "annual dollar limit") for that Limitation Year. If a Participant's Plan Benefit for a Limitation Year beginning on or after January 1, 2008 would exceed the annual dollar limit for that Limitation Year, the accrued benefit, but not the Plan Benefit, shall be frozen or reduced so that the accrued benefit does not exceed the annual dollar limit for that Limitation Year.
- (c) For Limitation Years beginning on or after January 1, 2008, in no event shall the annual amount of the benefit distributed or otherwise payable to or with respect to a Participant under the Plan in a Limitation Year exceed the annual dollar limit for that Limitation Year. If the benefit distributable or otherwise payable in a Limitation Year would exceed the annual dollar limit for that Limitation Year, the benefit shall be reduced so that the benefit distributed or otherwise payable does not exceed the annual dollar limit for that Limitation Year.

- (d) To the extent permitted by law, the application of the provisions of this Article V(10) shall not cause the benefit that is accrued, distributed or otherwise payable for any Participant to be less than the Participant's accrued benefit as of December 31, 2006 under the provisions of the Plan that were both adopted and in effect before April 5, 2007 and that satisfied the limitations under section 415 of the Code and the Treasury Regulations thereunder as in effect as of January 1, 2008.
- (e) In the event that the aggregate benefit accrued in any Plan Year by a Participant exceeds the limits under section 415 of the Code and the Treasury Regulations thereunder as a result of the mandatory aggregation of the benefits under this Plan with the benefits under another plan maintained by an Employer, the benefits of the other plan shall be reduced to the extent necessary to comply with section 415 of the Code and the Treasury Regulations thereunder. This provision does not apply to another multiemployer plan.
- (f) To the extent that a Participant's benefit is subject to provisions of section 415 of the Code and the Treasury Regulations thereunder that have not been set forth in the Plan, such provisions are hereby incorporated by reference into this plan and for all purposes shall be deemed a part of the Plan.
- (g) This Article V(10) is intended to satisfy the requirements imposed by section 415 of the Code and the Treasury Regulations thereunder and shall be construed in a manner that will effectuate this intent. This Article V(10) shall not be construed in a manner that would impose limitations that are more stringent than those required by section 415 of the Code and the Treasury Regulations thereunder.
- (h) The 415 Compliance Appendix (adopted on 07/31/08) replaced only the applicable section 415 of the Code in Article XII of the January 1, 2011 restated Plan.

- (11) No distribution of benefits shall provide for the following:
  - (a) A period certain extending beyond the life expectancy of a beneficiary designated by the Participant, and
  - (b) A period certain exceeding five years, if benefits are payable to a beneficiary not designated by the Participant, and
  - (c) Any other violation of the provisions of Section 401(a)(9) of the Code.
- Article V(11) of the Plan that provides for required minimum distributions is amended to state that distributions will be made by the Required Beginning Date, which is defined generally as the April 1 of the calendar year following the later of: (i) the calendar year in which the Employee attains age 70½, or (ii) the calendar year in which the Employee retires. A 5% owner as defined in IRC 416(i)(1)(i) must begin receiving a benefit specified in (i) above without regard to (ii). Also, for all distributions under the Plan, Article V(11) will meet the requirements of Treas. Regs. 1.401(a)(9)-2 through 1.401(a) (9)-9, including the incidental benefit requirements of IRC 401(a)(9)(G).

#### ARTICLE VI

# **NON-FORFEITABLE RIGHTS**

- (1) An Employee, who does not have non-forfeitable rights and is not eligible for either early or Normal Retirement, shall have all of his accrued Credited Service and Service cancelled if he has at least five consecutive one year Breaks in Service.
- An Employee shall have a non-forfeitable right to his Accrued Benefit when he has accumulated five years of Service. If an Employee ceases employment covered by the Plan other than because of death after he has acquired a non-forfeitable right, he shall be eligible to receive pension payments as provided in Articles III and V.
- (3) No benefit of the Pension Plan shall be divested for cause.

#### ARTICLE VII

# **DEATH BENEFITS**

- (1) If an Employee dies before acquiring a non-forfeitable right to his Accrued Benefit no death benefits are payable.
- (2) If an Employee or former Employee with a non-forfeitable right dies without a surviving Spouse no death benefits are payable.
- (3) If there is a surviving Spouse at the time of death of an Employee or former Employee with a non-forfeitable right but while not receiving pension payments, such Spouse shall receive a monthly pension for life, to commence (if the Employee died before becoming eligible to retire on an early retirement pension or a Normal Retirement pension) on the first day of the month following the Employee's earliest possible commencement date as provided in Article I(24) and Article III(1) and (2), or to commence (if the Employee died after becoming eligible to retire on an early retirement pension or a Normal Retirement pension) on the first day of the month following the date of death of the Employee, equal to one-half the percentage, as set forth in Article V(1) of the Full Annuity Form of monthly pension that the Employee would have received if he had retired on such commencement date and elected such automatic reduced pension.
- (4) If there is a surviving Spouse in the event of death of a Pensioner, and if the Pensioner had not elected in writing filed with the Trustees to revoke the otherwise automatic conversion to a reduced pension, the Spouse shall receive pension payments for life equal to one-half of the monthly pension that the Pensioner was receiving to commence on the first day of the month following the Pensioner's date of death.
- (5) In the event of death of any other Pensioner whose pension commenced other than on the automatic conversion to a reduced joint and survivor basis, his Spouse or

Beneficiary shall receive death benefits, if any, based on the optional form of benefit selected at retirement.

#### **ARTICLE VIII**

#### **BENEFICIARY**

- (1) Each Participant shall designate a Beneficiary to receive any limited amount of payments due under the Pension Plan after the Participant's death. The Beneficiary shall be designated by the Participant in writing on a form provided by the Trustees. The Participant may change his designation of Beneficiary at any time by signing and filing with the Trustees a new Beneficiary designation form. The consent of a Beneficiary to the change in designation shall not be required. The latest designation of Beneficiary in the possession of the Trustees at the time of death of the Participant shall control.
- (2) In the event that no Beneficiary has been designated, or the designated Beneficiary does not survive the Participant, the lump sum death benefit or the discounted value of monthly pension payments to which a Beneficiary would have been entitled shall be paid in one lump sum to the Participant's estate. If the Beneficiary is surviving at the death of the Participant but such Beneficiary does not live to receive all payments due, the discounted value of such payments shall be paid in one lump sum to the Beneficiary's estate. The discounted value shall be determined using 5% compound annual interest.

#### **ARTICLE IX**

#### **ADMINISTRATION**

- (1) The Trustees are the named fiduciary who shall control and manage the operation and administration of the Pension Plan, or designate an administrative manager for such purposes. The Trustees shall establish rules, make determinations and interpret and decide all matters arising in connection with such administration and, in connection therewith, they shall act in accordance with the Agreement and Declaration of Trust.
- (2) Every Participant, or his representative, if required, shall furnish to the Trustees all information in writing as may be required by them for the purpose of administering the Pension Plan. The Trustees shall be the sole judges of the standard of proof required in any case, and they may adopt such formulas, methods and procedures as they consider advisable.
- (3) Any Participant whose claim for benefits under the Pension Plan is denied will be advised by the Trustees in writing of the denial, and the specific reasons therefor. Upon receipt by the Trustees of written request within 75 days after being so advised of the denial, such Participant will be afforded an opportunity to meet with the Trustees for a full and fair review of both the claim and the decision rendered, including the right to review the Pension Plan and any other pertinent documents and to submit issues and comments in writing. The result of such review by the Trustees shall be communicated in writing to the Participant within 60 days after the request for a review is received and shall include specific reasons for the decision.
- (4) Notwithstanding any provision of the Plan to the contrary that would otherwise limit a Distributee's election under this Article IX(4), a Distributee may elect, at the time and in the manner prescribed by the Trustees, to have any portion of an Eligible Rollover

- Distribution paid directly to an Eligible Retirement Plan specified by the Distributee in a Direct Rollover.
- (5) Employer withdrawal liability shall be determined using the second alternative method of ERISA (ERISA Sec. 4211(c)(3)).

#### ARTICLE X

#### AMENDMENT OR DISCONTINUANCE OF THE PLAN

- (1) The Pension Plan may be amended by the Trustees subject to the following conditions:
  - (a) Prior to the satisfaction of all liabilities for benefits under the Pension Plan, no part of the assets of the Pension Fund shall, by reason of any amendment or otherwise, be used for or diverted to purposes other than for the exclusive benefit of Participants including the payment of administrative expenses of the Pension Plan and Pension Fund; and
  - (b) No amendment shall reduce a Participant's Accrued Benefit (which, for this purpose, shall include an early retirement privilege or subsidy and an optional form of settlement unless a similar such form is retained with respect to benefits for Credited Service before the effective date of the amendment) or the amount of pension payments that he is receiving or for which he is eligible as of the beginning of the Plan Year in which the amendment is adopted or is effective.
  - (c) If such amendment modifies the vesting provision in Article VI, both:
    - (i) each Participant who has at least 3 years of Credited Service on the later of the date such amendment is adopted or is effective may elect to have the existing vesting provisions apply to him rather than any new vesting provisions, provided that such election is made within 90 days after he is informed of such choice, and
    - (ii) the non-forfeiture percentage of each Participant's Accrued Benefit shall not decrease.
- (2) It is the intention of the Union and the Employers that the Pension Plan shall be continued indefinitely. However, the Pension Plan shall be discontinued whenever the

Pension Fund is terminated in accordance with the Agreement and Declaration of Trust, subject to the applicable restrictions of the Employee Retirement Income Security Act of 1974 or any other similar law and subject to Article X(1)(a). No part of the Pension Fund shall revert to the Union or the Employers. Upon the termination or partial termination of the Pension Plan, the right of each Participant to his Accrued Benefit or amount of pension payments that he is receiving or eligible to receive as of the date of such termination or partial termination, in the case of rights which are not already nonforfeitable under other provisions of the Pension Plan, are non-forfeitable to the extent funded. However, each Participant shall have no recourse toward the satisfaction of such non-forfeitable rights other than from the assets of the Pension Fund or the Pension Benefit Guarantee Corporation. The assets of the Pension Fund, after providing for the payment of administrative expenses of the Pension Plan and Pension Fund, shall be allocated to the Participants at such termination or partial termination. The basis of such allocation shall be incorporated into the Pension Plan by an amendment made thereto prior to the actual, if any, termination or partial termination of the Pension Plan.

(3) The allocation referred to in Article X(2) shall be accomplished through either (a) continuance of the Pension Fund or a new trust fund, (b) purchase of insurance company annuity contracts with level payments over a period not greater than the annuitant's life expectancy and to commence no later than the first day of a month when he has both attained Normal Retirement and discontinued all work within the area for which credits under the Pension Plan are earned, (c) single lump sum cash payments, or (d) transfer of all assets to the Pension Benefit Guaranty Corporation or to an appointed trustee, provided that any allocation and distribution under (a), (b) or (c) above shall be subject to receipt of a notice of sufficiency from the Pension Benefit Guaranty Corporation and only thereafter made on one or more of such bases in the sole discretion of the Trustees.

#### **ARTICLE XI**

#### STATEMENT OF POLICY

- (1) It is the policy of the Trustees to devote all contributions by the Employers to the Pension Fund, less administrative expenses, to the payment of benefits to Participants. The Trustees shall engage an actuary enrolled by the Joint Board for the Enrollment of Actuaries and shall have periodic actuarial valuations of the Pension Plan made no less frequently than every Plan Year. In determining the amount of benefits to be paid it shall be the policy to make such payments on an actuarially sound basis, as the same may be determined by the Trustees upon the advice of the actuary and legal counsel for the Trustees, keeping in reserve adequate funds to meet commitments to Participants and to meet payments due in future years to those who may become eligible for benefits subsequently.
- (2) The interest of any Participant shall not be voluntarily or involuntarily assignable or encumberable in any manner or subject to any legal or equitable process except to the extent otherwise required by law and except the foregoing shall not apply to a qualified domestic relations order described in Section 414(p) of the Internal Revenue Code and the determination of any present value of a benefit for this purpose shall use the UP-84 Table set forward one year in age with interest at the rate which would be used by the Pension Benefit Guarantee Corporation to value immediate annuities in the first month of the Plan Year in which falls the date as of which the present value is determined, and such exception shall apply to any ordered benefits in payment status on January 1, 1985 and the Trustees may elect to treat any domestic relations order entered before January 1, 1985 as a qualified domestic relations order.

(3) In the case of any merger or consolidation with, or transfer of assets or liabilities to, any other employee benefit plan, each Participant shall be entitled to a benefit status immediately after the merger, consolidation or transfer which is not less favorable than the benefit status to which he would have been entitled immediately before the merger, consolidation or transfer as if the Pension Plan had then terminated.

#### **ARTICLE XII**

#### **OPTIONAL PENSIONS**

(1) An Employee, at any time prior to the later of his eligibility for retirement other than because of disability, except in the case of Option B, or the date his pension payments commence, may elect to receive payment, in lieu of the Full Annuity Form of pension, on an adjusted basis payable during his life on any one of the following optional bases:

Option A: a pension payable for the life of the Pensioner and, if he dies after the effective date of the option and his Spouse is living at his death, pension payments at the same reduced rate shall be paid for life thereafter to the Spouse; or

Option B: a pension payable for the life of the Pensioner and, if he dies after the effective date of the option and his Spouse is living at his death, pension payments at 75% of the reduced rate shall be paid for life thereafter to the Spouse; or

Option C: a pension payable for the life of the Pensioner and, if he dies after the effective date of the option and before he has received pension payments on the reduced basis for at least 60 or 120 months (the period to be designated by the Employee in his election), pension payments on the same reduced basis shall continue to his Beneficiary for the balance of the designated period; or

Option D: If the lump sum value of the Full Annuity Form is \$5,000 or less, the Participant will automatically receive such lump sum. If the lump sum value of the Full Annuity Form is more than \$5,000 and less than \$10,000, the Participant may elect to receive such lump sum.

- (2) The effective date of the optional pension benefit shall be the date pension payments commence. The Employee's election and designation shall be made in writing to the Trustees on a form supplied by the Trustees for such purpose. Election of Option A, C or D shall not be permitted by an Employee who retires on a disability pension. The period to be designated under Option C must not exceed the life expectancy of the Participant or, if married, their last survivor joint life expectancy, where life expectancy is determined from the 1983 Group Annuity Mortality Table.
- (3) (a) The amount of the reduced pension payable under elected Option A, B or C shall be a percentage of the pension payments otherwise payable on the Full Annuity Form, based on the ages of the Pensioner and the Spouse. Such percentage shall be 80% for Option A if the Spouse's date of birth is less than one year different from the Employee's date of birth reduced (increased, but not more than 99.9%) by 0.75% for each additional full year of age difference that the Spouse is younger (older) than the Employee. Such percentage for Option B for early or normal retirement shall be 85%, and for disability retirement shall be 75%, if the Spouse's date of birth is less than one year different from the Employee's date of birth reduced (increased) by 0.6% for each full year of age difference that the Spouse is younger (older) than the Employee. Such percentage for Option C shall be in accordance with the following table:

| Age on Date of | 60 Monthly          | 120 Monthly         |
|----------------|---------------------|---------------------|
| First Payment  | Payments Guaranteed | Payments Guaranteed |
|                |                     |                     |
| 55 to 59       | 99%                 | 97%                 |
| 60 to 64       | 98%                 | 94%                 |
| 65 to 69       | 97%                 | 90%                 |
| 70 to 74       | 95%                 | 85%                 |
| 75 to 79       | 92%                 | 77%                 |
| 80 and over    | 88%                 | 70%                 |

- (b) The lump sum payment under Option D shall be calculated on the basis of:
  - (i) the 2008 Applicable Mortality Table described in Rev. Rul. 2007-67 (as updated annually), and
  - (ii) a percentage of the average yield on 30-year Treasury securities for the third full calendar month preceding the month in which such payment is made where the percentage is 80% in 2008, 60% in 2009, 40% in 2010, 20% in 2011 and 0% in 2012 and later, and
  - (iii) a percentage of the IRS minimum present value transitional segmented rates for the third full calendar month preceding the month in which such payment is made where the percentage is 20% in 2008, 40% in 2009, 60% in 2010, 80% in 2011 and 100% in 2012 and later.
- (4) The optional form of pension shall not be effective unless the Participant provides proof of the date of birth of himself and his Spouse prior to the effective date of the optional pension or, if later, within 90 days after he signs the election form. If either the Employee or his Spouse dies before the effective date of the optional pension, the option shall be cancelled automatically and benefits under the Pension Plan shall be paid as if no option had been elected. The operation of an option shall be subject to such other administrative procedures as specified in the election form. No option shall be changed or cancelled after its effective date.
- (5) In the event of a "mandatory distribution" greater than \$1,000 made in accordance with this Article, if the Participant does not elect to have such distribution paid in a direct rollover to an Eligible Retirement Plan specified by the Participant or to receive the distribution directly, then the Trustees will pay the distribution in a direct rollover to an individual retirement plan designated by the Trustees. A "mandatory distribution" means any distribution made to the participant without the Participant's consent that is made before the Participant attains age 62 or Normal Retirement.

#### IMPORTANT INFORMATION:

#### BANK DEPOSIT ACCOUNTS

How to Contact Us - You may call us at the telephone number listed on the front of this statement.

Updating your contact information - We encourage you to keep your contact information up-to-date. This includes address, email and phone number. If your information has changed, the easiest way to update it is by visiting the Help & Support tab of Online Banking.

Deposit agreement - When you opened your account, you received a deposit agreement and fee schedule and agreed that your account would be governed by the terms of these documents, as we may amend them from time to time. These documents are part of the contract for your deposit account and govern all transactions relating to your account, including all deposits and withdrawals. Copies of both the deposit agreement and fee schedule which contain the current version of the terms and conditions of your account relationship may be obtained at our financial centers.

Electronic transfers: In case of errors or questions about your electronic transfers - If you think your statement or receipt is wrong or you need more information about an electronic transfer (e.g., ATM transactions, direct deposits or withdrawals, point-of-sale transactions) on the statement or receipt, telephone or write us at the address and number listed on the front of this statement as soon as you can. We must hear from you no later than 60 days after we sent you the FIRST statement on which the error or problem appeared.

- Tell us your name and account number.
- Describe the error or transfer you are unsure about, and explain as clearly as you can why you believe there is an error or why you need more information.
- Tell us the dollar amount of the suspected error.

For consumer accounts used primarily for personal, family or household purposes, we will investigate your complaint and will correct any error promptly. If we take more than 10 business days (10 calendar days if you are a Massachusetts customer) (20 business days if you are a new customer, for electronic transfers occurring during the first 30 days after the first deposit is made to your account) to do this, we will provisionally credit your account for the amount you think is in error, so that you will have use of the money during the time it will take to complete our investigation.

For other accounts, we investigate, and if we find we have made an error, we credit your account at the conclusion of our investigation.

Reporting other problems - You must examine your statement carefully and promptly. You are in the best position to discover errors and unauthorized transactions on your account. If you fail to notify us in writing of suspected problems or an unauthorized transaction within the time period specified in the deposit agreement (which periods are no more than 60 days after we make the statement available to you and in some cases are 30 days or less), we are not liable to you and you agree to not make a claim against us, for the problems or unauthorized transactions.

Direct deposits - If you have arranged to have direct deposits made to your account at least once every 60 days from the same person or company, you may call us to find out if the deposit was made as scheduled. You may also review your activity online or visit a financial center for information.

#### Important Notice

Account Statement Information: This account statement is being furnished pursuant to an agreement (the "customer agreement") between the account holder ("or as applicable the account holder's agent, in either event hereinafter "you" or "your") and Exeter Trust Company ("Exeter"). This statement is for your exclusive use pursuant to such agreement and may not be relied upon by third parties. Neither Exeter nor its affiliates or subsidiaries, assume responsibility to any person other than you for information contained in this account statement. Please note that this account statement may reflect investments, directed solely by you and may include assets that are not actually held at our sub custodian State Street Bank and Trust Company ("State Street"). The information contained in this statement is accurate and complete to the best of our knowledge. For the protection of its clients' privacy, Exeter has taken steps to protect personal information; therefore, some information on this statement (i.e., account number) may not reflect the full account number required for transaction purposes. Please note that although money market funds seek to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in them. Due to the rounding conventions applied, summary subtotals and totals for some data columns and percentages may not equal the sum of the individual amounts applied.

Valuation of assets: The prices and valuations of assets presented in this account statement are based upon the most current available prices provided by a third party pricing service used for each asset at the time this account statement was generated. The prices and values of assets stated herein may not reflect the actual proceeds that would be obtained upon the disposition of any such asset and do not constitute either bid or offer to unwind any investment transaction. Prices shown should be used as a general guide to value your portfolio. The prices of certain securities may represent approximations based upon such securities' relationship to other securities, price quotes from broker-dealers dealing in the same or similar securities or various valuation formulas. Information for securities and other assets that are illiquid or not publicly traded may have been obtained from you, your agents, or other sources that may or may not be reliable. This account statement should not be used for investment purposes.

Alternative Investments: (such as hedge funds or private equity funds) may invest in highly illiquid securities that may be difficult to value. In addition, the valuations presented in this account statement for alternative investments reflect the valuations that were available at the time of printing this account statement and may be significantly different from the most current valuation. The method of valuation of alternative investments and the securities in which they invest is determined by the investment manager using data supplied by the underlying fund managers and/or administrators of the alternative investment. The prices or values of one or more asset may indicate "N/A"- not applicable. This does not necessarily mean that assets are worth zero or that the assets are in default. It does mean that the statement provider is currently unable to establish a value for those assets for the purpose of this account statement. If any one or more assets has an indication of "N/A" as it value, then it may affect performance reporting and unrealized gain/loss information. Debt securities subject to call features or other redemption features may be redeemed in whole or in part before maturity. Such occurrences may affect the yield represented. The actual yield of an asset-backed security may vary according to the rate at which the underlying receivables or other financial assets are prepaid.

No matter respecting the foregoing or any difference arising thereunder or any matter involved in or arising under this Trust Agreement shall be subject to the grievance or arbitration procedure established in any collective bargaining agreement between the Employers and the Union, provided, however, that this clause shall not affect the rights and liabilities of any of the parties under any of such collective bargaining agreements.

Section 6.19 Liability. The Trustees, to the extent

permitted by applicable law, shall incur no liability in acting upon any instrument, application, notice, request, signed letter, telegram, or other paper or document believed by them to be genuine and to contain a true statement of facts, and to be signed by the proper person.

Section 6.20 Reliance on Written Instruments. Any
Trustee, to the extent permitted by applicable law, may rely
upon any instrument in writing purporting to have been signed
by a majority of the Trustees as conclusive evidence of the
fact that a majority of the Trustees have taken the action
stated to have been taken in such instrument.

Section 6.21 Reliance by Others. No party dealing with the Trustees shall be obligated to see to the application to the stated Trust purposes, of any funds or property of the Trust Fund, or to see that the terms of this Trust Agreement have been complied with, or to inquire into the necessity or expediency of any act of the Trustees. Every instrument executed by the Trustees shall be conclusive evidence in favor of every person relying thereon (a) that at the time of the execution of said instrument, the Trust was in full force and effect,

(b) that the instrument was executed in accordance with the terms and conditions of this Trust Agreement and (c) that the Trustees were duly authorized and empowered to execute the instrument.

Section 6.22 Discharge of Liability. The receipt by the Trustees for any money or property or checks (after such checks are honored at the bank and paid to the Trust Fund) shall discharge the person or persons paying or transferring the same.

Section 6.23 Establishment of Plan. The Trustees shall formulate a Pension Plan for the payment of such retirement pension benefits, permanent disability pension benefits, death benefits, and related benefits, as are feasible. Such Pension Plan shall at all times comply with all applicable federal statutes and regulations and to the provisions of this Trust Agreement, and the Act. The Trustees shall not be under any obligation to pay any pension if the payment of such pension will result in loss of the Trust Fund's tax exempt status under the then applicable Internal Revenue Code and any regulations or rulings issued pursuant thereto. Said Trustees shall draft procedures, regulations, and conditions for the operation of the Pension Plan, including, by way of illustration and not limitation: conditions of eligibility for Participants and Beneficiaries, procedure for claiming benefits, schedules of type and amount of benefits to be paid, and procedure for the distribution of benefits. The Trustees may also provide for the payment of partial pensions, and may enter into agreements with other trustees of pension plans which conform to the applicable sections of the then applicable Internal Revenue Code for purposes of tax deductions for the reciprocal recognition of service credits and payments of pension benefits based upon such service credits.

Section 6.24 Amendment of Plan. The Pension Plan may be amended by the Trustees from time to time, provided that such amendments comply with the applicable sections of the then applicable Internal Revenue Code, all applicable federal statutes and regulations, the contract articles creating the Trust Fund, the purposes as set forth in this Trust Agreement,

and the Act. Additionally and not by way of limitation, the Trustees may amend the Pension Plan, in future, or retroactively, where they deem it necessary to maintain the continuation of the Trust Fund's tax exempt status or to preserve compliance with the then applicable Internal Revenue Code, applicable federal statutes, and any regulations or rulings issued with respect thereto.

# ARTICLE VII CONTROVERSIES AND DISPUTES

Section 7.1 Reliance on Records. In any controversy, claim, demand, suit at law or other proceeding between any Participant, Beneficiary or any other person and the Trustees, the Trustees shall be entitled to rely upon any facts appearing in the records of the Trustees, any instruments on file with the Trustees, with the Union or with the Employers, any facts certified to the Trustees by the Union or the Employers, any facts which are of public record and any other evidence pertinent to the issue involved.

Section 7.2 Submission to Trustees. All questions or controversies, of whatsoever character, arising in any manner or between any parties or persons in connection with the Trust Fund or the operation thereof, whether as to any claim for any benefits preferred by any Participant, Beneficiary or any other person, or whether as to the construction of the language or meaning of the by-laws, rules and regulations adopted by the Trustees or this instrument, or as to any writing, decision, instrument or accounts in connection with the operation of the Trust Fund or otherwise, shall be submitted to

the Trustees or, in the case of questions related to claims for benefits, to an Appeals or Review Committee, if one has been appointed, and the decision of the Trustees or Appeals or Review Committee shall be binding upon all persons dealing with the Trust Fund or claiming benefits thereunder.

Section 7.3 Settling Disputes. The Trustees may in their sole discretion compromise or settle any claim or controversy in such manner as they think best, and any majority decision made by the Trustees in compromise or settlement of a claim or controversy, or any compromise or settlement agreement entered into by the Trustees, shall be conclusive and binding on all parties interested in this Trust.

# ARTICLE VIII BENEFICIAL RIGHTS

Union. No Employer or Union, or Employees, or Participants and their Beneficiaries shall have any right, title or interest in or to the Trust Fund or any part thereof other than vesting under the Pension Plan. There shall be no pro-rata or other distribution of any of the assets of the Trust Fund as a result of any Union, Employer or Group of Employees or Employers or Participants and their Beneficiaries, ceasing their participation in this Trust Fund for any purpose or reason except as required by law.

Section 8.2 Limitations upon Beneficial Rights of

Employees. All the benefits shall be free from the interference and control of any creditor, and no benefits shall be

11

subject to any assignment or other anticipation, nor to seizure or to sale under any legal, equitable or any other process, and in the event that any claim or benefit shall, because of any debt incurred by or resulting from any other claim or liability against any Employee, Participant or Beneficiary, by reason of any sale, assignment, transfer, encumbrance, anticipation or other disposition made or attempted by said Participant, Beneficiary or Employee, or by reason of any seizure or sale or attempted sale under any legal, equitable or other process, or in any suit or proceeding become payable, or be liable to become payable to any person other than the Participant or Beneficiary for whom the same is intended, as provided herein, pursuant hereto, the Trustees shall have power to withhold payment of such benefit to such Participant or Beneficiary until such assignment, transfer, encumbrance, anticipation or other disposition, writ or legal process is cancelled or withdrawn in such manner as shall be satisfactory to the Trustees. Until so cancelled or withdrawn, the Trustees shall have the right to use and apply the benefits as to the Trustees may seem best, directly for the support and maintenance of such Participant or Beneficiary.

## ARTICLE IX

## AMENDMENT AND TERMINATION OF TRUST AGREEMENT

Section 9.1 Amendment. The Trustees may at any time, and from time to time amend this Agreement. Any amendment may be made applicable to the Fund as then and/or thereafter constituted and may be made retroactively if necessary provided that no such amendment shall have the effect of depriving any employee or his beneficiary of any vested rights hereunder. If the

Board shall fail to agree on which particular amendments shall be made in order to conform to the requirements for tax deductibility under the Internal Revenue Code, then the Board shall select a neutral actuarial expert who shall determine which particular amendments shall be made, provided, however, that such determination shall not require an increase in the annual contributions of the Employers as provided in the applicable collective bargaining agreement. If the Board shall fail to agree upon the selection of such a neutral actuarial expert, then such expert shall be selected by the American Arbitration Association, the determination of such expert shall be binding on all parties in interest herein. The expenses in connection . with the determination of such expert shall be borne by the Fund. No amendment may be adopted which will (1) divert funds from the purpose of this Agreement, (2) be contrary to the laws governing trust funds of this nature, (3) be contrary to any agreements entered into by the Trustees or (4) result in the number of total votes of Employer Trustees being unequal to the number of total votes of Union Trustees. Upon the adoption of any amendment the Trustees shall furnish to the Union and to the Employers and counsel for the Fund a properly executed copy of the amendment and shall give notice of the amendment to the Administrator and all governmental agencies which are required by law to be so notified.

Section 9.2 Termination of Trust. So long as any Employer is obligated by its collective bargaining agreement to contribute to the Fund, the Fund shall not be terminated. Termination of such obligation on the part of any Employer shall not affect the Fund or the Plan with regard to any other Employer participating therein.

Section 9.3 Conditions of Termination. This Trust Agreement shall cease and terminate upon the happening of any one or more of the following events.

- (a) In the event the Trust Fund shall, in the opinion of the Trustees, be inadequate to carry out the intent and purpose of this Trust Agreement, or be inadequate to meet the payments due or to become due under this Trust Agreement and under the plan of benefits to Participants and Beneficiaries already drawing benefits;
- (b) In the event there are no individuals living who can qualify as Employees hereunder;
- (c) In the event of termination by action of the Union and the Employers;
- (d) In the event of termination as may be otherwise provided by law.

## Section 9.3 Procedures in Event of Termination.

- (a) In the event of termination, the Trustees shall:
  - (1) make provision out of the Trust Fund for the payment of any and all obligations of the Trust, including expenses incurred up to the date of termination of the Trust and the expenses incidental to such termination;
  - (2) arrange for a final audit and report of their transactions and accounts, for the purpose of termination of their Trusteeship;

- (3) give any notice and prepare and file any reports which may be required by law;
- (4) distribute the remaining assets among participants and beneficiaries of the plan in the following order:
  - (A) First to that portion of each individual's accrued benefit which is derived from the participant's contributions to the Plan which were not mandatory contributions.
  - (B) Second, to that portion of each individual's accrued benefit which is derived from the participant's mandatory contributions.
  - (C) Third, in the case of benefits payable as an annuity -
    - (i) in the case of the benefit of a participant or beneficiary which was in pay status as of the beginning of the 3-year period ending on the termination date of the Plan, to each such benefit based on the provisions of the Plan (as in effect during the 5 year period ending on such date) under which such benefit would be the least,
    - (ii) in the case of a participant's or beneficiary's benefit which would have been in pay status as of the beginning of the 3-year period ending on the termination date of the Plan if the participant had

retired prior to the beginning of the 3year period and if his benefits had
commenced (in the normal form of an
annuity under the Plan) as of the
beginning of such period, to each
such benefit based on the provisions
of the Plan (as in effect during the
5-year period ending on such date)
under which such benefit would be
the least. For the purposes of
Subparagraph (i) the lowest benefit
in pay status during a 3-year period
shall be considered the benefit in
pay status for such period.

- (D) Fourth, to all other non-forfeitable benefits (other than benefits becoming non-forfeitable solely on account of termination of the Plan) subject to the limitation that such non-forfeitable benefits shall not have an actuarial value which exceeds the actuarial value of a monthly benefit in the form of a life annuity commencing at age 65 equal to the lesser of -
  - (i) his average monthly gross income from his employer during the 5 consecutive calendar year period during which his gross income from that employer was greater than during any other such period with that employer, or
  - (ii) \$750 multiplied by a fraction, the numerator of which is the contribution and benefit base (determined under Sec-

tion 230 of the Social Security Act) in effect at the time the Plan terminates and the denominator of which is such contribution and benefit base in effect in calendar year 1974.

- (E) Fifth, to all other non-forfeitable benefits under the Plan.
- (F) Sixth, to all other benefits under the Plan.
- (b) If the assets available for allocation under any one priority category set forth in this Section 9.3 (other than subsections (a)(4)(F) above) are insufficient to satisfy in full the benefits of all participants, the assets shall be allocated pro rata among such participants on the basis of the present 'value as of the termination date of their respective benefits. To the extent funded, the rights of all participants to benefits accrued as of the date of termination are nonforfeitable.

## ARTICLE X

This Trust is created and accepted in the State of New Jersey and all questions pertaining to the validity or construction of this Trust Agreement and of the acts and transactions of the parties hereto shall be determined in accordance with the laws of the State of New Jersey, except as to matters governed by Federal law.

Section 10.2 Savings Clause. Should any provision of this Agreement and Declaration of Trust be held to be unlawful, or unlawful as to any person or instance, such fact shall not adversely affect the other provisions herein contained or the

Section 10.3 Other Employers and their Employees may

Join the Plan. The Trustees may extend the coverage of this

Trust Agreement to such other parties and upon such terms and
conditions as the Trustees shall determine, provided such

parties are required to conform to the terms and conditions of
this Trust Agreement and to make the same rate of contributions
required of the Employers herein for the same schedule of benefits. Such other Employers and their Employees shall have no
right to participate in the appointment or replacement of
Trustees.

Section 10.4 Reciprocity Agreements. The Trustees may, in their sole discretion, enter into such reciprocity agreement or agreements with other pension funds as they determine to be in the best interests of the Trust Fund, provided that any such reciprocity agreement or agreements shall not be inconsistent with the terms of this Trust Agreement or the collective bargaining agreements under which this Trust Agreement is maintained.

Section 10.5 Merger. The Trustees shall have the power to merge with any other fund established for similar purposes as this Trust Fund under terms and conditions mutually agreeable to the respective Board of Trustees, subject to the approval of the Union and the Employers.

Section 10.6 Refund of Contributions. In no event shall any Employer, directly or indirectly, receive any refund on contributions made by them to the Trust (except in case of a bona fide erroneous payment or overpayment of contributions, to the extent permitted by law) nor shall an Employer directly or indirectly participate in the disposition of the Trust Fund or receive any benefits from the Trust Fund. Upon payment of contributions to the Trustees, all responsibilities of the Employer for each contribution shall cease, and the Employer shall have no responsibilities for the acts of the Trustees, nor shall an Employer be obliged to see to the application of any funds or property of the Trust or to see that the terms of the Trust have been complied with.

## Section 10.7 Accounting and Judicial Settlements.

Any such determination, decision or judgment shall be binding upon all parties to, or claiming under, this Trust Agreement.

Section 10.8 Withholding Payment. In the event any question or dispute shall arise as to the proper person or persons to whom any payments shall be made hereunder, the Trustees may withhold such payment until there shall have been made an adjudication of such question or dispute which, in the Trustees' sole judgment, is satisfactory to them, or until the Trustees shall have been fully protected against loss by means of such indemnification agreement or bond as they, in their sole judgment, determine to be adequate.

Section 10.9 Gender. Wherever any words are used in this Trust Agreement in the masculine, feminine or neuter genders, they shall include the other genders: the singular shall include the plural and the plural shall include the singular, wherever appropriate to the context.

Section 10.10 Approval of Treasury Department. The Trustees shall apply to the United States Treasury Department to obtain a ruling that the Agreement and Plan are exempt and contributions thereto constitute deductions to the Employer under applicable Internal Revenue Code provisions and regulations thereunder. Any amendment to this Agreement and/or Plan which is necessary to enable the Trustees to obtain such rulings may be retroactive. Notwithstanding any other provision hereof, no employee shall have any right to any benefits prior to the Agreement and Plan having been initially approved by the

11

Treasury Department as being qualified under said provisions and regulations.

Section 10.11 Article and Section Titles. The Article and Section titles are included solely for convenience and shall, in no event, be construed to affect or modify any part of the provisions of this Trust Agreement or be construed as part thereof.

## U.T.W.A. - N.J. UNION - EMPLOYER PENSION PLAN

#### REHABILITATION PLAN

January 1, 2013 to January 1, 2023

- 1. Benefit accruals were curtailed January 31, 2009. Disability benefits were eliminated for active participants January 1, 2011.
- 2. Employer contributory hours are assumed to be 4,000 per year and investment return is assumed at 7% compounded annually.
- 3. In order to emerge from critical status the hourly employer contribution rate must be increased to well over \$100. This large increase required in the employer contribution rate would be unreasonable.
- 4. The Plan is not reasonably expected to emerge from critical status by the end of the rehabilitation period based on reasonable actuarial assumptions and upon exhaustion of all reasonable measures. The Plan has also exhausted all reasonable measures to emerge from critical status at a later time and to forestall insolvency.

<sup>\*</sup> Adjust column headers as may be needed due to any changes in the plan year since 2018 and provide supporting explanation. For example, assume the plan has a calendar year plan year, but effective 10/1/2019 the plan year is changed to begin on October 1. For 2019 there will be two 2019 Forms - one for the short plan year from 1/1/2019 to 9/30/2019, and another for the plan year 10/1/2019 to 9/30/2020. For this example, modify the table to show a separate column for each of the separate Forms 5500, and identify the plan year period for each filing.

## **TEMPLATE 3**

**Historical Plan Information** 

File name: Template 3 Pension Plan Name, where "Pension Plan Name" is an abbreviated version of the plan name.

For supplemental submission due to merger under § 4262.4(f)(1)(ii): *Template 3 Pension Plan Name Merged*, where "Pension Plan Name Merged" is an abbreviated version of the plan name for the separate plan involved in the merger.

Provide historical plan information for each of the most recent 10 plan years immediately preceding the application filing date that separately identifies: total contributions, total contribution base units (including identification of the base unit used (i.e., hourly, weekly)), average contribution rates, and number of active participants at the beginning of each plan year. Also show separately for each of the most recent 10 plan years immediately preceding the application filing date all other sources of non-investment income, including, if applicable, withdrawal liability payments collected, reciprocity contributions (if applicable), additional contributions from the rehabilitation plan (if any), and other identifiable contribution streams.

If the sum of all contributions and withdrawal liabilities shown on this table does not equal the amount shown as contributions credited to the funding standard account on the plan year Schedule MB of Form 5500, include an explanation as a footnote to this table.

## **TEMPLATE 4** v20210824p

#### SFA Determination

File name: Template 4 Pension Plan Name, where "Pension Plan Name" is an abbreviated version of the plan name.

For supplemental submission due to a merger under § 4262.4(f)(1)(ii): *Template 4 Pension Plan Name Merged*, where "Pension Plan Name Merged" is an abbreviated version of the plan name for the separate plan involved in the merger.

For supplemental submission due to certain events with limitations under § 4262.4(f)(1)(i): *Template 4 Pension Plan Name Supp*, where "Pension Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item 4 of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

Provide information <u>used to determine the amount of requested SFA</u> for the plan based on a deterministic projection and using the actuarial assumptions as described in § 4262.4 of PBGC's special financial assistance regulation. The information to be provided is:

#### NOTE: All items below are provided on sheet '4-3 SFA Details' unless otherwise noted.

- a. Interest rate used (the "SFA interest rate"), including supporting details on how it was determined. If such interest rate is the limit described in section 4262(e)(3) of ERISA, identify the month selected by the plan to determine the third segment rate used to calculate the limit. [Sheet: 4-1 SFA Interest Rate]
- b. Fair market value of assets on the last day of the calendar quarter immediately preceding the date the application is filed (the "SFA measurement date").
- c. For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"):
  - i. Separately identify the projected amount of contributions, projected withdrawal liability payments, and other payments expected to be made to the plan (excluding the amount of financial assistance under section 4261 of ERISA and SFA to be received by the plan).
  - ii. Separately identify benefit payments described in § 4262.4(b)(1) of PBGC's special assistance regulation (excluding the payments in (c)(iii) below) for current retirees and beneficiaries, terminated vested participants not currently receiving benefits, currently active participants and new entrants. [Sheet: 4-2 SFA Ben Pmts]
  - iii. Separately identify payments described in § 4262.4(b)(1) of PBGC's special financial assistance regulation attributable to the reinstatement of benefits under § 4262.15 that were previously suspended through the SFA measurement date. [Also see applicable examples in Section C, Item 4(c)(iii) of the SFA instructions.]
  - iv. Separately identify administrative expenses expected to be paid using plan assets, excluding the amount owed PBGC under section 4261 of ERISA.
- d. For each plan year in the SFA coverage period, the projected investment income based on the interest rate in (a) above, and the projected fair market value of plan assets at the end of each plan year.
- e. The present value (using the interest rate identified in (a) above) as of the SFA measurement date of each of the separately provided items in (c)(i)-(iv) above.
- f. SFA amount determined as a lump sum as of the SFA measurement date. As described in § 4262.4(a) of PBGC's special financial assistance regulation, this amount equals the excess (if any) of the SFA-eligible plan obligations (the present value of the items in (c)(ii) through (c)(iv)) over the SFA-eligible plan resources (item (b) plus the present value of the items in (c)(i)).

#### Additional instructions for each individual worksheet:

Sheet

#### 4-1 SFA Determination - SFA Interest Rate

See instructions on 4-1 SFA Interest Rate.

#### 4-2 SFA Determination - SFA Benefit Payments

On this sheet, you will provide:

- --Basic plan information (plan name, EIN/PN, SFA measurement date, SFA interest rate),
- --Year-by-year deterministic projection of benefit payments, and
- -- Present values as of the SFA measurement date, using the SFA interest rate.

For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"), separately identify benefit payments described in § 4262.4(b)(1) of PBGC's special assistance regulation for current retirees and beneficiaries, terminated vested participants not currently receiving benefits, currently active participants and new entrants. On this Sheet 4-2, show all benefit payments as positive amounts.

If the plan has suspended benefit payments under sections 305(e)(9) or 4245 of ERISA, the benefit payments in this Sheet 4-2 projection should reflect prospective reinstatement of benefits assuming such reinstatements commence as of the SFA measurement date. If the plan restored or partially restored benefits under 26 CFR 1.432(e)(9)-1(e)(3) before the SFA measurement date, the benefit payments in this Sheet 4-2 should reflect fully restored prospective benefits.

Benefit payments to be paid to participants to restore <u>previously</u> suspended benefits should <u>not</u> be included on this Sheet 4-2, and are separately shown on Sheet 4-3 in the Column (7). All reinstatement of benefits should be shown assuming such reinstatements are paid beginning as of the SFA measurement date (or <u>on</u> the SFA measurement date, for lump sum reinstatement of prior suspended benefits).

Provide the present value as of the SFA measurement date of each separate set of benefit payments, using the limited SFA interest rate from Sheet 4-1. On this sheet, show the present values as positive amounts.

Except for the first row in the projection exhibit below, each row must include the full plan year of the indicated information up to the plan year ending in 2051. This first row may be less than a full plan year of information. The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

#### 4-3 SFA Determination - SFA Details

On this sheet, you will provide:

- --Basic plan information (plan name, EIN/PN, SFA measurement date, SFA interest rate),
- --Year-by-year deterministic projection, and
- --Present values as of the SFA measurement date, using the SFA interest rate.

For each plan year in the period beginning on the SFA measurement date and ending on the last day of the last plan year ending in 2051 (the "SFA coverage period"), provide each of the items requested in Columns (1) through (10). Show payments INTO the plan as positive amounts and payments OUT of the plan as negative amounts.

If the plan has suspended benefit payments under sections 305(e)(9) or 4245 of ERISA, Column (7) should show the benefit payments to be made to restore the past benefits that have been suspended. These amounts should be determined as if such reinstatements are paid beginning as of the SFA measurement date. If the plan sponsor elects to pay these amounts as a lump sum, then the lump sum amount is assumed paid as of the SFA measurement date. If the plan sponsor decides to make payments over 60 months, the first monthly payment is assumed paid on the first regular payment date on or after the SFA measurement date. See the examples in the SFA Instructions. If the reinstatement is paid over 60 months, each row in the projection should reflect the monthly payments for that period. The prospective reinstatement of suspended benefits is included in Column (6); Column (7) is only for reinstatement of past benefits that were suspended.

Provide the present values as of the SFA measurement date of each of the projections in Columns (3) through (8), using the limited SFA interest rate from Sheet 4-1. Show the present values as the same sign (positive or negative) as the projected amounts (e.g., benefit payments are negative on this Sheet 4-3, and the present value of benefit payments should also be negative.

Except for the first row in the projection exhibit, each row must include the full plan year of the indicated information up to the plan year ending in 2051. This first row may be less than a full plan year of information. The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date. For all other periods, provide the full plan year of information up to the plan year ending in 2051.

**TEMPLATE 7** v20210706p

## 7a - Assumption Changes for SFA Eligibility

File name: Template 7 Pension Plan Name, where "Pension Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item 7(a) of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

Sheet 7a of Template 7 is not required if the plan is eligible for SFA under § 4262.3(a)(2) (MPRA suspensions) or § 4262.3(a)(4) (certain insolvent plans) of PBGC's special financial assistance regulation.

Sheet 7a of Template 7 is not required if the plan is eligible based on a certification of plan status completed before January 1, 2021.

Sheet 7a of Template 7 is not required if the plan is eligible based on a certification of plan status completed after December 31, 2020 but reflects the same assumptions as those in the pre-2021 certification of plan status.

Provide a table identifying which assumptions used in determining the plan's eligibility for SFA differ from those used in the pre-2021 certification of plan status and brief explanations as to why using those assumptions is no longer reasonable and why the changed assumptions are reasonable.

This table should reflect all identified assumptions (including those that are included in the Baseline provided in Template 5) and should be an abbreviated version of information provided in Section D, Item 6(a) of the SFA filing instructions.

For example, if the mortality assumption used in the pre-2021 certification of plan status is the RP-2000 mortality table, and the plan proposes to change to the Pri-2012(BC) table, complete one line of the table as follows:

|  | (A)  | (B)  | (C)   |
|--|--|--|---|
| Assumption That Has Changed From<br>Assumption Used in Most Recent Certification<br>of Plan Status Completed Prior to 1/1/2021 | Brief description of assumption used in the most recent certification of plan status completed prior to 1/1/2021 | Brief description of assumption used in showing the plan's eligibility for SFA (if different). | Brief explanation on why the assumption in (A) is no longer reasonable and why the assumption in (B) is reasonable. |
| Base Mortality Assumption  | RP-2000 mortality table  | Pri-2012(BC) mortality table   | Prior assumption is outdated. New assumption reflects more recently published experience for blue collar workers.   |

Add one line for each assumption that has changed from the assumption used in the most recent certification of plan status completed prior to 1/1/2021.

Since this Template 7a is intended as an abbreviated version of more detailed information provided in Section D, Item 6(a) of the SFA filing instructions, it is not necessary to include full tables of rates at every age (e.g., for retirement, turnover, etc.). Instead, a high level description that focuses on what aspect of the assumption has changed is preferred.

#### 7b - Assumption Changes for SFA Amount

File name: Template 7 Pension Plan Name, where "Pension Plan Name" is an abbreviated version of the plan name.

Instructions for Section C, Item 7(b) of the Instructions for Filing Requirements for Multiemployer Plans Applying for Special Financial Assistance:

Provide a table identifying which assumption differ from those used in the pre-2021 certification of plan status (except the interest rate used in calculating the amount of SFA) and brief explanations as to why using those original assumptions is no longer reasonable and why the changed assumptions are reasonable.

Please state if the changed assumption is an extension of the CBU assumption or the administrative expenses assumption as described in Paragraph A "Adoption of assumptions not previously factored into pre-2021 certification of plan status" of Section III, Acceptable Assumption Changes of PBGC's guidance on Special Financial Assistance Assumptions.

This table should identify all changed assumptions except for the interest rate (reflecting those that are included in the Baseline provided in Template 5) and should be an abbreviated version of information provided in Section D, Item 6(b) of the SFA filing instructions.

For example, if the mortality assumption used in the pre-2021 certification of plan status is the RP-2000 mortality table, and the plan proposes to change to the Pri-2012(BC) table, complete one line of the table as follows:

|  | (A)   | (B)   | (C)  |  |
|--|---|---|--|--|
| Assumption That Has Changed From<br>Assumption Used in Most Recent Certification of<br>Plan Status Completed Prior to 1/1/2021 | Brief description of assumption<br>used in the most recent<br>certification of plan status<br>completed prior to 1/1/2021 | Brief description of assumption<br>used to determine the requested<br>SFA amount (if different) | Brief explanation on why the assumption in (A) is no longer reasonable and why the assumption in (B) is reasonable.  |  |
| Base Mortality Assumption  | RP-2000 mortality table   | Pri-2012(BC) mortality table  | Original assumption is outdated. New assumption reflects more recently published experience for blue collar workers. |  |

For example, assume the plan is projected to be insolvent in 2029 in the pre-2021 certification of plan status. The plan changes its CBU assumption by extending the assumption to the later projection years as described in Paragraph A, "Adoption of assumptions not previously factored into pre-2021 certification of plan status" of Section III, Acceptable Assumption Changes of PBGC's guidance on Special Financial Assistance Assumptions. Complete one line of the table as follows:

|  | (A)   | (B)  | (C)  |
|--|---|--|--|
| Assumption That Has Changed From<br>Assumption Used in Most Recent Certification of<br>Plan Status Completed Prior to 1/1/2021 | Brief description of assumption<br>used in the most recent<br>certification of plan status<br>completed prior to 1/1/2021 | Brief description of assumption<br>used to determine the requested<br>SFA amount (if different)                    | Brief explanation on why the assumption in (A) is no longer reasonable and why the assumption in (B) is reasonable.                                |
| CBU Assumption   | Decrease from most recent plan<br>year's actual number of CBUs<br>by 2% per year to 2028                                  | Same number of CBUs for each projection year to 2028 as shown in (A), then constant CBUs for all years after 2028. | Original assumption does not address years after original projected insolvency in 2029. Proposed assumption uses acceptable extension methodology. |

Add one line for each assumption that has changed from the assumption used in the most recent certification of plan status completed prior to 1/1/2021.

Since this Template 7b is intended as an abbreviated version of more detailed information provided in Section D, Item 6(b) of the SFA filing instructions, it is not necessary to include full tables of rates at every age (e.g., for retirement, turnover, etc.). Instead, a high level description that focuses on what aspect of the assumption has changed is preferred.

#### Contribution and Withdrawal Liability Details

Provide details of the projected contributions and withdrawal liability payments used to calculate the requested SFA amount. This should include total contributions, contribution base units (including identification of the base unit used (i.e., hourly, weekly)), average contribution rate(s), reciprocity contributions (if applicable), additional contributions from the rehabilitation plan (if applicable), and any other identifiable contribution streams. For withdrawal liability, separately show amounts for currently withdrawn employers and for future assumed withdrawals. Also provide the projected number of active participants at the beginning of each plan year.

The first row in the projection period is for the period beginning on the SFA measurement date and ending on the last day of the plan year containing the SFA measurement date. For all other periods, provide the full plan year of information up to the plan year ending in 2051.
